Dear Sir:

I am directed by the President to acknowledge the receipt of your communication of the 20th., of June last, relative to the Collectorsship, has been received, and I beg to inform you that it has been referred to the Treasury Department for attention.

Very respectfully,
O. L. Pruden,
Assistant Secretary.

Dear Friend:

Enclosed is the Great Petition to which we are securing two millions of signatures, after which it will be carried around the world by a commission of women, who will hold meetings in all capitals, and (informally) present the petition to some representative of each government, who is friendly to the purpose of the petition, and who will base thereon a bill to be presented to the legislature of this country.

The petition is the protest of the world's wife and motherhood, its sister and daughterhood; the protest "in sorrow, not in anger." Good men, the world over, are signing as sympathizers and well wishers. When the petition has gone its rounds it will be placed in some historical museum.

May we not have your name as signer or endorser? If you write us a letter with our signature, both will grace the petition. If you give us your name only, please write it on a card with your address, and it will be added to our roll. Please let us hear from you at once.

Yours in the love of God and Home and every
Land.

Rev. Dr. Jackson,
Sitka, Alaska,

Dear Doctor,

Your favor of the 28th., of June reached me by the last mail, and I hasten to drop you my Presbyterian letter. I shall do all I can to secure such articles for the World's Fair as I can. Captain Healy is, I believe, making a private effort in that direction, and so I cannot secure as much help from him as I otherwise might.

I found every thing at the Mission in a better condition than I had expected, and yet I learn that a few things had been stolen, but I guess nothing of consequence. So I flatter myself on finding things as well as they are. It is needless to say that I have been so busy preparing for winter that I have hardly become acquainted yet, but I feel as if I shall enjoy this work and place very much indeed, and to make me more contented, my wife has fallen in love with it quite as much as myself, and we feel as if we should like to remain now if all moves on well.

Not knowing anything about school supplies being here, I requested Judge Sheakley to order a new supply, which he promised to do, and then when I arrived, and began house cleaning, we found the things, but it was too late to recall the order. I expect to begin promptly on time. The prospect is very good at present for a large attendance. I hope all will move smoothly.

I wish you would tell me as soon as convenient what the prospect is for having an assistant next year, to enable me to start the Home in earnest. I prefer a matron to take charge of the Home, and my wife can teach, if necessary. I think this arrangement would suit us better than for my wife to act as matron. I feel very anxious to start the Home, for it seems to me we can do it so cheaply, in comparison with either Fort Wrangel or Juneau. For we expect to keep a couple of cows, or more, and plenty of wood near by, and such fine land spoiling for want of cultivation, and fish without limit, and the building nearly ready and going to decay for lack of occupants, and the children asking for such a home. It makes my heart ache to see all these grand opportunities unimproved.

I am doing all I can to clear off land for next years crops, and repairing the brown house, etc., etc., in

hopes that next year we may begin in earnest, if the Lord will
spare my life and health. Please answer the following ques-
tions.

How much will the Board, or Government, allow for one year's keeping and schooling of each child? Do you think the Board will commission a matron for this place next year? How much salary will the Board pay? Will the Board pay the traveling of such a matron to this place? Any other items you can give will be of interest to me.

If it is possible for you to call at the Mission at any time, we shall be very glad to receive you, and receive any suggestions. Please let me hear from you as often as convenient.

Yours fraternally,
W. W. Warne.

Dear Sirs:

Your publication entitled the "North Star," has just reached us. It is certainly a very bright publication for one that is being published in such an out of the way place. We should be pleased to receive and publish the plate of school children in our journal. Can you send it to us? We should stand ready to reciprocate at any time.

Hoping that we may hear from you, we remain

Yours very truly,

Due to \$100:

Your welcome letter of June 8, was received
last night from a passing vessel. As I hope in a few days to

be able to forward letters by a schooner from Cape Prince of Wales, I avail myself of the opportunity to report progress.

We have been nearly a month at the edge of the great polar ice pack, trying to reach Point Barrow, but in vain. For over a week great flocks of ducks have been flying southward, and fresh ice was forming in the sea. Alarmed by these signs of coming winter, Captain Healy very reluctantly concluded to turn southward, which he did on Monday last. We reached the latitude of Point Belcher, north of Icy Cape, and within about seventy miles of Point Barrow. While we were in the ice at Point Belcher, Mr. Stevenson, the teacher at Point Barrow, came down the coast to meet us. He had a successful school during the year, with an enrollment of 30 pupils. He is attached to his school, and after a few days at the ship, went back to his lonely northern home.

As we passed northward I visited the school-house and teacher at Point Hope. Dr. Driggs reports an enrollment of 68 pupils, and claims that every child in the settlement, with the exception of three girls, (one of whom was married,) was in school.

I wrote you early in July from Port Clarence, concerning the large attendance of 204 at Cape Prince of Wales, with a daily average of 138 for seven months, and 113 1/3 for the nine months of the school year. At times pupils were turned away for want of room. A few days after writing you I visited the school, and found it in good condition, with the single exception that the school room is entirely too small. Mr. Thornton, one of the teachers, expects to return to the States this fall for a wife, leaving Mr. Lopp alone until his return next summer. I have engaged a native man and his wife, who is a good interpreter and cook, to remain with Mr. Lopp this winter, and have them with me on the "Bear", enroute to the Cape.

The school house and residence is now in process of erection at St. Lawrence Island, and in a week or two Captain Healy will very kindly give me an opportunity of inspecting it. I greatly regret to say that I have failed to secure Mr. Vincent for this season, and that consequently the house will be vacant this winter.

Last winter Mr. Vincent called upon Captain Healy in San Francisco, and was anxious to be employed in the reindeer scheme, but at that time it was uncertain what action Congress would take, and there was no guarantee of funds from private sources. Being unable to make him at that time any definite offer, he accepted the position of second mate on a

Winter, and entered into the usual agreement which binds him to remain with the vessel until the expiration of her cruise next November.

Understanding that he wished to engage with us I had hoped that possibly he could in some way secure a release from his present engagement, but he was unable to do so. I met him at Port Clarence, and have had one or two long interviews with him since, and he professes to be willing to engage with us next winter. It seems to me very important that we should secure his services.

Failing to secure Mr. Vincent, and there being no other suitable man within reach, I was compelled to modify my plans. With Mr. Vincent in charge, I had hoped to have secured two or three native young men from Siberia as herders. But without a competent white man to take the general oversight of matters, I have not deemed it wise to place a few natives alone in a strange country, and among a strange people. It was then proposed, and I considered it favorably for a season, that we turn the reindeer loose on St. Lawrence Island, believing that they would be unmolested by the natives, particularly if Captain Healy should give them orders on the subject.

But with reference to this Mr. Vincent said it would not be safe, unless some competent person should first explore the island, and learn if there were any suitable places for winter feeding. Afterwards, on the coast of Siberia, wherever the inquiry was made, we were told that the reindeer would not live on the island. Upon visiting it, the natives pointed out the abundance of reindeer feed, and claimed that they would do well.

This created so much doubt, that it is thought best not to risk any deer on St. Lawrence Island this season. If they were to be placed there, and then should die, the deer men of Siberia would hear of it, and perhaps refuse to sell us any more, as there is doubtless a good deal of superstition in their minds concerning their herds. The work is so new and untried, that we are compelled to feel our way, and the people with whom we have to deal so superstitious that they have to be handled very carefully.

There is a belief entertained by some, like Mr. Newman, the writer on Siberia, who positively asserts that the Tchutchoes have a superstition about parting with their reindeer, and that they can not be bought alive for any sum of money. We have disproved that by actually buying them. And yet it is possible that there are sections where they will not sell. This is to be found out.

2nd., This people have never before been asked to sell. It is a new thing to them and they do not know what to make of it. They are suspicious of our designs. It is very different from going to Texas and buying a herd of cattle, such a sale could be consummated in a few minutes or hours, but here it takes both time and patience.

3rd., They cannot understand what we want of the reindeer; They have no knowledge of such a motive as doing good to others without pay.

4th., As a rule the men with the largest herds, who can best afford to sell, are inland and difficult to reach.

5th., We have not yet found a good interpreter.

6th., The introduction of the reindeer on the American side may to some extent injuriously affect their trade in skins.

7th., If a man should sell us deer, and the following winter an epidemic break out in his herd, or some calamity befall his family, the Idians would make him believe that his bad luck was all due to the sale of the deer.

Upon the 8th, of July Captain Healy started for the coast of Siberia to see what could be done with regard to the reindeer. After making inquiries at East Cape, he continued his voyage some 140 miles down the coast to Cape Tchaplina, where he hoped to be able to secure a small herd. A long conference was had with Quarri, the principal native of the village, who has a small herd of perhaps 100 head. He was very unwilling to sell any, claiming that he was keeping them for a time of need, that every few years there came an exceptional season when the fish failed them, and they caught no walrus or seal when they would need their reindeer to keep the people from starving. Finally as a personal favor to Captain Healy, he agreed to give him two or three. One or two others were found who would part with two or three each, so that seven are promised us at that place. But at the time of our visit the deer were back from Senikino Straits, and the straits still frozen up. We expect to return for them in September.

At Cape Tchaplina we found that the large herds are inland, and that we might do better by visiting Holy Cross Bay, at the head of Anadyr Gulf. Securing two poor interpreters, (the best we could find,) Captain Healy steamed away for Holy Cross Bay, 300 miles distant. Reaching there through large fields of broken ice, we found that the herds had not yet been driven down to the sea. After spending over a week in that neighborhood, unable to land at their principal village on account of the ice, we secured the promise of 35 head for next season, and purchased from two small deer owners to be delivered

ed now. We were told that when we saw the large herds we could get many deer. It now being near the 1st. of August, Captain Healy felt compelled to start for Point Barrow.

On the 27th, of August we visited Chouan, where 16 deer were purchased. Four have been taken on board the ship, and the balance left to be delivered next year. In the beginning of the season, as it was expected that all the transportation would be for a few hours only, no provision was made for feeding the deer, and as they are understood to be dainty feeders, we would have hardly known what to procure, if we had thought of it.

If we had a suitable place nearby to take the deer, I think at least 100 could be procured in this neighborhood. The deer secured at this place, and those promised at Sennavine Straits, will probably be taken to Unalaska, if we succeed in finding food that they will eat on ship board.

Captain Healy suggests, and I agree with him, that it would be well if the Revenue Cutter could winter up here, and the officers go out among the men who own the large herds. This would enable us to have plenty of time for securing the confidence and good will of the people, and making purchases.

While I have not secured the 200, I have accomplished all that is necessary for this year. Captain Healy has taken a very deep interest in the work, has given it his personal attention, and done every thing in his power to further it. It is very important that he should be kept in command of this station, at least for the next few years, until this movement is well started. It is also very desirable that he should be invited to visit Washington next winter and confer personally with yourself, the Secretaries, and other friends of the enterprise.

Captain Healy is well known for thousands of miles on both sides of the Coast, and the natives have confidence in him. With a stranger in command, I am confident that but little would have been accomplished this season. The moral effect of the Government ship being engaged in this work is very great among the natives, and secures results that otherwise could not be obtained so easily.

So many contrary stories have been told us by the natives of what could, and could not, be done, that we have been in perplexity all the time. So that efforts this year have been largely to determine that we can get them. Now that we have found that we can, the next move is to find a suitable place, and men, to take care of the herd.

and then down. Until a compromise was reached between the can-
nery men and natives, as they had had some differences all sum-
mer, and every native, man, woman and child, so that
most of the time thus far, I have not had a scholar all day,
and then a day with one, two or three. So you see I have not
accomplished much so far, except to burn wood, ring the bell,
and put in time. But about next week we expect a few families
to return, and then no doubt, school will begin in earnest, at
least I hope so. But I am coming to the positive opinion that
a Government school without a Mission Home as a basis, is a fa-
ilure. And I think before the school year is over Judge Shook-
ley will think the same.

There seems no force of any kind to bring them unless they feel like it themselves, and in children that is a doubtful quantity.

I expect Judge Shoakley on the boat which carries this to you. I trust by all means to see you this fall, as I very much want to talk up Mission Home with you.

Until further notice please address me at Juneau, Alaska, c/o Rev. E. E. Willard. I wish something could be done to secure us reliable mail service.

Trusting that you have had a pleasant summer
north.

I remain yours truly,
W. W. Warner.

Dear Sir,

Dear Sir,

I expect to reach Portland by the middle of October. Before leaving Sitka, spoke confidentially to Judge Peckingsworth about applying for the appointment of United States Commissioner at Wrangol. He said he would be glad to assist me, etc. I spoke to no one else on the subject.

will do so. I would be glad to meet you if possible, before you go East. I might say, incidentally, that I see the Governor is somewhat strained in his friendship toward you.

I trust you are well and have had a successful trip.

Very sincerely yours,

Dear Brother Jackson,

Your check has gone on, and I enclose receipt in full for the charter. The settlement with the contractor awaits the return of the carpenter. Five hundred dollars is still due the contractor, and I have precisely that amount on hand.

My dear Dr. Jackson,

Your esteemed favors have come to hand, but I greatly regret that they are so late in coming that the program of our meeting is so far made up that I scarcely know where we can find a place to give you an adequate hearing. We have had much fault found with us in past years for "packing" our meeting so closely that there was no room for anything outside. Unfortunately, we are now almost loaded up to the muzzle, but if you are coming that way, we will make a place for a ten or fifteen minutes talk from you.

The ladies' meeting is full to the brim, and a drop more would make it slop over.

With great esteem and many thanks,

Very sincerely yours,

M. E. Strieby.

My dear Sir:

You doubtless know that we have no endowment, and therefore have to rely for our expenses in this educational work, upon what we can gain from the sale of our pamphlets, and the membership fees. These are \$5.00 for one year; \$50.00 for life membership. In return for this fee one receives the Extension Journal for a year, also the privilege of attending such lectures as may be given in his vicinity, and above all the consciousness of helping very materially, a work of the greatest importance.

Rev. Sheldon Jackson, D. D.
c/o Bureau of Education,
Washington, D. C.

Yours of the 13th., instant has been received and carefully read. The difficulty over the duplication of Mr. Stevenson's orders was very largely due to the fact that his wife has been pressing me for funds, and seemed to be in great need, and the payment of so large an amount in the early part of the year, of course, used up his salary. It is said that all is well that turns out well, and I trust this is the case with the duplicate order for Mr. Stevenson. I have read

with care what you have said about landing the lumber at Cape Prince of Wales, instead of Point Barrow. Dr. Pond has not yet sent me a final statement, but I will endeavor to get at the vouchers and send you duplicates.

I herewith hand you a letter addressed to the Passenger Agent of the Pennsylvania Railroad in Washington. I trust he will grant you the half fare desired. If he cannot sell you a ticket to Cleveland, I think he will sell you a ticket to Philadelphia, and the Passenger Agent in Philadelphia, will I think, ticket you to Cleveland. In this connection I think it would be well to apply to Mr. H. J. Fillmore for an annual over their lines. He will see that my letter to Mr. Wood gives you a good introduction.

The best I can do for you between Cleveland and Chicago is a half rate over the Nickel Plate. I understand they have one good train each way. I also have the pleasure of enclosing request on Mr. Terrill for half rate for you from Chicago to Minnesota, and return. And the enclosed, addressed to Mr. Luce at Chicago, will give you a rate to Philadelphia or Washington equivalent to a rate of \$11.55 from Chicago to New York. I may say to you confidentially that the New York office sells me first class Chicago tickets for \$10, good even on the Columbian & p. M. express.

I shall be glad to see you and talk over Point Barrow matters. I regret that the lumber could not be gotten in this year, as it necessitates a great deal of anxiety and trouble next year.

Yours truly,

O. D. Eaton.

Dr. Sheldon Jackson,
Washington, D. C.

Dear Sir and Friend,

I left Sitka the 9th., of September, and having visited New Westminster and Victoria, British Columbia, also Anacortes; Fairhaven; Port Townsend; Seattle; Tacoma, and Centralia, Washington, I arrived here yesterday.

I see by the San Francisco papers that you arrived there safely, and intended to go direct to Washington, D. C. Well, how anxiously your family would watch for your return.

from a long, eventful voyage! I hope that you have been well, and that your desires have been realized. I suppose that you have directed your mail to be forwarded promptly from Sitka. Most of my mail would go forward soon, and I shall wait here in all the "City of Topeka" returned. About the first of November I expect to spend a couple of weeks (I think) in California.

I have laid no plans for the future. If you still have favorably of my applying for the office of United States Commissioner for Oregon, I shall do so. Judge Peckham is the only one to whom I have spoken on the subject. He said he would write the President in my behalf any time I wished. I shall wait till I hear from you before I make any move in the matter.

I met the young man who was to take charge of the school there. I believe him to be a man of excellent traits, and with a ambition to make the school a success. I also like the appearance of the man of Chilost. Of the new comers at Junction and Douglas, I believe the lady from Washington (or Spokane,) and the young lady from Kansas will prove successful. I have doubts as to the California lady. She is bright on the surface, but not part of a student, a society lady of the trifling type. These are my first impressions. I hope the latter are wrong. Time will tell.

Considering all things, I now believe it is fortunate that Mr. Edwards has been sent to the Kaka country. I know of no one so admirably adapted to begin the work there. Mrs. Devore has resigned her position at the Training School, and goes to Warrenton to replace Mrs. Thomas, who has given out. Mrs. Devore is a real success in the school-room.

My successor went forward on the last Topeka, which left Port Townsend the 30th, ultimo.

With kind regards to yourself and family, I remain

Very truly yours,
William A. Kelly.

Respected Sir:

I forgot to state in yesterday's letter that I am writing my annual Report, and will have it ready by the ti-

as I hear from you. It will be quite lengthy, requiring about fifty pages of legal size, large hand, and will show each department of the school in the most favorable light.

Mr. Frank Meyer, of the "Mining Record", long since asked for a report of the Training School for publication. I think I will have him publish my annual, as I think it will tend to establish the school, and place it favorably before the people of Alaska. I have written him to know what he will charge to print fifteen hundred (1500) copies in pamphlet form.

Very respectfully,

William A. Kelly.

Bureau of Education, Washington, D. C.

My Dear Doctor,

Now that I am a private citizen, this remembrance of my humble efforts for Alaskan education, coming from the man who has done more for that neglected people than any one who now lives, or has lived, is very grateful to me.

My summer's trip to Puget Sound, to Portland and Vancouver's Island, has taught me to appreciate highly the brown polar bear skin. We will give it a conspicuous place in our house. Mrs. McComas and myself will always preserve it carefully as a reminder of Dr. Jackson, whose books and papers she read with avidity, and also as a reminder of your appreciation of some little service to Alaska.

I can go to Congress if I want to next time. Whether I do or not I will try to have in my seat a friend of yours and of Alaska.

If you will be good enough to send the skin by United States Express to me at Hagerstown, Maryland, and mark it Frank No., 115, it will come to me free, and soon promptly.

Again let me thank you, and wish you God speed in the noble work in which you have done so much for the scattered people of a coming empire.

Truly yours,

L. E. McComas.

Dr. Sheldon Jackson,
My dear friend,

Your note of yesterday is duly to hand. You cannot imagine how pleased I am to learn that you are again in Washington, and especially am I glad that nothing has failed you from reaching your home. I have written to you over a month ago, giving you some accounts of my summer experience, and of my progress during the last six months. The letter was addressed to you at Sitka, Alaska. If you have not yet found it it may be some time before it reaches you.

Everything seems well with me at the present time. I am indeed fighting hard, in order to keep it with my Franklin's companions. My health is strong, and I am taking the greatest possible care to have it preserved.

I desire to ask you if you can give me permission to go and see you in Washington at the expiration of this term. I mean when the winter vacation comes. Congress will be in session, and I shall have no other knowledge of the nation and its government, than to proceed to the capital. I have stored up a little sum to answer the purpose.

I remain dear Doctor,

Your sincere friend,
Edward Marsden.

My dear Dr. Jackson,

Your welcome note is at hand. Of course we want to see you in Southport. The people want to know what you have to tell them and show them. I think that you will agree with me that they ought to be told, when they have given so nobly. Would a date well along in November suit you? The Monroe's are at home this week, and are to be absent the next two or three Sundays thereafter. Would the first Sunday in December, the 8th, of December, suit you?

Our people have been pressed to pay for so much on this autumn, that you could expect nothing in the way of an offering this time. But of that, I think you will see the justness at once. Let us hear from you at your earliest convenience.

Faithfully yours,  
W. H. Holmes.

My dear Brother,

Yours was received this morning. Yes, will be at home on Wednesday the 21, and very, very glad to see you. Would it be possible for you to address the Annual Meeting of our Presbyterial Society on November 5th? I just heard we are not to have the speaker we had expected. Will you not be on your way home from Minnesota at that time? Please let us know as soon as possible if you can come.

Your loving sister,  
Louisa J. Waples.

Dear Sir:

I wish to get at such Government publications on Alaska as will help me in the preparation of an illustrated lecture in behalf of Home Missions in that part of our land. Will you be so good as to put me on the track of such? Senator Hale, of Maine would no doubt obtain them for me, if they are not at your disposal.

I am seeking to awaken interest in that part of our country, and will esteem it a kindness if you will give me such help as may be in your power. I have read with great interest the article of yours in "The Gospel of All Lands."

God love you and yours,

F. F. Haverwood,
Assistant District Secretary.

DEAR DR. JACKSON:

Your article on the "Red Fisheries," is at hand, and I am very much pleased with it. We shall use it in our December number, and on our way say send you a check for \$20 for the article.

I am, Sir, as ever,

You are so full of information concerning the  
Alaska country, that it seems to me you could give us one or  
two good articles on live questions in Alaska. For instance,  
"The Residents of Alaska," "What is to be the Future of A-

you could write on for us. If so, I trust you will give way our  
magazines at an early date.

Dear Sir:

In reply to your letter Miss William White  
is to say that she thinks that while you relative to the ex-  
cesses of the government in the Territory. She wishes to call  
attention in her address, in our coming convention, to some ex-  
cesses of government in the Territory.

There will be an article in the "White Signal" good upon the subject, which she hopes you will see.

They truly were.

Dear Friend:  
 Yours dated June 24th. received. It was a  
 long time getting here. As to the Exhibit at World's Fair in

1898, I will be my best, but you know the Indians have not got any thing. I have spoken to as many as I can in town, and will call a meeting before Christmas, when they will be all here, and get all I can of curies.

Clara will do all you ask. McGeald will lend what he has. Of course if the Indians lend to us, they will expect the return, or pay for their things. I got ten Tycho's together, and some other things. I am very poor. I was to keep a number and description, and the value. One copy for you and one to be kept here, so as to insure them at the return.

I could pick up quite a collection, if I was to go to Massett, but to tell you the truth, I have not got a dollar. The Board has forgotten me. All I have in the series line is three first-class, slate tokens. But I do not despair I must work up Mr. Indian to furnish the same. All you ask I will try to get.

I hope you had a prosperous summer work. If the climates moderates, I expect to hear you have gone to the North Pole.

Remember me kindly to Mrs. Jackson. Hoping this will find you enjoying God's Blessings, I am

Very truly yours,

W. Donald McLeod.

Dr. Jackson,

Dear Sir:

Another letter from Prof. Tuck, but nothing but a dilution upon Miss Richardson. I think I told you that she was sent at his numerous appeals and recommendations. Now he has made pitious appeals for more care in our selections of persons to send out there. Really, I am afraid that he is "his story" especially after writing as he has to numerous of our best workers, the most discouraging and criticizing letters, instead of penning something that I could make capital of for our work.

During the time he has been here we have sent him over \$2000 worth of supplies, and not one single line I received from him as a report of finances. Not one word of account, and only until next to the last letter told me one word

of the girls. Then he described six of them. Is six girls all we have to show for \$2000, and over we have expended? I greatly need what you can tell me of the work there. You can see the dearth of matter for my evening report. I have vainly plead and demanded from him a report of what he had to show for this large expenditure. Surely you can give me something of what has been done, and is being done.

besides all this, for the first time, he casually refers to receipts for tuition, to which he has never referred before.

Now, a word about Miss Richardson. He, Brother Tuck, has filled sheets and sheets about her, and then many more to beg us not to speak of what he had said about her character, last, etc., etc. Now he could not have induced me to speak one word to any one as to this, and I beg of you not to refer to it in the least to any one. Officers or others. Failure of action is ridiculous. In the first place I very much fear that her condition might not have been so bad had he been more judicious in his treatment of her. However that may be, the less said about it the better. I am not sorry that she went, as the one letter, about work, she wrote in regard to work and condition of things there, has done more to awaken an interest and make ladies feel the importance of having that Home immediately, than all Brother Tuck ever wrote.

I had it copied, and sent it from Dan to Beer Sheba, also printed in Women's Home Missionary. Only yesterday a lady wrote for a girl in Miss Richardson's school. Others also, and some to aid in her support. There is a marked contrast between her references to him, and his to her.

Where can I see you if I am there before meeting? I am booked for Mr. Woodward, 517 8th., Street, I am told. Drop a line there, if I can see you before meeting. I prefer seeing you before I go to the Bureau office.

Dear Doctor,

We have received your several letters. The

Secretaries are all away, attending the Synods, with the exception of Fr. Kendall.

We have already taken steps with regard to the removal of Judge Snydee, and we have learned from two different sources that the probabilities are that he will shortly be removed.

We are glad to hear from you again, and rejoice that you have returned to the land of the living.

Yours truly,

O. H. Day.

I received your letter of October 15, yesterday, on my return from the south. I beg to acknowledge also your letter of July 15. I thank you most heartily for the kindly interest you are taking in our investigations. I have funds to meet all reasonable expenses incidental to our work, and shall send remittances as soon as I hear from you, or any of the gentlemen taking the measurements. I have not heard from Dr. Call, but am glad to learn from you that he has been able to take a number of measurements.

Very truly yours,

My dear Mr. Jackson,

My honored and admirable mother died March 7, of this year, after a few days' distress, of a tearing out of the heart. Her strong mind was absolutely clear to the end. And when I had no idea the end was so near, she said to me, with perfect composure, "I hope we shall spend a long eternity together, when the storms and tempests of this life are past,"

She died full of faith and good works, in her 85th year. And her prayers, whispered into the ear of the Almighty, have been just as earnest for the poor Indian as for her own child, for I have overheard them.

she was one of the first to put money into the "legal status" of the Indian. That branch excited her special interest. She gave some \$20, years ago to establish the Plover claim, and she gave very much more towards fixing the "floating boundaries" of the Mission Indians.

Your most beautiful Alaskan basket was always one of the chief ornaments of our room, and always held her soul. Mother had an especially warm spot in her heart for Alaska. It was she who wished Alaska for an object in the fair we instigated in Park Street Church, some years ago. And in consequence of disappointing you then, we bought the matter up here in connection with the Jamaica Plain Indian Association, and so secured for you the two cottages.

Anything you can write us of their usefulness, I shall be glad to read in the Indian Executive Committee, to stimulate the general work.

Will you kindly send the illustrated pamphlet (governmental) on Alaska, to my mother's cousin, Mr. Joseph Grafton, Suffolk Club, South Haven, Long Island. And if you will make a passage or two, to reach the attention, I should be glad. This gentleman seemed to think I was telling Washington tales when I quoted you as saying Alaska was almost as big as all the United States, east of the Mississippi.

Remember me kindly to Mrs. Jackson, and believe me,

Sincerely yours,

M. Jarvis.

Dear Dr. Jackson,

The beautiful white box which arrived while I was in the city on Tuesday, and I want to thank you most heartily for such a beautiful present. I took these at once to Gunther's, to be made up into a beautiful robe for my lounge, and shall follow your kind instructions as to the lining, etc. Mr. Shepard is also much pleased with the walrus tusks, and sends his kindest remembrances, and grateful appreciation of your thought of him.

Your most interesting letter from Siberia, was read by us all with the greatest pleasure, and it was published

on Tuesday in the Mail and Express, which I hope you saw. I will not forget your kind promise for the illustrated lecture, and shall try to arrange for it as soon as we go to the city. What an interesting trip you must have had and it is hard to realize that you are already safely back again.

With renewed thanks for your beautiful gift,

Very cordially yours,

M. L. V. Shepard.

Dear Sir:

In reply to yours of the 15th<sup>th</sup>, we should be very pleased to have you give an address to our students at any time, Saturday, 29<sup>th</sup> Nov. is perhaps the best time, as we hold a regular meeting then. You would probably secure a larger audience though, at the Y. M. C. A., but perhaps the college students movement would aid us in arranging. Mr. Thatcher is Secretary of this undertaking I believe, address Y. M. C.

Dear Sir:

In reply to your recent letter we would say, that the work undertaken by the Presbyterian Society in Philadelphia, of which Mrs. Stryker is the President, is for Mr. Gould's building at Jackson. Mrs. Stryker was at the office the day the letter was received from Mr. Gould, asking for an extra appropriation of \$300, and told us, if the amount was granted, her society could raise \$300 of it. We would be very glad to have you meet the ladies, and tell them about the work at that point, and deepen their interest.

Cordially yours,

Rev. Sheldon Jackson,  
Sitka, Alaska,

Dear Sir:

I have lately been much interested in reading Mrs. S. M. Collie Book, "A Women's Trip to Alaska," in which she refers very pleasantly to your mission, and the work in which you are engaged.

My object in writing you is this. I am President of the Missionary Society in connection with the Sunday School of St. James, Methodist Episcopal Church of this place. We have a school membership of nearly 400, and an attendance of, usually, something over 300. We meet as a society the first Sabbath of each month, and take up a collection then, for mission work. I find some difficulty in keeping up the interest of the scholars in the work, and want to give them something new, and some report from different places each month. Now, may I trespass on your time, and ask so great a favor from a stranger, as to ask if you will kindly write me some little account of your missions, its surroundings, the workers and scholars. Their life (the scholars) and anything else which you think will be of interest to our school, always remembering that we, as a body, know absolutely, almost, nothing of the life of the people among whom you dwell. If you will kindly do this I will esteem it a great favor to myself, and assure you that you will be helping on the cause which we both hold dear.

Very truly yours,  
E. Caldwell.

Dear Mr. Jackson,

I am glad of your letter. In my annual address I have to treat so great a variety of subjects that I can not dwell on Alaska at length, but shall in the "Union Signal" and address try to cover the ground fairly. We propose sending a missionary there.

I rejoice in what Dr. Withrow says. People get justice either first or last. Love to your wife and daughters. I wish we might have you all at our convention.

Ever sincerely,  
Frances E. Willard.

Several years ago we started the Board of Home Missions for a Seward Peninsula. First we helped the Government established their schools. But now we feel that as a home Government school is all around us--and surely when the Government won't have to support these children of Alaska, they certainly might and would affect to erect comfortable school houses in the villages, and provide competent teachers--we must have the kind of living school as the church, so we feel it takes away all the necessity of the church. John Macomber put up a stone box building at our home village last spring. Mr. Edwards, who is there this winter, took Mrs. Wilson. But he could stand longer. We are glad to hear of it.

I expect to have one more sermon, and will be able to lead in the work, and as yet I will do the work, not taking the initiative in taking the work. I expect also that this summer I will put up a lecture and have substantial building work done. They have built, and if the Government will allow me to build a school house on the 100 ft. building, independent of our church, let them build on the specifications, and when they will allow us for the same, and we will put it up after we finish the church. If they prefer they can come in and have it as they wish. But I hope they will give us a respectable and considerable house. It should have a dining parlor, and a good large a separate room for the minister's room.

We could run a school here about Jan. 1900,  
and probably if we had a school here every fall and winter, our  
people would come here - little children, and remain a little  
later in the spring. Our first year's income, including interest  
from Mrs. Jernon, Chilton, Edgerton, and Sitar, totaled \$70.  
17 students. Making 100 of our own milk, and about half of  
of our side up at home. I commenced school last year the 1st

of October, closed on the 3rd. of April. Commenced this year on the 12. of October, and have 45 scholars on roll. Mr. Hour sin, who took the census last year, told us that last summer the census of 1880 was five hundred and forty or fifty. I asked him how he took it, as I thought that was not enough. He said "I went to Kachik village, found one family there, got what information I could from them. Then to Point Adolphus, found two or three families there, and so on." "It is impossible to get it correct." I have not seen a census report, but hear from others that it is not correct at all of Alaska.

Our census of 1880 made the Kachik tribe 908. I have kept a record of Sealine ever since we have been here, and have only 118 in the seven years.

Mr. Mills of Sitka, brought us a store on the 12th. of October. Left his nephew, Mr. L. D. Derry, in charge. Johnson Sinclair, just out of school last spring, is our interpreter for this winter. So far we are pleased with him, and with a little more experience he will fill the bill complete.

As we have had the Government appliances for four years, and you have been trying to send us a teacher, I think it would look better, and I know it would be better, for the Government to have a school house and dwelling for their teacher, than to make such a thing as to have a Government teacher as residing in the Presbyterian Church. Now will you not consult with the Board of Home Missions, our Government Committee and then let me know before sailing, so I will know just what to do before our people get away in the spring?

Also we would like a mail route from Juneau to us, if the Government would allow the carrier to bring it to us on the Sound where we might be loading in the summer, or if we should be out of Alaska for a month or two, they would not discontinue it. Alaska, you know, is a peculiar country, and some of our missionaries are peculiarly situated. I think Mr. Sawmaker is a good, Christian man, and would give us a little liberty for the sake of the cause, if it was properly made known to him. I hope you won't feel us working against your plans from any selfish motive, for this is the conscientious view we take of the matter here.

Dr. Jackson,

Yours of last date came duly. Was glad to learn you were safely at home once more. Please tell me all about Unalaska affairs, including Miss Richardson. She was sent by Prof. Tuck's special and repeated request, beginning when he was at my house to meet you, although he had one, an agent at school teaching, etc., etc., she left called to Alaska.

Please let me know if we can depend upon you for a session of annual meeting. You have disappointed the ladies so often by not being at meetings, advertised widely for you, that unless I can have full assurance (P. V.) you will be sure to be present, I fear we cannot create much enthusiasm. Also let me know if any time is engaged from 23rd., to about ten days, at which you cannot meet such arrangements as ladies can make, as can. We take such time as may be thought most likely to be well attended. Please let us know as soon as possible.

Now here let me say to you only, that the failure both this and last year, to build our building was not in the least on my part, notwithstanding both you and Mr. Tuck supposed it to be, and in advance of knowledge to the contrary reasonably. In both cases the money, our money for Alaska, had been loaned to other work, and when called for could not be forthcoming until too late. I told you of my going to Cincinnati in 1899 to "raise seed," and of my being re-ported request to know if they would send the money re-lief. I say dear Brother, when you thought had better be supplanted, if "she could not create enthusiasm, had better be re-lief."

This year the same error was practiced, notwithstanding the Treasurer promised me re-lief, she would re-do this again, even if she had no reason for it. It was done, and she is still in office. I do not wish you to disclose this, as the honor of the Board must be maintained, even if any individual suffers for their delinquency, the ear-lest word I can use. Or if it must, I prefer to disclose it myself. Again I say, tell me all there is to be told of Unalaska, dark as well as light, and soon as you can, as a lady wants more information than I can give her until I hear from you. She is in the West, and needs it in dark.

Sincerely,

Mrs. L. E. Daggett.

Your letter of the 22d. instant came yesterday. We shall be very glad indeed to have you here here, and I am glad you think of coming early in the year. However, next Tuesday will not be a very good time. By previous arrangement, Mr. Leaphorn, a missionary from Canada, will be here at that time and it will not be easy to give you the opportunity you don't to have. Could you not come at another time, either later in the same week, or at any time in the few weeks following?

The Faculty will be glad to have you speak at the hour of afternoon programs, from five to six, and in the evening you would have an opportunity to see individual students. I am sorry there is time omitted just now, but set any future time convenient to you.

Stettin, Leipzig, B. G.

My name is:

Replying to your letter of 29, instant, received this morning, I sent out to publishers three or four copies of each of the Chicago papers of Tuesday. I find the article mentioned in the Inter Ocean, which I take, but had not noticed this. Also the Union is mentioned in the Times. I could not get a Tribune, and only one copy of the Inter Ocean, which I send you with the Times. I wish I could send you more.

As you will notice I have been elected President of the Social Union. Personally, I would like very much to have you address the Union at one of its meetings while you are in Chicago. The Executive Committee have this matter in charge, and I have only an advisory voice. Will you please inform me when you expect to be in the city.

Mr. Williams spoke very freely and freely about  
your work, and gave you excellent praise. Also praised Mr.

Tracy, who has many years has been my personal friend.  
Yours very truly,  
Thomas Kane.

Dr. J. C. Johnson,  
Rice, P. O. Box 10.

I understand your letter, and have been considering your suggestions. I am not yet quite prepared to say what I think, but will write you again soon. My object in writing you this time is of a different nature, and if it is pressing for me to write it, I trust you will pardon it.

The girls tell me that you promised to invite them to spend a part of their vacation in Washington, sometime before they went home. Now I do not feel sure whether that was really your purpose or not, but as I wish to plan where they will spend the approaching Christmas holidays, I thought I would merely write you about it. Eleanor and Clara will probably be here this year vacation days. The others will doubtless be gone longer. To have a vacation at Christmas, and one at Easter, but I suppose the Christmas one is the only one which would accommodate all four of the girls. I do not know whether, if you wished them to come at all, you would prefer them all to possess or not.

Will you kindly write me about it, and freely  
express your wishes, I did not wish to intrude, but simply to  
know how to plan. Every one is very busy.

My Beloved Father,  
Dear Mother,

I stand for Division contact. Will do my best to get a church for you to speak on Alvin, Sunday the 11th, November 10th. It would be well for you to come to Convention if possible.

Very sincerely  
Yours,  
F. M. Wilson.

I beg to present to you the following queries:

1. In your opinion, should the exhibit of Education at the Columbian Exposition be (a) one of National form, chosen so far as possible, to present only the best examples which the United States can offer, irrespective of state lines or systems; or, (b) should the autonomy of the state be recognized, each state being invited to present in the most concise form, its own Educational work?

2. If reasonable space can be given in one of the great buildings of the Exposition, will the Territory of Alaska contribute its quota in one or other of these ways?

3. If your territory were to make a collective exhibit, as suggested in (b) above, how much space would it absolutely require for the purpose?

4. Would such an exhibit be under your immediate supervision?

2. That in your judgment as to the public soundness that the Department of Liberal Arts, in which Education has by far the largest section, should have a building for itself, in area or importance not less than the buildings provided for Agriculture, Mines, Transportation, Electricity, etc.,?

As these questions relate to subjects not under consideration, your early reply is earnestly solicited. Even if you cannot make an exact estimate of the space which you deem necessary, an approximate estimate may assist in judging of the aggregate requirement. Any suggestion which you have to make will be cordially and thankfully received.

I have the honor to be,

YOUR Obedience is required.

There was held this P. M. a meeting of our Foreign Missionary Board, or rather of its Executive Committee, and I was deputed to write to you requesting you very respectfully to meet the Committee at such time and place as convenient to you, with the view of enlightening their minds as to the prospect of establishing a religious influence in St. Lawrence Island. What your expressions were of the place and people, and how the reindeer scheme was working.

Now the reindeer scheme was working.  
The General Council, in May last, made quite a  
change in the "make up" of our Board. Dr. Howard-Smith, and  
Rev. Mr. Tracy are not in it now. This week I saw Rev. Mr.  
the new men, Mr. Norton and Mr. Allen, who were formerly inclined  
to the work.

I received from the United States Government  
this morning, the check for \$1000, and I at once forwarded you  
my check for \$1150, covering account due you.  
Yours sincerely,

Yours sincerely,

(1944) H. S. Hoffman.

PLATE 102

granted 7, 1891.

100-3132

My dear Sir:  
I arrived here on the 30th. riding free Union  
and having left San Francisco on September 10th. and arrived

at Sand Point on October 18th. We were just thirty days between 'Prisco and Sand Point. I saw four of the reindeer you brought down at Unalakleet, and they were looking well. Three of the large ones had gotten out of the barn and were running at large on the island. They were seen every day or so, and seemed to be doing well.

I suppose you have heard that I was appointed Inspector of Public Buildings in Alaska. I asked for the appointment for only three months, as I wanted to get back to Washington by the time Congress convened. I was so long getting here, that I cannot possibly get through by the first of November. I want to thoroughly inspect all the buildings here so as to make a complete report of their exact condition, something I believe, which has not been done before, and I believe sufficient money can be had of the new Congress to put them in good condition. I have the wharf here also to report on. The building at Juneau to look after (the court-house and jail.) The public buildings at Ketchikan and Tongue, and also the new building at Mary Island. I have just asked that I be allowed two months longer to complete my work, or that my appointment be extended to February 1st.

I wrote directly to Supervising Architect Harkness, and have also asked Mr. Lind, M. C. from Minnesota to see him in reference to the matter. I also suggested that he see Secretary Crocker if necessary. May I trouble you to see them? I think it will merely be a matter of form only, but I want to be wired to Juneau on the return of the boat that takes my application down, if possible.

I saw Captain Healey, and got a good deal of information about your trip. I am sorry that your health was not fitted into this summer. I must tell you that I saw Mr. Healey a few days ago. He told me that Petroff told him, when here a few months ago, that the reason he was not appointed Special Agent in my place, was that Dr. Jackson had told Porter he was a confirmed drunkard and totally unfit for the place. It appears that Farmer Curtis and some one else heard his vacillating statement, and it was not long before it got raised around. It is of course, made Healey feel sure. I assured him that you could not possibly have made such a statement, but I remembered that you spoke well of him after the matter was finally settled, and especially of his qualifications; that he spoke the Chinook language and Chitoom; had a good boat, etc. Also, until some time after the matter was finally settled in my favor you did not know he was the man Petroff had selected, as the name sent to Porter was "H. J. Holly." I hope you will not be

I hope to see you by the first of February. I suppose you were glad to get back home, and trust that your summer trip was all you anticipated. I hope we be able to make a trip into the Arctic next summer speedily. If you should write, a letter sent to me at Stroom would reach me.

Very truly yours,  
 Oliver W. Brown.

Dear Dr. Jackson,

I am very anxious to find out who pays the money for Edward Warden's education at Manitoba, and what the poor boy has to live on. I suppose you have seen him since your return. How large is he? Does he read clothes, or help? I know Dr. Eaton has left the village, and I am wondering the owner for him now. I am sure you will tell me about him, for various reasons I am quite interested in him. He won't not to feel desolate and poor, even at best he must have a hard life.

With sincere respect,

1. The first step is to identify the key components of the system. This includes understanding the hardware, software, and data involved. For example, in a web application, this might involve identifying the server, database, and user interface.

My dear Doctor,

I am sorry you could not give us more information regarding the need of repairs at Nome. We shall have to write some one in Alaska for more particulars. We decided yesterday to lay the matter of a minister for Klawock before

the Board at its next meeting. In the meantime, will you tell us something about the place, the number of whom he would employ, whether there are any buildings, and what other, if any, expenses there would be beyond the \$200 which we would need to pay him as salary. Please send us these soon, as the Board meets on the 24th, instant.

If you wish to have the matter of a home like that of Mr. and Mrs. Willard at Haines, placed before the School Committee, please write it up on a separate sheet of paper and give us all the facts in regard to that, and we will consider that also at our next meeting.

I see by an envelope in your hand writing, containing Times Bulletin, that you are again in the United States, and I suppose a letter addressed to the Bureau of Migration will reach you. I have not heard from you since you had the grip, you intended going to Boston, and will you would see about the manuscript of story of Yock. I believe you were able to go. I have never heard what was done with the manuscript. Please let me know, and if it is not wanted by publishers I would like to have it.

I wish you had come through Juneau, I wished to see you about school matters, also concerning the survey of mission lands 2412 under the original act. Is it necessary to have an official survey made, as in case of patent?

All are well, and join in sending kind regards to you all.

Sitka, Alaska.

November 8, 1891.

Dear Friend, Dr Jackson,

I cannot express to you my surprise and delight to receive by the last "Elise" from the Westward, a large

box full of curios, with ten splendid dolls. Thank you so very much, and next time you come to Chicago I hope we shall be settled there, and welcome you under our own roof. You will see how I treasure my far westward curios. We were all sorry not to see you here on the "Elsie," as we all expected you.

Alaska is dreadfully dull. The new Superintendent at the Mission only remained two weeks. I think he found many things that needed his attention in the East, as after Mr. Kelly went away a great many uprisings had happened. I think a few changes up there would help the religious element. Dr. Twing wants to run almost every thing. He tried to get poor Tillie Pool to resign, so he could put that big sister-in-law of his in, but Dr. Austin initiated Mr. Docking before it was too late, and Tillie was reinstated.

We all like Mrs. Docking very much. Did not have time to get acquainted with Mr. D. I hear he is going to try to have the houses heated by steam. I wish he would get a strong woman to work in the teachers' school. Or better, a deaf and dumb automaton.

You ask me if you deserve a copy of the poems. Thank you for letting me know you cared. I thought you had read them all in the "Alaskan", and they would not be of interest to you. Mr. Kennally goes away on the next boat. We have heard the judge has been asked to resign, but he says he will never do so, as he intends to sue the Government for four years salary. You may see Mr. Hayden in Washington this winter. You will help him, won't you? Please see to it that we have a Christian Governor and Judge, next Administration. Will you

Oh, Mrs. Catherine Busell, of Evanston, Illinois, wants to know why we don't have a real live W. C. T. U. up here, and she mentions your name. I wish you would rather for I am sure I can't. Until the whole civil Government is changed. I wish a good reading room could be established up here, and if ever I get a loaded ship into my harbor, I'll build a little room on that rock next the church. Can I have it? The Marine Barracks is finished, and is a palatial edifice. Poor Mr. Travis is a raving lunatic on the Japanese estate of his.

The new Naval Captain Maynard, is a quiet, pleasant (temperance,) gentleman. Mr. Gilmore, who took Brown's place, is a temperance man, also Mr. Ransom, the Engineer. So you see we are filling up with respectability, getting ready for Cleveland's re-election. We are about to leave, probably the first boat in December. I shall never regret my stay in Alaska. I like it better the longer I stay, and I know I shall at

ways be ready with heart and hand, and money, if I have any, to help Alaska in any and all ways.

The Wredys are all well, and seemingly happy, and will move to their new home this month.

With my kindest regards to you wife and daughter, I will write Miss Jackson when we are settled in Chicago, so you will surely call on us as you pass by.

Sincerely,

Mrs. Hayden.

I asked for two dolls, and you sent me ten. Thank you "ten times two dolls."

Juneau, Alaska,

Monday, November 9, 1891.

Rev. Dr. Jackson,

Washington, D. C.

Dear Sir and Brother,

We fully expected to greet you on your return via Juneau. We were disappointed in this hope, especially as we wished to point out our advances, etc. Of course you know the moral pulse of the people I am preaching from every Sunday from your log church pulpit. Well, they are really excited in entertainments for church purposes, and we have thus taken advantage even of this small gift. We have fully equipped the churches' furnishings, and I have now prevailed upon them to enter a larger undertaking, to buy a House. I know we can pay for it inside of two years, although we are safer to take the limit offered by the Board.

Please examine the Application, and endorse it as you know

best how to see it through. Mrs. W. R. Hoyt is the Judge's wife, and as she was a member we chose him as trustee, rather than him. We are getting along nicely in every way. Have good attendance and Sunday School attendance. The cold snap of winter whips is here, and we really like the cold better than the dreary rainfalls.

Mr. Behrens is one of my right hand men, and Mr. Hall also. He is the one appointed to pass the singing books and take the offering up. If we can't redeem some of these older ones, we hope for the children. Have a good Sabbath School, with four classes presided over by four regular teachers. In speaking on the topic of Jonah, one little fellow in the school interrupted me with the question, "Mr. King,

Toping you can help us in this blank application
etc., we remain yours,

To the Alaska Arch.

Mr. William J. Sullivan,
Washington, D.C.

Dear Sirs,

In closed I send my application to the General
Secretary of the Interior for the appointment of trustee of the
Townsite of Junes, Alaska. Will you have the kindness to
present it to the Secretary of the Interior, with your endorse-
ment? Delaney and myself and the Hughes people are trying to
capture the appointment, and you know the character of such hy-
po-critical citizens.

I have also written to Senator Delah with respect to the matter. If you have the time, please see him. I will also secure the help of Mr. Testinbaugh, who through his friends can be of assistance. I have \$10,000.00 invested in Japan and for that reason do not want our property holders to handle the interests of property holders, which they are now trying to do. I trust I may in some way sometime be able to return the courtesy.

J. H. Hall,
Attorney at Law.

My dear Dr. Jackson:

What shall we do to return your kindness to me.

remembering us as warriors? Mr. Day is delighted and so am I. The skins are to be sent up this very day to the furrier, and as soon as dressed will be spread in our parlors to remind us of a friend whose love was not chilled even by the cold of the Arctic region.

My dear Mr. Jackson:

I am a thousand times obliged to you for remembering me, a mere stay-at-home, along with your great rival in travel, Dr. Field, in the distribution of your trophies of your Arctic progress. You may be sure that I shall always value it very highly, and should my house ever take fire, (as one did near to a fortnight since, and burned to the ground) I shall probably rescue my bear skin, and then return for my wife and children.

By the way I hope it will be in order for you to tell our many interested readers how the effort to stock Alaska with reindeer is getting on. I am sure some of them will contribute further to the good enterprise.

Dear Sir:

A busy line while on route. Out of train makes it scarcely readable. On my way to New York. While I shall not enter into particulars, suffice it to say that we must have success at the Training School. Certain conditions will give it. I am in hurry, and shall have very little time to spare. Must be in little while as fast as travel will carry me there. You will need it. After conference with the Board's Executive Officers, I must leave to see you. Write me as to where you will be between the 1st and 2nd of this month, (November). There are various reasons why I must see you, and I hope in Washington. Am intensely interested in the little outlook. Problem presents great possibility. I see many things that we must hope for in aid to carrying it.

My wife and children are at present occupying at present, Mr. K's quarters, really yours, I believe. He hoped

very much to have seen you return from Africa via Bismarck, and
Collier Hatch saw your arrival and departure for East in one of
San Francisco papers.

Well, hope to see you soon. Will reach New-
York by night train, N. Y. O. & N. R. from Buffalo on 14th.
Gets New York very early 15th, daylight I think. My address
there is c/o Jonathan Marshall, Esq., 347 Broadway.

Yours sincerely,
Alfred Docking.

Dear Sir:

Acknowledging your favor of the 10th, inst.,
I beg to thank you very much for the copy of Alaska, which you
have kindly sent me. It is exceedingly interesting to us, and
our Board, to have all the Missions and School Stations locat-
ed and we shall find it very useful for reference.
With kind regards from my family and self, I

Very sincerely yours,

Robert de Schminitz.

P.S. I have also received the report of Dr. Harris, and
that of the Governor of Alaska, both of which interest me great-
ly.

Rev. Sheldon Jackson, D.D.,

General Agent of Education for Alaska,

Bureau of Education, Washington, D.C.

My dear Dr. Jackson:

I have received with your compliments, certain
papers with reference to Alaskan matters. The object of this
letter is to make one or two inquiries in reference to certain
marked passages in a communication from the Department of the
Interior, headed, "Don Mineral Mines in Alaska." As you are
familiar with these matters I wish you would on receipt of this
write me if anything were necessary for this Board to do in
order to acquire title to property to our mission stations
in Alaska. I believe 640 acres of land have been set aside
for our use at Chilkat. I think you arranged my lot at Sit-

10. Just what has been done at Jackson, I do not know. If you will take up this matter at your convenience and let me know just what the board is to do in the matter, I will be obliged to you.

1. The first part of the document is a list of names and titles, including "The Hon. Mr. Justice" and "The Hon. Mr. Justice".

Dr. Jackson,
Washington, D.C.

Dear Brother in Christ:

Reached home Saturday November 14th. Along my accumulated mail was the beautiful map of Alaska (many thanks) and your letter of the 7th.

How much I regretted not being able to visit you in your home on the evening I planned to do so, you can scarcely imagine. I think I informed you that my mother had invited Mrs. Daggett to her home through kindness to us mainly, as we had often spoken of Mrs. Daggett and I had expressed my admiration of many traits of her character. Mrs. Fildes said "You are welcome to invite your friend to dinner at any time with my compliments."

The afternoon session held unusually late that evening, but Mrs. Daggett accompanied me to dinner as she had two or three days previously chosen that day because it was the only day she would be at liberty as it would be possible for her to go with me.

Dinner was always served at half past five. Immediately afterwards I explained that I had agreed to meet you at your home at six as you were to leave town that evening, and asked to be excused for an hour.

Mrs. Daggett insisted on accompanying me if I went, saying she was too weary to attend the evening services. I, knowing the dear old lady had taken the trouble to accept Mrs. Fildes's invitation in company with me that evening because it was the only one at command and through much weariness, I felt it would be an excusable breach of courtesy, and almost of civility, except the same were imperative, which I could not claim for that engagement, although I so much desired some excuse for the better furnishing of attractions to win and hold the attention of the people, to those poor Alaskans for which I desire to secure material aid by raising of money this year. I would willingly pay several dollars if they were to be purchased, but as I understood, they are not attainable except through the hands of one on the ground, therefore this would be my only opportunity this evening. Added to this was the desire to have a remembrance of my visit to your office and home, for he assured, my dear brother in Christ, I hold with most exalted respect and appreciation your kind, valuable, patient and long continued painstaking in behalf of the interests of our Woman's Home Missionary Society work in Alaska. It was a pure trial to not keep my engagement and go to your home at six o'clock that evening, because of my desire to do all possible for poor Alaska and I thought these would surely help and be the two-fold treasure of aid for that work and as souvenirs.

I entirely forgot to ask you about whether I was to cash the order for those Alaska photographs or pay on receipt. Am sorry for this, but if you will inform

I shall not leave the work until about Tuesday
or even tonight. Must see you if possible. There are many
patterns that can be sent about now, that would not be so
late getting with clear definition.

Yours sincerely,

Dear Mr. Jackson

All your letters, October 1900, have and were
received as by last steamer. The ship is on Friday and I will
not reply by return mail. The steamer reaches this place very
frequently, at least on that day. The next one is due on that
day. I will be here from your letter and to know that you are
well and at school from your long and perilous trip to the
North. Disappointed not to see you here. Fred here is
expected to visit you. In all of our. Expected to go to An-
dover to be visiting with his sister, and make arrangements to
bring some part of Mrs. Willard's collection about Christmas.
Did not realize any money here last winter from the tourists.
For this they were not a giving season for some reason. Think
affairs of Druggill had something to do with it. I do not
know how to advise Fred. I think he ought to be sent to An-
dover. Have a building, say \$2000 put up, to be used for
church and school purposes. Fred ought to have a good anti-
say as there would be no money for disaffection afterwards.
I believe he would be more in the school room and at winter
than any other winter man you will be likely to get. I
hear that Mr. Salvin has left the field—completely. I
wonder I think, and yet he seemed to be well qualified for the
work and full of zeal for the Master's service.

I have advised David to apply for the position of
Judge Magistrate and have written to him myself recommending him
for the position. I believe that David would do better work
in the school there for the next three years than any other
man you ever put--if he chooses to do so. That is my own
and his own opinion and I am sure that you will be
glad to have him at the school in being

the logs this winter and have them ready for you to put up a building next spring when you come, it might be well.

Have our church nearly ready to paint on the inside. Have sent to a lumber firm in Port Townsend for pews for the lower floor in a knock down state. Found I could get them about as cheap as I could buy the lumber to make them. Will have to use stoves for heating purposes at present. I wrote to Nathan & Co. to find out the cost to warm a building of that kind. He sent me an estimate of a Portland Firm, Norton Co., I think it was, only \$700.00.

I requested Mr. Bucking who has gone East to look at stoves used for drying here in Washington and Oregon. Think they will do. I have collected \$120.00 from the boys as follows: William Willie \$40.00; Rudolph Salton \$40.00; John Willard \$40.00. Donald and Thomas have not returned yet to Sitka. Donald is at Killisnoo and Thomas at Chiloet. Don't know what they have done. Rudolph and Edward went on the Lee this summer and were turned back from Spring Bay. They were to have a share of the catch. They were gone two months, had their eat, raised much commotion, but no money. They went to get money to pay on their houses, and returned with very sick tum-tum. Will send you the money by this steamer or the next one. Have given them receipts in your name per A. told them you would send them receipts and they would return the ones I have given them. To please send receipts to me and I will exchange them. I suppose you have seen Mr. Bucking ere this.

School is very much run down, only about seventy boys and the tide of water a number will expire in the spring. Others are small like Realy etc. Good will only last us until Christmas. The boys were feeling last summer and now I am obliged to send them up Indian River to get wood. They have been out to the spit the past three days and it was so cold last night that it froze our water pipes. I consider it criminal mismanagement. It seems to be my lot to stand in the brush when any hard knocks are to be received. I hope they will finish this work to-day. I do not like to bear the responsibility of sending the boys to do such work. Think at the very least that it is manslaughter in the first degree. I am praying for them and filling them with strong ginger tea. Trust the ginger will help them if the prayers fail. Williams back looking well. Have a funeral to attend of one of our men on people. For now is in the guard house for thirty days and I believe he is perfectly innocent. Or can you not get the President to order Judge Peckinpaugh on to Washington that he may learn (the President) how disgraceful some of the officials act. Our Commissioner here is utterly unfit for the place. He is as deaf as a post to begin with. Captain Harrington who commands the United States Marines in some relation to Russia. The Captain has been admitted to the Bar since he came here. He is a typical Captain Make of the Horse Marines, and between

Your letter of the 28th ultimo was received. There is nothing in the rumor of a "Convention". It has never been spoken of. I think Meyers at one time mentioned it in his paper, but there the matter dropped, however, if such should come up, will be there and stand out for our local school boards. It seems to me that the system works smoothly and to good advantage. I will frankly say that the Governor is not true to himself and therefore cannot be honest when dealing with others. I never dreamed that the Governor would prove such a hypocrite.

A new school building is badly needed here so help us to secure the appropriation for one, to be built next spring. I will see that the grounds reserved for public school purposes shall not be interfered with when a survey of them shall be made.

Accept my thanks for the Circulars and Governor's Report. The girl Mary who was turned over to the notorious brutes called "Yank" H. H. Several by Judge Hughes in the habeas Corpus proceedings vs. Mr. Kelly, was ruined by "Yank" and now leads a life of shame. How long! Oh how long! must we endure this?

Dear Brother!
Your letter of November 2nd is at hand. I wrote
by last steamer when I learned that you had returned from the
Arctic and in this letter from you I have an answer, though
you could not have received mine when you wrote. The letter
you wrote me concerning the manuscript I never received. It
must have gotten lost. I am glad you have the story and that
it has not been published as there can now be additions yet to
it (the story is from life). Please mail it to me and Mrs. Wil-
lard will "wind it up" a little differently. I will enclose
stamps to have it registered.

I thank you for the Governor's Report. They are

sources here in Alaska yet I think your favors have supplied all that are at present in demand. I only suppose you have sent one to Mr. Kold. Mr. Kold will write you soon as to our news in regard to schools here in Juneau. Mrs. Seishling is a fairly good teacher, but our schools are not as good as they have been. Judge Seishling asked me how I liked his change of teachers here and at Douglas. I have not written him. He did the best he could, but neither of them are of much account. Only mention. I refer to Mrs. Stark and Mrs. Allen.

We are in fairly good health and very busy. The time is full. Our Sunday and weekly services are well attended. This week, besides Sabbath services, will look like this: Monday, funeral, Tuesday, Regular Village prayer meeting, Wednesday, regular weekly prayer meeting, Thursday, Thanksgiving meeting in evening and for the week, nothing more than regular routine so far as I know.

Respectfully,
August 2. 1891.

My Dear Doctor Jackson:

I owe you a thousand apologies and an expression of my warm regrets that I did not see you after the lecture before you started for the north. I was necessarily called away from the Academy and devoted certainly to work and thank you for the very great pleasure you had afforded me in connection with every one you had heard me at the Institute. Your lecture was not only exceedingly instructive, but entertaining as well.

Your kindest departure that evening for the train leaves me no other way to thank you than this poor expression of my great enjoyment in meeting and hearing you.

I take the liberty of mailing you some of our little school papers, "The Mountaineer" for your perusal. A notice of your visit to Mount Auburn will be found in our next issue.

Yours sincerely,  
F. James Miller,  
Sec. B.

Juneau, Alaska, November 22, 1891.

Dr. and Mrs. Jackson:
My dear friends:

We are all quite well. Our little ones are growing nicely. John tries to repeat almost all the words he hears. Jack is a great rattling boy of nine months without teeth.

Sister Cassie is working hard as usual in school. Gertrude has been assisting her by teaching the primary department ever since she has been strong enough.

Your kind letter was very welcome. We were, however, bitterly disappointed not to see you this fall. We hope that you are now all quite well and we know that you are happy in being together. Mr Bruce dined with us last evening. His wife had made the acquaintance of a friend of ours and in consequence we invited him to our house.

At the time when we were in such great trouble the Hughes and some others tried to work up a feeling against Cassie in the school. It troubled her greatly at first, but she has gone on bravely and is now succeeding nicely and is feeling well and happy. Gertrude is much interested in the little tots and they are improving nicely.

We find life very hard without the support and companionship of our darling mother, but we feel how kind and good a Heavenly Father to spare her all the sorrow and suffering we have passed through.

Do don't you have heard reports about Gertrude's trouble. In fact, you mentioned it in your letter. Poor old has been most unhappy since her marriage. George's unchangeable temper and thoroughly selfish disposition were a source of constant misery to her, but she never told us. It was only when her child was born that we saw for ourselves, and then he was so cruel that he had to be arrested in order to save her life. Fara was unable to leave her and so Mr. E. had to swear out the warrant and that is the way in which they settled the suit on him and connected his name so unpleasantly with the affair in the papers. Oh! how he suffered. Governor Knapp bought George's house, took the piano that George had given Gertrude, took all of Gertrude's personal property from the house (that is after Gertrude went to Fara's house) and as to this date knows very little things that Fara had given her and he upholds his son in keeping from Gertrude \$100.00 which she had before her marriage.

Mr. E. Thanks you for Governor's report. Evidently he thinks that the Commission of Education does not know how to order affairs quite as well as Louis E. Knapp. There comes publication to our little town by this steamer devoted to a sketching up of Dr. Jackson, Mr. Brady and F. Myers I have not seen a copy.

Mr. Kelly has gone. We miss his very much. Mr. Shaker seems somewhat out of tune. He is a very good man I think, but proves himself capable of making mistakes by having made a few. I hope he may get balanced all right. Pardon this scribbling. I have a hank on my knee.

Mr. Docking went two weeks here. If I had not met so many people here who did not wear I would tell you that I like him. He seems very earnest. M. and Mr. Brady had several long talks.

Mrs. Deering seems to be a very pleasant lady. I have only met her twice. I do not have much time to visit. Some of the natives have been having great trouble. They do not seem to be able to get justice in the Court. Mr. Austin was quite wrought up about one case and spoke rather plainly to Commissioner Rogers, but I doubt if he heard him, as he is extremely "deaf of one ear, and can't hear with the other." We have made some changes in our business. Have sold some exchanges with Whitford and Baker. Have one half of the building where we live, and the building between it and the Custom House. The garden lot and stable, the store property at Juneau, the sawmill and all belongings. We are not connected with Mr. Whitford anyway, only in the fact and Mr. B. owns two-thirds of that.

Our new house is almost ready for us to move into, we hope to move in by Christmas. The sawmill has been running steadily for three months. There is now more of a demand for lumber than can be supplied. Mr. B. has put in an application for a millsite of one hundred and sixty acres, if that goes through all right, and we can see no reason why it should not, it will give us a title to the grounds where our new house stands.

Well I must close this for I have your time is too valuable to take up much of it this way. The Austins are well. Mr. Fackinowich has never disappointed us. I have not visited Mrs. Fackinowich's school much this year. The superintendent speaks of having had a good attendance. The school Board here seems to be quite interested. I think you will be pleased with them. The Harkins are still in Sitka. I have always been afraid of leaving them for you. The Harkins are good Western people. Mr. Bates has been about for a month on a tour around at the different points where the regular steamer touches.

Mr. B. sends kind remembrances to all. Wishing you all a merry Christmas, I am,

Yours very sincerely,
Mrs. J. D. Deering.

Dear Doctor:

Sitka, Alaska, November 22nd, 1901.

I expect to leave here on the steamer in the morning for Juneau, and may continue my way on toerry Island and my return to Juneau on next boat to finish up.

Have just written a letter to General Hathorne giving him my observed one along the route between here and Unalakleet, and suggested the names of several persons as porters. I wish you would call on him and see how far my

views agree with yours. Kate suggested that perhaps you would see him in reference to the matter.

We passed a very pleasant two weeks here. Took dinner with Mr. Brady's family last evening. They expect soon to move into their new house.

With kind regards to your family, and hoping that you are enjoying good health, I am,

Very respectfully, yours,  
Wm. E. Bruce.

Dear Sir:

I have just received from Allen the letters you forwarded me there. I have asked Mr. S. A. Whipple to look after the arrangements as you directed in regard to them. Mr. Whipple and Mr. Smith have taken your mail, and the letters were lost. If there is anything that you have not received, write them. They will take pleasure in attending to matters for you.

I will enclose the money you left for me but never got the plate and photographs from him. I did not like the pictures very well. I left a plate of my son in the drawer for you with your mail.

Before I left I had been making the boys to make you a present on their birthday when you came. They promised to do so. I think I told you I took your cottage then and had him make the contract. He has been in jail since and is a hopeless case I think.

I enclose the check for account of "North Star" and will enclose receipt for same. I return you the check for \$20.00 (twenty dollars and twelve cents). That bill was paid by you sometime ago six dollars at Dallas. The bill was forwarded you to Washington and the receipt, or perfect receipt of bill, sent you at Dallas. There is nothing but encroaching the six dollars for a box of pills and since we are so generous regarding the "North Star" I do not wish you to send the six dollars. It will take, I think, about \$20.00 to complete the last edition.

I never heard from the Illinois case which you kindly sent to a lawyer in Chicago for collection. I am in no hurry about a position, unless I get the appointment at Braggell. John Chamber I write Governor Perry. Governor Peckinpaugh, Johnson and Porter asking each separately to recommend me to be appointed Commissioner at Braggell. When I get my testimonials together I shall try to have a Congressman or United States Senator to present them to the President. I saw Judge Shelley on my way down, of course

he does not know that I have any thought of trying for his place, and less that you suggested it. I found him very sore because Reverend Mackay is retained at Franciscan. He reflected upon the Board and indirectly upon you and upon us all in this matter. He said he supposed he would not be re-commissioned but he was anxious to see you and intended to ask to be retained as Assistant Superintendent at a salary of \$1200.00 plus a hundred dollars per annum. Brady writes me that Mackay visited Sills lately and that he did not like his attitude, that if there was a chance he would not be surprised if Mackay, the judges and the Governor would join forces against you. It is perhaps just as well that you did not return via Sills, so far as your own pleasure is concerned.

I am enjoying the sunshine in California. I visited the Stanford University, also the Lick Observatory, the Normal school here and a country teacher's Institute. I will visit some of the San Francisco schools and do the City generally next week. I hope to see Dr. Strever there. He is having his eyes cured for and will then return to Sills. I expect to return to Portland, Oregon about the middle of December.

With kindest regards for self and family, I remain,

Very sincerely yours,
W. A. Kelly.

I intend to see that the Museum is named after you. Not being there, I have said nothing about what you said relating to the proper step.

Honored friend and brother:

Let me write of the gratification I feel of your work while in Boston. We heard only the best words of your Sunday discourse, and the Commission appointed to go to the President on behalf of Alaska, is made up of energetic women who will certainly effect something if followed up. Will you not with your usual energy help to bring about soon this effort on behalf of the Christian women to secure help for Alaska? You know the case and can tell them the kind of memorial to present, and you can see that the memorial goes out

throughout the Associated Press over the country. I advise you to confer with Mrs. F. D. LaFetra, Hotel Fredonia, Mrs. Summerfield Baldwin, Baltimore, Maryland, Mrs. J. E. Jones, of Philadelphia, Mrs. Mary T. East, New York City, who I think compose the Committee. All are women so prominent that a letter will reach them as I have directed, except that Mrs. East be addressed at 202 West 135th Street. Mrs. Jones is President of the Pennsylvania Woman's Christian Temperance Union and has headquarters in the Logan Building, East Street, Philadelphia. By your co-operation with these ladies, I believe much can be done to bring about the changes you desire.

My mother tells me of your call and the contribution to the cause, for which I sincerely thank you, and hope always to keep in rapport with you and yours.

Yours in every good word and work,
Frances E. Willard.

Dear Sir:

I am indeed sorry that you were not able to pay us a visit at Eliza this fall as I should have been glad to confer with you on various subjects.

I have been very busy getting myself informed and my forces organized for effective work. It is something of a disappointment to me that we are able to accomplish so little in the way of restricting the liquor traffic.--You understand the sentiment here and how hard it is to get a conviction through the Courts. I am inclined to believe that either the Pennsylvania or Nebraska liquor laws applied here would produce a better result than our present law. To make the present law effective will require at least one steam patrol boat that is quick enough to run down anything in the smuggling business. There are many small sail boats that are regularly in the traffic, and they make a practice of plying to the Indians in out of the way places, doing infinite harm and there is no way to catch them at our command. In any event the Customs Officers alone will never be able to control this business which makes trouble everywhere; it will require the united effort of every branch of the Government.

If I am confirmed (as I hope to be) it is possible I may come to Washington this winter. If so, will be glad to talk over these things with you.

All join in regards to you.

Very truly yours,

E.T.Hatch, Collector.

December, 1891.

Honorable W. S. Harris, U.S.N.,
Commissioner of Education.

Sir:

I have already reported to you verbally of the success attending the introduction of a small band of domesticated reindeer into Alaska.

The investigation and experiments of the past summer in Bering Sea has opened the way for a much more extended work this coming one.

I have demonstrated, by accomplishing it, that domesticated reindeer can be purchased in Siberia, and can be transported to the Alaska coast, with as little trouble than as many cattle.

These two points having been determined, we are ready to enter next spring, upon the work of establishing a large herd upon the American side of the Sea.

My chief adviser and assistant the past two seasons with reference to this work, has been Captain M. A. Healy, Commanding the United States Regular Mail Steamer, Bear.

And now that we are planning to conduct a larger work, it seems very important that Captain Healy should be invited to visit Washington, confer with us in our final arrangements and assist in the preparations for carrying them out. Captain Healy will return to San Francisco from his present cruise about the 15th of December. He will then be on waiting orders until spring and can conveniently visit Washington.

The future welfare of our schools in Northwestern Alaska are so intimately associated with this proposed industry, that I would recommend that a request be made to the Secretary of the Treasury to authorize Captain Healy to visit Washington this winter.

Very respectfully yours,
Sheldon Jackson.

Rev. Sheldon Jackson, D.D.,  
Washington, D.C.

Dear Friend:

Your letter reached me last steamer, but I was unable to answer it for so many as long. Mr. Austin has had the entire care of the school for the past three months and I have done all I could to relieve him, helping in various ways.

Our people have returned from their summer excursions and our school is full to overflowing. There is a great deal of spiritual interest manifest. It may be a gracious outpouring of the Holy Spirit upon us and hope many

will be brought to Christ. It seems so good to have all our people home again. Mr. Walton our old deacon, is very ill and we fear he will not be with us long, but he is rejoicing in Christ and has no fear of death. He has made his will, providing for his wife and children. So many of our people are making their wills. We have urged them to do it for it saves so much trouble. In his will he has requested them not to have a feast nor tear blankets. He rejoices to know this, for so much money would have been wasted in that way for him, for he is of very high caste. He said to Mr. Austin if he was not a Christian and had not given up the old customs of his people he would kill himself, for by so doing he would be considered a very brave man according to their old ways, but now he could not take the life God gave him, but would wait patiently the Lord's time to call him home to glory. He felt much disappointed in not seeing you this fall. I had wanted to talk with you concerning Frederick Moore, Miss Hutchinson had written me and I delayed answering her letter, hoping to advise with you.

I do hope something definite will be decided soon for he is so anxious to get settled somewhere. He has been reading some with Mr. Austin. Willie Wells has returned to us and enjoyed his trip very much. He is busy now building a house on the Rancheros. Willie is very enthusiastic. I feel very proud of him. I asked him and his wife what they would most like to have for a present. They concluded they would rather have an organ than any other thing for they will then be able to enjoy music in their afternoons. As if Mrs. Cobb will send them one it will be very highly appreciated. The engraving you spoke of her sending has not come yet, but when it is received Willie will be very happy to acknowledge it. Can you suggest anything you think would be nice for our Scholars to make for an exhibit at the World's Fair? I presume you have heard that I was appointed as one of the delegates from Alaska. I should like so much to have this school represented in some way, and thought you might make some suggestion.

I thank you very much for interesting Mrs. Cobb in Willie and his family. Anything she may do further will not be in vain for they are a most worthy young couple. We heard rather indirectly that you had not been very well. I fear your many years of laborious work is telling upon you. It must be a very fatiguing trip to the Arctic, but I hope the sight of home and friends has cured you of all your ailments. How much you must appreciate your home when you can be there. I have been writing every night almost all day and tonight am feeling very tired, so must lay aside my pen.

Please give much love to Mrs. Jackson and your daughters. With kindest remembrance, I am,

Yours very sincerely,

Isabella J. Austin.

P.S. Have you had a copy of "White Wings" sent you? It is a production of George Hagon and Max Fracht I think. The contents of the paper, are beneath the notice of a respectable person, but I think it would both amuse and disgust you. It did me.

Philadelphia, Pa. December 7, 1891.

Dear Dr. Jackson:

Your favor 20th ult. received. I have seen Bishop Nicholson and he has requested me to inform Mr. Trotter the Secretary, to notify the other members of the Executive Committee to meet you at your request, on Saturday December 7th at eleven o'clock in parlour of St. Paul's Church, Chestnut near 22nd Street.

Dear Sir:

I take pleasure in appointing you our Manager for Alaska. Please send us your letter of acceptance at your earliest convenience.

Sincerely yours,

Dr. Charles Jackson,  
United States General Agent of Education,  
For Alaska.

Dear Sir:

I have your letter of yesterday and page from the "Post" containing your article in defense of Captain Healy which is clear, plain and well written I think, and hope you will accept my sincere thanks for your prompt action in this matter.

I shall send a copy of the article to San Francisco and ask that it be published in all of the papers there as an act of justice to Captain Healy.

Very truly yours,  
E. A. Shepard,  
Chief Rev. Man.

Juneau, Alaska, December 3rd, 1891.

Dr. Jackson,

Dear Brother:

Since writing you by last steamer, I have read the Governor's Report and must say that I am ashamed of him, so far as his report in regard to schools is an exposition of his faculties. If you have any influence in that direction, I hope you will not allow the old Territorial School Board to be re-established, and again, I hope you will do away with the Advisory Committee which is a farce to see up, I understand, about \$400.00 a year that could be put to better use. If you would give the half of that amount to our Local Committee to be expended upon the school premises here as we have felt I think we could show you some better results for the expenditure.

The interest in schools that the Governor has, can be shown by his own words when he says that he would not serve on a School Board or Committee unless he was well paid for it. I suppose I should not write as I am doing, but I cannot help being provoked as I have had these two schools to look after alone. Mr. Reid is very good to attend to nearly all the office work, still I have to be with him and bring it up; after I have done everything, get things ready, to find him; and then get Koehler (who does not care four cents one way or another) to sign the thing. If I had the money that is paid to that party (of Kitchner) in Alaska for doing nothing, I could have a play ground and a well, also better walls and some ditching done. I have expended a good deal of money and time of my own.

When Judge Shackley was here last he told us that the School management was not what it ought to be. He said that the Bureau of Education ought to put things here in Southeast Alaska into his hands, pay him a salary large enough so that he could make that his only business. Now my idea of things does not quite agree with Shackley's. I think that if the Bureau of Education intend throwing school affairs into politics they had better quit altogether, for that is all that Judge Shackley is after. The idea of a Superintendent as Shackley now is, is well enough, but there can be found plenty of men capable and who have interest enough to fill the position. I notice that the Governor thinks there is not material enough for local school committees. I think he is very much mistaken unless it be in the case of Ketchikan and Hake and the Superintendent can, with the teacher, attend to those stations better than they were under the old Board.

I guess I have relieved my mind somewhat on this Report. We are all in good health and busy. Kindest regards from all.

Fraternally,

Eugene S. Willard

Dear Sir:

Your favor of November 28th is received for Miss Willard who tells me to say that her information in regard to Governor Knapp was gained from a reliable source. Both she and Helen wish to be most kindly remembered to you.

Dear Sir:

We laid the matter of the Missionary to Alaska before the Board at its last meeting. They deferred action upon the whole matter, and we cannot now attempt to do anything until the condition of the Treasury will warrant us in hoping that something will be done, probably in April or May.

Yours truly,

Frederick, Md., December 9th, 1891.

Mr. Sheldon Jackson,  
Dear Sir and Brother:

I enclose you will find a check for the sum you name, \$10.00. Many thanks for your visit, which I trust will result in good to our Alaskan Mission.

I have been asked to prepare a "descriptive" article on Alaska, for the January number of our Churchman. Will you kindly "check" me, brief outline, will do, and I will try to weave that together. I am glad of this opportunity, as it may be necessary for us to repeat it a number of times, if our Association have a motion to take a stronger hold on the work. I believe you promised me a map, one of the new ones, lately issued. Do not forget to give me the size of the island--its population--how many vessels stop there in a season--how the natives subsist and in fact anything that will interest those who are working for it, and awaken those who are not.

Yours most sincerely,  
F. C. Hamilton.

Would it pay us to bring Edward Larned here, to one of our meetings? If so, please give him address.

I have just returned from an extensive tour through Southeast Alaska in a canoe. I have seen the natives in their winter houses. It was a very short and very unpleasant trip.

The teacher at Unalakleet would be a man and his wife to teach in summer at Unalakleet and winter at Pitmegea, Prince of Wales Island. A great deal of good could be accomplished and this is the wish of Chief Ah-gah and the boys of the Unalakleet tribe. The most successful school in all Northwest Alaska is the one at Iglood, N. W. Alaska and this would be much better if he only had a few school boys to teach in. Please find enclosed a letter from him. The school here at Unalakleet is greatly in need of an eastern teacher, one that knows the Lord's prayer, but we find none here. Please.

I have the title of this article printed with  
 six boys and one girl for the Lincoln School. My friend  
 Buckley is trying to persuade them not to do so. If the New  
 Commissioner is an honest gentleman I can imagine this town  
 100 per cent and get all the boys and girls from Buckley and  
 vicinity that Professor Buckley writes.

Very respectfully,  
 William H. Brown

The good news has just arrived here at Sitka that Mr. W. L. Kelly is appointed the Commissioner at Unalakleet. Please to all you can for him.

W. H. Hildner.

Sitka, Alaska, December 29th, 1901.

Dear Brother:

Coming from a circular sent that you returned from the mission via the Trans-Alaska and now you look, I send you a line. I have just learned incidentally that an effort will be made to have the work of this post again organized again. As you have just returned, will you be able to do so?

During the winter past month ago, received two late for a letter from you last autumn. The letter is still in my possession. I am interested by a friend, also of a communication from the Lewis of Boston. He says he is planning to go and see for that reason mentioned in connection.

Will you be able to do so in connection with the educational work in this territory?

We are doing fairly well, with much cause for gratitude. Hope you and yours are prospering.

Sincerely,

A. Lewis Smith.

Sitka, Alaska, December 29th, 1901.

Rev. William Hildner,

by post.

Very truly yours, W. H. Hildner. This has reached you in time. We are glad that you are still in the line of the work. The mission of Unalakleet is the interest of that mission. Unalakleet is Alaska.

You certainly deserve great credit for the work done so far, but the work must still be done. I am sure of it.

I sincerely trust the Lord of the harvests will allow you to see much more before being called from this to your work.

Sincerely,

A. Lewis Smith.

Dr. William Hildner,

Medical Dept., Department of Education,  
Washington, D.C.

When I had the honor of meeting you last summer on my way from Washington to Chicago you acquainted me with your purpose of going to Alaska in the interests of your department. At the same time you acquainted me with your interest in the Jewish Race, and we discussed the situation of the Jews on the Alaskan shore, and you had the kindness to promise to try and enquire on your proposed trip into their status and furnish me on your return with statistics and your views on the subject. You also asked me in case you didn't write by a certain time to remind you in the premises.

I therefore venture to address you in the hope that you have found sufficient data on the subject to form an interesting contribution to our knowledge of the Jews in that far off territory, and hoping for an early reply, I ask leave to publish in whatever journal may be most fitting, your researches in the shape of a letter addressed to myself by you.

I have the honor to be,

Your most obedient servant,  
Israel Cohen.

Dr. Sheldon Jackson,  
Bureau of Education,  
Washington, D. C.

Dear Sir:

Referring to conversation of last evening concerning the Eskimos that from Point Barrow were secured by the Captain of the United States Steamer Bear, I have to express my desire that the Smithsonian Institution should have it. I need such a specimen for my Department. I have a save Bear and other extinct animals, but no specimen of Eskimos. I send you a copy of my Book to forward to the Captain.

Yours truly,

Thomas Wilson,

Director etc.

December 9, 1891.

My dear Dr. Jackson:

Mr. Howard tells me that you have kindly promised to give me a lecture on Alaska on the 14th. I am anxious to have the room full and we shall need some words of invitation to people outside. I have drawn up a statement to be put on the cards. But will you kindly correct it or add anything to it, or word it differently? I wish you could come by sometime and go to the Church with me and see the room and

what arrangement you make for the views. I shall be at home on Tuesday, Wednesday and Thursday at one o'clock. Could you come in about that time and take lunch with us and we will go to Church.

Very sincerely yours,  
 Susan M. Klinefelter.

[illegible]

Dear Dr. Jackson:

Dear Dr. Jackson: If you are in New York before the 15th want you call at our house any day about lunch time. I want to go with you to the Church to see about the screen etc. I sent you a note to 53 Fifth Avenue to be forwarded but fear you may not have received it.

I am very sincerely yours,  
Susan M. Alexander.

Marine Island Navy Yard, Marine Barracks,

The Reverend Sheldon Jackson,  
Chief of Bureau of Education,

My dear Sir:

My dear Sir:

My son Lieutenant James A. Turner, is an applicant for the position of Assistant Quartermaster, a vacancy to be at once filled in the United States Marine Corps.

During his official duty at Sika, where he not only commanded the Marine Guard but for a long time gave his services for drilling Indian girls and boys at the Mission, and also taught some of the boys vocal music, you had ample opportunity to judge him as an officer and a gentleman. I will now be in your power to do him a lasting favor for which he and his parents (who are entirely dependent upon him) will be forever grateful. If you will see the President in his behalf and tell him what you know of him, I have no doubt but what it will secure him the position he so much needs. His record as an officer is unblemished. I refer you to the Navy Department.

Very respectfully,  
Yourself for your self and family

With many kind regards for your self and family  
and hoping you will give this your immediate attention,  
Sincerely yours,

Sac. R. Turner.

P. S. I am now visiting my son at Mare Island.  
S.E.T.

Dear Brother:

Accept thanks for your favor of the 10th and for your kind offer to meet our Committee on the 11th. I cannot with absolute certainty promise a full quorum of that committee on that day, but I have no doubt that a sufficient number can be gathered to make the interview a very profitable one. So please drop in upon us at two o'clock for such conference as may be had.

Mr. Thornton is here and I have had several very satisfactory interviews with him. With what light you and he can throw upon that Alaska Mission, our Committee can act intelligently, and if we keep it up at all we want to do it effectively.

Very sincerely yours,  
M. D. Stanley.

My Dear Sir:

Mrs. Jones is desirous to gather all the facts regarding Point Barrow for a historical sketch. We have issued its general history this year. How can it be permanent form?

Mr. James is anxious to know also if you have any photographs of this station? Please accept the thanks of the Executive Committee for the Box and helpful map of Alaska, received from you a few weeks since. We now have it mounted and ready for constant use.

Your favor of 15th was received last week. As  
Secretary Dr. Trotter, Executive Board of Foreign Missions of  
the A. S. S. S. will write you of the action of our  
Executive Committee, I need not say more than thank you for  
your communication, and say also that it has been agreeable  
to most of our men.

Rev. Charles A. Johnson,

During our stay in the hospital, we were informed that the ship was to be sent to the coast of Africa and that we were to be sent to the coast of Africa.

like me very much. And what do you think of you about that  
country. Mr. Morrison said other matters and I'll with  
discovery, as "grave studies," say so understanding. We need all

Mr. Darnall writes me that the effort to  
rule moved on the Pacific Coast is a flat failure. He does  
not think Mr. Brown, the man fitted to do it.

I should now mention the two books. Part 1

have been very busy studying and have neglected writing. I sent a copy of my lecture on Alaska to that man you wrote me about and also wrote him a letter. Yesterday I began to set canvases for the orphanage by lecturing in the First Congregational Church of this town, but I raised only a few dollars. By agreement with the pastor I had half the collection. I think I could raise a few hundred dollars among the different denominations as they like to hear me lecture, but I do not think I can do much among the Baptists (if anything). Unless you have succeeded in getting the Baptists of the East to take up this work, I would respectfully advise that you turn the mission over to the Presbyterians or some other denomination. If you do so you may continue on in the work and I will help all I can and not quarrel over any denominational differences. I feel that this work must be done and may Heaven's richest blessing come down on any who will lend a helping hand. I believe I can raise a few hundred dollars on the coast, but no large amount.

Now on this hypothesis what do you think can be done in the East? And also can you assure the building of the orphanage next spring if we make almost a total failure here? Can you give me employment next spring in this work?

The Trustees at Phillipsville where I formerly taught have sent me word that I can teach their school during the Spring term (from March, March 20th, and ask me to let them know in a few weeks. If you cannot give me employment in the spring I expect to take this school until July and then get back to Dallas in August to begin teaching there in September. Please write me what you feel justified in saying that you can do.

Thank you for Mrs. Southester's report which you sent me. During the winter please send me copies of the Congressional Record and anything else that will be of interest.

With kindest regards to you, we are,  
Yours in the love of the work,  
W. S. Burpee.

Rev. William Jackson, D.D.

Dear Doctor Jackson:

I send this with heartfelt Christmas greeting to you and yours. It seems perfectly natural for us to turn our eyes and hearts toward you when we hear that you are again within reach.

I have not written, knowing of your busy days, and believing that you are informed on Wrangell affairs. I have assisted my teacher in Christmas preparations, songs, recitations and gifts. I gave up my school work with great

regret and I can never lose my interest and I don't want to  
 drop quite out of the ranks of workers. I shall continue my  
 study of the people, and expect to be studying I may say them.  
 As a Christian, and living under them, I must not be other-  
 wise.

The material which I have written for you, I have  
 the privilege of this week, something like a month, to  
 the local school committee, to your the Board of Education  
 is intended. I have not yet received any of the letters to you.  
 As to the other side.

Mr. Barnes is quite attached to John Bradley  
 because he is a friend of his father's. I understand all  
 the particulars and know that the other side is  
 likely. John Bradley is a man who is not to be  
 any the better and not at all better. I have not yet  
 one side to be written. Barnes, Bradley and Bradley are the  
 opposites.

I am sure you are in the hands of the  
 to are very friendly towards you. To me by the  
 confidentially of course, but the other side is  
 moved. The condition of the other side is as bad as  
 possible. It is not to be said to be the best of things in  
 the world. I fear the worst of the other side is that it is  
 no price for their property, but as an individual person  
 would take them all of the other side of the other side.

John Bradley and I have been in the hands of the  
 and get off in the hands of the other side. I have been in the hands of the  
 in late Christmas. I have been in the hands of the other side. I have been in the hands of the  
 in the hands of the other side. I have been in the hands of the other side. I have been in the hands of the other side.

As ever, I am yours,

John W. Barnes.

Dear Doctor:

Your letter of the 1st instant received. Thanks  
 for your kindness in sending something to me. The same will  
 find through your letter also through me reaching my time  
 on February first to which date I have forward Washington D.

With me what about the other side of the other side  
 is in, before leaving, and let you know what I find out.

Trusting and truly,

John W. Barnes.

News of a pointed of a specimen of John Bradley has been  
 received. I understand it is from Oregon and a friend of  
 Governor Hatch. It is also pointed that Governor Hatch

Attorney General and so have instructions telegraphed to the District Attorney, the Clerk and Marshall. I believe that Hughes will vote aye, but he cannot swear.

Yours, truly,

Rev. Sheldon Jackson,  
Washington, D. C.

Dear Sir:

We all rejoiced to hear of the good work you are having here in Alaska. By having all this in charge the work will go on as before. I understand that Mr. Stevenson will remain at Juneau another year. We were to hear that Mr. Kury, of Wilkes had given up his position at Stewart and had returned home. He did not need to do this. He would have stayed and done the work, for all was going well at home.

Have you any more plans among the Alaskan teachers? If not, do you think there will be any more? I have two parties who will make good workers as teachers and missionaries.

Do not forget to show your report when it comes.

Dear Marshall, Fairbanks, December 27th, 1901.

Rev. Sheldon Jackson,  
Washington, D. C.

Dear Sir:

Being in the papers a bill for granting license to Alaska introduced by Senator Delph on the 11th I put you a line hoping that as you are interested so thoroughly in the territory you will be able to show the harm that would result from it to all the native settlements throughout the territory. And as far as I know there is no call for license anywhere in the territory with the exception of a few of the towns about Sitka and I know that no worse thing could be done to the people in Kotzebue District than the license to sell liquor.

As you know, we have only one Deputy Marshall in all that region and no justice of the peace and no jail. and as sure as this act is passed every little craft that can be got to carry a keg of whiskey will be running from town to town selling to natives as well as white men, and in a very

few years it will be a question either for the Government to support the natives or let them starve and I trust that if our Government can do nothing better it will not insist on forcing this uncalled for evil upon us.

Excuse the liberty, but as I have been a resident of Kodiak for the last 12 years I felt that I must call your attention to this matter.

I have just received the Senate Bulletin and Bureau of Education pamphlets which you were kind enough to send me and thank you very much for them. They have proved very interesting reading for me and I venture to hope that you will remember me when you have your report prepared for the year 1971, as I would be very much obliged for a copy. I wish you every success in your grand ethnographic project for the introduction of the reindeer into Alaska and I have every confidence that merit of your scheme and your own persistence will be sure to carry the project to a successful

Der Sir:

I am in receipt of yours of the 3rd inst. and note same. I think as Capt. Kelly does that with the change of the keepers of the Refuge Station that you will have all the room you require at Point Barrow, but at the same time it would be a good plan I think to send up a lot of lumber and let them build such a house as they want. You could send the rough lumber up and they could build a house to suit themselves, only I should like to have an idea of about what sized house they would want in order to get the right lumber and the quantity required for it. I wrote you a few days ago in regard to sending a steamer up and take all the passengers that you wish to send and anything for the different stations. As soon as I hear from you I can then decide whether I can send the steamer or not. As I wrote you before I would send one up even if it costs me several thousand dollars more than I would get. In sending so far I think it would be advisable for you to be sure of getting your parties to their place of destination rather than take any chances. I do not know the size of the building that Mr. Kelly erected and have no means of ascertaining; anyway, if your people get up there and have no other place they shall have quarters in our building. Please let me know if you have not already done so, what you will have to go up and what amount you can pay for same, and I will then decide at once whether it is feasible for me to send the steamer as proposed.

Yours very truly,

Rev. Sheldon Jackson, D.D.,  
My dear Friend:

I received by the last boat your several letters of February 12th. I am quite satisfied to be relieved of my official duties and am more than pleased to be succeeded by so good a man as Mr. Kelly.

My regret in leaving Alaska is more on account with parting with the Indians than all other considerations. Ever since I came here they have been my wards, and I have spent

a large part of my time with them and for their benefit. I have protected them from the oppressions of the white men and from the cruelty of each other. I have not allowed any legal suits or proceedings among them, but have heard all their grievances and disputes and have settled them amicably and without cost to them or anyone. I have assisted them in sickness and buried them when dead. In consequence of these things the natives are all my friends and appear to be very much attached to me and express great sorrow and regret on account of my leaving them.

I have been apprehensive of some cultus politician being appointed who would be mercenary and selfish enough to oppress or at least neglect these good friends and drive them back toward their old barbarism.

I believe that Mr. Kelly will continue the same policy that I have, and be to them a friend and adviser. I have demonstrated the falsity of the statement that the Indian is destitute of gratitude; they are not demonstrative or servile, but they appreciate kindness quite as much as any other race; and also the untruth of the declaration that the only good Indian is the dead one. I believe with Gen. Manges that the best Indian is an educated Indian.

The weather has been so bad that I have not been able to reach Metlakatlah yet, but will do so before I leave the District. Mr. Duncan will not be at home until March 20th, and he did not come on the last boat.

I enclose to you a letter from my old friend, James F. McKee. It discloses important facts, and it appears that he would like to impart other information when I go there. Please do not use his letter in any way that would injure him with Mr. Duncan. As you can see, he wrote me as an old friend and gave the facts without intending to harm anyone. I employed him to teach school in Greenville, Pa., fifteen years ago. I will go to see him soon.

The canneries of Alaska have made a combine, but the Klaskan Company is not in it. Mr. Wadsworth will be here on the next boat, about the 20th of March, and until he arrives, we cannot say if the cannery will run or not.

Mrs. Thomas is quite well and will take the school at \$100.00 a month. Five months will be long enough for that place, beginning the first of May.

Before closing the letter, allow me most sincerely to thank you for your kindness and confidence during all the time of our official relations and personal acquaintance. I shall remember all our struggles and effort for the benefit of mankind, with a great deal of pleasure; and with the sincere hope that this confidence and friendship may continue through life, I remain,

Your friend,

Dear Sir:

Your letter from Fort Townsend was duly received. I have the Newport now about ready for sea--she will leave here to-morrow morning and will take Mr. Bruce for Port Clarence and Mr. Beupree for Point Barrow. These are the only two that have made their appearance as yet. I have heard nothing from the men to go to St. Lawrence Island. Mr. Thorsten, his wife, and another lady and a carpenter are ready to go to Cape Prince of Wales. I have taken on board the Newport all the stores etc. that you ordered and that they have ordered. The Cape Prince of Wales people took much more than I expected they would or had any idea of, and the whale ships have sent a lot of stores and vegetables so that it has filled our ship full before we had even to put any lumber on board, consequently, we are short of one house, that is the Cape Prince of Wales house. I wish you would let the lumber that is at Cape Prince of Wales remain there and let the Missionary Society have it as I am unable to take the house up there for time. I think that with the houses that we have and the house of refuge at Point Barrow you will be able to get along this winter and next year I will take this lumber up to Point Barrow for you. Through the misunderstanding at first about taking the houses up there my telegram sent to Fort Townsend were not interpreted right so that the house that was to have gone to Cape Prince of Wales and ordered from Fort Townsend to go on the America, did not go on her, but the reindeer house for Port Clarence is on board the America and the material for building wire, nails, hardware etc., is on the Newport, so that you will have your reindeer house. I have got the lumber for your coal house at Point Barrow on our wharf and the lumber for the house at Cape Prince of Wales, but it is impossible for me to take it. I shall therefore have to store it here until next year and then take it up. This is the very best I can do and I trust you will help out the Cape Prince of Wales people in letting them have the lumber that is there, and you can be assured that I will deliver this lumber and have it ready to go to your place next year. This letter will answer for an order to occupy any of our buildings at Point Barrow that you desire.

Mr. Beupree, who goes to Point Barrow, arrived here last night and has not time, nor is there room on board the ship to put on any more stores for him. I will give him an order to take what he wants from our Point Barrow

I am sure the ladies of the Methodist society could they understand the condition and field of the school and how well it is conducted, would become interested in its behalf and provide it with better facilities with which to continue and enlarge its work for the elevation of these poor neglected members of their race.

I cannot be accused of bias for I am of an entirely different religious belief. Prof. and Mrs. Tuck saw nothing of my writings. I am prompted by my interest in the country and the improvement of its people, and cannot remain blind to good to humanity by what ever professed.

Sincerely yours,

Dr. Charles Jackson,  
My dear Sir:

I was perfectly astonished and surprised when I saw the announcement this morning of Dr. Charles D. Rogers as Clerk of the U.S. Court in Alaska to succeed Mr. Peckersbaugh.

You certainly knew Dr. Rogers to be in Tallapoosa. You with the wisest among them; of being one who endeavored to tread the character of the various people, and who endeavored to make him out devoid of morality and virtue; one who was prominent in the justification and drunken rejoicings which took place when it was known that the Grand Jury had found no bill against the murderer William Cargwell and his associates, and now found no bill against G. H. Hancock and his band of outlaws who tarred and feathered Dr. Charles W. who wrote a truthful account of the murder of Mr. Rogers.

It is astonishing that a man of this stripe would receive such an important appointment, especially after the office had been filled by Mr. Peckersbaugh.

I do hope that this appointment may fall of confirmation as it should.

Dr. Rogers came from Birmingham, N. Y., to Alaska. Why he went to Birmingham is also known.

I am doing what I can to work up a sentiment for an increased appropriation for education in Alaska. I say, \$20,000.00, at least.

Yours respectfully,

stores and will charge him the cost of the goods here and the freight up. Now I have what he wants.

Anything our ships can do for you in any way you will please call on them, or if there is anything that you want that they have and can spare, you can get it of them. The matter of coal which you wrote to me about will be all right.

We shall, as usual, have plenty of coal at Fort Clarence and the "Bear" can have whatever she wants. Last Sunday evening the first thing I saw on opening the paper was that a party of Indians had killed Rev. Sheldon Jackson in Alaska. On reading it I saw at once that it was a mistake and was glad to know that you were far from that region at the time. I suspect they got the thing all mixed up.

This may have caused some anxiety to your friends, but I trust that the explanation will show to them that there can be no truth in it. Trusting that you will have a safe and successful trip this season, I remain,

Yours very truly,

My dear father:

I have brought and give you the coal I have to the Peace Lake village. Two years ago I brought down a like number. I am disappointed by this part I have not in providing scholars for the school to give you my views of its character and surroundings with the hope that they may excite interest in its behalf among the friends and supporters.

In all my experience in the country I have seen nothing that has rendered so much good to the people. From its situation it has tributary to it this whole western end of the territory where there are numbers of children and poor wife, many the off-spring of white fathers, growing up without the care of homes or the education and training of Christian parents.

Prof. and Mrs. Park have labored seriously and well to teach the scholars the rudiments and requirements of decent living and train them to become good house-keepers and proper wives and mothers. But they are cramped by the room and accommodations at hand. The school is already wanted to its utmost capacity and must take away when it would be a sorry to give the protection and could be received with a suitable building and support.

Dear Friend:

I received your letter which came to me on last week. I was very glad to hear from you again. I cannot say any word back to you but still thank you many times for all what you say to me. I don't know that I ever asked you to take me back. I remember it very well when you and the other five ladies was asking me if I wanted to go to last I was working for Dr. Austin, that time your friends asked me I was willing on the inside what first you ask me I then say "yes", but I never was out to any one that I wanted

to go back nor never willing to my friends at Sitka. It is true that I ask Mr. Kelly that I wanted to go to Oregon School you ask Mr. Austin to give this letter to him the one you wrote me as I did. I cannot tell you how I am feeling in these days of wife who is very sick and I have no friends that could comfort me. As I was reading your letter of wife and me, you says to me "Fred I know there is a big work for you in this country your letter we read" I then read it to her. Although one of your friends would give me up but there is one friend I have never met yet, that's Christ, I shall trust in him.

With great love to all

Many of the girls, especially in the lower and poorer the churches (and one in each church) very anxious to take of the Graceland some the children are. I heard that the children are under the government but I cannot tell what the children are now the number of teachers and students. The world got them from the government reports I should think. The bill that some presents of the system is "The Law of Disposition" by J. H. Jones. The main point in the religion I heard was that the government could not get the religion to follow in regular way.

Dear Sir:

Your letter in relation to Mr. King's matter as delegate to General Assembly and also with respect to Governor King's position on the school question was received. Governor King's action does not surprise me in the least for he is the wildest man I ever heard of who suggested a prebendal position and his perambulation around of the \$500.00 as salary is in reality a downright robbery. How much reasonable grounds can he have his demand? He averaged one short week per year in the James school and in fact has been a stumbling block to the school work in Alaska ever since he could not getting to the disapproval of the school board. He has his son and daughter in charge, as the teachers of the principal schools as well. The money which the Governor took from the Commissioner he could well, in fact we should be in need of it here, and David put it to very good use in clearing off the school land as to furnish a play ground for the children, which David would have to be trained as to convert the new money ground to such use.

Mr. Hamilton partly understands the situation here and the sentiment of the school board with respect to the reorganization of the Governor's action. The school system in Alaska never was in a better state than it now is and I am sure if Governor King had been in charge of the people here he would have been a man of very high calibre as compared to his handling of what. If there is anything I can do for you let me know. I will always be glad to serve you. My best wishes to be remembered.

Very respectfully,  
F. A. Hall.

Mr. Smith,

Dear Sir:

As I have a few minutes to spare this afternoon I would keep you a few lines to let you know that I have arrived here safely. The house which I am going to use for our meeting is in very bad condition. I have spent three days of work on it and still it is about same yet. Last week I called the children and all came in and said they had none, but I am sorry that I have nothing to teach with. I told the children that I would try to have a school three times a week but I have nothing to teach with and so said that I can use for everything. I gave the note to Mr. Spaulding which Mr.

Deaking sent him and he told me that he has no right to give me permission to take some books out because he had nothing to do with the school. He please tell Mr Deaking and also him if he can spare some for school books. Next Sunday I have a grand meeting which will be so happy to see many people. Most of these people expects to go to Kase Village to make a feast there. One of my sisters is very sick at home. I told Willie to ask you for medicine and send it to me by some Indian. Five days ago somebody told me that Mr Edwards was shot by one Campbell, they left Williams before I got there and I would like to hear about him. Please tell to our people to remember us in their prayers. Hoping to hear from you soon. Good bye

I have come with excellent marks respecting Henry Williams' fare to Alaska, and will start him from here on Monday next. Henry has had some very nice presents from Mrs. Shepard, for which he seems grateful, and goes home with every intention and purpose to make himself useful. I will give him a letter of instructions, and the two letters you send to ministers in Port Townsend and Seattle.

I cannot get a better rate than the one you have, consequently will pay and give him the balance of the \$10.00 check, which will be more than ample for all his expenses on the road. We will start him from here with a horse that will last him four or five days.

Dear Sir:

I sent up applications and credentials to Senator Dole some ten days ago. I had among testimonials from Governor Knapp, State attorney Johnson, Hon. S. T. Foster and Hon. H. A. Jenkins. Mr. W. W. Johnson wrote a personal letter to Senator Dole.

I delayed applying for the office of United States commissioner until I was certain that Judge Hughes would be removed for I did not wish the office if Hughes was retained.

I have concluded to visit Washington, D. C., and spend part of the winter there. I will leave here about the eight instant. I think my applications and credentials would be there in time. It will be no great disappointment if I do not get the office yet testimonials from the Alaska officials would be secure it for me. Nothing preventing I will see you about the 15th. I am still there.

Dear Sir:

Yours, with accompanying and subsequently sent reports have duly come to hand. I thank you for your sympathetic and hearty and helpful attitude of contribution of the college in aid of your efforts to educate and domesticate the children in Alaska. An acquaintance of over fifty years with the family of Mr. Joseph A. Mills of New Castle Pa., and especially with Mrs. Wilbur has led us to feel a deep interest in all that concerns the welfare of that far off land of ours. I trust that God, in His Providence will make you greatly useful in that behalf.

Dear Friend:

I received a letter from C. H. Skene this morning bearing date 15 no. 10. Giving some accounts of his school there. He has some thirty children, boys and girls. He feels very lonesome. He says he has not seen a white face since the steamer left the island that took him there. We have now in the Mission House on Douglas Island fifteen children all seem happy and contented. The snow is very deep and is quite alarming getting around. We have had some very strong winds the past week or four days but at this writing it is calm but very cold.

We have just heard of Senator Smith's death at Kansas which is very sad news to many. We hope you are well and enjoying good health.

As ever, yours

Dear Dr. Jackson:

Your good letter of December 18th, reached me on the day's steamer. Thanks have been by last steamer and I collected "Forty Dollars" from him and his family, and a check from Mr. Allen as a partial back for our school and other matters expecting to send it to you. Mr. DeWitt returned on the same steamer and said that he had been empowered by the Board to take charge of the colleges of which he was the head of the property and deposited the money I had collected as I turned it over to him assuming you had arranged matters with him while in the East. I am surprised at the time of your letter as you do not say anything of our work arrangement and have I say he will collect money for the boys. I am never satisfied about the arrangements made by the Board when Superintendent are changed as "There ignorance is blithely the fully to be what I suppose. If this money belongs to you I suppose you will have no trouble in getting it from Mr. DeWitt as said Board. I had a talk with Fred Moore the other day and I advised him to go to Angoon and open a school in Skene's house and preach on Sundays. Told him to get the house free if he could if not to make a bargain and not to give over \$4.00 per month, told him to go to

work among that people and see what he could do. If he could do a good work he would get all the money needed. Think he will go by this steamer. He has no money, no books, no apparatus of any kind so he will have to start how to make bricks with mud and straw if possible I will give him a few dollars. Think if you could send him some money soon it would encourage him. We cannot expect him to live for nothing with mud and straw. Hope the cottages here will be able to get work on the buildings you mentioned. I hear that a new judge has been appointed for Alaska. He cannot force money for the church and hope it may be helpful for us. I should not hesitate to fight these people if they should strike us but it is the poor natives and the children of our school that have to suffer. We were near having a fire this week in our sitting room and one woman burned one of her hands in trying to put it out. Several other women people had burns.

Yours truly to Christ

A. T. Austin

Winnipeg, B. C.

August 10, 1904

Rev. Sheldon Jackson, U. S.

Washington D. C.

Dear Sir:

I have arrived here up a little and in good luck by steamer to-day in Williams. Well, he seemed to be the other village. He has been having a little trouble about getting married. They wanted him to say his wife. Well, Austin has been his companion in that. I did not learn particulars as I thought it best not.

Now, about the matter that relates to me. The picture here is a serious one. It is not altogether the fault of the individuals. There have been confusions that were exclusive to the trouble. Everything is now held in place by sheer force of will. Day by day, that force is to be strengthened. As one here has said, "I do think Mr. Jackson is the most independent man I ever saw." I smiled. My first impression was to let the whole business alone. However, that would not help the situation. If you have any remarks about property (especially, I have taken the entire remaining school property and all the buildings into my own hands. I pay the greatest deference to Mr. Austin in his church work, and he sees the Superintendent place in its right light, entire control of the educational institution with all its property. I took the money for these cottages, and send it

enclosed, One hundred and sixty dollars (\$160 I.)

At present I have no place in which to make a first apartment. Mrs. Deaking made it a condition that she should have a house apart from the building. When you and I were talking to Mr. Nelson he told you of it, and said to me afterwards that you said I must have the house if I would go to S., that condition would not stand in the way, he. This is a great room. My wife, two children and a young girl to care for them, spend their time in the two rooms Mr. Kelly used. The girl goes back and forth to sleep. These rooms, I believe, are furnished with your carpets. Mr. Mrs. Deaking wants to get settled, for there is busy work for her here. I have hesitated to send her some things to make us comfortable until I knew whether we are to get in the house at some time. I am not the mediator of this problem in the building up of the school. I had a spiritual attack in my early days and when I was ten I said I was to have a long conference with you.

In obtaining my hair for my scientific purposes you may be sure that it is especially dyed to be dark. The situation here, with all its shortcomings and limitations has been the first of my eyes with an unusual effect of my own. It is well, I hope and been my work night.

In my way which you feel like recommending as your "Grove Day" matters to me, and be useful. Mrs. Deaking will give a little more to some thing of the same kind. The hope is that it will be useful.

Respectfully to Mrs. Deaking and your daughter.

Very sincerely,

John Deaking

Dear Sir:

Thank several favors received. The matter for the "Grove Day" is just in time. I would have had the paper off this summer but the last one is now very ahead of time. My thanks for the suggestions. They will help. Now, I go with you in the idea that it will never be to pay the Alaska \$100 per month for the printing. The issue that we are now now are now

out upon our own press. It will cost more than the next one because the office has lapsed into confusion. It was cheaper to pay for the putting on the paper from the color than to straighten the cases. Then when the type is thrown out, it will be into right places. The "Alaskan" is not in very good shape, so that there was a good reason for beginning our work, they are not only to get it off regardless as their printers have "struck".

The letter printed was over his will be made up at Christmas, New Year, and January will be the last of the season of delay.

My, I'm sorry to hear you are so disappointed because you did not receive the "Alaskan" papers. The hotel was, Austin who called him. Most of the "Alaskan" papers were there last night in the clothing store, and I was so busy and busy.

Send the printer. I must have him. He will, say to figure as they come along in your last letter, if you think he would better be in school now than at the time. He has been who would like to learn the trade. That is what I am thinking of trying now, and if I can get him to, I believe he will be the best of a man just at the time.

Yours sincerely,

Dear Sir:

Yours of December 28th. reached me to-day. Three or four days ago I learned through the columns of the Home Missioner Journal that the W. M. M. U. of Boston had voted to build the orphanage. I am exceedingly grateful and thank the good Lord for answering our prayers. In lecturing I have only been successful in drawing good congregations, but they do not give freely to the work. They seem greatly interested in what I say but I fear they do not as general thing believe my story. I represent to them that our people of Alaska need aid as much as the peasants of Russia etc. A few of them seem here at least become somewhat interested and they say they will (I then think) raise \$100; and if I can only get the churches in San Francisco to take hold of the matter we can do a little. It is my opinion that it will be impossible to get to work on the buildings before June. The April vessels are usually heavily laden, and the weather is usually unfavorable to building in the Spring months. Brother Federoff will be at liberty in June to superintend the building in which he is anxious to engage.

I shall be sorry if I have to leave my old church. I fear that I cannot persuade Mrs. Bates to go to Kodiak - or Alaska as there is no physician at either of these places as there is at Kodiak. We expect there will be eight American ladies in Kodiak next summer. By the way, what kind of a man did they send

in my place? To be a Methodist? To be a Baptist? It seems to me that the Indian teacher should be a Baptist as the ordinance will be learned best that way.

My, David! as you find it not a Jewish teacher. I suppose you will send a Jewish teacher and his wife to that school next year. I am still struggling with an intention to go to San Francisco to lecture if I get any encouragement. I shall probably spend some weeks of my journey to that coast of visiting India. I have just written a letter to Mr. Brewster. I did not mean writing to him from the same.

In reply to some of the letters which I have to say that I have never knowingly furnished any information to any one connected with the Fair Bazaar. During my short stay of five or six days in the city, I am not reticent feeling any whiskey at all. Nothing that will be a good general to affirm or deny the allegations of Mrs. Jackson and others.

I have written to Charles Wesley in the same effect and to the editor of the Boston Herald who has asked to give me as his authority. Trusting you will find in the opportunity of changing this matter, I remain,

Dear Brother Jackson:

I enclose a little note just received from Dr. Jones of our faculty who is at present the stated supply at Wallingford. This church is in the suburbs of Philadelphia and has some members blessed with wealth who might be interested to do

something for the work. You will have a very cordial welcome if you can go. Mr. Spear one of the editors was formerly an elder in Dr. Breed's church. Several times they have asked me if I knew where you were and whether you would take them in on some of your tours. If you have a business letter bring it or if necessary they would have one belonging to Dr. A. I suppose, if they arrange for filling the afternoon. If there are any special arrangements let me know. As early as possible will greatly oblige. If you desire to come have full instructions in the programme. We would be glad to have you and any of the family at any time you come this way. Mrs. Brewster joined me in kindest regards. She has had some nervous action like yours but is improving in health. Have you had any news lately.

At Secretary White's request I shall send you in a few days a written statement of my views upon the National Service question. It has seemed to me that it would be well to have some one in Washington to whom I could refer my own thinking. The credibility of my testimony will be going to have the liberty of asking you to say to any such that I prefer to go to Government at Winney or Virginia or to any of the other members of the Council of American-Soviet College or at the Washington Academy which is situated at American-Soviet, Prince Edward Co., Virginia. The senators and representatives from Virginia will know of my family I think, although they do not know my personal life well.

Please send me several copies of all your publications and literature. I think I can use some to advantage and if you will post me when the time for writing comes I'll appreciate it. I will write to our Virginia Congressman and remind him of his nation. Please send me also those little but very beautiful etc. I left with you.

I send you another letter containing a formal denial of any connection with that clipping. I am very sorry that it has happened and am half inclined to think some of the whistlers are setting a trap for me. However, I have a good conscience and they

a bad one as I do not know. The matter is irresponsible I suppose and might be well left alone. But at the article is new to me; for example all that about the liquor on the trailer and the exact figures about the money the paper I may have heard but if so I am sure mistaken.

Very respectfully yours,

H. H. Thompson

Rev. Mr. Jackson,

Dear Sir:

At the request of the members of our New York Society (Honor's), I write to you if you would like to know Alaska and its needs when you may be in the city for the first time. We have a small society of interested citizens who are anxious to know more intelligently than we are now. We, I intended to write asking this favor of you as you are one of our largest donors and you are in Washington and would be the person to whom we would be willing to tell even a small number of things concerning our needs of Alaska. Should you be able to write about Alaska or our needs our society can be opening to you. We have a printed list from New York to New York "Alaska's Needs". We would like you to send a copy of this list to you at 110 Broadway, N. Y. City, or to Brooklyn.

Please let us know your intention to do so and thank you for it.

Dear Doctor:

Our Board requires some responsibilities for us as well as for women. I want Brother Lane for our Indian House as general superintendent of Home and Farm for which he is admirably fitted as you know. Will you write an strong recommendation for him as the more will be trustworthy to the public and the more.

I have the Alaska at Washington in a few days should have been there at 8 o'clock ago but I had a severe attack of Bronchitis which will require some medical attention in the planning and every effort. I wish to see of you some thing about the money as soon as possible and some letters I wish this could be arranged before I go to the State and the public work as first of last.

Please send Brother Lane's recommendation as before will if possible.

Very truly,  
John A. Dally.

My dear Dr. Jackson:

In the matter of that industrial building at Eliza, Alaska, I am recalled to ask as a preliminary measure, would it not be well for you to limit the amount of your expenditure? I think you limit it to the amount expended on the Portland Industrial Building, but that is a little indefinite. I am writing Mr. Deering and I would like to be able to give you definite instructions as to the amount of your proposed gift in dollars.

I think, I will try to see that you are not misled for a  
 larger amount than you intend to give.

With many personal regards, I remain,

Truly yours,

W. A. Rouse,

Treasurer.

Dear Sir:

Please send me an Ag. Circular about the amount of  
 money actually landed at the Cape of Good Hope. I am  
 Protestant friends were disappointed whether Mr. Sherman's re-  
 quission was filled exactly as written. They also to submit  
 them as soon as possible to a committee of inquiry.

I send you the photograph you were so kind to send me. It  
 is one of a number I had taken in the Transvaal the  
 instigation of some friends of mine.

Dear Dr. Jackson:

I found your card on my table this morning and learned that  
 preparations for going out of the city this afternoon. I am  
 at home later than usual and as your call was before my arrival.  
 My daughter and I listened to your interesting and thrilling letters  
 last evening—perhaps you are now in the cold weather and in  
 having a long ride to our home I do not think it prudent to  
 stay through the later part of the day.

I hoped to see you today and was surprised if I did so, to  
 communicate a purpose lately formed, to ask you for an article,  
 for our paper, on Alaska. I now earnestly do ask you for such  
 an article. I should like to have about 1000 words—not over  
 1000 at most. It may be that you choose to write under the  
 comprehensible title Alaska or more especially on the Esquimaux

of Alaska or any other specific portion or part of the most comprehensive show, at your discretion. Under recent instructions of the committee I am authorized to promise you for such an article the quite low mail remuneration of ten dollars.

Dear Sir:

Mrs. William Jackson you sincerely for your contribution and copy of will sent her January 4th. The Committee attached by the National E. S. F. C. on this line.

Very sincerely yours  
W. A. Nelson.

Mr. William Jackson, Fairbanks, Alaska.

Mr. William Jackson,

Dear Sir:

Our people of Fairbanks E. S. F. Church are still very anxious to get you here in Alaska. Our secretary, Miss Hill has been conversing with you concerning the matter and feels so disappointed that she did not gain the cooperation of other societies that she felt it to try further. The ladies of Fairbanks would like you to come here and they feel their poverty as badly as we do to help you the way to bring you here. I feel we are humbly anxious to you but write to see if your plans for the Spring will bring you this way - when and where?

Our mission societies are trying to raise \$100 for the work in Alaska but our people have not large means and this seems a heavy pledge but they have great confidence that they could do it under the inspiration of your testimony in fact they give the committee as much until they secure you.

Mrs. Washford of Fairbanks has found two ladies who are willing to go to Fairbanks as our missionaries in the coming July. She recommends them highly and we are feeling much encouraged.

We thank you for congratulations on behalf of the family  
one. He is a very fine fellow who will be in service and the  
first of February. He came to Berlin and asked for the  
President but ran up difficulties, and though not as serious as  
last and therefore, as good as any other one. He was well and  
happy.

[illegible]

no greater enemy in U. S. Alaska, he loses no opportunity to ridicule and belittle the work and prejudiced people against the workers. I heard a lady in Grangell who has known him intimately say that Judge Shackley had stopped the missionary work in Grangell.

In December Mr. Willmore took four boys from here to Sitka Mission. Mr. Shackley said in Spivester's store, "Willmore is taking these boys to Sitka what will they learn there?" an answerer answered "Learn their a-b-c's and to lie and steal." "Yes" Shackley answered "That is just what they will learn".. Again on the January forum there were two reporters. One was asking questions of Mr. S. "Tell me replied "The work with the Presbyterian Ministry here is a dead end". There are only supplies. "He allows no money to come with and saying all he can against the Mission here and those elsewhere. As a result superintendent Mr. Willmore has written you fully of the Barnes affair. If this is an example of missionary then a large part of humanity are really off the track. However the school building at Kake as another example of this missionary. I hope you another letter of Mr. Stewart's. The Government had sent this letter and says he will do all he can to help him. This makes the a further of the waste and give him a position if I believe the logic. We are much interested in Mr. Stewart and correspond with the regularity. I hear that Mr. Shackley proposed to have Mr. Stewart leave of both Kake and Kasaan - saying you see a missionary going I believe - this must have been the ruling motive in building that "They are all full of a thing". The saying, now have been received that but one missionary will be appointed to U. S. Alaska this winter. If this goes to ask at Kasaan he will be there. You are probably aware that he was in teaching at Cleveland now. As to Mr. Willmore's feelings of minority toward Mr. Shackley - it is to be wondered at. Mr. Willmore would have little to say about him as far as I know. He did not resent the unbecoming attitude of Shackley to himself his public, private and personal character in every way and was never with out the least regard to truth. But now how does you have an enemy who has treated you thus. I trust you have used alluring efforts to remove him from office who are less interested and not more friendly to the missionary cause. I do not know you would not retain Mr. Shackley as long as your subordinate if you knew him as he is. He certainly must have changed greatly or the majority of men in any district in Tenn. would have elected him to Congress. Hoping you will give these facts a due consideration I await your reply. I write this letter with out any greetings nor remembrance from Mr. Willmore and

The contract with the Bureau of Education for the fiscal year of 1917-18 is an important measure of the confidence of this school system. It is to be able to raise additional funds to meet the part of the contract and we feel it desirable to ask you for some assistance which you so kindly proffered. The bill and particulars concerning the budget for 1917-18 have been placed in Mr. Harrison's hands. He will examine them this week and they will be laid subject to your action after they have been examined.

 Dear Sir:

Mr. Dillingham, I am sorry to hear that the contract for the fiscal year of 1917-18 has not been made. I am sure the contract will be made in due time and we will be able to get it up as soon as possible. I am quite sure that we shall be able to get it up as soon as possible. I am quite sure that we shall be able to get it up as soon as possible. I am quite sure that we shall be able to get it up as soon as possible.

The question whether we have no rights that can be maintained  
or that depend entirely upon the threat of those we fear, with  
and whether we can accomplish anything by a wholly or partially  
retained policy. This is of first importance with government  
officials and I suppose I am fortunate in this. Please note my  
changed address. It is a beautiful story I am trying to learn  
more about medicine.

Very sincerely yours

Dear Sir,  
I am sorry to hear of your illness.

Dear Dr. Thompson:

On your return from the hospital, please let me know

Mr. William Thompson, Esq.  
U. S. District Court, Southern District of New York  
New York, N. Y.

Dear Dr. Thompson:

We have had a conference with the Southern District  
Attorney, relative to the amount of a reward for the apprehension and  
delivery of Southern persons. It is suggested that it  
might be suggested that the Southern District Attorney engage or purchase a vessel,  
the officers paying a percentage of the amount of the reward based on  
the amount of freight received. We had a conference over the  
matter in the room yesterday and it was suggested that I write  
you in reference to the matter. Please let me know what you  
say. The Point Barrow building is finally completed, the Board will have

when she will probably travel. Just now, Fiera is by herself in West Swinney N. H. is working well and doing very nicely. If she would always be as well as she is doing now, I should feel great hope for her future. The others are doing well on the whole.

In regard to next year. I suppose that Blanche and Fiera will return to Alaska. Alice is doing very nicely with her music. If she could have a little normal training (and some kindergarten too if possible) I think she will make a very successful worker among children. She has a natural aptitude for teaching children and is fond of it. I would also like her to keep on with her music as long as she remains East. She already has enough to use to advantage in Alaska. She is a faithful earnest worker. Florence is different--full of fun and liable to temptation which the others will not have. She is doing well however. She is a good student. I think the normal school would be the best place for her for a year--so that she will learn how to use what she has gained. She has made up her mind to the idea now although she had seemed anxious to go home soon for her Mother's sake. Should be glad to have a talk with you about them. Will you be able to visit Northfield on this trip?

Yours very sincerely

Abigail F. Foster.

Dear Sir:-

The National Conference of Charities and Correction which meets annually in various cities of the United States among other interesting matters an annual symposium of the progress made in the charitable and correctional affairs throughout the Nation. This is compiled from reports received from corresponding secretaries in each State and Territory who are chosen as being somewhat conversant with the subject and known as public spirited citizens.

The Conference is, at present, without a secretary for Alaska and at a recent meeting of the Executive Committee your name was suggested as being one likely to act. I presume you are acquainted with the purposes and scope of the Conference. I

send you herewith a circular of last year's Conference and a list of the officers and committees of the I.W.O. Please are sent to the subscribers, a few weeks before the Conference meets, for the required information.

If you can leave the Conference by accepting this position we shall be much pleased to have you do so. The office is a purely voluntary one, there being no compensation except a complimentary return of the annual proceedings.

The issue of an early reply is requested.

Very respectfully yours,

Alexander Johnson.

Dear Brother:-

I beg to inform you that at the late anniversary of the American Society Union, held at San Francisco, you were unanimously elected the State Secretary for 1895. It is simply an honor-ary position requiring very little of your time or attention. We need you as officer and we want to have a year's work certain quarters in a reliable manner. Any assistance you can render us in our great work of saving souls will be most gratefully appreciated. Trusting you will accept. Believe me,

Yours truly,

My Dear Brother:-

You have shown much interest in us and our work that I feel both glad and obliged to tell you a piece of good news. I have succeeded in procuring a very good and charming Christian young lady to marry me and go to Alaska. She is a Congregationalist, at present engaged in city mission work. Her will, I am sure, be a help-meet to us in our work, as well as a dear companion.

Tristfully yours,

Vancouver, O. O.

Dear Sir:-

The enclosed letter from a few days ago is forwarded to the "North Star". I remembered the thought and mentioned the reference to you.

Yours is right in the position of the North Star. It is a long way off. I will send the matter and myself and the list of our property and some money to the committee. As you would be doing some in the way of forwarding them. The matter of the money will be sent on. I will see that the appearance is as you desire, and will be careful. You may expect reports from the North Star when you see them.

Respectfully yours

At a meeting of our society held last evening, the ladies were enthusiastic in their desire for you to lecture for us on Thursday, February 20th. They were all anxious to have the lecture either in the evening or the afternoon. The attention of the young people and their missionary intelligence and interest might be increased. As you would be your first lecture of January 20th. If we could like a meeting on Thursday afternoon and evening, February 20th, we decided to have the two meetings in that case the afternoon can be given entirely to missions and to the

I hope that a meeting with Justice Brandeis, one of the most liberal judges in the country, will have the same effect as the meeting with Chief Justice Hughes, one of the most conservative judges in the country. As to the results from the court, I think the effect will be to make the court more liberal.

Dear Sir:

I want to give you my sincere thanks for your valuable  
letter of yesterday. I was very anxious to answer it with some  
sincerity and had feared that you might be unwilling to do anything  
on the subject that is somewhat delicate. But you have stated  
the case as it stands in a very clear and fair way and Mr.  
Thompson needs to know the facts as you present them. Mr.  
Thompson is now residing in the Hospital and I find as carefully  
studying your letter and by writing a very few words of  
personal reference I can send him a very good idea of what will settle  
his question. With thanks,

Yours sincerely yours,

Dear Sir:

The Advisory Board, Board of Missions, Buffalo understand you  
are to be in New York soon to give a lecture. We would like  
very much to have you come here and give us a lecture on Alaska,  
Thursday February 24th. Will you please write and let us know  
what you will charge?

Very truly yours,

Dear Sir:

I am convinced that we must look toward a Alaskan building. To have us out in aid of. (1) Can you recommend some good man of the Pacific coast, that can be trusted to work for us? (2) Is it not better to have a frame made in San Francisco and shipped up to Alaska or will it be best to send up the lumber and have it made there? (3) Will Mr. Parson's be capable of doing it? (4) How much of a house do we need? (5) Can you give a rough sketch of the general plan and working diagram? (6) Is a house of this kind as we have seen in a newspaper and get well-known? (7) How much money would it cost to ship it? (8) Please be as explicit as possible in your letter. Mr. Davidson gives me up and you must be my only source of information.

Sincerely yours  
W. C. Davidson.

Dear Mr. Jackson:

Let me first acknowledge to you the receipt of your letter to express your views I send you the following. When we were on board the "Jennison" officers went nearly every night and some days breakfast and evening sitting listening, smoking, gambling and indulging in obscene language in the saloons where passengers the ladies would be surprised if they go to bed. There are only two water closets but in the cabin's room and the room in the rear; the latter was used by the crew, men and women and even for keeping my baggage in. The table linen was almost always stained and the messes, collected to form a civilized person especially when sea-sick. I am sure you would like to have your wife or daughters exposed to such indignities. While Captain Parker kept his officers in strict order when his wife was aboard it is not at all probable that he would do so for another man's wife and that man a half-breed "missionary". On the contrary I think it probable they would take pleasure in humiliating us. It is doubtful whether we can get passage on the "Jennison". Her officers would oppose the restraint of the presence of ladies and from a letter

to drop the cruiser plan and try to carry out your suggestions. We have already proposed to two other societies to charter a vessel but they seem rather lukewarm about it. Couldn't you influence them in favor of the plan? In great haste.

Very faithfully yours

A. E. Bennett.

My dear Sir:

I thank you for your interesting letter, received yesterday. I hope to go to New York sometime for a stay of possibly a fortnight. As I have just happened to come to New York to confer with representatives of the various missionary boards which carry on work in Alaska, I will be out of the city some time during my stay there. I should be very glad to meet you by appointment and talk about what you have been doing. My address will be Helix House, Fifth Avenue. It is possible I may get to Washington, but I do not think it is very likely.

Very truly yours,

John Manning Brown.

My dear Dr. Jackson,

I very much regret missing you on Saturday evening. A long dinner party was in progress, from which Mrs. Brewster could not excuse herself and I did not know of your presence, until late in the evening. Mrs. Brewster desires me to ask you to lunch with us tomorrow, Tuesday at one o'clock and after lunch you and I may arrange for your anticipated visit to us in Detroit. Should this be impossible, I trust that you may come in some thirty tomorrow evening but come to lunch if possible.

Sincerely

Charles W. Brewster.

Dear Sir:-

I delayed replying to your first letter wishing to have full authority to engage you on the terms you mentioned. It was a disappointment to receive your second letter for I feared from the tone of it that it would be quite useless to urge you to reconsider. I regret exceedingly that we are not more successful in securing and moving you. I hope you may stop over in St. Louis and give the first Church of which we discussed in the winter, a chance to listen to you and be benefited.

Sincerely yours,

Rev. Mr. Jackson,

As you have seen, while in answer to a public meeting in behalf of Alaska in Denver on 1 and 2 last week I met you in Washington, and it is possible that you are glad at the anniversary of our Church's birth to-day. Thursday afternoon, March 22nd. This anniversary will be held in connection with the annual session of the General Conference at Philadelphia, Pa. Jersey. It will be an important occasion and if you will consent to speak you may be sure of a large audience of believers and non-believers. The most of the leading churches of our country. Alaska has never been properly presented to our people and therefore we have been very slow in responding to its claims upon us. As we must decide upon our speakers for this anniversary at once, will you kindly reply at once and state your terms.

Respectfully,  
Very sincerely

Sir:-

Since my conversation with you regarding the whiskey ring of Blackett and Co., I have seen a letter written by Blackett to Oliver Brown Esq. in which Blackett asks him to secure Willoughby Clark the appointment of Assistant Attorney at Seward. In so doing, Blackett uses the following language nearly as I can remember it. "By so doing you will not only oblige me but also the whole Alaska Board. In making this appointment." "Do not commit yourself as to be sure to remove it". Evidently they intend to have a stand upon St. Jackson and place their pickets along the whole line, thereby making sure of controlling the law in their favor. We have called the court of instruction against these rascals but let us never let it down until we are victors or are crowded to the wall. "Let us policy the course". Use this as you may deem proper.

Respectfully yours

Dear Sir and Brother:

With reference to the book work to which I told you I was determined to have some narrative attention given. The new teacher for the academic part of this work was selected because of some general knowledge of several lines of duty. One of them was that he might pay attention to the book practice. And he is going to enjoy this part of the duty, and will so drill the Tr. Sch. and that we can do some good work with it. I am exceedingly anxious that the book shall be ready for this summer's tourist season. The instruments, however, are borrowed and old. Some of them are soldered in places. In conversation with me, the teacher has alluded to this several times. I did not tell him, then, how little hope there was of obtaining any regular funds for this purpose in this "tight" year. But, if some friend to this work could give us a hint in the matter, it would be an

by the Nile. The boat has not sailed for Western Long yet. I think the caries were from the westward, were they not? Your letter mentioned Alice Johnson, but I saw no message. It would be too strange if she had been there.

It would be the ideal, as well as it is ready. It would be a more closely sign with the one upon the other building, as it will be very close to the road.

Did Mr. Wells tell you that the 1942's had not been purchased for the purpose of this building. I have ordered it from Washington on purpose to have it put on the building during the time I have not yet arrived.

I hope that Mr. Taylor will be able to establish at  
least one and two learned at his residence. If he is

his being as well, and my hope is that I shall hear him at some  
time.

Dear Sir:-

The letter of the First Street Church refers to the money to erect a memorial to Mrs. Wallington would like to have just how the money is to be paid. It will not be necessary to pay the whole amount at once unless we commence building for several months. At present we are trying to pay off our debts and afterwards we could be sure for the memorial. We are willing to be as sure as the boys of the First Church, would not they have to wait until the close of the term before going to school? I don't think we could promise more than \$1000 to pay over the months. I am sorry not to see you.

Dr. Johnson,

Dear Sir:-

I express my hope you have heard of the case of Dr. E. A. Wallington—possibly you have seen the papers of America. However I send you the copies and perhaps you will find out your friend, District Attorney Johnson is very anxious to bring the case to justice but you know of what "kind" of justice is given and expected. As you see by these papers the case is for the smugglers, miners etc. etc.

I think the statements of Rogers and Rogers' wife are in my mind it is just what I have heard of these people. Rogers and his wife should be hanged. The killing his wife of the "American" Campbell. It is false. He had been sentenced to the penitentiary for two years. I am anxious to have Rogers executed. I am sure but at the same time it might be well to delay justice until after the meeting of the Grand Jury. I hope all agents at work secretly to find out all that can be known and their purpose might be frustrated. As the letter of Mr. Rogers' that I send you might be of value to Mr. Johnson please return it to me. The statement of Mr. Rogers' interpreter and of the natives differ

Perhaps someone will present them if you will make it known,  
style No.

Dear Sir:

Young of January 1904, just as well. In regard to the  
reports for the school and correspondence, I can only say we have  
nothing. As we cannot yet talk enough of the native language  
to be understood and as we were in an interview I do not feel that  
I have the physical strength to write my report in the line of  
Sunday-school at present. I always preach once a Sabbath and that  
generally with out an interpreter, when I am so fortunate as  
to have an interpreter I hold my services each Sabbath.

The only contributions I could report are private and I do not  
care to say that a matter of public working. I wrote you not  
long ago that we had no work with members in the line.

The school is a little better this month than I had expected.  
Though it is still going back into what we call a good way have  
vastly more in the Union and most of the day are likely to  
go with our day and as the weather seems to be working this  
Spring and a good many of the children are expected and nearly  
all of the native members expect to get plenty of packing  
to do. I think I will soon hold classes when I am able  
to get, in the house.

I am surprised and glad to hear that you are expecting  
L. F. Jones of Delaware D. D. to come up here. Mr. Jones is a very  
good man and I know he will do good where ever he is. I do not  
know of any one at present whom I think would be likely to come  
up here.

Yours truly

Dear Dr. Jackson:-

Have you any idea about what amount of model supplies Mr. Stevenson will need for the coming year for the Point Barrow mission? Does he expect to remain there another year, or will he return to the States on the return of the Arctic Cutter, which I suppose will go to the Arctic regions the coming summer? I think we will be able to meet the latter in the American Missionary Association, I mean the latter ship and intended for the Point Barrow building. I hope to hear quite soon about it. Dr. Christy has the licensed pilot and our Architect has been conferring with him in reference to this matter, and I believe has suggested a few plans for a building at some Point of Shores Island. If it is your purpose to go to the Arctic regions this summer, some day we must arrange for a long conference with you about these matters. We have a long statement, I think, Stevenson which you have seen, I think. It was accompanied by many suggestions in regard to school supplies etc.

Very truly,

Dear Sir:-

I have to thank you as usual of the points for long and services to its missionaries and the interest you express in our work in your letter of the 11th. In answer to your kind invitation, I regret to have to say that Mr. Ellington is quite laid and that there is at present no hope of recovery. But he is well and kindly loved after and in such measure. I have been among those who have been under my own observation cases of recovery, where for long there seemed no hopeful prospect. The other requests contained in your letter have been noted and will be attended to.

to a supply of coal for the Point Barrow Mission. With this I hand you a copy of Mr. Stevenson's request for medicines, also a list of supplies needed for the use of the school. I wish you would look over both of these and tell me what you think of them. If I am not mistaken, we sent up a sizable supply of school supplies last year. What I want you to look at more particularly is the requisition for medicines. If you think it right, kindly return the requisition to me. I wish you would also advise me if these school supplies and these medicines can be sent up on the Avenue cutter "Hunt". It has seemed to me that possibly they might also be sent up on the "Hunt" at your personal expense. I also hand you a copy of Mr. Stevenson's requisition for the use of my person who may be sent north in winter. I thought you might like to place this in the hands of the writer who will be traveling to send

Dear Sir:-

I was introduced to Mr. Bailey of Boston last evening and the lady Mrs. Bailey suggested to him to come to our meeting Tuesday, March 11th. I could not do otherwise than to express a wish to have him do so if he would be in the city. Mrs. Hamilton told him too she would give him a few minutes of the annual Presbyterian meeting on the 13th, if he were present. We had our time filled for that meeting but she will give him some time if he can be there. Now I write this to tell you that the preference is for you, especially as I wished to please an individual connected with you showing the growth of Home Missions. If the day is pleasant that we might have a good attendance we would be benefitted by having you both present and would gladly welcome both. I write you and advise you to "arrange for the speaking" and ask you to let me know that so we can be a mounted banner here.

The Honorable,

The Secretary of the Interior-

Sir:-

I have respectfully to acknowledge the receipt of your letter of the 12th inst., enclosing communication from the Commissioner of Education, requesting that the commanding officer of the Revenue Steamer "Bear" in her coming cruise be directed to cooperate with Dr. Jackson in the purchase and transportation of reindeer from Siberia to Alaska, and if necessary to permit a lieutenant and a few men to land for a short time to examine the country also, if the interests of the service will allow, that said officer be authorized to afford Dr. Jackson an opportunity of visiting the schools at different points of Alaska.

In reply, I have the honor to state that Dr. Jackson will be permitted to take passage as requested, on the steamer "Bear" on her next cruise to Alaska, and the commanding officer of the vessel will be instructed to convey him to such points on the Siberian Coast and in Alaska as he may desire to visit in connection with the purchase and transportation of reindeer, and the examination of the schools, so far as the same can be done with-

and interfering with the regular work of the vessel. He will further be instructed to remain on duty and one of the crew is to assist in obtaining witnesses, if they can be saved from their other duties.

The

Committee of Education

Dear Sir:

I desire your assistance in having prepared for the President a letter by the Secretary in the name of a memorial from this Department which is no longer negotiable for the welfare of the Indians in Alaska, the good government of the Territory, and for a more efficient organization there. I enclosed you the letters of Mr. Henry Foster, with the letter I had already prepared myself in regard to the matters at hand spoken of. But before this was transmitted I received further advice from you in regard to the killing of Mr. Edwards, and a letter from Captain Deady, with whom Mr. Edwards is acquainted, and whose advice can be obtained, setting forth a number of circumstances concerning the welfare of the Indians. The are connected with the circumstances connected with the matter and with the Department. By the way, it is generally with our organization is to give the matter that should be contained in a letter to the President, are that there is no efficient government in Alaska, and that Congressional action immediately is required, establishing

ing at least a simple form of government there to be administered through the Governor and a Commissioner, with the power of appointment of Justice of the Peace, Constables, and conferring jurisdiction upon the Commissioner and Governor in all cases other than if an appeal is heard proper from a Justice of the Peace. Prohibiting the liquor traffic except on the conditions with which you are familiar, and supported by a revenue fund, if not two, raised by appropriate officers to be selected by the Governor, and with police organized with the system that are to be provided. This is absolutely essential to the enforcement of any writ or direction against negligence. The laws against the introduction of whiskey, intoxicating liquors, &c., &c., should be very strict, because particularly of the possible effect of these beverages upon the aborigines of that country. The schools and teachers should be brought under the direction of the laws to an extraordinary degree, so that they might not only feel safe in the prosecution of their labors, but have authority to compel the attendance of scholars and parents the pupils of the community in which they live. They should be authorized wholly over when they are not, and kept under the direction of your excellency. Laws pertaining to the government of the land, and providing against the extension of one of the sources of food of the people there should be enacted by Congress with sufficient power, either the government should be authorized or power, and officers to enforce whatever the measure may be. The whole community should be subjected to recognize with and being the existence of a superior and formidable power to preserve the peace and direct the affairs of that country.

I write in considerable haste, as I am about to leave for a few days to take my wife South, but with the understanding that you and your valuable assistants, Mr. Stevens, if he is here, are the best hands to which I can commit the prosecution of this paper that would give me great pleasure to forward weekly, if I had the time. It is a subject in which my interest as lover of the race should cause a most earnest interest, and particularly at this time. I shall be glad to have participated in the movement that will bring about a good government for Africa.

Dear Doctor Johnson,

I am very interested in every fact relative to Alaska and especially to the Point Barrow station. The school at Igloo is very much in need of help. I am sure you will be able to do something for it. I have been very much interested in your article in this month's issue of the Atlantic. My purpose in writing you is to ask you if you are coming to Pittsburgh or vicinity this Spring or Summer you will kindly let the pastor at Monongahela City know and arrange to come here. We have sent for many years a hundred dollars in January money. This is done by our children's hands. There is plenty of wealth about our men and they are very public spirited about these matters but their sympathy does not reach out to Alaska or inland very far beyond the Mississippi in any degree.

I do not know whether you are leaving Washington at all and I would not ask you to come just to us if you were but if you should be near us we would esteem it a great privilege to see and hear you and to care for you with the utmost devotion and pay expenses too. Mr. Maxwell knows all I have said.

Rev. Sheldon Jackson D. D.  
Dear Sir:-

It is said that "The Mission of the West is their country" and I believe that the poverty and material poverty of the Church people of West Virginia has retarded the growth of missions in the years that are past.

My husband was once pastor of the Charleston First Presbyterian Church for three years and more and I have noticed that when the people are really interested and really want something they go forward and accomplish fairly well. And, indeed, if you would come to one of our Presbyterian Home Missions meeting (which) which occurs at Parkersburg, Arden, or at an stirring as we meet thoroughly that you would create such an interest in the work all along the line that West Virginia would no longer be the burden she now is—but would become land in a real help. I believe the people only need to be more interested. Please don't write me that you cannot come out, but as you are sure you will be with me when will secure a full mission. Almost all the what agencies will attend your coming. Our First Syn. Association towards Alaska.

My Dear Sir:-

Your letter dated the 19th ult. reached me last morning in Alexandria. Personally I am quite sympathetic for Mr. Gorman's letter to be read to be published and possible in, I think, would have no objection and I think it would be courteous and also proper to inquire. Would you mind the trouble of doing so? Some of these legends of these stunted Protestants, the Victorians, are in straitened circumstances in their respective homes in the French and Indian Alps. From your experience of Canada, what part do you consider would be the best for them to move to where land is cheap but mountainous, more like their old home in the Alps and as easily accessible to the sea coast as could be conveniently be obtained?

I do not know whether you are cognizant of the working of the China Inland Mission. It is one of the greatest missionary enterprises of the present day. I am sending you three numbers of "China's Millions" of course I will ask your acceptance. Their personal has interest you.

Many thanks for your kind invitation. Some years since I called over to Walter Lippman when I visited New York but I have not been since to see him. I have also to thank you for the publications you have kindly forwarded to me. Wishing you success in every good work. Believe me to remain

anxious to have our Presbyterian work in New York and I am  
greatly stimulated and would like you to give us a glimpse  
of the educational work in various places. Please send me the  
place-but our society knows almost pretty well. I should like  
more general help would be needed. One of our members will  
make a short address and we, I think will be with you and will  
only have about 1/2 hour for each address. I should like meeting  
at number 22 Fifth Avenue. That the Mr. Longworth and you there

We will do our utmost to secure a large attendance and will shorten our opening services so as to give you as nearly as soon as possible. The Women's Foreign Society Anniversary follows soon the same afternoon. I must tell you in confidence that our Home Society during the night cannot be ascertained but to remember the congregation and all those the opposites of many of the leaders of the Women's Foreign Society. Personally I have had the more desirous to have you address this Anniversary because many of these persons will be present. We shall earnestly pray for God's special blessing on our plan for the redemption of Alaska's heathen. You will remember that our Anniversary occurs Thursday afternoon at two o'clock. If you will write or when we hear about you I will give you whatever details you may need in regard to reaching Minneapolis in time and will be most happy to arrange for your entertainment while there. Will you kindly state what your charges will be so that our Treasurer may be prepared to pay you at the close of your address.

Rev. Sheldon Jackson,

Dear Brother:-

Your letters of November the 11th, and January the 1st to hand, the latter on Saturday. I have filled out the Church and Sabbath-school papers as to the prospective building here, with any we have a plan of our own and have nearly all the large iron foundation and frame, have ordered the lumber sometime since, from Berner Bay - all Alaska and sent to Mr. Mathews for doors and window frames to. Had a letter from Professor Harding saying he had met you in New York and got some of the plan of having the Bible house come to help put up the building. He said the Board favored it and the boys said they would be glad to come, so I believe we will give them a trial when we get ready for it. As for the post office, we expect to be at home this summer also Mr. Lyn Deary a nephew of Mr. Allen who established a store here last October expects to be here all summer and they expect to keep the store here permanently. He is a very quiet little man and should there be any short for a post office he would be a splendid assistant in my absence. But if there is no hope for that we would like the Governor to send us a special task with the following address, Rev. John W. Lee Farland, Boston, America.

If we should be so fortunate as to have an office we would desire it named the name, Mrs. W. Farland with us in kind regards to yourself and family.

Some of our people were in Juneau in last of January and returned with the Grimes in the first week of February. I went down on the Fifth and was in bed six days on Friday of the same week. Then took it and Mrs. W. Farland stayed here until I was able to sit up, then down she went and came out as about six days for me to pull through the week and I could not through the blessing of our kind Heavenly Father we are all up and busy as mailers although not particularly well yet. We had to close school until the first week of March and while school was out several families have secured principally every one of them. Some say we pulled the system out December in the same place. The next week we had some trouble at the date day, of not from different houses but I think it was about about the same. I got out as soon as I possibly could taking up medicine and was visiting the ranch it was a slight pitfall to avoid not by the blessing of God we got ahead of the season and all are now on the road. It afforded a grand opportunity for personal work. We observed the first week of March as a week of prayer instead of January. Well

our communion on the 4th. of next receiving twenty six professions of faith, on last Sabbath realized 11 more and several since have asked for the privilege. God's spirit moved one of the most respected and influential men in our city for Christ and he has been talking to his friends and they are being led to follow Jesus. We anticipated but gentle showers of blessings we are receiving.

Delivered our first meeting on last Friday evening via hour and the people from the above church.

J. E. M. Farwell, New York,  
March 11, 1890.

My dear Dr. Tatem

The ladies of our Presbyterial society want to know that you can do much more for our Home Mission Society work here than any one else. What they had in mind was whether it will really cost you the money to be with us on the 14th of April—even if it is, perhaps, some money at the "Hotel" end? They think that you can do much more here than anywhere else and give your experience. Now if the train does not leave Washington until after that time on Sunday that would not be your sleeping car time and so have dinner morning meal. I am afraid a sleeping car will not be so good as this. Will not our meeting be at the thirty and be held at 10:00 and will three thirty only suppose the train should be delayed. What improvements can we offer you to make the coming of I hope a divine festival to you—the fact of doing good and helping the work in this great city is certainly a great motive for you not to come business here for your independent work. If you can visit you let Mr. Bates send you the signal for about 1891 I can ask him. We can give you three quarters of an hour. I must not urge you but the officers of the Society were so disappointed when I told them that I had said to you that I have to write this now. Please do what you feel is best for yourself as our stakes may blind our eyes to your best interests.

Yours sincerely

Mr. Walter H. Bruce informs me that Congress "will, himself, and others have made application to your Department for permission to build a rail road from Fair Bank to the Yukon River. The said road is to Alaska to the head waters of the Yukon River. The said road is to facilitate mining operations and will serve all the interests of Alaska and will serve immediately also in the development of that section. The construction of such a road has again and again been urged by parties interested in the opening up of Alaska. I have often spoken in the House on this subject. Should it granting the permission a additional paragraph should be inserted protecting the interests of the United States and the Government shall retain the time beneficial have been in the interest of the Government road. Again the proposed road will benefit a great many people that the natives have always considered themselves as owners at their tribes, so much so, that they have never allowed other tribes to use it. Your letter with reference to the article of E. J. Mervin

 not mine as indicated as was it left by me. I know the character  
 of Hamilton's charges very well, as I met him several times last  
 winter, and I was not surprised that he would mean to exonerate  
 the witnesses. It seems to me that the Department of Justice ought  
 to investigate the matter, and if the facts are as we indicated them  
 to be, it would be well to make Mr. Hamilton to be assisted  
 by the subject.

I am interested that you want the A.M.E. in about a month. Are you seeking a church? Well, if so, will you be here long enough so that I could meet you? If you can make it convenient, we will meet at the home, I will try to make it. Dear Sir:

We beg to acknowledge receipt of your letter of Feb. 25, and herewith beg to inform you of our rates to St. Lawrence Island, our rates will be the same as to St. Michael, viz. 1st Class passage \$150.00. 2nd Class, \$100.00. Freight \$25.00 per ton for general merchandise, provisions, coal etc., for lumber extra arrangements have to be made.

We received also a letter from Mr. E. H. Thornton, of New York, inquiring our rate of passage to Cape Prince of Wales, as well as freight, we informed him, that our charge would be the usual one to St. Michael for each passenger, and as the place is an open roadstead, and a greater distance would have to be made, and as the vessel might have to be delayed by stress of weather, we would have to charge \$400.00 additional, and freight would be \$30.7 per ton excepting lumber.

We presume there would be no difficulty in arranging with Capt. Healy for the transportation of the people intended for Point Barrow, from either place.

We also think that our terms are very reasonable and that it is certainly cheaper than chartering a schooner.

With best regards, we are,

Yours very truly,

Rev. Marion Jewell, D.D.,  
Bureau of Church Work,  
Washington D.C.

Dear Sir:

Your letter was received on Saturday. I had written  
the day before to Mr. Jewell and received a reply on Sunday.  
Mrs. Bennett wrote also to Mr. Jewell and on all the letters state  
that Frederick is employed by the Home \* Dr. John of New Orleans  
the superintendent of our Sunday-school is satisfied on that  
point but he wishes to know if the committee would accept a good  
place for our Sunday-school. Mrs. Jewell did not answer that question  
and I wrote again stating it and asked her to write a letter  
that could be read at the Committee's meeting, Sunday next.  
Sunday morning, yesterday Mrs. Jewell showed me Mrs. Bennett's  
letter in which she said that she believed the committee  
elsewhere that she was convinced by Frederick's report, answered the message  
very well. I do not remember the exact words. I write to you  
because I think you are perhaps more than any one else in the  
building and as you think a letter from me to be read at the Home from you  
to the Dr. Jewell might have some weight. I also very much to have  
the building at August because of the interest Mrs. Williams  
took in Frederick's letter and I am sure Mrs. Jewell will do it.  
Fred did not say in his letter to me that he was employed by  
government but he did say it was not in case it was true.

I was very sad to see Mr. Jewell when he was here yesterday  
I called some time but he was talking with others and I had to  
leave with out speaking to him.

Very truly yours,

Edw. P. Williams.

P. S. If you could send a letter immediately to the Dr. Jewell it  
might reach him before Mrs. Jewell could say anything to him.

It has been an insupportable burden that the Division  
 carried at home that the public imagination is turned to our  
 liquor laws. The Division has simply been not been thinking  
 but proper law. It has been looking at the present status  
 but unable to change by the suggestion of amended liquor  
 will not leave the law what the law of society. That we need  
 especially as an free hand to enforce the present of our laws  
 with greater force and to have a more definite position  
 conditions everywhere and now. In various other objects outside  
 of liquor business. It is necessary to know that if the  
 gen. government would apply that the law of the present expenses  
 and side of culture, spread a systematic education of intellectuals  
 from the territories and more with and in a more respectable  
 state of things existing. This would give us more of providing  
 three or four states located in all the territory having them managed  
 by responsible officials including revenue officers with authority  
 to enforce every law or model existing within range. These would  
 cost roughly from 100,000 to 200,000 dollars each  
 and as local courts (judges) and the themselves by enforcing  
 duties on smuggled goods as well as other business in our most  
 cases of justice.

I had previously interviewed with George W. H. Marshall Ferry  
Bureau with reference to the various points of interest  
in the living in Alaska. He mentioned that in 1900 he had  
that the first landing in Alaska was made at the old one.  
That really he called on to meet Ferry and that was that. That  
was enough of Marshall's very interest. While looking over and I do  
not know. It is the big thing for the government of the nation  
is to protect the old people and women to make sure  
the law to keep in the same old way. Protection going  
on among them. It is very interesting to see the many old  
girls coming out of the olden days and bringing with  
only to show live lives at that time. At the end of the war  
years some of our girls will leave the Navy to try their battle  
on the beach-- that they will prove too weak to resist the incursions  
of some vile white men will only verify the history of past events.

Mr. Morris tells us that he thinks that the members of Mr. Brown and the two natives will be held responsible in the charge of

and slaughter. The evidence is clear that Campbell and Fillett had whiskey on board their ship, and also that Mr. Edwards saw his Indian drinking whiskey and that he did not lay hands on the two men until these facts were fully ascertained and in proceeding to tie the men and securing the cargo of smuggled whiskey. He was acting entirely within the letter of the law, as a law abiding citizen, and his obligation as such, to uphold the requirements of the law. The Marshall held that any citizen can make an arrest when detecting the violation of law, therefore it seems strange that Captain Campbell should be held for such a charge when the evidence is perfectly clear that there was a triple murder committed to cover up and prevent a detection in crime already existing. It was my privilege to visit the scene of the tragedy. Upon receiving the news of the murder from Sitka January 21st., I immediately chartered the "Takes" to go down to Alaska. I felt that this was due the memory of Charles E. Edwards, not only because of his connection with the Quarter Queen but because of the responsible position of the government had placed him in.

Yours truly,

Dear Sir:-

I received your valued favor of the 9th. instant, last Saturday, and replied by wire. Asking you to confer fully with Senator Mitchell. When I sent the dispatch I assumed that the senator had preserved a letter. I had sent to San Francisco from Alaska under date of February 6th. -- but there a letter I received from him this A. M. under the date of the 10th instant. I learned that he had not ever seen the letter I refer to.

It appears to me now that you are both in the dark as far as information I can furnish is concerned--I regret this very much--as it is absolutely necessary for success that we have all the light that can be turned upon the affair of Alaska. My Department is only concerned about the Revenue leaving to the Department of Justice the administration of the law, and such an awful travesty as it is. Of course there can be no success

after the demand or he will be forced to leave the country. In myself individually these are matters of but slight consequence as I will leave the service rather than remain as a witness to such depravity and be powerless to enforce the law but there is a high claim upon me that can be found in this thought and this claim leads me to hope and pray that our government may arouse itself and force this crime from the land. This now inspires me to write you and extend what ever aid is in my power to assist you in your honorable task of opposing our government to the tendency of making these heinous crimes spread the end of which is to be prayed for. In any way that I can assist you in this undertaking I beg of you to command me.

Very truly yours,

Rev. Sir:-

I received your telegram yesterday and was very anxious to be asking you to wait for this letter before replying to either the letter I sent you a few days ago. I have been very anxious for your assistance. I know it is given freely for the cause of right and is welcomed to that end. I have a very high regard for you and I am sure that you are right and I am sure that you are not afraid of the face of men. On my 1st journey to Alaska I was through special agent matter of the Division and affairs making any further effort I had to see that the Division was not of this report. Properly speaking of course it is only connected with the Bureau. Leaving the other departments to that effect the affairs of government as they are conducted in the past I have had it indicated to me that I would be continued in my position my post of assignment, with out orders as such a report. That gave me an opportunity, vice as you would say, in a personal explanation and thus to present all the facts I have gathered the horrible condition of affairs in that country and in connection with the matter I beg to assure you that as one who

Dear Sir:-

Yours of the 15th ult. was received per last post.

I would like to call upon you once again to assist me in the matter of Iowa Townships for the town of Juneau. As you know, the secretary of the interior, at your and Senator Delph's instance, wrote me that I should receive the appointment as trustee for the townships of Juneau. A lot of my enemies sought or rather now seek to defeat my appointment and for that reason gave 24 hours notice "to select some one to be recommended to the secretary of the interior for appointment as." They were chiefly Blackett, Coon, Maloney and some of the saloon element and in spite of having all the machine and committee material, with a slate made up long ago, my friends insisted upon running me, and if it had not been for some slight mistakes made by some of my enthusiastic friends in the canvass I would certainly have carried the election, however my opponent, John Olde, carried the election by slight majority and at a time when many of my friends were absent from Juneau. I have the best element of the community at my back and the vote as polled. Olde's 31, Held 34 shows that Mr. Olde is not by any means the choice of the representative value of property in Juneau. My friends represent at least 3/4 of all the good property in Juneau. Now I wish you would use your influence to see that the secretary of the interior does not make a change in the appointment. I write this at the request of my supporters for they are the real property holders. The element opposed to me here is the saloon ring and in addition to this, was the Catholic priest, Father Alsholt, who is doing all he can against our church here in the affairs of which I take much interest.

Mr. Olde is a saloon keeper and so is his father in law John Frier, this corroborates my statement with respect to the element supporting him. Mr. Bruce and I are on very good terms but I am inclined to believe he is the friend of Mr. Olde so it may be best to try to keep him out of this matter, if you think it advisable.

Very respectfully

Dear Sir:-

By this mail I learn from Mr. Boyd that the Board will do nothing but "wait" at present. After General Assembly, there is a prospect of some one's coming up here to look into the past work and decide. I did not take the trip as Mr. Tuley suggested. Mr. "Child's" play" about it. There were grave matters why some action should have been taken sooner. Of course, I admit that their judgment is best in all these things. However, I have notified the Secretaries that I desire my accounts and other matters adjusted at that time, and still under no circumstances, I think, remain. I see no good in the repetition of the Kelly explanation, as he did great good here, and under terrible obstacles. I will under no consideration serve under such circumstances. The field of Christian education is too broad for that.

I shall hold everything in abeyance for the satisfaction of the visiting officer as to main terms. The business and other matters which should be attended to will remain just as they are because I do not feel authorized to take any steps at all. When I was in Washington in April last, I had learned some inside facts about this place, and although I said nothing to you about them, I had almost resolved to mention them to you. When we I should have enjoyed seeing you in December I came down to see you through westward, for then the Board would have been out. I have received my impressions from you. I am satisfied as to the communications with Mr. Kelly for the same reasons. When I reached here, things were far worse than I had been told. When the names of the previous superintendents, Mr. J. Boyd, and Mr. A. Kelly, are held up as having been "well-served", and the name of every teacher and superintendent who has ever been here is given a round of hard criticism. It is not with such a state of mind should begin to wonder whether the information is true. Directly to me, these matters have been stated without I do not depend upon "hearsay". The name of Mr. Kelly is repeated by myself and wife some every day. His work was limited here, and the people who make statements to the Board about him have told me they did it and repeated the statistics to me during the first few days of my stay here. Since then, they have been very careful. Everything you have told me about the church has been widely and directly criticized to me by critics. I am very much disgusted with the condition of Alaska. There is no opportunity for good work as a result of the best efforts and faith by anyone. No one

in the position Mr. Kelly was could possibly have reached what the Board desired. It was useless to expect it with out managing some matters so that he had his hands free and was supported.

I will try with the April issue to make the little paper go. I must have some more matter from the various places in Alaska. I shall send you another letter to Portland to Assembly.

I have resigned. You said in yours when I passed Washington that you wanted to know what I proposed to do.

Very sincerely,

Dear Sir:-

In December I received a letter from you accompanied with a request made by the Women's Executive Committee at New Orleans to write us a leaflet historical in character, on the work in Alaska. I fear in the press of business that it has been changed your mind as to the liberty of accepting it as you. Still, we should like to have the leaflet as soon as possible. Any information in regard to the school and teachers obtained at once by writing directly to Mrs. F. E. Pierce-- Corresponding Secretary Ladies' M. Conference, 25 Fifth Avenue, New York City.

Thanking you for accepting with the request of the Committee,

Very sincerely yours,

Your visit to Mount Vernon Seminary and your earnest talk to our dear pupils has not been forgotten. Dear Friend:-

We are very grateful to you for giving us a new view of affairs at Angeles. From the facts which we had given us which were then memory as Mr. May had communicated to us, that Fred Brown had been provided a building by his uncle and not having the additional light which your letter has thrown upon the case we wrote as we did. We will take pains to carry up the modification which you make for that point and see that such correspondence was made. We will all agree that it would be a serious mistake and wrong to divert interest from that particular work while the provision in the way of a building is so inadequate to the needs. We will write the Georgetown friends again with reference to the case. It would never do to allow a failure of interest just at the time of the culmination of your years of patient and effort.

Yours sincerely,

Dear Sir:-

It gives me pleasure to inform you that at the last meeting of the Alaska Society of Natural History and Ethnology the following resolutions were unanimously adopted.

August Bulletin, March 11, 1898.

Resolved by the Natural Society of "Natural History and Ethnology" that this building be named the Sheldon Jackson Museum and Library in honor of Mr. Sheldon Jackson in whose efforts we are interested for this collection and then show our appreciation of his many efforts in all work pertaining to Alaska's welfare.

A new species of bird, something like a sparrow but white, has made its appearance in Pitts and Mr. Frost has placed one in the museum.

By this mail we received a request for correspondence with the California Geographical Society.

Mr. Frank Meyers of the Mining Society the committee has made the society a present of printed copies of the constitution and by-laws has expressed his desire to receive the paper when the corrections are made.

The subject of the nomenclature is now before the society and we will probably hear you many interesting questions about many of the articles we upon your last visit to Alaska.

The nation seems bright and with hopes renewed for the future, I am,

Yours respectfully,

David Nelson, Secretary.

Dr. Jackson,  
Dear Sir:

Mr. King and I have gotten up a copy of Prospectus. I wrote off on the typewriter some questions and have sent them to the different parties at the line of the checker table. Mr. King wrote off letters to acknowledge the same which will be returned to us and I suppose he has and will show the same for salaries and for correspondence.

The law has been passed relating Mr. Ross and Mr. King for trustee for term of years. I said I was going to write of the affair to you. Mr. Ross is with us "intelligently" says he will write to Senator Pitt. Mr. King is going to write to Delph. He may also write to you but should be not, this is how the affair stands. Mr. Gold was not sent to you in the election that was gotten up by a few of the party. I suppose that Mr. Gold was favorably spoken to. I suppose that you had heard that Mr. Gold was favorably spoken to in Washington in regard to the

matter and they determined to fight him because of the action that Mr. Reid has taken in regard to the whiskey smuggling business so they put in a stolen keeper, Oids is related with one Tharp the butcher. At the last moment almost Mr. Reid was put in and an election resulted--Oids 83, Reid 84. It is a known fact that the book-keeper for Nevada, who has charge of the business until Nevada's return threatened may now have voted against their wish or not voting at all, by saying that they would leave their standing with the company if they voted for Reid. Other tricks were played such as carrying out water from parties (who were all with one exception in favor of Reid). Think of such parties as Keeler and Ames--would not vote at all because of the Nevada threat or rather the threat of the book-keeper. After the election Oids and a few others all on a big spree. I am sure to be brought before the secretary. I hope Lawrence will be brought to bear to defeat its appointment as we do not want law breakers and smugglers of every description to hold our meeting in honor. There is mention of 1/4 or 3/4 of the value of the town is owned by Mr. Reid or trustee.

Respectfully

Miss Alice Whitcomb has this morning called you a letter with regard to the action taken last evening by the Boys' Missionary Society of the Church of the Pilgrims. They are now at sending you three hundred dollars and have the promise of another hundred. If this sum is made up to four hundred dollars by the "Boys" and given to you and sent for exclusively and adding your comfortable the chapel where Mr. Stinson and Mr. Starr carry on their mission work at Cape Prince of Wales--will be available for you to have said chapel or chapel named for Dr. H. H. Starr. This Miss Whitcomb and I think would be a very good incentive to the Boys Society, the members being eighteen and younger and might make it more certain of their taking an interest in the same mission in the future. My son David Stewart and I heard you speak at Alaska a few weeks ago in the lecture room of Dr. Starr's church and were much interested. Your remarks greatly influenced the "Boys" in deciding to give you the three hundred

delicate for your week at Cape Prince of Wales and as a great  
favor we ask that you give the lecture and pictures when I heard  
you deliver this matter in the lecture room of Dr. John Hall's  
church New York. I think we can provide you a good audience.  
Select any evening excepting a Wednesday or Friday evening. The  
last time I saw Mrs. H. P. Shepard she told me with enthusiasm  
of the service she had given with you planning for her Alaska  
circle, she was about to return home at this moment.

If you will write to me according to your answer to Miss Whitcomb  
and letter will be sufficient. With very kind regards,

Respectfully,

Dear Sir:-

I enclose letters from Dr. H. P. Shepard addressed to me re-  
lating to the collection of \$10,000 for the Alaska  
at Anchorage Alaska, under the name of the Alaska  
and the name of Dr. Shepard in this matter, you know Clark,  
and I would not think it wise to have any more of this kind.  
Would it not be advisable for you to tell Mr. Bruce and ask  
him if he can send a letter from Anchorage? And if he do not let  
them out then, perhaps you should be as a friend of Mr. Bruce  
is certainly interested in this is an affair matter and will be  
satisfied with. See if Mr. Bruce's proposition is as fine as the  
Attorney General's office, and if it is not with arrangements he  
has, the collection is to go at this time. If there would re-  
ceive the equivalent (the name of the best salary) he would  
very gladly enter with the scheme and discuss at that place.

Mr. Johnson,

My Dear Sir:-

You will be glad to know that at the Bays Missionary meeting

meeting this evening, they voted their money for the Cape Prince of Wales Mission as you suggested. The amount will perhaps be \$400 but of that we are not quite certain. Shall they send the check payable to your order in Washington? They will I think be ready to do so next week. If the church could be Pilgrim Chapel and my letters that may come to them from the Mission will appear to be of great interest to them and will quicken their efforts another year. I will especially write to you if in view of their future work you can contribute also - give them to Dr. Hays's lecture notes or illustrated talk on Alaska as you did in the early winter in '04. Hall's church in New York. "Bro. Hays" heard you there and the winter very early, so I am sure that you could do well. Bro. Sheldon said that perhaps you would be back here before long and of course your convenience should be ours. Will you kindly tell me if you will send the address of such a thing with stereopticon, or you can let me know. He would not ask as much but we want to further interest in our young people and so in all we are in the money power.

Very sincerely,

Chas. H. Johnson.

"Alaska as it is" (The Pilgrim Chapel, New York, New York).

Chicago, Ill.

March 10, 1905.

Dear friend Dr. Jastrow:

Here we are sitting in the library. As you know about the first of January. About a month ago Frederick L. Willard the editor of the "Chicago Signal" the Flag of the "Y. M. C. A." asked me as a special favor to write an article for the "Chicago Signal" touching upon the terrible conditions in Alaska - as I had only visited the coast of the territory until now. I had ignored it as "terribly mismanaged". But what you would like to know is information as to the conditions here in Alaska. I wish, you would help me. Not that I will write another story matter for the "Signal" but I would like to have a little letter from you - for another reason. I was invited to spend last week a missionary meeting of the First Baptist Society and I have had the study for the day. Several times each week women were called to read from some leaflets about the Indian question - copied from your reports (I suppose to your Board of Missions). These women couldn't see very well, couldn't pronounce any English words and

as they were not interested themselves they failed to interest others. I was asked to explain why I did not even you know what I am not a public speaker and I found that I wanted an interest that had been known and I was quite satisfied you know. The world was changed that I had been associated with you for the last eleven years. The outcome of it was that they attended another lecture for the first Friday in April and I am invited to speak. I have with me some names and some information. Won't you give me a few words of your own personal experience. I think it would be very good for the world that we say we have something to say about it at the eye the persons engaged in this work that we have been told in their Sunday-school library a word to the children that would tell them all about Africa and as for names to send them. Yesterday a friend said we had had about fifty calls for Dr. Johnson's book last Sunday. I am sure that large figures would be sent of your book also "The Story of the Land of the Living". As I am told it can be read quite easily but very good for the children of your own living soul and you certainly have built yourself a reputation for being interested in the African people.

Now will it trouble you to send me some printed material. I have been told that I should be invited to speak some night at Presbyterian meetings and if I can have some of it with me, as you know all the power is the Lord's.

And in this way and perhaps you will want to see them. And you would want to see them. You would want to see them and see if you can get some of them. The world is not so aggravated as to go to these meetings and hear of the "good" men going on in "Africa". You see, I am told that there is a very good United States that will do all the work that we are speaking of for every. If you are visited and won't allow it to be all right, only I would love to have a letter from you or perhaps by you is read. Is it possible. As it is a chance to answer an interest in Africa. Dr. Johnson is writing some interesting articles in the Sunday Tribune that are producing some interest. We are still and enjoying Chicago immensely. It is so enjoyable to have everybody polite and the most of all people always showing a pleasant person. There is less a better world against my neighbors. From letters we have had they are sending more than ever. Governor Mary has had the letters of Africa and Johnson report arrested for libel. We are glad to hear it all.

Remember me kindly to Mrs. Parkman and to Miss Elizabeth.

Yours very truly,

Mrs. Mary P. Taylor.

Rev. Sheldon Jackson,  
Dear Sir:-

I remember you said when you were here it would be very possible to send supplies of building, clothing to the Alaska, and suggested sending around the Cape (Cape Horn). Can you tell me by what line of steamer or can you give me information regarding time of vessels. When they sail at what time the goods will need to be shipped. I am anxious to know all about it as the Spring is coming. Shall we buy our furniture in San Francisco and can you tell us about it? Would it be better for Mr. Peckham to say or order what he needed? All these questions will be gladly answered by you I know, and I feel very in trouble you as Mr. Dr. Dr. Hinkle and his wife, and a letter of message to us that been called here, and Mr. Dr. Hinkle and his wife and Mr. Dr. Hinkle. American Academy  
of  
Political and Social Science.

Philadelphia, April 22, 1900.

Mr. Sheldon Jackson,  
Sikee,

Dear Sir:-

I have the honor to inform you that you have been elected a member of the AMERICAN ACADEMY OF POLITICAL AND SOCIAL SCIENCE. The enclosed circular will explain the objects and methods of the Academy.

It is our desire to have the Academy include in its membership all those who are interested in the progress of the Political and Social Sciences.

The meeting in the next year, when the meeting preliminary was offered has been very profitable, and much has been accomplished in way of our organization.

It is especially hoped that you will contribute to this work. Please indicate at the earliest date whether you will accept membership or not.

Very yours truly,

W. D. Howe, President.

Respectfully,  
April 22, 1900.

Rev. Dr. Jackson,

Dear Sir:-

I have ever since I listened to your magnificent address at our Anniversary that I shall want to have a memorial of our gratitude to you as a speaker for your valuable address. Your address was received with great favor by all the men present and it is it. Your magnificent way of always making your statements through and statements and a noble way of all our address. I shall be glad to see you again in your address.

I sincerely hope that the Academy at your turn will be able to assist with the various of more political matters. I am fully sympathetic with you in your address for everywhere the first of February, I have been carefully making for all members of our house-hold. I was particularly in attendance for several days and was deeply able to assist the Anniversary.

Thanking you much more for presenting to present the vision of Alaska before our people, and trusting that we shall soon be able to respond to the demands of that needy field, I remain,

Very sincerely,

Wm. J. L. Russell.

Dear Sir:

Your letter of December 1941 is received. It really will state that I have always been working for you and I have been strictly loyal to you for the past three years. Further that I am confident of remaining loyal to you in the future.

I am pleased with your desire to assist me in the cause of establishing the United States Navy for the benefit of the sick and disabled sailors and I have your confidence in that direction will be of value.

Myself and family are getting along nicely here. We extend our kind regards to yourself and family and hope your efforts to serve the cause of education in Alaska by itself is great good.

Hoping you will feel satisfied with my assurance of complete loyalty, I remain,

Very truly yours,

My Dear Sir:

Your communication regarding the Alaska Post Box at the government training school near Bethel, Alaska, has been considered by the committee. Arrangements will be made with the Post Office at Portland with reference to her case. The matter being to provide suitably for her in that vicinity, rather than to send her back to Alaska.

My dear friend:

Now that I am to get your kind letter and also thinking over so many times for the money which you sent me again. I left my place last of March and came here as witness at your trouble. This trouble is about a willowcraft. There was a woman that the Indians wanted to kill her husband she was with. I took this woman and brought her here. I told the Governor Kears about this. He told me he would send other Indian Indians and shall visit them. The great hard facts which I have at present is not to work on the poor Indians but on English. They tell the Indians that they must not come to my meetings at school at Sike. Mr. Austin had a letter from the ladies at Washington, D. C. in this week but they don't say anything about the building. I have not seen of the House wife here and have talked with them they wish that I could come there to teach. I think it is a good place where you'd know where to go. I shall return to Sike soon with this letter. Please me this short note. Good bye, may God bless you and keep you.

Your brother in Christ.

F. H. Smith.

Sike, Alabama.

F. H. I've told you what I did with the money you sent me last. I bought three acres of land and built on a house. This is for the school and also I want some for the missionaries. I am thinking about to get married in July. If you could let me off in that month. I need not explain to you how hard it is for me to be alone. So I think it is for me to have a wife. The girl which I want to have her for my wife I think you know. She got through the building school at Sike. I hope she will be a great help to me in teaching. Mr and Mrs Austin, they were so pleased with me. They were so like Mrs Davis. This you can tell to Mrs. Jackson.

Truly yours

F. H. Smith.

Dear Brother:-

We have your favor of March 29th. Enclosing the copy of Commissioner Harris' letter to Allen "O" Keri. We have considered the

wife and sister Mary and friend Mrs. Higgins (teacher at Elizabeth's New Jersey, who educated Fanny Willard of Alaska) someone going to the General Assembly at Portland and to Alaska. Miss Higgins has a great and longing desire to see her pupil and her sister to see some of the teachers in Uman. Our Louisville Alaska Club, since the death of William Taylor have elected another Taylor boy who they have named after my nephew and are the first in offering information or suggestions from you would be valued as the I think I would take the rest of it and would be glad to have it as to securing some more of the children (they are all (except) (2) accompanying the rest of the ship leaving June 2, 1900) where you would advise as to leaving. I am to returning just what more is needed. That some of the would recommend and be glad to write. I think I will purchase it all. As better advantage a design bear this robe in Portland, Victoria or Alaska. And perhaps price. I am to weight of diamond around the neck (which is all of that time we could decorated the most (which is all of that) would be essential. Would a ribbon or (all) (which is all) with a waterproof garment? Your kind regards will be much loved if you have the leisure and willing.

Dear Mr. Jackson:

Referring to your letter of the 14th and the 15th I would like to say that we rejoice in the fact that you are attending the conference and subject of the 15th of June. We have conferred with some of the members of our church in Uman, since the action on the subject and they all think that it would be not only useful but necessary for us to have the women of Uman with the possibility that there may be some of the women of Uman and of enabling them to participate their work for the coming year.

The difficulty of starting the subject in the field of the church may possibly be adjusted. Mr. Thompson will be in San Francisco very soon and he will confer with Captain Charles to report to space and arrangements.

We feel united in every kind of obligations and gratitude to you for the many and valuable services you have rendered here and

in Alaska, in the establishment of our far off mission that it  
 given us sincere pain to have our views that seem contrary to  
 your judgment and administration. But in the regard to the safety  
 of our mission, regarding to the matter we must state, that we  
 cling to the hope that a satisfactory arrangement can be made  
 at San Francisco. For the blessing of all the leaders.

We solemnly trust that your future in dealing the national  
 regard for the people that are suffering here, through of the  
 Pilgrims' suffering, and will, produce to us in your favor of  
 the Union, because we cannot to leave our mission at your  
 affairs. With your respects,

Dear Sir:-

The two circulars addressed to the Alaska and San Francisco were  
 mailed on the 14th.

There are of the same number three and number 12 & 13  
 enclosing circulars.

According to the statement of Mr. J. V. Darling, Alaska  
 mission and all matters from 1874 until January 7, 1877, number 12,  
 copy, as under:

Number 12, Alaska, to San Francisco.

Number 13, Alaska, to San Francisco.

Number 14, Alaska, to San Francisco.

Number 15, Alaska, to San Francisco.

Number 16, Alaska, to San Francisco.

Number 17, Alaska, to San Francisco.

Number 18, Alaska, to San Francisco.

Number 19, Alaska, to San Francisco.

Number 20, Alaska, to San Francisco.

Number 21, Alaska, to San Francisco.

We have no objection to the above in the fact of the  
 statement that I had told Mrs. Jackson that we to express her  
 pleasure at the success of the work in Alaska in San Francisco  
 through the efforts and hopes that you will be able to work out a  
 work in this cause, with like result.

Dear Dr. Johnson:

Thank you for the letter dated March 11th 1934.  
"Alaska used" problem. It is one of your business conditions,  
I suppose and it is certainly very valuable.

I hope you are going to be able to write the whole new  
promised letters for I feel that it will be long and long. I  
want to make one or two suggestions. I am sure the people among  
the Eskimo population, I think I would not take them into account  
as so I stayed with them in Alaska. In fact I have been in Alaska  
I have as much else to attend to that the Eskimo people who are  
now and then are valuable. During those times I am a free man  
and the situation helps me to see how they have to do it even  
their friends are. Even though I am not sure that they have all  
the time I want there is much that I have done and I want them to  
feel as they would want you that I am not to be their mother  
and as far as I can be and the way to do it is to be with them  
with them about things still. They are the best and the best  
of course and much to do I feel that they have to do it  
just going out from here and I feel that they have to do it  
where I am is still their home. I think the thing is to get  
where and how valuable is what they will do with it and  
that they feel about everything as if it were their own property  
to the carrying out of every plan. I want them to feel and feel  
responsible and to make it so as I am sure that is the only  
way to get it done and I am sure that is the only way to do it  
when I was here I was right. They do feel that the way and I  
thought that a good suggestion that you will see that they  
may be able to stand alone and be able to do it and be able  
to stand for themselves. Also I feel with all my thought and  
society on the subject I have not thought them enough in every  
I have talked with them much and in some ways they are learning it  
and I feel that I shall have to put them down more and more  
in what they have so that they will be able to live essentially  
on a moderate salary by and by. I shall do it and shall favor  
their earning as much as possible and yet this is something

...the ...

any-one else and so I will try not to worry. I am worried  
all the time that I am not doing much as careful as I should be  
not so much else to do. A woman would hardly think her house  
about fall I think is about four girls here and I will mention  
christian remembered to her and I hope she would be so good  
easier and so I try not to blame myself if I have not finished what  
to be all that I could wish. I feel that I try hard enough in  
letting too much be done for them as they are all doing  
it. You see that it is not altogether your own doing. I am the  
only one who feels it a duty or responsibility to mention and  
advise them and while on the whole they seem to be doing well I  
say very slowly and I am sure I shall be able to do this better  
if I say too much. I have tried to be as slow as a snail and  
to find the golden mean between being too slow and being too  
strict enough and yet I suppose you are sure you will not  
be too strict I hope they would rather have the money.  
I do not always find it an easy matter to discuss with them  
very often. I must be sure there must be some responsibility  
and while they are very good boys I do not want them to be  
responsibility voices. I shall try to be as slow as a snail  
in Alaska being good work. All these boys are very much  
lovable, earnest girls and very much more I shall mention  
and quite satisfied with what and then I shall mention  
make no trouble you are interested in them and I am  
relief to talk to you a lot to know the same and I am  
interested and am also helped by your influence through letters  
and above all by praying. But I will not have more of your time.  
I have written this hurriedly as I am terribly busy. I have had  
extra ordinary work during the past few days.

I am sorry to hear that Mrs. Johnson's health is bad.  
I fear it must be very hard for you and the little children to  
such, if she is not well. Your own little ones are an  
amplification of the well known saying that I shall be a good  
learn and I will try to be as good as I can in the same way  
and not because I wish or advise it.

I hope I shall hear from you soon. With kindest regards  
your faithful friend and loving friend

Love always yours,

My dear Sir:

At the last meeting of the Board, your name was assigned to go  
along with a committee the duty of preparing "The Memorial on the  
State of Religion" within its house and to be presented as is

gather the material as early as possible so that the Report might be ready for the meeting of August at Seattle on the third Thursday in September.

David and I have been, as pilots of the Expedition at Alaska, kindly furnished to me the Preliminary Description and such other information as you have, so that we may have the report at the Synod. Any documents you may send will be forwarded if you say direct. The narrative submitted for last year was a very satisfactory account and some of the last year's progress is very sharply. It would be hard to have a complete survey of the fields and hence the committee was advised not to attempt it.

We have in addition a volume called "Glebe Stream" I enclose for your information a series of questions for our meeting on the first Sunday in August. I propose a series of questions for the first Sunday in each month as well as some other questions and then giving a synopsis of the progress of the work at least once each month. I also at the same time at public meeting which they may fill out as fully as they think. I have also the question, as on the paper sent, and beginning of each I will then send you in summary or give me the details of the progress question. In this way we fill up an hour in each month and then having information. If possible we have a longer time for their interest giving the latest details. You will notice as to answering the all enclosed.

With the greatest respect and appreciation for the work you are doing may thank be yours, I am, dear Sir,

Yours very respectfully,

Dear Sir:-

Your letters received. I came from New York at this time only about the resignation. They are not ready to accept. It was handed to me a considerable statement. I never will agree to do a thing when the committee surrounding the work are such as to prevent the accomplishment of what I think I am on our part. When I saw the report in April I said that if I were to be held responsible for the Sika results must be placed with the powers needed to secure such. They did not see the need of such things.

I asked them what was to be held responsible for it and he, as and as he, said anything was answered by "The Superintendent" I told them that would be needed. They will be held in the best of that light understanding. My resignation was in all directions, to state, I am only concerned. This miserable matter is deeper than has often appeared. I do not know, I know, for Dr. Jackson he has asked I believe the only one and I should want myself less than ever and a very beautiful Presbyterian if I did not see that some things were wrong, I would not be in. For some of the work which has been given to me, I have been asked and the church has not I know. I have given plenty of opportunity for reform and now I propose that it shall come. I am sure that in with me it is the only way to go through. I have been accused of comment and criticism, and everything else, even that correction but I have believed that some lines of discipline are better than I have.

For some of letters, the 1st, 2nd, 3rd, and 4th, I have not forgotten the standing time. I am sure that in writing and much and much more, I am sure that I am sure.

You are right about the whole thing. My heart is in the matter. When I wrote you about it I was not just what you say. The amount of "proof" given to me was not what you say. Since then I have been thinking about it and I am sure that I am sure. I have been thinking about it and I am sure that I am sure. I have been thinking about it and I am sure that I am sure. I have been thinking about it and I am sure that I am sure.

My dear Friend:-

This brief note will assure you of the many blessings that I have enjoyed during the summer. My education before different Christian Associations enabled me to attend two summer schools, two Christian Summer Conventions; to visit the city of London, New York and others. I met every one of the Alaskan girls and also of Mr. Bennett's friends. I have been more in the nature of an Evangelist and Gospel singer. I am just beginning to learn to care the sheep of an assembly and to confront the mockery and interference of you. Mr. Miller is well and will write you again later.

Dear Brother Jackson:

As the time of active operation is drawing near, I hasten to write you a few lines to say that so far as I know we are all well and everything with the exception of some occasional trouble, is pleasant.

Dr. Beupre is now getting himself ready to start school on Monday October 2nd. He has been having very good success in his medical practice a practice in which he seems very much attached, so much indeed, as to be almost exclusive.

The native people are now beginning to gather in the fall and to get their houses ready for company and they will soon be out for their bear and fish. The weather has been very pleasant until the last few days. Our water-proof dress over yesterday for the first, is that the first one we have had since you were here.

The vessel that went to the eastward have all gone well with but one or two exceptions. The "Mary D. Hunt" went away with twenty-seven whales as heard. Her work of the year with the exception of a few whales sent by the Grampus last year. The Captain Mr. Kilton estimated his cargo at \$150,000 value.

today we have a strong north wind, with the wind at 45 miles per hour and we have now still five sailing ships here, we have a fair prospect of having enough for the coming winter.

For my feelings of anxiety even after my earlier list of stores we had we negotiated I found there was not much to supply. I had with me 100,000 pounds (U. S. Army) and the time they would probably have to remain here, as I sincerely hope they will not come. I am going what I can to build up the school and what remains is to be for all my interests and interests are in the school. The education and civilization of this people and country and I shall work regardless of such else.

From my little experience here I feel justified in believing that it is not the intent of the government to stop the whistling traffic here and the only remaining course is to educate the people so that they will not be tempted and perhaps we will receive another national government which will be more for increasing as long with the evil of slavery. The evil of the whistling traffic is as far reaching and with spread that the supporters of slavery and it is the supporter of an infant and giant. It seriously dominates the whole earth and when this battle begins in the form of slavery is not at all incredible, it will be such a battle as the world has never known before. Only let us pray that it may not be settled quietly and peacefully but we know that the evil of the slave, slavery and the oppressed are continually entering the evil of the black skin. I have drifted far from what I intended to write, as I feel I get further away I will give by thinking you for the many kindnesses I have received from you and an interest in your prayers to build me in strength equal to the labor to be done in this otherwise part of the earth, that all may be brought into the fold of the Shepherd.

Yours truly,

My dear Mrs. Brewster

This will introduce Rev. Elizabeth Jackson, who is in charge of the mission schools of all denominations in Alaska. The work is a great and urgent one. You and the Senator are old men in the good work and I know it is in both your hearts to help

where you know it is right and will be good. I am sure you  
the Doctor's work in this country is good and he and his associates  
should receive all the aid and comfort the government can extend.

Kind regards to T. C. and your good self, I am

Yours very truly,

Dear Sir:

I have just read part of your very good book on Alaska.  
And would like very much indeed to get a copy. Will you please  
let me have where I could get one and what much would I be  
Methodist missionary teacher to Indians at this place working  
under Rev. T. Crosby.

Yours truly,

V. H. Kilham.

October 19, Sent to Mr. Jackson

Mr. Sheldon Jackson

I shall have it as a great favor if you will pay  
fairly for me and turn this into an order for A. Wells with school  
book or whatever you think should accompany it. If my change  
is left please buy the little boy some toy for his Christmas.

Hoping this will not annoy you at any time.

Yours as always,

Mrs. A. E. Wells.

Dear Sir:

Your favor of 25th. instant is read with check for \$100.00  
as advised. I will purchase the book and send it to Mr. Wells  
on the steamer which leaves here about two weeks hence. The first

steamer to go to Alaska will direct from Tacoma instead of from  
Portland and it will be rather to ship the cargo in some way  
direct from Portland instead of sending it by rail to Tacoma.  
I will cheerfully attend to the matter and send you the documents  
for the cargo in due time.

Sincerely yours,

R. A. Torrey.

Rev. J. J. Jackson, Esq.

My dear Sir:

Your enclosed letter of October 20th, is at hand.  
I enclose you check for \$25, as my contribution towards your Alaska  
work. I know nothing about the work yourself and I trust you will  
use it as you may deem best. I heard you make a missionary address  
last winter in Portland and I was greatly pleased with it and with  
the way you reported the Alaskan mission to be run. Please my  
letter to Mr. Nelson. I am sorry my contribution is not larger.

My dear Brother:

Yours of October 17th, at hand regarding an  
Alaskan concerning whom I made inquiries. I thought from the  
beginning that the man was a fraud and therefore instituted in-  
quiries in different directions and proved him to be so. He  
finally owned up to the fact that he was not an Alaskan at all,  
though he had been giving lectures in one of the largest Methodist  
churches in this city on Alaska. He turned out to be a swindle.  
He finally owned up to me.

Sincerely yours,

R. A. Torrey.

My dear Dr. Andrews:

Only a line by a passing whaler to say that I am still here and have been since the third of the month. I expect yet to remain until 8 or 10th. Nov., when I shall go to Enslawa taking with me some six or eight winged sea birds. Lillie's mother. The addition has been made to her mother. As she has more money she could afford a house a great deal larger than the one she has and cannot understand why poor religious people don't give to her. I left Enslawa the day after yesterday and still blessed Lord and since then we have had a sea. All of which were worse than in my experience of 30 years. I left two children and 112 father's men which I can't recall ever with seeing that God in his goodness has left us up with. The ship's crew went away here of it as she stays in Enslawa having been here less than 24 hours since. This is the first time I recall as an officer on. The whalers have been remarkably well this year but very bad disaster occurred in the last of the month. Seven men and with her 25 souls including all officers. I am beginning to think that I would like a trip back this winter especially if you. Is there, I wish you would have a letter waiting my arrival giving all news of matters about Washington. These few lines will do me little but I presume I will forget all about it when I shine my feet under the polished mahogany of the Admiral's Hotel. All we heard are well but anxious to get you. By the way I learned that the Field had not arrived at Enslawa at the 20th. instant. The Adams arrived here this morning, that is the only time I have seen this month. It will be the last, as she was then entering port as I was looking. We vessels here whalers have been seen from the island or by us thus far. Your causes are all right thus far.

I write this hurriedly as the ship will sail at any time.

Wishing you success in all your undertakings.

I remain your obedient servant,

My dear Sir:-

I am very much gratified to hear that you will congratulate me upon the completion of your country's work and thank you for your assistance in gathering up Arctic collections to represent Alaska to the Department. I will have everything in readiness to ship collections your order at "once" at San Francisco. I would be greatly obliged to you to let me have the list of articles gathered which you have with you as soon as convenient as I am called upon to make and distribute all goods, money for for the whole Alaska exhibit and on the very satisfactory results in unknown quality. I will return that money to you as soon as you will call to me at an early date. I will be in Washington during November. Mrs. Jackson joins me in kindest wishes to you and your family.

Very truly yours,

G. E. Brown, Jr., D. C.

Dear Sir:

At the next General Assembly of the Presbyterian Church in Alaska, I believe it to be recommended to send Rev. J. C. King as our minister who has graduated over Mr. King. It is to be arranged that Rev. King be selected for that purpose. If Rev. King can attend the Assembly and be introduced by you, I think he can do much good for the missionary cause in Alaska by bringing to the notice of the people the condition of the country and the state of affairs which will be of great help to the people in general. This he can do and will do as he will be supplied with reliable facts and evidence of his own gathering and such as will be furnished him, and by means of which he can generally obtain a much desired picture of Alaska's affairs and be brought about.

The "Whiskey Ring" charge is not yet over and the pressure is yet very strong and is doing all in its power to retard the held on Alaska by fighting the missionaries.

Please let us hear your opinion on this matter.

Very respectfully,

John A. Allen.

My dear Sir:

Have received by article on the impression of the mission to Alaska for the Alaska Conference magazine and it is booked to appear in the January number. See about December 30th. Now I think if you could write to the California at this stage of the proceedings and show your interest in the matter by what ever means you may think best I think it would serve an important purpose to have the illustrations with as much detail as possible. If it were known for instance that the issue of the magazine would be distributed freely to members of Congress and influential people East. It seems to me the [editor] would take particular care to have the special article

I received your very excellent note to-day and the pamphlets some days ago. Both were very acceptable and you have my thanks. The article which I will send you later is to be published in Harper's Weekly as soon as you think best and will be ready probably in the course of a week. I will send you another with it but would not think it advisable to publish it very soon in advance of the latter one. It would more the latter paper appear a little late on the field. Besides if it is intended to influence public opinion it seems to me it would be better to concentrate the effort than to make the effort by a scattering fire of this sort. I give to your paper judgment and larger experience.

The death of Captain Feltz of our service must be a  
 the Pacific Coast the office of Governor of N. H. life-long  
 station—a very handsome villa. I do not know what Captain  
 Feltz wishes me to report to him about his estate and his  
 that his friends are making him have for his maintenance. I hope  
 you will give them your valuable help. He was a very capable  
 Governor a powerful man and a very good man. I hope  
 and I hope if he Governor of the Department will be able to  
 that the death was caused by the death of Captain Feltz. I feel  
 certain affairs will be made to this place before Governor  
 Feltz can be installed and that will be my objective to him,  
 and Governor will be very grateful to me. I will see to it  
 I have been successful. I will see to it that Governor  
 is always and always I am a good man. I will see to it  
 that Governor will be very grateful to me.

Your own committee have to stand against you are all of the queer literature and scientific research has many elements. The whole social strain of this society has received a shocking blow in one form most unexpected and yet the best that could be hoped

Messrs. Goss and Meyers are in jail at Alameda for the libelative  
 efforts of Messrs. Boyd and Blackett. I threw up my hands with  
 Meyers and his family at his children's call: as usual, called by  
 Sunday school. I did it for this reason, we are also going to be  
 jail to see him. I went there and visited him privately in his  
 cell. I talked to him like a father-to-son to Sam. I saw his  
 confidence and let such a revelation of plans and villainous  
 schemes. Messrs. Goss and Boyd, I went to Mr. Boyd's cell and  
 utterly refused to have anything to do with them and was not  
 done so much against him. But I showed him a letter or two  
 implicating the whole staff. This was at old night, next  
 morning bright and early I got a message from the new per-son, Goss  
 (perhaps) turned me out of jail upon the advice that he had about  
 the C. P. learned by surprise. The understanding is Mr. Boyd is  
 to help them out of their present predicament. I saw Mr. Boyd  
 on the whole staff-their-own, which included Goss  
 and Tullman and A. H. Johnson and Boyd. They are a really good  
 for a minister to be here. I would not be here if I had not  
 before I went to that jail to see them and I went to see them in  
 my and think. Now here is Mr. Boyd's family in the prison, kind-  
 and here is our companion who is a really good minister. The  
 advent of Mr. Blackett-Boyd, the minister and a few others were  
 going to put up one hundred dollars each and buy up the mortgage  
 against the house (dark and cold). There was no money that  
 Professor Davis and Captain - they called to bring me and put  
 your money against it as a letter and general remark. The  
 Marshall, Mr. Johnson, also came to help and wanted to be placed  
 up the judgment against Meyers for several years. I suggested the  
 matter and with Mr. Boyd and finally Davis too. We decided that  
 we would not crush even the power of the whole alliance and let  
 the Presbyterian church in position while it was strong. So we  
 helped him to raise the funds 10000 dollars for the cause of them.  
 This course saved Mr. Boyd and me from the jail. The truth  
 could not stand itself in English language. I spent much with  
 both of them in their own house but not with considerable money  
 she heralded to the town how she would put an end to the church  
 and disgrace us before the world. I changed my mind about  
 the roll of the Leg Robin Church. Because I liked Meyers, their  
 enemy, she swore in dramatic style an eternal enmity to us also for-  
 ever and ever. The truth is, last year when 40 teachers from San  
 Clair and Chippewa Falls, Wisconsin were doing Alaska. I told Mr.  
 Mr. Boyd's career as very moral and loyal and gave him credit for  
 fact he was under a dark shadow. He exercised the native American

pecketed the difference and paid Meyers 70 dollars as hush money. He begged me and even entreated Mrs. King to shield him from the arrows of his pursuers. We had to help out his weak case and we did. Then Alton Deagall who hailed from Fort Wayne, my home, was here I introduced him to all the people from the Opera House platform on our reception to the visitors from General Assembly. Then Mr. Hoyt spread himself and tried to impress Deagall with his great religious interests in Mr. King's work &c. Catch Deagall, if you can, for he told Hoyt what he thought of his race or protest--one Sunday in church after the rest of the people had passed out. Now, I do care about Hoyt as they can bring to bear a powerful influence against me from the outside--not from here though. The church is just as full as ever--not one person less on their account. Mr. John C. Held and Mr. Benj. Behrens are my right hands in the church. While if the absent ladies, Mrs. Henry States and Mrs. New are at my right--while all the ladies in the town count themselves as enlisted in our little church--as is evidenced by their children's presence in our Sabbath-school Louis Grainer and C. A. Coon--two noted unbelievers--who keep their respective places wide open on Sundays and a string of children going home from Sunday-school and a by-stander heard them philosophize thus: "Well, now look there, that looks like a Sunday day down here--and as it does--and you would be pleased to see how attentive the people are to the public worship compared with the outland two and a half century ago. We are now able to hold a regular service morning and evening with Sunday-school and prayer-meeting on Wednesday evening with a good quorum present. We have adherents, but not converts, in plenty and at first glance one would wonder why this state of things existed. But he would soon find out after he saw the elements and ingredients we used on all hands. Now I am much encouraged with what seems to be something tangible in the prospects for S. F. Alaska. Professor Davies of the public school and the others of the royal and loyal hearts have determined on a paper. We want a paper of the people and not of a snake--begrimed den of an editor who has been munching sour grapes all his days and nights. Our plan is now to offer Meyers a figure for his plant and his departure and then to gradually undo the mischievous work he has been carrying on all these years. His paper is a model of typographical neatness--but oh! the gaul and smallness of the editorials--it is a just cause to provoke a righteous indignation on our part. If he refuses to sell then we will go ahead with our organization of a stock company and purchase a brand new outfit from below. We have all

agreed not to run it as a church organ but as a people's paper with fair treatment to all good minded people in our rank or out of them. This motto will be like the one on the N. A. Review--only in the Queen's English. I learned to-day from Miss Mathews that Rev. and Mrs. Willard indicated their purpose to return the latter part of this month. Now if that is the case--I want to go down in January or February to visit my folks and I want to ask for the commission to attend the General Assembly, if no other person is ahead of me. I hope there is not, as I am anxious to have a long visit with you for a mutual interchange of ideas and plans. Further how would it be, if some Meyers refuses to sell and emigrate to bring all the money we can raise towards our newspaper Plant-to you- and the two of us call on the Philadelphia type foundry and see what we could do with them. I think a bargain with cash money would be far towards our advantage--if we placed our purchase with an Eastern Firm. I hope I may be able to see you whether I wait to go to the General Assembly or not. Well, I must close in obedience to the steamer's call--hoping to hear from you--

Yours respectfully  
S. S. King.

Dear Sir:-

I should think the use which you propose to make of my small contribution for Alaska and which you mention in your letter of November 1st. a most desirable one. However, I wish you to use it in any way that you deem wise.

Yours

Dear Doctor Jackson:-

I have presumed to ask you to interest yourself in behalf of a friend of mine in the matter of assisting him in the case of an appointment as visiting surgeon in the Presbyterian Hospital in New York city. He is Dr. R. H. M. Dabarna of 105 West 74th.

Street. I think any one connected with the advanced class of medical men in that city can assure you of his moral and professional qualifications and entire fitness for the position. He has recently succeeded Dr. Derrin as one of the lecturers on general surgery at the New York Polyclinic medical school and Dr. McCask at the present one of the two visiting surgeons to the Presbyterian Hospital has just accepted a joint lectureship on surgery with him and Dr. J. A. Wyeth at the Polyclinic school. At least I heard of his election by the faculty of that school although some may be as yet not given out.

I am well aware of my strong presumption in troubling you in this way. The only excuse I can offer is to credit to your former courtesies and to plead my absorbing interest in my friend. If you can assist him I shall consider it as the greatest service to me. I think the selection will occur the end of the present month. I have written to some of our former acquaintances at number 33 Fifth Avenue on the subject; and I should be glad to have your directions as to activities more direct.

I should see you, if my leave would permit me to remain in the city longer. My present station is the Training Ship Richard, Newport, Rhode Island.

Please present my regards in a favorable time to your wife.

Yours very truly,

Dr. J. F. Arnold.

Dear Dr. J. F. Arnold:

I am glad to learn of your safe return from your expedition. I would greatly enjoy an account of your experiences on this trip.

Miss Wells does fairly well in her studies. I some times think she imagines she already knows the branches she is now taking, in as much as she has been over most of them in a way. It is hard for her to submit to any deprivation of a privilege she craves, and she is inclined to associate rather with the giddy idle girls than with her school mates. At first she did some foolish things and seemed stubborn about receiving advice and admonition, but I think she is over that now. I have told you the worst side. She is bright, witty and intelligent, capable of cultivating

the finer sentiment, and lacks chiefly in judgment as to her actions. She is too smart for the lady which when she is boarding, and succeeds sometimes in obtaining undue privileges. I think I understand her disposition pretty well, and shall endeavor to look after her interests and to control her with out coming into conflict with her unnecessarily.

We have a remarkably well behaved set of students, and the school influences are excellent. If Florence were more in touch with the other students she would be under better moral and religious influences. To what church does she belong?

Dr. Sheldon Jackson,

U. S. Agent of Education for Alaska.

Dear Sir:-

Your request of October 11th. for more of the orphanage at Wood Island has been received.

Mrs. Reynolds is in the West and cannot answer. In the latter part of the summer we received word that the lumber and plans for the building had reached Wood Island but that Mr. Paerdtorff was not there and would not be there to erect the orphanage. We could get no word from him.

An offer came from Mr. W. S. Sawyer and we accepted his offer to care for the orphanage for a year, but he was so situated that he could not take the last boat to Kodiak.

The result is that the lumber and plans are in care of Mr. Solter at Kodiak, probably waiting for some one to move them into a house in the Spring. It has seemed as if we were thwarted at every step.

As soon as we learned that Mr. Paerdtorff was in San Francisco we wrote to him but though a month has passed no answer has come. We cannot understand why he does not communicate with us.

There are many questions which we would like to ask you. If there is any possibility of your coming to Boston soon, we would be glad to know it in time to call some of our Board together to learn what we can from you. Is it still your opinion that Mr. and Mrs. Paerdtorff are better fitted for the charge of the orphanage

than Mr. Roseng, although we can get no report from Mr. Paardorff?

The plans for the building have reached us with in the last fortnight. Mr. Arthur of Victoria writes that he plans to go to Nadiak in the Spring. He offers to look over our work there. That special chance at the work, should we ask him to investigate? Can you give us any help in such details as the cost of different kind of labor in the Nadiak district so that we can make some estimate of the funds with which the man in charge should be supplied for the summer's work and for housing and general house work in the orphanage after the children get there? Mr. Roseng asks how much we wish him to spend and thought he doubtless knows about the cost there better than we. Yet it seems wise for us to limit him somewhat.

We do not wish to burden you with too many details for you already have your hands full. It seems necessary however that we learn about these things soon so we can move.

Hoping that we may not long have a written reply but may soon see you in person, I remain,

Respectfully yours,

(Miss) M. A. Peck.

My dear Doctor:

Your letter of the 1st. instant received enclosing list of Arctic specimens for which I am greatly obliged. It enables me to form some idea of space required for exhibition. If you have any specimens of furs beyond what you require for your collection I would greatly like to procure some for my personal collection of furs, as I have a full collection from among the but few specimens from the Arctic. I asked Captain Healy to secure me some but I do not know how successful he has been. I expect to be in Washington shortly. Am suffering from a severe cold at present, will see you when reach Washington.

Rev. Sheldon Jackson,  
Sitka Alaska.

Dear Sir:

I have not yet heard whether you accept your appointment as corresponding secretary for Alaska, for the 9th National Conference for Charities and Corrections. I presume that the duties of the corresponding secretary will be a report that you have no charitable and correctional institutions in Alaska, unless possibly a jail at Sitka, but we are anxious to have a report.

I saw a report, I think, sometime ago of your death in the newspaper, but I presume that it must have been a mistake.

Yours respectfully,

Dr. Sheldon Jackson,

Dear Friend:

I know that you are a busy man and are swamped with work. I know too you are interested in our work in Alaska home, I want to ask some questions. We have labored all the way under great difficulties. We did not establish communications with Mrs. Feodorff. We arranged with Mr. Arthur for the building, supposing Mr. Arthur would be at Kodiak to superintend getting it up. The building reached there all right and we received word from Mr. Salter we must send some one to care for it. The season was nearly over. We have been corresponding with Mr. Roscoe he agreed to go but a sick wife detained him. We wrote Mr. Salter we would send some one as soon as possible and would be sure for or engage some one to do it until that time. I am in probability having heard not one word from Mrs. Feodorff we wrote Mr. Roscoe to go if possible by last steamer and we engaged him for one year. After doing this or last week we heard from Mr. Feodorff that he was in San Francisco. His previous letters had failed to reach us. He also is willing to go in February with Mr. Roscoe (who may not go earlier). We remembered what you told us of the qualifications of Mr. F. and we are quite sure he will be valuable there. It looks now as if the best we can do will be to send them both at

that time. We have sent extra lumber that can be utilized for foundations. The building is a good one, well planned &c. You know how the orphanage at Sitka and the Methodist ones are furnished. Can you give us any suggestions as to anything we should send and enable us to build a working stove. In your last trip did you see a radiator?

We are waiting news and we know not where to turn for information, that must be very strange for travelling you, knowing the two men as you do. Will it be worth it to send them as we planned. Shall you be in Boston this week or the next?

My own heart is warmly interested in the work who have entered into everlasting life. I love it now and my own heart is interested that it may be a success. This must be my excuse for sending you such a long letter. Trusting you are in good health, I remain,

Yours sincerely,  
 Dr. James M. Winnie.

Dear Mr. Jackson:

The battle is over and the smoke is clearing, and we find that Cleveland is to return to the White House. You have perhaps not forgotten that I expect to be a candidate for Governor of Alaska during the Cleveland administration, and you can help me. My relations with Mr. Gerrity the Democratic chairman are most cordial and I expect he will favor me. Some work will need to be done directly with Mr. Cleveland and you can do that better than I can suggest.

I would like a talk with you about Miss White.

Cordially yours,

A. J. Davis.

I want to make that voyage with you to the Arctic regions.

Clarion, Pa.  
 November 12, 1893.

Dear Dr. Jackson:

Your kind favor of the 9th. instant is before me. I wrote you yesterday and now I want to thank you for the proffer of your cooperation with regard to position in Alaska. I want very much to be associated with you for four years in the Christianization and enlightenment of that country. Your name will go

down in the annals of Alaska as the greatest discovery that or any other modern land ever had. My ambition is to have my name associated with yours as one of the "great" of your history. I shall be glad of any suggestion as to my method of procedure and your plan in my behalf.

I have often wondered whether you were satisfied with Miss Well's progress and conduct and was afraid that you might feel disappointed with my administration of her interests. The lady with whom she is boarding is naturally afraid she will lose a boarder if she offends Florence and I think Florence is sharp enough to know it. I have felt like writing to Miss Fettes to take her away as I was not under responsibility for her. I am not sure that she would do well if she were within the school and we have delightful meetings of the Y. M. C. A. in the school and the moral and religious atmosphere is good. Florence Wells prefers associating with the town girls who spend their evenings on the street at the theatre, or flirting with young men. She tells me that she does not care to associate with the young ladies in the school. This often says that Miss Fettes wishes her to exercise her own judgment in matters of conduct and her judgment is reliable. All she cares for is to gratify her own passions. I have been unfairly and never dealing harshly with her but have been firm in the enforcement of our rules as far as I have been able to at long range and with serious danger of pecuniary interest conflicting with duty on the part of one mentioned above. I shall be pleased to have you informed and would be glad if you would visit Florence.

Sincerely yours,  
A. J. Davies.

Rev. Mr. Jackson:

My dear Sir:

Yours of the 1st. instant has been received. I was very sorry not to see you when here. I had no idea that you would leave so soon or I would have staid at the Palace Hotel until I could have seen you. I wanted to congratulate you on not having been cruelly murdered last Spring; and on having been so successful in your Reindeer enterprises; and I would have asked you more questions about Alaska, I suppose that you would

have had time to answer. Fortunately, however the abominations "Reporter" got from you some valuable and interesting information which made up a column of good reading in our dailies. But what I especially wanted to see you is to see the present status of Professor L. H. Burroughs at Point Barrow. He has written me a long letter and a very interesting one but there are some things that I cannot understand. He seems to occupy a kind of dual position, a teacher for the government and a missionary of our Home Board. If I understand it, but he says he has been removed as a teacher from the school which seems to have been quite a trial for him as he was much attached to his pupils. He thinks that the Board of Missions might charter a vessel and send lumber to build a house and that the Presbyterians of San Francisco should see that it was done. Sending 500 pounds of hard bread would be more good than a thousand dollars worth of books and periodicals. He says "Cortis K. K. writes that he will have the lumber here next year" but there is only a slip of paper. I have ordered 5000 feet of lumber for the house, 10,000 will not be too much. "Do not forget on the Home Board also" I would like the Presbyterians of San Francisco to regard this as their school and send their aid direct. He says "I represented to the Board of Missions that a Dr. J. Ship's cargo would be the best" and a good deal about sending ranges and cooking coal, about which I know nothing. He says I will show to Dr. Anderson and endeavor to have the Board appoint you and Mr. Nelson as a committee to work in concert with "Cortis K. K." etc.

Now, I cannot understand all of Burroughs' relations to you, the government, our Board of Home Missions etc. If you can explain I wish you would do so for I am really in the dark. This is why I was so anxious to see you here. I have almost enough in reading his letters that his head must be a little of its calibre. Please let me hear from you at your earliest convenience, and such advice.

Yours truly,

James A. Roberts.

Dear Sir:

I have prepared a barrel of clothing for the Presbyterian school at Noveak Alaska, will you kindly let me know if you think it will arrive there before the season closes, if not

would it reach Sikes.

If you could write me a line by return mail, you will greatly oblige,

Yours very truly

Dr. William Jackson,  
Bureau of Education,  
Washington, D. C.

My dear Sir:

It seems on the whole I was as lucky as you. I write from Sikes, having come here on the last Saturday morning, arrived here the first day of November. I came to visit the schools and to attend the court. Being a witness I think I can have my traveling expenses charged to the account of the Department of Justice here and soon find work in your Department. I fear the return steamer may not stop at Jackson long enough to allow me to visit the schools here and I shall leave my report on the schools until I return to Grapeland. Mr. Clark of the mission informed me that your letters retained by Professor Bunking are still here. I requested Mr. Clark to forward your mail to you at Washington immediately.

This is a strange sort of court, official negligence is an instance is being exposed, I mean noting their wasting of crime, and outlawing and permitting these to go unpunished. Billy Meyers of the Mining record and Sam the Grapeland man were in jail a fortnight awaiting trial on a charge of attempt to poison. Commissioner Hoyt of Jackson gave a party, Meyers and Cook, as it is affirmed but created all in two water wheels and sent them to Commissioner Hoyt with "compliments of a friend" The wheels were not eaten that evening until the next day Mrs. Brachett and her children ate of one of the wheels and a physician had to be called in to save their lives. Meyers and Cook have not yet been called before the Grand Jury. This fight between Meyers and the District Attorney Brachett promises to expose a good deal of crookedness.

If the election went republican I think there will surely be some removals here. Captain Duggan's reports are to the point and he affirms Mr. S. M. Johnson's reports.

You would be surprised to learn that Mr. Fracht received an appointment again. The appointment I understand was made by

Assistant Secretary Nettleton at the instance of Senators Dolph and Mitchell. I understand that Pracht boasts that he got in some good licks against you before the committee on territories and elsewhere.

I suppose the Governor of Alaska visited Washington lately. Judge H. R. Peckinpaugh says he would like to represent Alaska at the next General Assembly if there is a chance of his expenses to be paid. He will identify himself with the church here. I do hope Judge Peckinpaugh may visit Washington. He could be of great assistance on behalf of Alaska.

There are many happenings here about which I would like to write you but I must close for to-night. With kindest esteem for all the members of your family as well as for yourself, I remain,

Tr. A. Kelly.

Halter Meyers and Son were not indicted by the Grand Jury.

Judge Pruitt is doing honor to his position and the better class of people think there is hope of justice being administered with out any compromise with wrong. District Attorney Johnson did himself credit this term.

My dear Dr. Jackson:

One of the ladies of the Woman's Executive Committee is to prepare a small leaflet on Hyak Mission for the purpose of raising four or five thousand dollars to add to the buildings at Nowkan, and they have come to me for facts. I wish on receipt of this you would at once help me out. If you were the first and can give me a few items in regard to the old chief Neelika, I think he was the friend of the missionary from the first and for years furnished a house for preaching places. Tell me what you know about that? Then I would like to know the population of the Hyak tribe, and also the population of Nowkan or Jackson as it is now called. When at Nowkan last summer I understood Mr. Gould to say the village contained about six hundred people when I referred to the census of 1823 I find the population of the tribe is given as only about eight hundred, I am, therefore, a little puzzled. Give me all the facts you can, and by return mail if possible, and I will be obliged to you.

Rev. Sheldon Jackson, D. D.

U. S. General Agent for Alaska,

Bureau of Education, Washington, D. C.

My dear Dr. Jackson:

When I was in Sitka last June, Mr. Austin came to me about the trouble over the boy's cottages. It seems there was a difference in the price of these first erected and those subsequently erected, I think the difference was about fifty dollars. And I think the second lot of cottages were probably better than the first, but no one in Sitka has ever been able to convince the Indian boys of the justice of paying more for one cottage than for another. Can't you in some way adjust this matter? Mr. Austin has some money that he has received from the boys on account of payments, and he has written me to know what to do with it, and I have replied to his inquiries advising him to turn over to you and confer with you in reference to the other matter. As Mr. Austin is now acting in double capacity, he is of course greatly burdened with work. Can't you take up this matter and

arrange it in some way so as to stop the unpleasant feeling that exists among the Indian boys?

I assume that when you are informed of this you will devise a way to make everything smooth.

I am convinced that we have the best officials in Alaska that have ever been under appointment. The Governor is under suspicion of a slight, but that is a family affair, he explained some other business to us when we were there and I am not sure but he took that issue of the Allegiance that was least objectionable and for the best part of the largest number. I will be glad to talk about the matter with you when you come to New York.

My dear Dr. Jackson,

I herewith send you a charter charter prepared by Rev. J. F. McFarland to hold our mission property at Hoonah, Alaska. It is very straightforward and I want you to see it and see how terribly the law has been violated. The 200 acres of land was not patented, in any way, for the Indians, but it was intended for the protection of the Board. Won't you confer with the proper parties and ascertain whether I cannot have this defect remedied. Please return the paper at your earliest convenience, and advise.

Rev. Sheldon Jackson,

My dear Doctor:

We are waiting for the "Bear" to return from Alaska to the Islands-- this will be our last trip prior to us leaving for San Francisco and thinking that you would be pleased to be a favor, I will kindly ask you should you by chance see Mr. P. A. Sears while he is in Washington this winter, to say to

him that should he want a superintendent for his company at St. Michaels that I will be on the market sometime next winter. Probably will be able to get away from the island about the last of June and I would like the situation there is not work enough for me here. Captain Healy told me he wanted a live man to take charge of affairs at St. Michaels-- I will know that the new company is going to have large opposition on the Yukon and with out some one who knows something how the trading is done in this part of the world--his company will not pay large dividends very soon. I have no doubt but that I could hold this office as long as the territorial administration lasts but do not care to waste away my life up here on these islands. If I cannot obtain a position in the new company I shall endeavor to start a company of my own as I think the chances of making money on the Yukon River excellent and with good management I can see nothing in the way of the new company making plenty of money. Everything is going along smoothly on this island, Mrs. Loring and her two youngest children are here with me. I have sent two native girls to your school at Unalakleet.

Hoping to see you on the "Spear" early next summer. I remain

Yours very truly,

A. F. Loring.

Dear Dr. Jackson:

I have just found out that the Southern Pacific Railroad Company, San Francisco are agents for the exposition and will take charge of the packages containing the collection you have made for this Department and forward the same to Chicago.

Mr. Jackson,  
 My dear Sir:

Mr. Shepard has just heard through Mr. Shepard of your safe arrival and we congratulate you heartily on your return. Our boys' missionary society is anxious to resume their winter's work and are greatly anticipating the evening you promised to give them this Fall. Next Sunday, a week from to-day we are to appoint our first meeting and if we might know when we were to expect you it would work all our plans and if you could not tell definitely at whom what time we might expect you. We want to do all we can to encourage and further the boy's interest in Alaska and in their Stewart's chapel there. Mrs. Stewart will send to New York for you and we shall arrange for you to spend the night in Brooklyn. Of course there will be the lantern and slide to arrange and everything we can do in Brooklyn to assist we shall be glad to do. I do not know whether you have your lantern or if we should arrange for that. Of course we shall bear all expenses. Any night but Friday will be convenient and if you could give it, we should especially like Saturday night, then, the President of the society, who is now at Yale college will be here.

Please excuse the liberty I feel that I take in asking so many things, my excuse must be our intense interest in the subject and the boy's desire to be at work again.

Very cordially,

Dear Sir:

By the suggestion of Mr. Kelly, I forward by this steamer a bundle of letters to your address, which have accumulated since Mr. Beckings departure from Sitka. I forward those which are sealed, there are quite a number unsealed mostly advertisements I think, which I will retain until further directions from you. There are a large number of papers and pamphlets. Mr. Kelly said you would be pleased to have any articles relating to Alaska, cut out and sent to you. If I can be of any service to you in the disposal of your mail here, I will carefully do it at your request.

My Dear Mr. Jackson,

The steamer left Port Townsend on the 21st instant and brings us the news that Mr. Cleveland has been successful in the race. The next day after election would hardly be time enough for correct returns from those states still it may be true that Cleveland has been elected. No one here has been enthusiastic over Harrison. We think here in Alaska that the District has been treated shabbily at the hands of this administration. It will be a satisfaction to see Lyman H. and Porter and Rogers and Hatch bounced. I like Cleveland for the stand he took in your case against Mr. Allister. Personally I have no political aspirations and I have not the slightest idea that anything will be offered to me. Four years ago I should have been delighted to have had the appointment for Governor.

We received by freight three packages of furs shipped by Forster and Company of San Francisco upon your request. We opened the packages and found them nearly all foxes. We assorted the furs and counted them carefully and have them hung up. We expected to hear from you concerning them by this mail but did not. What is your wish concerning them?

On September 23rd, our third boy was born. Elizabeth was in

labor less than a half an hour. I was her only attendant when the child was born. The nurses like and has hardly been any trouble. We have named him Sheldon Jackson. Now this is one time you have not asked to have your name perpetuated. We are glad that you got through your trip with out harm. Court has been in session but two weeks but I have not been near the room. W. Clark has been convicted of obtaining money under false pretenses. He moved for a new trial and so has not been sentenced yet. You will be sorry to hear that Mr. Pennington has been intimidated several times. He has been very sick and Dr. Rogers urged him to take cherry wine. He fought it bravely but at last consented and this appears to have started him. We do not know his former record but converse with Captain Bengall about this. We feel deeply humiliated over it. Mr Kelly told us he had heard from you. There will be when there is not even a necessity for it, if such a thing can be.

Yours sincerely,

John G. Brady.

Dear Sir:

Now we received your letter from Mr. Stevenson, this last time he mentioned in one of his letters that he had instructed an agent of his in San Francisco to send us a letter which belongs to him and which he himself had saved. But he did not give us the address of the agent and we do not know where to address him. We have been waiting ever since his last letter came for the agent to send us the money but it has not come yet and if you could give us any information as to who this agent is, we would be very much obliged to you. And we would like for you to tell us who is my husband's paymaster now, so if we should happen to need any money we would have where to write to.

Looking to hear from you soon, I remain a friend.

My dear Sir:

I enclose you some photos to accompany the remainder article. I saw the editor of the Californian yesterday and he informed me that owing to the unexpected absence of the head artist of the paper it would be impossible to get our article in the January number as hoped. The letter press is all set up but the pictures are not ready. It will however certainly come out in February number and if you think it best you can place the Eastern article where ever you like as it is not a duplicate in any sense of the Californian matter and the illustrations will be all different. And as you think advisable and collect as ever yours in earnest,

Dr. Melville Garrison,  
Dear Sir:

I have been suggested by Mrs. Delany, lady commissioner to Fair from Alaska, that we make a model of our unique and picturesque log cabin church and send it to Chicago. Fortunately for us there is a starting with us for his beard, while he attends school this winter a student of the law at the University of Chicago. I told him that I would and he has set himself to the task with the promise of a suit of clothes, providing the model is accepted by Mrs. Delany. She has \$2000 worth of native wrought baskets and is situated in a department separate from about. Ammons and his canoe collection. She is more of a friend of our work than the Sitka outfit and it will be our advantage to adorn her stall. I think this will help to convince the world that the chain of forts established along the coast of S. A. Alaska are at the front. Now to make it complete, how would it do if we had a young man from the mission here or one from Sitka or Henry himself - standing beside the model and passing circulars descriptive of Presbyterianism in Alaska? Besides this Henry might be stationed at the side of the church reading off these circulars on a brass new Russian Press. With his gold spectacles, a printing press and front of type, he would command the attention of the visitors. Now to pay for it, let a suggestion come from you to every worker in Alaska to "throw in a little towards

the fact if you please" Mr. Devlin is now then sanguine over our establishment of a separate and new newspaper plant, in that case we will say the press will have heavy working there in our employ. But if the latter plan fails to materialize--we must meet his expenses and about two dollars a day besides. I do not suppose we ought to be sending a traveler before our humble procession of good workers--it seems to be so high and to let old "scarlet" cover" and better material and the other fine schemes in anti-American and anti-Protestantism made out to us.

Mr. Devlin is holding the gun against the Catholic school this year. He has vulgarized the public school as it should be and it was a good point--even on his side, when he said there is never a written request to be allowed to participate in the Columbus Celebration--"that this was a Father school demonstration" And Mr. Devlin and Mrs. Devlin are quite a help in our church work, coming to church morning and evening and to prayer-meeting on Thursday evening. He was working along nicely in quite a winter class and was telling us that they have given the surrounding community an excellent example. Mr. Miller and his family came to the Church. He told us how much he is interested in the Church and how much he is interested in the plan concerning the celebration with them in the city.

Yours sincerely,

My dear Dr. Jackson,

Your letter comes to Father while he is out of town. In Father's name I am glad to acknowledge it. I have read your letter to Father and he wishes me to tell you that you may send the two Alaska girls here and we will do what we can for them. With kindest regards from Father, mother and myself to yourself and your family, believe me,

Dear Dr. Jackson,

Dear Brother Jackson,

As I am travelling from place to place, just doing our work in the far distant Alaska, I am somewhat in need of a good map of that country. One that is not too large to carry in my pocket. I think about 10 by 12 or 10 by 10 inches would do. Could you procure such a map for me and send it to me? If you can not get that size send what you have. I am sure it will help to make plain our situation to any one who may be there. Please send the bill with map and I will send you the money.

Address care of W. T. Jackson, Carlisle, Pa.

Very sincerely,

Wm. A. Kilman.

Dear Dr. Jackson,

Yesterday closed the first term of my present month but I find no chance for reports with Mr. Deane is not here. Will you please send me some?

I see that Mr. Deane has 11, 12 and 13 days in a month. Are not the school months here the same as elsewhere—12 days each?

This is a remarkable settlement for native Alaskans. I would like to stay here for years if two conditions were different. All the rest I think I could manage. These conditions are a better salary and a comfortable school house. Mr. Deane will only pay at the rate of \$300 for nine months and I board myself or \$400 and

he heard me. I am feeling the corner. That church Dr. is cold and inconvenient. Think of three schools in one room, as we have had in this cold weather. One good children Dr. I did not even hope to find in Alaska. If I had a comfortable and convenient house and could choose my letters I would have a school here in five years of which my old school would be proud. But this will never be in my hands. I am sure you have not yet seen things as I do. Such teachers, industrial workers I have never found anywhere before, none are bad. I want of no other school of which I can say the same.

Dr. I have not an unhappy view of it since coming to Alaska. The letter I wrote you from Sitka was unintelligible for my brain was so confused I was generally sane. Yet Professor Deering said I must write that night. I was engaged employment at Prof. Banks and so that the confusion was all my brain was. Had not Mrs. Brady arrived here in my opinion I might have been worse off. I have not a hard experience yet I believe I can see God's hand in it all. I am misjudged Alaska. I am engaged to visit the people kind and mental to experience as they are in Oregon and Washington.

I am sorry I cannot say more for I always thought I could talk as freely as you do by my letters. I am so able to render a good report from this school. Since the year ends, there are some changes in the school.

Yours truly,

Wm. A. F. Felt.

P. S. Please inform me if I have been in error. I am sure there for the rest of it is correct.

Dear Dr. Jackson,

Your letter of congratulation of the 14th.

instant came duly to hand and I thank you for your kind expression of pleasure. The appointment came in this way, when I reached Mrs. Carlson in southern California on the 14th. of October I found that she was not at all well and that during the entire summer she had been under the care of the doctor. Also learned that in her condition of health that it was very desirable that she should remain in this climate for at least a year or two. I was

was impossible for me to answer it by return mail. While I was very glad to hear from you I was greatly disappointed not to see you here. Am thankful that a kind Providence has spared your life and helped you to carry out your plans to benefit and bless His poor children in the New World. I can imagine how sad their condition must be from what I have seen of the poor natives here. I have not heard much about your work have seen only a few brief notices in the papers but hope to get it all in your next new book. I know you were no feeling of malice or revenge towards me, even though you do considerate me as being suspected, superintendent of a Generalizing school etc. I need not take the time to give you details about what you have seen here. Mr. Vane, Mrs. Vane, Mrs. De Vere, Mrs. Evelyn, Mrs. Everett, Dr. Thwing and wife have left us and only one, Mrs. Tala has come to take Mrs. Vane's place. I think under such circumstances conversations are a grim joke. I hardly know what to say about the "North Star" when Mr. Docking left it dropped. I was at home and I had to do something with it. I thought I would run it until you returned from the Arctic which I supposed would be not later than October. I have to do nearly all the writing for it myself and I do so busy and the printer is so unreliable - takes so much time, prints it sometimes without sending me a copy so that I am forever making so. So. He has not a copy of September number for three weeks now, and it is not printed yet. Mr. Docking gave me the "North Star" press and type stand which cost me about \$100 at sending it over from \$30 to \$100. He gave me the paper before we went in each case. Mrs. Everett gave me a thousand dollars for the school, mentioning an article she saw in the North Star stating for what. Mr. Docking paid Porter for printing it as far as the price of paper. It does seem as if it might be worth for me with a little more by a year or two, but I do not feel sure to do all the writing for it, as I am situated at present and I am not able to put up much in my pocket to make up my deficits that my own. I do not see any prospect of getting the printing done by the way. They need to stay in the school for several years before they are qualified for the work. Their time expires and then they want to leave or be paid for their work. Henry Phillips has turned out to be a most worthless fellow. I am told he talks against the mission like a pirate. Do as you think best about the paper. If you think best to continue it, I hope you will furnish me with reading matter liberally to help fill it. What about the boys' cottages? Shall I collect what money I can and send it on to you? Lou is in the College of Physicians and Surgeons in New York. I think it will take half of my salary to get him through, for the next

three years. Your letter from Unalakleet reached me to-day. The news of President Cleveland's election is confirmed. So we shall have a change of officials here again next summer I expect. We have some very good ones here now and I dread a change. Miss Austin is sick confined to her bed. Was up with her all last night. She is better to-night.

Sorry not to get off the September number of the North Star by this steamer. Have written an article in answer to some criticisms about our mission, made by a Rev. Dr. Washfield who was here last summer. I thought perhaps it was a little too sharp, showed it to some of the friends of the mission here, and they said no, he deserves all that you have said, so I let it go. I hope to send the October number with it by next steamer. Willie Sel's will be delighted with the same. We are having cold weather at present, water pipes bursting, bread refusing to rise &c. These things tend to develop great dangers among the helpers and make things easy and pleasant for the superintendents. I shall hope to hear from you often. Be sure we are waiting for the "North Star". I hope this will find you and yours well. If Mrs. Austin were here she would write with me in sending our kindest regards to you all. I remain,

Most sincerely yours,  
A. L. Austin.

Rev. Sheldon Jackson, D. D.  
Dear Sir:

I am much pleased to learn from Miss Whitcomb that you will lecture under the auspices of the Boys' Missionary Society of the Church of the Pilgrims on Saturday evening December 3rd. in the lecture room of said church. I am expecting you to pass the Sunday with us. If coming from Washington, I would suggest that it would be easier for you to come by the annex boat from Jersey City which lands passengers in Brooklyn at the foot of Fulton Street. If you would take a cab, the society will pay the cost, or will send a cab where ever you may designate in New York.

Have you any suggestion to make about the size of sheet to be used for reflecting your pictures? Do you wish to confer with the man who will manage the lanterns before the lecture?

Hoping for an early reply, I am,

Yours respectfully  
Rebecca M. Stuart.

You will be welcome at any hour on Saturday that is most agreeable to you - 124 Newson Street, between Henry and Clinton Streets.

Dear Sir:

I am in acknowledgment the receipt of your letter to Mr. Burgess, of the 10th District, asking for a copy of Mr. Delisle's Report of the Employment Survey of the men of the lower, Tab-on-Gut, Portage, Bell and Mackinac rivers, and in reply to say that a copy of this report has been mailed to you to-day under separate mailing.

I am, Dear Sir,

Dr. Jackson,

Dear Sir:

Your letter of the 10th inst. has been received and we are very glad to hear from you. I also thank you for the kind words to me. I am really very glad to hear that you are not only helping me with the money but in every way. As I would be just what you wish me to be. Now I wish about Mr. and Mrs. Harris, it is true what you say to me that I have to do just what Mr. Harris wants me to do because he is supposed to be a teacher and it is his duty that he should write an article and tell me what to do in every way about the school and work, so that I should follow his advice instead of doing this and that. He never says a word to me, nor speak any kind words. He says to me that he doesn't have no faith in my father's ministry and says to me he will not advise the Board to send me there to help him. He was asking for a white teacher for his children, he told me also that we must not steal any time from his house, I cannot tell you all what he says to me but he told you could see just

for he has been treating us. If he was like Mr Austin or Mr Willard  
 do you suppose we would last Chiloat? I don't think we would  
 just before we left here, Mr Deane and Mr Boyd was here and they  
 told us that Mr James would be just like our father and when we  
 got there we don't see that way. Dear Sir, let me say a word  
 again, about a week ago we had a long talk with you and Mr  
 Chiloat, Mr Austin was very sorry to hear the words about brother  
 James. They talked to Mr Austin just how he is treating the Indians  
 in which I believed he wrote in the paper that this matter of you  
 see it is not only we who are treating you. I am willing to  
 learn under a white teacher because I want to know how you  
 run the things, so that I won't be treated like a child. I know  
 that you may think we are a bad lot. It seems to me that I  
 cannot give up the work of James and I want you to know that  
 the people every day speak of him as a good man. I think  
 if they could see how far we have come we would not be so  
 bad.

Hoping to hear from you soon. My love to your mother and  
 my wife and I would not love to see you. I am very  
 yours truly

My dear Sir:

We are very anxious to see you and your wife and family  
 gathering at Chiloat and Chiloat. We are very anxious to see you  
 to show you how we are doing. We are very anxious to see you  
 it would be worth your while to come to see us. I am very  
 wish we could send a good man to see you and the people  
 ions of the city and the people are very anxious to see you  
 to drive your wife and family to see you and the people  
 to show you how we are doing.

Very respectfully,

Rev. Sheldon Jackson:

Dear Sir:

In accordance with our express desire, The American Folk-Lore Society is very happy to send you a present.

Enclosed please find a bill for the annual membership fee for 1900 (\$5.00), payable to the Treasurer, John H. Stetson, A. B., 41 West 44th St., New York, N. Y. You will observe that a payment of \$5.00 at one time, entitles you to life membership.

The names of the members of American Folk-Lore, the organ of the Society, will be forwarded immediately upon the completion of your membership.

I remain,

Very sincerely yours,

J. H. Stetson

Secretary

I have to verify you of your membership in the American Folk-Lore Society, Cambridge, Mass.

Yours very truly,

Rev. Sheldon Jackson:

Dear Sir:

We are very happy to receive your letter of the 10th inst. and to find that you are very interested in the new paper, and in the work of the Society. We are very glad that the President and members of the Society are so interested in the work of the Society and that they are so kind as to give us a good number of your work.

Can we have the privilege of circulating your work in the territories and abroad as to missionary effort? Please write me at an early date this year. If you can send me, fixing a date is possible. Can you send me some of your work?

Yours very truly,

A. B. Kneeland.

My dear Toole:

I am pleased to say that your article on "The Future of the Pacific" will be published in the January number of the Californian after all. Professor Seligson the editor having been so interested to get it in that issue is pleased to. I have been looking at the picture and I think as a whole you will be pleased with the article. Now as for the Eastern publication I would like the editor you can get it placed the better for all concerned. As the article will be ready for issue here about December 15th and if we wait until the Californian gets that the matter may not appear to be so desirable for Eastern editors.

Now the only danger is in getting the article to be any danger of the not passing I wish you would let me know to give it some help-as I believe I can-but I would not want to bother some friends of mine unless the matter seems likely to fail, so when you hear from me I shall before I think I can do something for it if you desire it and will let me know in time.

Nothing you write always and will be to know that you mean I am.

Yours sincerely,

J. C. Seligson.

My dear friend:

I believe with your assistance and support that I can be appointed Governor of Alaska. I suppose that Mr. Delany will get whatever he wishes and will try to control all the appointments for Alaska. If I do not get the place as quick as you and Brewster will.

Being well acquainted with the needs of the country I believe that I could make special benefit to all the people who arrive and white.

Please write me what you think of this; as I will be governed to a great extent by your judgment. I will be in Washington in January. I am,

My dear Sir:

Your very courteous and obliging letter was duly received but very soon after it was I received notice of a change in my position of duty and was off answering you in the hope of being soon in your city, as I usually do, in person.

I have my friend's assurance that it is needless to press the matter of the selection of another visiting surgeon to the Presbyterian Hospital until after the completion of their new ward and operating theater. However I shall endeavor to ask you to hold the case in abeyance until we can see him to ask your aid in the matter of following him through at the hospital and executive committee as you may be able to visit with me this week.

I have heard of your success in transplanting the cataract and I am very much interested with much interest. It is of more than the ordinary interest to me, as I have every thing but a library on the subject of ophthalmology. I have some very interesting letters connected with the subject of cataracts. I hope to follow you to California where I go next month. I am very much interested in the subject, and I may ask you to give some practical and theoretical in the principles of light in high myopia.

My warm regards, together to your family.

Dear Doctor:-

I am delighted to hear that we are to have the pleasure of your company at our house next Saturday. We wish you would come up on Saturday and stay over until Monday, but come whenever you can. We shall expect you on Sunday evening at any rate. Take the Third Avenue elevator to 42nd St., then walk west to Madison Avenue (either on foot or take any street car) and walk to 26th St., and take the car. I am at 8 1/2 E. 12th St. between Madison and Fifth Avenue.

Rev. Sheldon Jackson,

My dear Friend and Brother:

I had hoped to see you at Sitka on your return from the

Yesterday last Autumn, and regret that you did not come by and see us. I know however how anxious you were to return to your home after the months of absence. I removed the articles shipped me as the last day of the State and have placed them in the museum building. They were numbered as in the other State and I await your return regarding them. If there are some in any of the boxes they should be taken out and looked after lest they get damaged or stolen. This collection as you know is becoming valuable as well as extensive and hence it is important it seems to me, to classify and list the articles. Something like a guide with a brief history of the most important articles might serve this purpose. What would you suggest? Of course you that our Democratic friends advised us. I believe that my stay in Alaska is short but I will not lose of interest in the society and hope that it will still remain and I would like if possible to do something towards putting it in better form as I have suggested.

I am very desirous of attending the General Assembly at Washington next May as a Commissioner from Alaska. I will soon be installed as a willing slave of one of the principal laws and will then be enabled to go as such Commissioner. You have been instructed all your responsibility to hold a meeting of the Presbytery in Alaska as I write to you in regard to the matter. I believe you are the proper person that you are a person as that my absence will not hurt as other Commissioners are paid. Please write me Philip.

I trust you and yours are enjoying the best health. My family are well. Never more in Alaska and I am tired of living with you. Writing to you this day.

As ever, Respectfully,

W. A. Fortinbaugh.

Dear Sir:-

I received your kind letters but was away from home when they arrived. I look for the Captain between the 12th and 15th, hope

he will get home with out accident. We have had fearful storms and I shall feel anxious until his arrival. I will send him your letter. I cannot understand what Mr Kimball can have against the Captain. I hope and pray the "Emancipation" may cast Mr Kimball for I hear from several people in Washington he is not popular and quite disliked, of course this is between us. I wish you could find out what Mr Kimball has against the Captain for I always thought he was a friend. I do not know that I shall be required back this winter and perhaps not at all. Fred is in Chicago in Mr Tabor's employ so you see I am quite alone. I felt terribly to have Fred leave me but gave my consent as I was afraid I might oppose him to the detriment of his future. He writes very hopeful and happy and says he wishes he had gone three years ago. I see you are again to be a resident of the "Dear" Dell, I say too. If anything were true to see you are not driven out of the house. If the Captain is ordered back on any business this year I shall most certainly go with him. I did not hear of the petition here for the Captain until Thursday. I was told it at the Quaker-Market. Captain Hooper has gone to Washington. I saw him for a few minutes on the street, although he called these things while I was in Salina - there is not much news at present. Captain Hooper and sisters came to see me and he said he loved the picture, you know he wanted to send them but I did not think he would ever think of it again. I am nicely fixed for the winter and I think the Captain will be pleased with my room. I see Captain was right with regard to Mr Petroff. Mr Petroff says his article for the Californian magazine will be out for Christmas and he will let you, you should order several of them and have them sent, or placed on the desks of the senators. He says you will be pleased with it as it is a very fine article with fine illustrations.

Yesterday I received my "Paddies" they are lovely and I am delighted with them I am glad I gave you the white ones. Many thanks for these beauties. I understand that Mr Brown has sent the Captain a beautiful table-scarf of Silk & velvet but I have not seen it yet, the McKean had it at Mare Island. I am sorry that your wife does not improve as fast as you would wish her, give her and your daughters my love. With kindest regards and love to yourself always,

Yours sincerely,  
Mary J. Healy.

I see the article is not in the Christmas number best wait for it to come out in the January number.

I listened with much interest to your talk to the students in the club house last Sunday evening. My Dear Sir:-

It is now something like 20 years since you visited me at Cape Verde and I am so glad you are still living and doing well. I remember also that you were to my people when I had charge of the Cape Verde Church, Washington City.

I have been very prominent in the Presbyterian Church for over a year and am now doing well. I have just been elected to the Massachusetts Legislature and will be in the State House this winter. This winter, I will be in the State House. I should like to give some or lectures at various churches in the Academy of Music here on Sunday nights, my audience being from twelve to fourteen hundred and I am just wondering if I cannot get you to come and give us an illustrated missionary sermon sometime this winter on Alaska. I would hardly expect you to come all the way from Washington to do this but it is possible that you may be in this direction and so be able to stop over a Sabbath with us, or even if you are about New York it might be possible for you to come. I will pay all your expenses from New York and back or from any part up to \$100. Should you be in Boston after 1st of January I would be pleased to have you call on me in the State House there. Should it be impossible for you to come and speak for me in the Academy perhaps you would lend or rent me your slides if you have any on Alaska. I will be responsible for their safe return. Your letter dated the 9th. of this month, containing your report on the reindeer, has come to hand. I enclose 25 cents in stamps for a copy of the Eskimo vocabulary which I will be very glad to get.

You say that the next herd of reindeer that you will establish will be at Father Test's Mission. I knew a Father Test in the Rocky Mountains about twenty-five years ago. He belonged to the Jesuit Missions. I wonder if he is the same person?

Dear Sir:-

Your kind reply of the 7th. of last month on the reports. I was prompted to write you by some conversations which I had with two young men, medical students, who with myself were present at the Sunday evening meeting which you addressed at the Club House. We were all very much impressed by your remarks and have considered the matter very earnestly among ourselves as to what we could do with the information which we received. The question in our minds is this, can we in any way use the six or seven months which will elapse ere the beginning of the next college year, for the extension of Christian work in Alaska? Either of us finish in college this year. Some of us have excellent opportunities for the summer, but if it were possible to use us in your work we are surely willing to consider the subject further. Dear Dr. Jackson,

Years of the fall of land. It will give us no little pleasure to have you and we trust the time will not be far distant. On account of the lateness of preparation and uncertainty we cannot get it in this month. Dr. J. Bates is expected next month. Will you be in this part of the country in February? Presbyterians are weak in New England and it will need our time through necessity to involve ourselves in an expense of these occasions. We think that much good may come to us and our church in New England by your presence and hope that arrangements will be made satisfactory. Please let us hear from you freely and often.

The Board's Executive Committee of Home Missions feels the importance of having historical leaflets on all the different branches of its work. Leaflets that will bring the history of the work down to the present date--as far as possible. As you are so much better fitted from long acquaintance with the work in Alaska to write on that field than any one else, I am requested by the committee to ask you to either revise your old leaflet or better yet to write a new one. We are greatly in need of a new and comprehensive historical leaflet--and I hope we shall hear favorably from you. I enclose the leaflet to which I refer. We were all intensely interested in your account of your last trip to Alaska.

Dear Dr. Jackson:-

Your letter reached me by the last steamer (November 18, 21 and 24th) and found me so busy that I could not answer by return mail. Rev. Dr. King came over from Juneau, meeting at Presbytery held at my house and Dr. King was elected representative to represent the Presbytery of Alaska at the General Assembly to be held in your city May next.

I note what you say about sending exhibits from our school to the Columbian exposition. If possible I will do something but I am almost helpless. The Deader shop has been closed some months, Cooper gone below. Have filled the school with poor scholars and have no teacher to care for them. I will do all I can for you in the way of sending "The North Star". I supposed Dr. Housley sent you the papers regularly—he gave me to understand that it was a private partnership between you and himself. I have never looked over the mailing list since he left, supposed of course you were dead for all the papers you needed, and were getting them. I think it is a shame. I think I have written you that the "North Star" printing press was sent by him to Marshall Porters some etc.

The cabinet organ came safely by mail steamer and is safe and sound in its cottage. Have not seen it yet but Mrs. Willard says it is very fine. It certainly is a present that any one might be glad to get and I trust that both of them will appreciate it. I told them to write letters to Mrs. Hobb and let me hear from me I will know if it is done. Rudolph paid me \$25 and Willie Wells has given me \$25 on their cottages. John had not given me anything and Thomas has not returned from Chitina yet. Expect them on next boat will try and get payments from them and send you the money. Will give the accounts and get you to send receipts to take up the ones I have given. Do not know how much each one has paid but will see their receipts and find out and let you know. One of the natives who was brought here a prisoner from Juneau—two weeks

ago has the small-pox and is quarantined on Japanese Island. The rest of the prisoners are placed on the lee--I sincerely hope the contagion will not spread. A sickness meeting was called yesterday and a Board of Health was elected to take any action that may be needed to meet emergencies. Judge Smith appointed me as one of the five members and I accepted as I thought perhaps I might be of more service to the poor natives although I have more than I can do here. Mr Clark has been confined to his room more than a week with quinsy now cured. Mr Hamilton visited the school yesterday came to the church Sabbath evening and he told me that the congregation and the meeting was a great surprise to him. He seems to be a fine young man. Mrs Amelia has found "North Star" and I will send them by next steamer.

With much love from Mrs Amelia and myself to you and yours, I remain,

Sincerely yours,  
A. E. Arnold.

Dear Sir:

Accept thanks for letter of Sept 21st. Our key has been at "Fairweather College" since Hamilton. I will forward his bundle to him. I received some time since copies of enclosed blanks for different reasons the matter has been postponed and now in absence of my instructions I am in doubt as to my ability to complete them. Forwarding them with this I ask if you will pardon this delay and if not too late send such specific instructions that a busy fellow may make no mistakes. I have been scanning such papers as reach us for sure notice of your return and reports from your summer sojourn. This leaves us well and reasonably prosperous in addition to our church full next Sunday morn in prospect. This week of course is one of busy anticipation.

The mission family joins me in greetings of the season to you and yours. You will regret to learn that Shults is in declining health, he has rallied some what just now but we hardly dare hope it is permanent.

Sincerely  
J. Lewis Gould.

Rev. and Dear Sir:-

Will you please save January 13th. for us? We propose to have a large assembly for boys the center of the city and fill it with representative young and old people. They will have their note books with them and prepare to report what they think will help their committees to do better work for missions. The subject will be "The Missionary Committee"

We do not want you to dwell on the Committee work. They already understand. They have the method and materials to work with. We want to invite them to work, and instruct them about the fields. That is what we can do better than you. Please now come to tell us what an opportunity we have, or how big we are, or other matters that we already comprehend as well as they. This is why we come to you for we know that you have no time to spend in that way and will get down to business at once. Will a half hour be all that you need? An illustrated talk of a foreign field will be given the same evening. Several committees will report, and there will be much singing. The meeting will run through on time. I save you two meetings through on time with full programs, in the new building, at the same time (up and down stairs) and I shall remain in work.

I will write you later about expenses.

Yours with esteem,

J. Howard Breed.

Rev. and Dear Sir:-

I was glad to see your address in the Evangelist and to learn that you would be in Washington during the winter. You know, perfectly well that your name has been a household word in our family since my boyhood, but I don't know whether you remember the Steubenville boy or not, that however is not important even as an introduction because I come late time for the sake of your work as well as mine. Some time in January or February I expect that our Union will hold a meeting in the temple, which is an

enormous building, put up by the Baptist's in this city, and the seating capacity is nearly three thousand. If we do not hold it in this building it will be in one of the very large Churches downtown. The subject for the evening will be "The Missionary Committee" and we want to have the subject of missions presented in its most attractive form. The audience will be composed of the best workers of some 30 Churches in this city. Could we arrange to have you address that meeting for half an hour, if we select a night that will suit you and bring you here with out expense to yourself for the occasion? In fact the meeting will be held definitely Friday Evening of this week, the date will also then be decided upon and I will write you again.

Please respond as soon as this letter reaches you so as I may know what interest you take in this matter.

Yours very truly,

J. Howard Breed.

My dear Doctor:-

After delays of ship, lost slides, week-end, loss of connections, etc. I arrived here by last steamer, December 14th. I found your letter of September 24th and a beautiful bear-skin awaiting me. I wish first of all to express my thanks for this and other courtesies extended to me since I have been in Alaska. It is especially painful to me because I had feared I had somehow alienated you, though with out any intention or desire to do so. I trust I may have early opportunity to manifest my gratification by some return.

I am sorry you could not have returned this way so that you might have had the light of your own observations by which to revise your opinions of some parties of this part of the Territory. Frequently in order to estimate people rightly, we must see them in different circumstances from the ordinary routine of life.

I regret I could not have received the statistics of the school and reindeer enterprise in time for my report which I presume you have seen.

Mrs. Sharp joins me in remembrances to Mrs. Jackson and Miss Jackson.

Wishing you a "Merry Christmas and Happy New Year" I remain,

Mr. Atterbury and myself will be glad to have you stay with us at that time. We will arrange for a stenographer and shall have to depend upon you for the slides. I presume that there will be no difficulty in making your slides fit through. I am not very familiar with the writing of the instrument.

Don't Miss

Dear Sir:-

Your letter of December 14th, 1911, regarding, as a meeting of our Advisory Board held December 14th, it was decided to hold such meetings as you suggest in Boston and Maine. The meeting in Boston can be arranged for the 15th, or 20th, or January 17th followed by the meeting in Maine on the 18th, or 21st. The latter prefer the 18th for the Boston meeting. As far as the arrangements have been made the meeting in Boston will be held in the Memorial (Trinity Temple) it will be an all day meeting, morning and afternoon sessions using the stereopticon at the afternoon session. We can secure the use of a good lecture hall and stage and there will be no difficulty in having the exhibition in the afternoon as the Memorial can be darkened easily. Will you write us at once which of the dates mentioned will be most convenient for you and make any

suggestions that will help us make the meeting a success. Please let us if we need plan for other speakers for the meeting and we must have you wish to convey. The plan for the Maine meeting is not yet been determined. The Maine ladies are awaiting the decision of date of Boston meeting. May we hear from you next?

Respectfully,

(Miss) Alice E. Stearns.

Treasurer.

Chester, Pa., December 29, 1902.

Dear Dr. Fassett:-

I hope your journey into the Capital was not marred by any mishaps. It seems our Congressmen are now down Washington and I expect to have a talk with him.

If convenient I would like to have you see Hon. James Kerr, Clerk of the House of Representatives. He is confidential and knows many ways of politics. He will tell us if we can win. I enclose one of his letters. In following things I want to send my energies to secure the appointment of Superintendent of Public Instruction in this state, for the year of January 1st to April 1st and the Cleveland administration beyond that time. I shall press for the government.

Respectfully,

A. J. Davis.

Dear Friend:-

Your suggestion as to the Maine meeting is of course very good and we will determine what we want in Washington. Governor Henry is a disgrace not only to Mr Harrison's administration but to humanity itself.

Mr Cleveland will not make many mistakes in the personal of his appointments this time, but will put the right man in the right

Dr. Sheldon Jackson,  
My dear Sir:

I am pleased that I had the pleasure of meeting you and receiving the valuable information you had to impart about Alaska. I have just made a report on the establishment of the New Bill for Alaska, proposed by the Hon. Secretary of the Interior and have pointed out and suggested some changes in it. One that I think should be established as a regular court and that I should be only a Commissioner Court. Another that the clerk be allowed to appoint deputies and receive affidavits of State, County, and District instead of State and County. Deputy Clerks in County and District will facilitate communication between them and the State and file Declarations of Intention in better manner. Final papers can only be issued after examination by such court. Commissioners have pretended to do this but their action is illegal.

I have recommended that Sand Point or Wainwright should be a regular station for a commissioner and deputy clerk. Instead of Sand Point. At the present time a commissioner and clerk are needed at Wainwright, by consequence of the clerk of the court that the Appellate Court also has brought there. We have all the papers already by Wainwright.

I have recommended a bill to the number of 3 judges of the Peace and Justices of the Peace, or not to exceed three in each of the proposed commissioners' jurisdictions. You have seen the present governor would abuse the appointing power if not checked. I recommended also a few other minor changes.

The Commissioner of Education of Alaska would be glad to have a copy of my report upon the matter of "Education" and the progress made by the Commission, together with the exhibits attached thereto and a description of the same. The attitude of the Native Indians and their love for "Education" and their desire for education is well brought out--also the character of "Education" and "Commissions". It would also be glad to have my report on the state of "Education" in Alaska--its progress and schools with appendices.

I was much interested in the matter you gave me of Alaska. I would like to hear from you again and would like for you to send me the Bulletin of the Department of the Interior as it is also the Bulletin of the Alaska Dept. Dr. Hall is in the line for any assistance I can be of use.

I feel interested at the work of the Department in determining the land survey.

Yours very sincerely,  
A. C. S. Duggan.

Sister, Alaska  
Department of the Interior.

Dear Sir:-

I thought I would like you a few words to tell you about the work that has been done in the Department of the Interior and I thought you would like to know that the work has been done and I wish you a happy Christmas in 1901.

Yours very truly,  
A. C. S. Duggan.

Sister, Alaska  
Department of the Interior.

Mr. Duggan, Alaska  
Department of the Interior.  
Dear Sir and Friends:

Yours of the 10th of Nov. I recd. Mr. Duggan's return from Alaska in a day or two. I wish to tell you that for an interesting and valuable report of what was done in South Eastern Alaska.

The report of Mr. Duggan's mission is very interesting. I had heard of his mission for his last year although I felt then that some of the charges were true. I suggested a letter to Mr. Bacon at Portland Oregon last May, saying that I believed the charges against Mr. Duggan were in the main true but that he was a young man of ability and I thought was anxious to correct his mistakes take evidence. But as he did not improve by himself from members of the board but has continued in the same objectionable company,

Wayne, took the saloon element on. Yes his wife is dead and Mr King married with the Scott family, that respectable actress, George's wife left him. He keeps a mistress and Mr King visits her when Scott is away home perhaps so.

Prof. Davies and Mr Wood (Deputy collector) and others told me, of course Prof. Davies would not. The his name would either would Mr. Ford. Rev. King's argument is a square one and yet he is invited by King to preside at the organ. Rev. King has very little moral stability. He is continually compromising the cause as well as himself and it is a serious thing to have an unstable man to represent us at the General Assembly.

Rev. King would stand by his own words "condemned" by my moral sense and has been so to the disgust of all those abolition workers like Rev. and Mrs. Gillard, Miss Lee, Mrs. Taylor, Prof. Davies and a Mr. Lee at Douglas. The General Assembly would then be a burden to pay the expenses of two bad men unless Rev. King were before leaving that he was to be sent to some other field he and his wife would have to return to Alaska to save for their goods.

Dr. Clarence Thwing has made a poor harvesting at Wrangel.

I am sorry you are going to spend another season to the far north-west. Surely it is too great a sacrifice for you and your family. But if you must go, I hope that I may have the pleasure of seeing you on your way.

An Indian chief in Chukchee by name Five Gun. Two has left a claim of twenty-five dollars against Mr Bruce for guns purchased by Mr Bruce when he was taking the season. The chief shows me one bill to every body and some body told him to get a lawyer to write to the "government". So he came to me and I told him I would write to Mr Bruce. It appears that Mr Bruce had requested the store-keeper near Cape Fox to honor one line bill but it was not honored. The appeal with our interest is twenty-five.

Remember me kindly to your wife and daughters and to General Bates.

Yours sincerely yours,

W. A. Kelly.

Mr. King of the above named in attendance Alaska at the meeting of the Presbyterian Board in May as a delegate for this place and I want to draw your attention to the fact that Mr King is not a fit person to represent Alaska for the reason that he is not in company with either the party or the name he represents and if a mistake as he admitted is made as a time when to have

his expenses paid and would visit the World's Fair at the expense of the church. On last Sunday, December 20th, he was publicly excommunicated me with out cause or notifying me. He made many statements on the streets prior, of his intention to do so and that he would disgrace me in public because I warned him against his law and dangerous associates. Can a minister take it upon himself to excommunicate a member in public and with out notifying the person if he I consider it a very dangerous thing to be a member of the church.

Very respectfully,  
Mr. F. A. Hart.

Seattle, Alaska.  
December 21, 1907.

My dear Dr. Jackson,

Mr. Hamilton has been here for two days and I think that he has L. E. Knapp fixed up pretty well. We have shown him all the attention possible and have had him for lunch and he has called several times. He met the school board and committee at the clerk's office Wednesday evening. The committee urged that an amount be allowed to put down a floor in school No. 1. They are strongly opposed to advisory committee getting any salary and can not see how they can do much good. I think that it would be more advisable for local committee to act directly with the agent and commissioner and have no intervening body whatever. George Knapp began suit for divorce in Sitka Co., Washington before Judge Mc Bride on the grounds of desertion. Gertrude was Delaney who is now at Everett, employed. He filed an answer and a cross-bill asking for a divorce from her for adultery for herself and child for the return of her money and property. Delaney stipulated with his attorney to have the testimony taken before Judge Truitt there but when we appeared before Truitt, George Knapp who came on with Leman refused to have plaintiff witnesses first. They demanded that defendant produce her testimony first - that is, G. K. will not take the stand here but will be-law before Mc Bride. We have C. E. Johnson to conduct the case before Truitt who has no authority whatever as all the questions and answers must be written and objections and be sent to Mc Bride to be ruled upon. We concluded to put our witnesses upon the stand - all except Gertrude and Mr. Patton who will go below to testify. They do not know this. George is conducting his own examination. It certainly will open the eyes of an unprejudiced judge to read George's own questions.

Cassie has been examined and Elizabeth has been on the stand for a half day. They are not as well as January 11th. I want to have the Knappa shown up as much as possible before I look at it again. The wife and the girl are well.

I did up four cross boxes for Mr. Hamilton to take to you. Three are good ones and the fourth is very poor. I showed Mr. Hamilton the bear and the blue fox was not in the lot. You surely could not have seen the furs packed. They were well packed and I am satisfied were not tampered with on the steamer. Hamilton from Seattle who is here said he would call and look them over and give a bill upon them.

I should like to talk about mission affairs. The visit of Hays, Mr. Jones and the others last summer has not materialized in anything tangible. To my belief the work has retrograded. Mr. Straven, Mrs. Dixon, Mrs. Severe, Miss Deary have left with only one new power to fill the gap. Annie is not in to fill Mr. Kelly's place to do the preaching. So, Mr. I really feel disappointed with the Board. Not one of them would conduct his own business as the work of this mission is now done.

My family are all well. The boys are growing and enjoyed Christmas well. This testimony business however is nothing. A prisoner was taken with small-pox. Prompt action was taken by Dr. Rogers. The sea was chartered for the sick prisoners and the sick was taken to Japan. So far no other cases have occurred. It will be fourteen days tomorrow.

I hope that it may be possible for you to come this way in the Spring. Rev. King was here by last week and was elected moderator of General Assembly. Christchurch is not for December again. Rev. Alverstone has been circulating a petition for signs for his appointment. I would not prefer Buckley. But what will the party do with it? platform if they want candidates--not stand upon it but sit down on it.

Yours sincerely,

John C. Green.

My dear Dr. Williams:

I have your last with the personal acknowledgments for which  
 accept thanks. I notice that both Dr. Lister, Reed and Cameron acted  
 as interviewers with you. I trust you will be able to explain to  
 these gentlemen as well as others who should be acquainted as I have  
 often told you he did not want us to talk about our work I like  
 to have other men as they are people he has seen his situation,  
 I am aware of the true sense that is so much more a part of us to  
 recall the fragments of which the picture of the life  
 during service is complete. Really I did not care for the place at  
 all and I am sure I should have been at that service but I felt  
 embarrassed at the time. I have been very much at home and record  
 everything and would be glad to see you personally at home and record  
 would also have enjoyed the evening and watching the work  
 and I am sure that you would have made it very much to the  
 secretary and he would be very much interested in the work  
 I am sure that he will be very much interested in the work  
 him that I am sure will be a record that is recognized and appreciated  
 by his fellow. I am sure I shall be in Washington for a little while.  
 The Columbian Exhibit will be very much interested. I am sure it is  
 great deal of work and better I shall be glad when it is out of the

ship. I have not heard from Christa Shepard since I arrived.  
Wishing you and your family a Happy New Year.

I am, sincerely yours,

W. A. Healey, R. C.S.

P. S. I hope that this little episode of Kimmell's will convince you of what I have for a long time been trying to make you understand that is, there is little or no harmony exercised except that forced-exercise by compulsion.

Respectfully,  
W. A. Healey.

The two sets of letters have been received. They are excellent and I thank you very much for the trouble you have gone through.

I should like to see you before I return to Alaska but do not even know on what date I shall go. I will call on Philadelphia # 823 North 11th Street after the middle of next month. Some one said you would be in Philadelphia about that time and I might be able to see you then.

With my best wishes for a successful and happy Christmas season and a Happy New Year, I remain,

Dear Sir:

We beg to acknowledge receipt of your letter of Feb. 25, and herewith beg to inform you of our rates to St. Lawrence Island. Our rates will be the same as to St. Michael, viz. 1st class passage \$150.00, 2nd class \$100.00, Freight \$25.00 per ton for general merchandise provisions, coal etc., for lumber extra arrangements have to be made.

We received also a letter from Mr. E. E. Thornton, of New York, inquiring our rate of passage to Cape Prince of Wales, as well as freight, we informed him, that our charge would be the usual one to St. Michael for each passenger, and as the place is an open roadstead, and a greater distance would have to be made, and as the vessel might be delayed by stress of weather, we would have to charge \$400.00 additional, and freight would be \$30.7 per ton excepting lumber.

We presume there would be no difficulty in arranging with Capt. Healy for the transportation of the people intended for Point Barrow, from either place.

We also think that our terms are very reasonable, and that it is certainly cheaper than chartering a schooner.

With best regards, we are,

Rev. Sheldon Jackson,

Dear Brother:-

As you requested, so I now write you, relative to our church project. During the quarter which just ended we added seven to our church. This makes twenty (20) having been baptized into the Presbyterian faith by me. We were here nine months before gaining a single convert. He was a member of no church. We were here eleven months before gaining a single convert from Greco-Russianism. And now we have gained nineteen from that vain religion within six months. So now we have twenty converts in all. Light is conquering darkness. But our great need is a church home. Our people are begging for it. The schoolroom is not a fit place for sacred worship. Our people want a building dedicated to the Lord alone, a place to worship in severed from all secular associations. In this our Russian neighbors have a decided advantage over us. I am sure that with a church building we could win this people more quickly to the Lord Jesus. Some have a prejudice against entering a schoolroom as a church, having been brought up in the gorgeous Russian church. Then too the Russians use it as a weapon against us in giving out that we are no church, only a school. The crying need is a church. We have an independent body of worshipers now and should give them a church home. This should be given us not later than next spring. My prayer and hope is that we may begin its erection not later than May next. Any help you may give us toward attaining this desired object will be deeply ap-

Dear Sir:-

Your letter of December 21st. to Mr. J. Howard Breed, has been turned over to me as chairman of the Meetings Committee of the Philadelphia Christian Endeavor Union. I write to say that my committee is making the arrangements of the meeting Jan. 18th. which you have kindly agreed to address. We have secured the Central Congregational church, 15th and Green Streets, and have permission of the church authorities to employ a stereopticon to illustrate the lecture. Please inform me whether you purpose bringing your own stereopticon as well as the views, and what arrangements you would wish us to make concerning the screen. How large, whether to be provided by yourself or us, and any other information which will insure our having every thing just right. Believing that it would be better to give a full hour to one speaker, rather than a half hour to each of two, we have changed our original plan in that respect, and shall be pleased to have you utilize the entire time. Our purpose is to inspire increased interest in missions. We leave to you the limitations of your subject. We think that the stereopticon views will add to both the attractiveness and instructiveness of the lecture, and therefore wish you to be free to select what you can illustrate to best advantage.

I shall be pleased to do everything I can to

make such arrangements as will meet with your entire approval. All expenses of your trip will be paid by the Union. Mr Breed desires me to say that he will send you your railroad ticket.

Mr. L. E. Esylenback, Jr., of the First Moravian Church, a member of my committee, says that Mrs Killbuck, whom you doubtless remember, is very desirous to meet you and hopes to be able to come to this city and attend the lecture.

Dear Sir:-

My sister received a letter from Prof. Buck of Unalakleet, in which he mentions an open letter written you by Capt. Healy of the U.S. Revenue Steamer "Bear," in reference to the Jesse Lee Home, in which he thinks we would be interested. We are making some special effort in our Home Mission Society for Alaskan work at this time. We hold a meeting today, and if you would kindly loan me this letter to read before the Society, of which I am President, it might stimulate their interest a little. I will carefully return to you after our meeting, if you see fit to grant me the use of the letter. Prof. Buck reports the school as occupying the new wing of which you told me.

Respectfully,

Mrs. B. F. Leighton.

Should you send me the letter, would you be willing for me to make a copy of it to use at District Home Missionary meeting if I thought best to do so?

Dr Sheldon Jackson,  
Washington, D.C.

Dear Sir:

"The Wanton Esquimaux," an article in the New Bedford "Evening Standard" dated Wednesday, Jan. 4, 1893, which tells of the degraded state of the Esquimaux in Alaska and written by a Mr G.B. Borden, surely requires an answer.

What he relates about the nature and habits of the people is not exaggerated, but as low as they are in the scale of humanity, they are not past redemption as stated in the article referred to. Nor is it impossible to civilize, educate and Christianize them. All this I am prepared not only to affirm but also to prove. This charge against the poor unenlightened Esquimaux of Alaska is a slander that calls for resentment by those who know and love them as I do.

Eight years ago when our little party of five, missionaries and teachers, landed at the mouth of the Kuskoquim River, and made our way about one hundred miles inland to the spot which from that day to this has been our home, we met a people no less degraded, cruel or brutish than that of which Mr Borden writes. His description of their instinct to be destructive, to torture and kill, their inhumanity, and superstition and barbarity is truthful to the echo I readily accept all he says on this subject. I could tell even a darker story than Mr Borden's of Esquimaux depravity. But the issue between Mr B. and myself lies in this, that he alleges them to be incapable of education, civilization and Christianization.

The people among whom we labor are the aborigines of the Kuskoquim. They are a part of the Esquimaux race and are unmingled with other races. They never had seen a white woman until our party landed in 1885. Many indeed, had never seen a white man before. The country affords no attraction to the civilized world, and hence its population is in the natural savage state. Several Russian traders are stationed on the river and live among the native. But if these traders shed any influence it is rather on the side of evil than good. We stood as it were entirely alone and labored year in and year out in the midst of difficulties that were almost insurmountable. We have acquired their language, we have established a school for Esquimaux youth, and it is not a "one scholar school" either.

We have cared for thier sick and destitute, and by so doing have won thier confidence and love. First instilling a desire in them for something better, and then, I can truthfully say, we have filled that desire.

Although at the beginning of our work we were unknown and friendless, not one face in which the slightest gleam of intelligence shone, not one civilized family amongst them, we today can boast of a firmly established mission on the Kuskokwim River. Our premises the rallying place of bright, clean and happy school children, whom it would not take a stranger long to recognise as civilized beings. Our mission school comprises from twenty to twenty-five boys as obedient, studious and industrious as any in the States. So anxious are they to learn that when playing they can be heard spelling out their lessons, repeating the multiplication table; singing Gospel Hymns or school songs. And when engaged at the bench are handy with tools, and ever ready to acquire still higher knowledge by the many object lessons teeming all around them.

It requires only about six months of proper Christian influence and training to change the listless, animal-like expression of countenance into one of intelligence, and to impart to them the bright consciousness that they are better than brutes, and can live for something higher than only "to eat".

I do not mean to say that six months are required to complete the work for which we came to Alaska, but that a perceptible change for the better usually takes place at the end of that period of loving, christian intercourse with them. And that from that point they advance steadily in the arts of civilisation, and knowledge of the Lord Jesus. Almost without exception, those in our parish are loving and affectionate and thankful for all they receive.

I am proud of the women and girls that have been under my training for years. Would that all who make similarly sweeping assertions as those contained in the article referred to, might see their sweet, clean faces; tidy heads, and well and neatly dressed bodies. Might observe their industrious habit; note their bread baking; cooking; washing; starching; ironing; sewing on the machine, or by hand, and the many little household duties that fall to womans lot.

Let any who doubt the possibility of changing a people who a few short years ago were as low as the lowest, come to our little Bethel on the Kuskokwim River in Western Alaska, and I will take them to happy homes and Christian families. And they will see for themselves how

largely these have been benefited by civilizing influences. Their own testimony is; "We have all our lives been asleep, and only now are really awake; we were blind, but now we see. We see what love and true happiness is; We have laid aside our old and binding superstitions. We no longer observe the extravagant and wasteful heathen feasts that robbed us of our winter food; But unhampered by all these things, we work to make an honest living and we find that we need not want if we are industrious and careful. We cannot live like a white man, but we can have more than we used to have, and we can be clean and comfortable. We have also learned how to prevent our being sick so much as we used to be, for now we prepare our food differently, and do not live so much on the damp ground. Better still, we have learned to know of God and a hereafter, and of a Saviour who can take our sins away and make us pure and good, and fit for Heaven. We bless the day in which missionaries set foot on our soil. We wish that more would come, in order to teach all our friends and relatives the way to be happy and good. We ourselves had rather die than go back to the dark and hopeless life in which we lived before."

These same people attend our Sunday services, and even come for miles to attend church. They joyfully listen to the Gospel, preached by the missionary on every Lord's day in their own language. They sing no less than twelve English hymns, and all delight in singing, "Jesus loves me," and other hymns translated into their own tongue, and sung to the original tunes. Our congregation numbers about seventy-five, including the school; with a communicant membership of twenty-six. Their one cry is "Tell us something." They are pleased to hear anything about civilization; white man's ways, and most especially are they delighted to hear of travel or adventure. The story of the Sioux war never grows old, I have repeated it time and again. The school children are interested in Stanley's Expedition, and they all care to learn about our state and national laws; benevolent institutions; geography; physiology architecture and civil engineering.

We now have kind friends and neighbors who respect, obey and love us. In our attempt to civilize them we do not strive to make them like white people, or spoil them by supplying them with food and clothing better than they could afford after leaving the school. They would then become discontented, or hang around the mission looking to us for aid. Or worse still they might be tempted to obtain these things in a dishonest way.

On Board the Topeka.

Rev. Sheldon Jackson,

Dear Brother,

Many thanks to you for kindness shown toward Mrs King, and interest taken in my success. When you come to know me more I think you will conclude that King is alright, and is a reliable second to all your motions for the good of the order in Alaska. It was your lecture, delivered in the First Presbyterian Church, Rev. Walter Moffat, D.D., Pastor, Fort Wayne, Indiana, that persuaded and infused me with the Alaskan Mission field just 15 years ago. Tempus Fugit! Then I was a boy sixteen years old, filled with great notions. Now at thirty-one I find the same ambitions and lofty aims filling my whole being and keeping alive the purpose to stick to it to the end. I have a notorious quintet at Juncan who would rejoice at my day of calamity, but I guess they will have to await a future time. Blockit,--one of my worst foes--was dismissed as U.S. Attorney on January 1st., and Mr J.G.Held has been appointed to fill his unexpired term. It is a great that Mr Held could not be kept there for good. Held had not been in office five days before he discovered that Max Endleman, the Marshal, released a man, Harry Stoll, on a charge of selling liquor to Indian women, by releasing Max from a gambling debt of \$750., and paying Judge Hoyt, Commissioner, \$25 for hush money.

Held also discovered that Blackett, Hoyt, Endleman, and their clerk Sylvester, had a regular, organized, star-chamber way of running in natives and fining them for all manner of petty charges, mostly trumped up.

I got away on this steamer all right, although I was hard pressed financially. Mrs E.A.Saxman will conduct my Sunday School, and Prof. Davies will lead the meetings. I exhorted the people to stand together and rally around their leader, so that it might not be said that the work went to pieces because of the departure of the leader. Benjamin Behrends came out and united with the church and in every way our position is stronger than any time previous to the report I sent to the Board at the close of the quarter. I will come down via Winnepeg and St.Paul, stopping to see my old charge at Fishers, Minn., thence to Chi-

cago. Thanking you again for interest in my behalf,  
I am yours truly,  
S.H.King.

My Dear Sir:

Little has been done at my end of the line for the Alaska Governorship except to solicit the aid of our State Officers. Have you seen Mr. Jas. Kerr, Clerk of the House, or Mr. Kribbs, our member? I presume you have been too fully occupied to give the matter much attention. But thought I would write to learn if you have heard from Mr. Cleavelands pastor in New York? I hope for much from that source. I think the House Board could help very much if so inclined.

Cordially yours,

My Dear Brother:

I have heard on several occasions of your passing through Portland, but never until it was too late for me to see you. I am deeply interested in Alaskan matters, and hope to visit Alaska this summer. I would deem it a favor if you would call at my house the next time you are in Portland, or notify me of your presence so that I may call upon you.

Sincerely yours,  
Arthur J. Brown.

Dr Jackson.

Dear Brother:- Your letter has been received and read by us all, and we all thank you for your kind feelings for us.

Our meeting at the wharf was too brief for me to bring in much of our personal affairs, and my disappointment in not having you with us for at least two week prevented my saying all that I might have said. I feel as open to conviction as I ever was, and will be very glad to hear from Dr. Astorbury. I would like to have a plain statement in regard to that Sabbath question, and will look for a letter from him by the next mail.

We fully expect to leave here in May. But we have not heard of any one to take my place, nor of any one to assist at the home. I do not know when to look for the \$2500, voted by the Board for this place. I wish it could be before the deeds are issued by the trustees. That all the mission property could be put together in a deed from the Government. We hear nothing of any of these matters from the Board.

Joe Willard and Miss Matthews would join me in sending kindest regards to yourself and family.

Dear Sir:-

I am in receipt of your favor of Jan. 3, and return you herein the bills for passage of Mr Bruce and Mr Gibson, made out as you request, and signed in duplicate. I note what you write regarding the bills for Mr C.D.Eaton, and also the bill for the Treasurer of the Board of Domestic and Foreign Missions of the Protestant Episcopal Church, and

I have not heard of any thing being done on the part of the Board in the way of change at the Cape, therefore I was puzzled to know what to do, but now it is quite clear, although Mr Loff said if it should transpire that you wanted him at Port Clarence, he felt that there were not people enough there for him to work among. But I can see as you can that there are plenty, and with Mr Loff at the station there will be just as many drawn there as are capable, and likely to take hold of that business. The hunters and fishermen you do not want very near the station.

Will you please forward me a writing in the form of a contract? Because it will be necessary for me to make some changes in his orders, some countermanded, and I will need something from you, together with his letter, given me to do so. Mr Loff was very anxious to have a small lamp gasoline power, or something of the kind for the Cape, so anxious that he said that he would pay for it; if it could not be had any other way. If you are not going to have something of the kind for the station, I am satisfied that Mr Loff will be glad to get it on his own account, as he can much better afford to on the salary at the station, than on what he had at the Cape. I shall be glad to advise with you on that matter. Thank you for your manifested interest in my family, they were quite well when I arrived, but Mrs McLellan had been very sick during the summer.

Yours respectfully,

A. S. McLellan.

My Dear Sir:

My attention has been called to a bill introduced in the Senate, on the 5th. inst., by Mr Platt, to provide a temporary government for Alaska.

While I am quite sure that any attempted legislation for the Territory will not escape your scrutiny, I feel it to be my duty to impress upon you the danger of making

the natives citizens at this time, with a right to vote in any elections which may be had hereafter. If the bill be reported correctly it provides that "All persons, including Indians, born or naturalized in the United States, and subject to its jurisdiction, residing in Alaska at the time of the passage of this act, are declared to be citizens of the United States, and no person who cannot speak the English language in ordinary conversations shall be allowed to vote, or hold electoral office. All male persons, twenty-one years of age, except those dis-qualified, who shall have resided in the Territory three months prior to any duly authorized election, shall be entitled to vote." Now I am heartily in accord with the other provisions of this bill, but I know that all that part relative to the citizenship of the natives and their right to vote, is part of a designate saddle upon the Territory certain political adventurers, who sailing preferment in the States, feel assured of their ability to secure the suffrage of the half barbarous and ignorant natives of Alaska, - with the Russian votes also - for their personal advantage. To my mind this is a deadly menace to the welfare and best interests of the Territory. It is also fraught with danger for every Protestant missionary establishment, which through toil, an privation and tribulations of all kinds have hitherto maintained their footing and steadily increased their influence for good.

It is part of the Swinford and Kostrometoneff scheme which I had occasion to denounce some years ago, and which happily, was defeated. You know as well; nay, better than I do, that there is not one in a hundred of the Alaskan natives among those who speak "the English language in ordinary conversation," who is fit to exercise the right of suffrage. I know from personal observation that the influence of the Russian Priests, and every member of the Greek Church, would be used against American and Protestant interests. If this bill should, by any chance, become law, it would entail upon the Territory great misfortunes. (I speak only as to that part of it conferring citizenship upon the natives.) It would give the domain; its industries; its finances; its legislation; its social fabric, wholly into the hands of irresponsible and unscrupulous adventurers. Just imagine, if you can, the farce of an election at Juneau and Sitka. What a perversion of the ballot that would be!

your part of it, and they are to have an anniversary in April. They would be delighted if you should happen to be in New York some time during that month, and could come out to Orange for an evening. Any night but Tuesday or Friday we could have a meeting, and I can promise you quite a large audience of the young people of our church, as we are all more or less interested in Alaska. The boys, in Mrs Willard's school in Juneau, and the Young Ladies Missionary Society in a school in Sitka. I should not have thought I could ask you, but the ladies at 63 Fifth Avenue seemed to think I might ask, even if you must say no.

We have nothing in our church for which we say admission, so we can only take up a collection. We will do that and give it to the Alaska work, and entertain you if you wish to stay over night. I know that isn't much, but it is the best we can do for an outside speaker.

Dr. Jackson,

Washington, D. C.

Dear Dr Jackson, Having been referred to you by Mr Holck, of Gettysburg, we would very much like to know if you could favor us with an address on Alaskan Missions at the Inter. Ten. Miss. Alliance, which is to meet at New Brunswick, New Jersey, Feb. 16, and 17, 1893. You of course know that the aim of the Alliance is to stimulate an interest in missionary work, and we would very much like to have you with us if possible. Should you come, we will defray travelling expenses, and provide entertainment also. Your address would evidently come on the program for Friday, Feb. 17, 11.15, A.M. and the address being about half an hour long.

Hoping this may be favorable, and trusting to hear from you soon. I am

Yours sincerely,

J. Van Zanten.

Sir: I suppose you have received ere this the Californian with the reindeer article in it, and I hope you liked it. Owing to the shortness of notice the editor could not give it a more conspicuous position, but he had several difficulties to contend with, and under the circumstances, he did the best he could.

I received a word from Mr Flood requesting further contributions for the Unalakleet, and have answered him requesting information as to terms etc., I hope I may be able to make a deal with him, but of course it depends upon what he is willing to pay for such matter as I can furnish. I understand that you expect to go North on the " " again, and before coming West I would feel under obligations to you if you would inform any of your newspaper friends that I am open to engagements at very moderate rates to act as special correspondent while in Alaska. If any body wants to open negotiations please let my address be known.

With best wishes for your good health and suc-  
cess, believe me

2000-2001

Then do you expect the Reindeer bill to come up? Will you please send us the photos intended for illustrating the Chan-  
 lan news article.

Trangel, Alaska, Jan. 13, 1893.

Shelden Jackson, D.D.

General Agent of Education, etc.,

Reverend and dear Sir:-

Your brief request of December 30, is before me. You must be aware that I have been in Frangol only a short time (three months), and so I cannot comply with your comment for an annual report. The distance to Washington is so great that I will not put you off with this mere stat-

ment, but will send you a report for the past quarter only; and if you desire I will send you a second quarterly report April 1st., so that you will then have the statistics for half a year. There have been a dozen additions to the roll of communicants, "on probation" since the beginning of the present quarter, and additional contributions, so the enclosed report ought to be distinctly known to be only a partial one. As yet we have no session, and so no clerk. I hope however, that now Judge Kelly has joined us, he may be installed as elder and perhaps as clerk. He tells me that he knows nothing of the church statistics, and I think there is no one here who does know, since Rev. Mr. Mackay left.

Now, my dear Doctor, when you can spare a little while, if you can do so at any time, I should be pleased to have you indite to me a pastoral letter concerning Presbyterian matters in this part of the field. As this town was your first Alaskan foster-child, I hope you have not forgotten all the first love, because of the later Arctic children. I see in a recent religious paper (the "Missionary Review" for January,) that you are aptly called the "Presbyterian Bishop" of this territory. As such, I wish you might lend a hand to the latest novitiates admitted to labor within your jurisdiction.

Respectfully yours,

6. *Chlorophyll a*

My Dear Doctor,

The things for Columbia exhibit were gotten off last week, addressed as you desired. I do not wish to have anything more to do with a large collection of curios. It took two days, and the carpenters and nearly the whole crew, services, to get them properly boxed and placed on the dock. Now to ship them required Mr Sani's presence at the depot for nearly three days, to say nothing of the running hither and thither to Tom, Dick and Harry. Sani says that Departmental

red tape is not a circumstance to that of the Southern Pacific Railroad. How is reindser legislation?

Yours truly,  
H.A. Hooper

I do not like to trouble you so soon again, but we want to send a Christmas box to our Stores Chapel in Alaska. Will you kindly send us a list of such articles as it would be well to send in a small box. We want at once to arrange it, if possible. Also, just when, and to whose address, and by what express shall we ship such a box?

Very sincerely,  
Ida P. Whitcomb.

Dear Friend,

From the time Mr. Hamilton left, up to date, I have heard of nothing new in Alaska. I had three gambling cases and two whiskey cases before me last week. The order in Wrangel is fairly good since Rev. Mackay; Mr Millmore, and Commissioner Sheakly left. Both Prof. Davis and Mr Sheakly have written their friends relating to the Governorship. The whiskey people are ahead, and have petitioned for Swineford. California, also Washington, claims the right to best offices in Alaska. Then there is a strong "Home-rule" element, except for the governorship. The Democrats in Alaska seem to have poor timber to fill the offices with. Mr Behrings of Juneau, is as good a man as they have. I do not know that he is a candidate. Mr J.E. Sterrett, 3343 Ludlow Street, Philadelphia, Penn., wishes some information regarding mission work in Alaska for a missionary meeting. I wrote him a long

communication on South Eastern Alaska. Could you send him  
some printed matter on Alaska, and oblige,

With kind regards for one and all

I remain, your friend,

W. A. Kelly.

The Honorable.

The Attorney General of the United States,

SLS:

A few years ago a party of scientists and college Presidents, visiting Alaska, persuaded some of the citizens to form an Alaskan Society Of Natural History and Ethnology to look after scientific matters in Alaska. In connection with the society they have organized and are trying to create a library for reference and consultation, as there is no public library of any size, of the kind, in that country. It would be a very great help if you would kindly authorize your Superintendent of Documents to send copies of all the Reports and publications, past, present and future, of the several Bureaus of your Department, that you have on hand, that can be spared. A similar application will be made to all the Departments in Washington. The Government documents in that far off country will be exceedingly valuable.

The publications can be sent either to me at the Bureau of Education, or direct by mail to Miss Cassia Patton, Secretary, Alaskan Society of Natural History and Ethnology, Sitka, Alaska.

With great respect, I remain

Yours truly,

Sheldon Jackson.

None Brothers.

I take the liberty of addressing you with regard to a matter which I know to be very near to your heart, as it is to Mrs Killbuck, Missionary of the Moravian Church W. Alaska. We have heard of your proposed visit to Philadelphia on the 18th. inst., to fill a lecture engagement. As Mrs Killbuck is in that city at the present time she feels the prospect of meeting you with inexpressible interest. But your plan, and her necessities at the present time, seem to conspire against the anticipated meeting. Her necessities are these. She is obliged to undergo an operation, and must be at the hospital, - private, Dr Goodell's, - on Thursday afternoon at three o'clock. As your very earliest arrival in this city will be Thursday, one o'clock, it is plain that under those circumstances a satisfactory conversation on mission subjects cannot be had. Some one will have to make an alteration of plans. She cannot, as she is under bond to the physician. Now, can you get here on Wednesday night or evening? Will your engagements prevent? By reaching the city on the evening of Wednesday, the consultation between you might take place on Thursday morning, and last all the forenoon. It is Mrs Killbuck's most ardent wish to meet you. If it is at all possible for you, in the midst of pressing engagements, to adjust yourself to her circumstances, she will put herself under lasting obligations to you.

Please reply at your earliest convenience, and  
address

Mr. J. H. Killback.

Dr Sheldon Jackson,  
Dear Friend,

In your meeting for the 25th. of the month in Boston, you suggested that we have the stereopticon in the morning. We have secured the stereopticon, and some one to care for it, but he could better do it in the afternoon, and we have engaged him for that time. Trust it will meet your approval. Will the views of Alaska take all of the afternoon session? I would like it if we could arrange a meeting of the Committee on Alaskan affairs, for a half hour or so conversation with you. If possible, at what time would such meeting please you? I hope this year will see a real taking hold of our work there. I am inclined to think that Mr Roscoe will not be the man for the permanent charge of this work. I am anxious we should have a minister and wife and a teacher to take hold of the work as soon as it is ready.

Sincerely yours,

Dear Sir,

Three communications from you, dated respectively Dec. 23, 27, and 30, were received in last mail, which came Jan. 12th. 1893. The school supplies came in same mail. I also received salary for November, for which accept my thanks. Now in answer to your question about church organization. We have not effected such, as we have no material with which to do it. Aside from Mrs. Jones and myself there are only three resident Christians here, and one of these three, I'm sorry to say, is not as sound in the faith as he should be. All besides are members of the Greco-Russian church here. We count it a big gain to get so many members of this church into our services, as we must first get their ears before we can give them the Gospel, and wholesome instruction. Our services began with sixteen, and we have increased to fifty-five. With an average attendance of forty odd. This increase has been in spite of much opposition. The Russian church is a great barrier to Protestant Missions, but we do not despair. We are gaining ground.

The blank which you sent is useless. I return it as you sent it. As soon as we find it practicable, we shall organize. Mrs Jones wishes to be kindly remembered to you.

With kindest regards, I remain

Very truly yours,

Dear Friend & Brother,

I wrote you some days ago for information concerning the early history and organization of the First Presbyterian Church, of which you had in your charge as Superintendent of Missions. I hope you received my letter, and will answer it fully and in detail, sending it, and your photograph, as I requested. We find it difficult to get

the data as we want it. So you will excuse me, under the cir-  
cumstances, in urging you to be as prompt as your business  
and time will allow.

Very respectfully,  
John C. Lehman.

Dear Arthur,

By the telegrams in the "Daily Chieftain" this A.M., I see you sail in a few days for Alaska. As I am anxious to get some information from you, I will write at once. It is this in brief: This fall, about October first, I am going to publish a history of our church-- the First Presbyterian Church of Pueblo-- which you organized about 1868 or '70. What I want you to do is this: Write me full particulars of its organization,--as you remember them. Who was the first supply, or pastor; How many were present at the meeting, and who they were; At whose house meeting was held; How many charter members there were. In fact everything pertaining to it, as you can remember of the event. This history will be a good one if we can get full particulars. We want it to be full; complete, reliable.

I know you will not have time to write me at Seattle. Take this letter with you to Alaska and write me when you get there. I do not like to trouble you, but you can see how very important it is for me to have it. Be not fail to write the information I want. Please write it as soon as circumstances will admit. And again I wish you would send me your photograph. It is the intention to have your portrait, and the portrait of each supply and pastor in the publication we get up, since the church was organized, up to date. Our church has grown much since you were here last. We now have a membership of 260. Last year we built a new church home, the largest and handsomest in the city; having the only pipe organ in the city. The total improvements costing \$45,000.

I hope you are doing great good in your Alaska work. And hope your health will be spared many years to further it. Should you come to the States again, make Pueblo a point on your route. You will be cordially welcomed. Rev.

E.T.Jee, formerly of Portland, Oregon, is our pastor.

Very respectfully your friend,

Dr Sheldon Jackson,

My Dear Friend and Brother,

I have learned with much pleasure of your proposed visit to this city, on Thursday, Jan. 26. In conference with Mrs Bonney and others, concerning this, I offered to be of any service to you in my power, in arranging for the lecture, showing the pictures &c. &c. If you will communicate to me your desires in the matter, I will endeavor to have them satisfied. What light have you been using with your slides? Will it be necessary for you to bring your own operator with you, or will you trust that to some of us here? I am making occasional use of stereopticon, and I am using a very good Hall lantern, with oxy-hydrogen light. I am getting very good results. Of course I know nothing of your slides. We have a very good place in which to present the pictures. We can stretch a screen twenty feet square, or even more. We can get a distance of seventy feet. If I can know beforehand what you want, I will try to furnish it. Shall need to know soon, as we shall have to order the gas from Boston, if you wish us to furnish light and lantern. Shall be glad to hear from you at your early convenience. I trust that your visit to these parts may be as pleasant to you as I am sure it is to be to us. I am sure that it will result in a new interest in that interesting part of His Kingdom.

Sincerely,

A. F. Dwyer.

I will send this to Mrs Bonney to be re-mailed to you, as I do not know your present address. If you please, reply to me direct, and so save delay.

Rev. Sheldon Jackson,  
Commissioner of Education for Alaska,  
Washington, D.C.

Dear Sir:

I arrived down from Alaska last Thursday. Left all well. It is my intention to return by next boat, which leaves Tacoma Feb. 5th. I find many applicants for the offices in Alaska. It is not a matter that I wish to meddle with, but there is one man whom I would especially like to see receive the appointment as Governor of Alaska, to which position he aspires. He is the Hon. Jeff. Myers of Oregon, now a member of the State Senate and has served for three terms in the State Legislature. He is a man of ability; energetic and clean. I feel sure that he would make an excellent Governor, and will consider any thing you can do for him a personal favor. I would be glad to remain in my present position for a time at least, but will leave that to the tender mercies of the new administration. I hope to get to the westward on one of the cutters this Spring, and should be very glad to meet you.

Trusting that you are well, I am

Very truly yours;

M. I. Hatch.

Collector of Customs,

District of Alaska.

I tried to call on you this week, but found that you were out of town until Saturday morning. The purpose of my call to be, and my present communication is to invite you to be present at the meeting of the Biological Society and take part in the discussion on the Sea Otter Fishing, which, by some regulation of the Treasury Department has become a vital question to the natives. Knowing that you are

the Pilgrims sent a notice Sabbath before last, which was read from the pulpit- to the effect that they would send to the missionaries at Cape Prince of Wales, and the children of the "Stones Chapel" a box. And asked for contributions of knives; scissors; needles, &c. &c. Also pictures and picture book primers, &c., small dissected maps; small toys, and other articles too numerous to mention, as well as two nice woolen dresses, (not made) for the ladies there. All the above things have been sent to us. I recall that you said that the box must not be a large one- not larger than a soap box. Now two soap boxes will not hold the things. May I send a box 33 x 18 inches, which I am sure will be large enough? Mrs. Stuart and Miss Whitecomb are to do the packing tomorrow evening, and if you would telegraph yes, or no, I would help the matter on, and the box would go on Wednesday or Thursday of this week. We shall send a small photograph of Dr. Storrs and some of the boys. I was glad to hear that you had received the translations for your sailors library on the "Bear."

With kind regards,

Sincerely yours,

Providence, Jan. 30, 1898.

Dr. Sheldon Jackson,

Dear Sir:

I hope my answers to your inquiries has not been too long delayed, but I am just recovering from a very severe attack of pneumonia, and am hardly able yet to write.

The pastor of the Church of Emmanuel is Rev. Charles W. Ryder. Residence 23 Knight St. They worship in a hall, 38 Weybosset Street. The church is thoroughly evangelical, and is doing a good work here. My daughter sent the letter of inquiry to a reliable Baptist brother who says they have the best prayer-meetings in our city. It is a comparatively new interest- not much over two years I think. Started with five members. Now has two hundred. How many joined from other churches I do not know.

He wrote that one of their members went to Alaska as a missionary, --Mr E. Otis Smith-- That he married a member of one of our Baptist churches, and that the Church of Emmanuel contributed last year \$400.00 toward his support. That he reported sixty conversions as result of his labors.

Respectfully yours, M.A. Harris.

Rev. Sheldon Jackson,
Dear Brother,

At our Board meeting, held Feb. 2nd., a hearty vote of thanks was passed by the ladies present for your kindness in giving us the lectures upon January 25th. The day gave a great impulse to our work, and I am sure it will go forward now with great force. The letter I sent you this morning, from the priest, is causing us much anxiety.

Sincerely yours,
M.C. Reynolds.

Dear Sir:-

I am exceedingly pleased with the map. We shall sell at five cents a copy, and so soon pay for the 1000 and then have some to give away. Miss Stedman could not have realized that this was the only opportunity of receiving such a map, and after her hundred had gone, there would be no supply. I expect to use a good many of them in my Maine Circles and Bands.

We can hardly realize that you were with us, the time was so short. I am sure you have helped the work a good deal. We glad you enjoyed the trip to Waterville, they felt quite disappointed at not having you the next A.M. They greatly desired that you should meet the students of the University at A.M. chapel exercises. I am sure you will feel that I ought to be fitted to do good missionary work, as you know my first pastor, Dr. McWhinnie, who baptized me, and who "built me up." His influence still abides, and I always think of his approval in all I do. His face hangs on the wall beside my desk, and is an inspiration to me beyond all I can express. There at Waterville you met Dr. Dunn, who assisted you, and he was my second pastor. Then President Whitman was our last minister at Free Street, but after a

short service of two years, left the pulpit for the educational work. He is a very strong man every way, but not the pastor Dr. McWhinnie was. Perhaps I am too much a "babe" for such "strong meat". Now can you send me your last report or if it is embodied in Dr. Dorchester's, will you send me that? I also want the last report of Gen. Morgans'. I have '88, '89, '90. Of course I would prefer the bound, but "Morgans must not be choosers", was something I learned early in life. I want to thank you personally for your coming to New England. I hope you will pardon the blunders in the proof-reading of my report of your lecture. I can spell Sitka, and I do know the Yukon to be a mighty stream, 20 miles wide at the mouth.

Yours truly,

Elizabeth B. Benney.

Do you think there are copies of your '58 report, illustrated bound or unbound, that we could have a few for distribution? I do not know what laws govern the distribution of public documents, and if I am presuming too much, pardon me, for I seek not mine own in this request.

Rev. Sheldon Jackson,

Dear Friend,

Permit me to recall myself to your recollection, although years have passed since I lost the pleasure of meeting you. A letter which I received today, from our missionary in Arizona, suggests the possibility of your now being in Washington. If you should be in the city, will you kindly let me know when, and where I can see you? as I have

a matter of much importance to lay before you. I have come to Washington, with my family, to remain until April. Our residence is 927 19th. St. Corner of K St. Please let me know if you are in the city.

Believe me always,

Very truly yours
Gordon W. Warden.

Sitka, Alaska, Feb. 11th. 1893.

My dear Dr. Jackson,

Mr. Patton and Gertrude have just returned from the Sound, where they have been for the last month attending Court at Mt. Vernon, Washington. Judge McBride granted each a divorce, ordering Knapp to pay her back her cash \$500., which she had before marriage, and \$300., beside. And \$10. per month for the support of the child, which is to remain in the custody of her mother for five years, and until further orders. Just what jurisdiction a court in Washington can have over a child in Alaska, is a question. We are satisfied with the result, but I believe that if Delaney had been a little more in earnest the Judge would have awarded more. Knapp pleaded utter poverty.

I hear from the District Attorney, rather confidentially, that Lyman E. tried to have improper relations with Lucy Kinichew, who was working at their house. That last May, while the guest of Mr. George Garside, he grasped her & kissed her, and tried to cohabit with her. She appealed to her husband when he returned, but Garside kept the matter quiet. That Lyman E. Knapp, while traveling east to Chicago, met a woman, and kept her company over, putting up as man and wife at Minneapolis. Johnson is seeking proof of the hotel registry. If there is any legal way of bringing this conduct to light, you may be sure that it will be done at the next term of Court. Our folks, while at Everett, heard that L.E.'s brother is a free lover, and that he is no govt. Johnson asked the Governor, while on the stand here, if he knew the nature of an oath, and if he considered it binding legally only, or morally. None of them will hesitate to lie, even where the truth is just as well as a false head from their point of view. For instance, Gov. said he did not know what salary George received as special Deputy Collector. The weather has been cooler for a few days than at any time since I have been here, going down 14 or

16° below zero, but it has been clear and dry. Today is beautiful, and it is thawing.

I hope nothing that Knapp has said or done, will have any effect in preventing Cassia's getting the school for next year.

If you are in Washington when the new Collector is appointed, I wish that you would speak a word in behalf of Mr. Boesley. He has been out of employment for some time. He always served me well, and I think with a little encouragement, we could keep him in the right. He does not come to church as he used, but my wife and I have not let go of him. He would be perfectly capable to fill any position under the Collector, and his acquaintance in the District would be of great service to a man from abroad.

We are all well. The children are growing. The baby is a bright, laughing fellow, never sick, and always in a good humor, when his belly is full.

Tough morality.

John G. Brady.

Rev. Sheldon Jackson, D.D.
My dear friend,

Mr. Gould of Jackson, among the Hydras Indians, has a very bright boy in his school - half Scotch-Irish Cameron, whom he is very anxious should have a better opportunity than is afforded him there to study to become a helper to his people. I have tried to find some way to help him, but have been unsuccessful, and knowing your achievements for Adams as you have made, write to ask your help. From Mr. Gould's statements of his ability, I should think he would well repay any investment made for his advancement.

Pardon the liberty I take in making this request, but Mr. Gould's great interest in the boy, who has studied with his own boy, the latter now in a college in Washington, is my excuse. The boy Archie, is now about fifteen years of age, and pretty well advanced in his studies. A much smarter boy than Edward Marston of Marietta College Mr. Gould says. Mr. Gould wants him taken away from the influences of the Alaskans about him. I have been re-reading your book

can have a room where we will not be interrupted, and I will be ready to see you at any time after seven o'clock. Please let me know if your engagements will admit of your coming to spend the evening with me. And with kind regards to Mrs. Jackson, and your daughter,

Do I Love Me

Always kindly yours,
Gussett W. Merrill.

Dr. Sheldon Jackson,
Washington, D.C.
My dear friend,

It is with sorrow that I forward you this note. A serious disaster has just occurred at my new home, and which can be remedied through the help of friends. In the night of the seventh of this month fire broke out and destroyed twenty-five of our new houses. The night was very cold, and people only succeeded in escaping for their lives. Thank the good Father, our cottage, that I built for mother, was not destroyed. I have not yet learned the cost of the loss. A considerable amount has been expended for the food and clothing of the sufferers. Mr. Duncan and Dr. Blount have contributed over \$1200. and Peter Simpson, through the advice of his company, is now trying to furnish lumber for shelter free of cost and expense. If I send all that I have for the help of my poor people, my going to Washington will probably be abandoned. On Saturday, the 23rd. Inst., I shall leave for the city of Sandusville, Ohio, and will see that some help is obtained.

Your sincere friend,
Edward Hooper.

Juneau, Alaska, Feb. 24, 1898.

Rev. Sheldon Jackson, D.D.
Dear friend,

I have been promising myself for quite a time that I would write you regarding school matters. And now that I am sending in my application for next year, I wish to talk to

you about it, though I have, as directed, made my application direct to the Hon. W. T. Harris, Commissioner of Education. I made application for school M.I. Juneau. I like the school quite well, and am quite willing to take it again, though it is the only thing in Juneau I do like. However should you prefer sending me to Sitka next year I will be delighted with the change. I would not speak of this only that I understand that there is to be a change there. The winter has passed quite pleasantly here, only that I have nearly died from loneliness. It is no place for a person to live in who is of a social and religious nature. However Rev. King was both, and he seemed to get along nicely, and enjoy life in Juneau as much as any person but-- I will speak of him later. Now my good friend, I wish to speak of my salary. I do think it is entirely too small. Why is it that I receive only \$80.00 per month, while McDavies receives \$100.00 per month? Is it because I am a woman? Or is it because I am teaching natives, and he is teaching whites? I think it is not the latter reason however, and I do think it is very unjust indeed. I certainly work just as hard in my school, and do my work just as well as he does. My school is twice as large; yes, I usually have three or four times the number of pupils he does. It costs me just as much to live, and maybe a little more. When I boarded I did not get boarding for less because I was a woman. I paid just the same as a man. For house rent I get it for some less because I am a woman. For fuel it is just the same, \$15.00 per ton for coal, \$5.00 per cord for wood, \$3.50 per case for coal oil, etc. While everything in the way of living is very expensive. When all is paid the grand bulk of \$80.00 is diminutively less. Cannot I have an increase of salary for the ensuing year? Or if not an increase in salary have house rent and fuel allowed? I intended to talk with Mr. Hamilton about this when he was here, but did not, went to pour all my grievances into his ear the first day or two of his visit, and after the first week he did not give me an opportunity, as he was very busy in the town. Hope to see him yet before the closing of term.

I suppose Mr. King has been to see you before now and has likely told you his story. I had not heard much of his doings before I came here, and I had quite a little sympathy and respect for him until about two weeks before he started east. He gave us quite a talk one night at prayer meeting, telling us how honestly and honorably he had conducted himself, and imploring us to support him in his doings. He advocated ministers attending "Shoers" as he called them, if they want to, and if their congregation did not like it, to put them out if they could. He never missed attending a shoe-play while in Juneau.

I am told, and the plays here are not of a very high class. One of his last doings was to hold a Church Social in the Opera House. The entertainment of the social was "The Nigger Minstrels", in which he was the middle-man. After which ice cream was served, and the Social was closed with dancing. As I did not attend, I cannot say that he took part in the dance, (it certainly would be no worse than to take part in the minstrels) but he stayed for it.

The few consistent members are praying and hoping that he will not be sent back to them. It certainly is not an easy field in which to labor, and it most certainly requires a man entirely consecrated to the work. I expect to go east as soon as my school closes, to visit my friends in Pennsylvania.

We were much disappointed at not seeing you last Autumn. I suppose you to the West-coast this year again.

Hoping to receive favorable news from you soon, I
 remain Sincerely your friend.

Sincerely your friend,
Margaret A. Samson.

Dr. Jackson,

A word more before I close. Sometime ago my sister-in-law, Miss Lissie Saxon, wrote me to know if there would likely be any possibility of her getting a school in Alaska. She has taught school some three or four years, and is now 23 or 24 years old. If she could be appointed to one of the schools here, I think she would make a success of it. She is a staunch Presbyterian, and as she is an excellent soprano singer, and player on organ, she would be quite a help here in the church services. Father Saxon died just recently, so I am not certain whether she will now be an applicant or not, but thought I would write you about her any way. I wrote her by this mail that if she intends applying to write you at once. She lives at Spring Dale, Allegheny Co., Pennsylvania.

Respectfully,

H.A. Sauer, Jr.

Feb. 24, 1909.

Dr. Sheldon Jackson,

Dear Brother,

I arrived safely in the latter part of last month, at South Bend. I found Mrs King convalescent, and

For the many encouraging words you wrote to her while in the hospital, I join with her in expressions of heart felt gratitude to you. I have spoken at Dr. Johnsons church at South Bend, and at 3rd. and 1st. Churches in Fort Wayne. My talk on Alaska especially refers to our peculiar climate; triumph of missions; the gold fields, the up and downs thereof, and a good outline of Dr J's pioneer scheme, its opponents, Ivan Petroff and George Karson, and its successful trial at Oenalska and Fort Clarence. Closing with an appeal to loyal support of our Board, in view of their advanced step in standing aloof from Government support. I am to speak before the High School here today, before all my old teachers and friends.

Now Mrs King and I have debated the pros and cons of my taking advantage of the reduced rates during inaugural week. I fully think I ought to see you, and will buy a ticket from Plymouth, where I speak Sunday eve. This will give me a ticket for about \$15.00, and I will be able to get some "pointers" from you that will more than pay me for drawing on my limited exchequer. I had spoken to Mr Hamilton, when he was in Juneau, about a stopping place, and in view of the rush that will be, will you speak to him again about reserving a place for me with his landlady? Any word you wish to drop me where to meet you will find me--if you telegraph Mrs. King--725 Forrest Ave. Chapin Park, South Bend., or S.H. King, Plymouth, Indiana, up to Monday eve.

Hoping I may find you in the multitude,

I am yours in Christ,

S.H. King.

My dear Sir:

Allow me to inform you that you were chosen Honorable President of the Auxiliary Bible Society of South Eastern Alaska, at the organization last week. A Vice President in each of the principal towns will be local chairman. And headquarters, or depository, will be here.

We trust you will accept this election, and acknowledge the same.

Respectfully,

C. Thwing,

Acting Secretary and Treasurer.

DeWolfe, Feb. 18, 1899.

Rev. Sheldon Jackson, D.D.

My dear Doctor, Our Alaska Auxiliary Missionary Society has requested me to ask you whether you would be willing and able to give us an address on Sunday, March 19th. That Sunday is unfortunately the only available one in the near future, but we hope that you will be able to arrange to be with us on that day. We hope for a favorable and early reply.

If you know of any one who wishes a three holed 14 bidake, with paddles, glabs and poles complete, and is willing to pay its cost and freight--about \$80., I should be glad to have a purchaser, although as I traveled 800 miles in it, I will feel some regret to part with it.

Sincerely and fraternally yours,  
H.T. Anderson.

Don't Miss:

I write to ask if you will furnish us with an article on missions in Alaska, for our July number. We would like to have it about 2000 words in length, and in our hands not later than May 1st.

Yours very truly,  
D.L. Pearson.

Dear Sirs:

Your favor of this date enclosing editorial for Fall River Daily News, received. I had already seen the story. However you might write to the "Salem Observer" Salem, Mass., issued every Saturday. I have no doubt they would publish.

With thanks, I am

The faculty of the Seminary have request-  
ed me to invite you, in their name, to address the students upon  
Alaska. They would be pleased to have you come any Wednes-  
day or Friday afternoon, and I trust that your engagements will  
not deny us the pleasure and profit of an address. I wish you  
would let me know when you can come so that due notice can be  
given, for I am anxious to have many hear you. We have service  
on these days at 5 p.m. I trust that you will get your appro-  
priation to the full amount desired. I have watched the papers  
for the last few days, but have seen no mention of it.

I enclose Mr. Knoles's postal. It will explain itself. I write simply to ask when it will be convenient for you to visit us in Fall River. We have so few come to our city from places of interest, to the churches, that we really enjoy it when one does come. Rev. Mr. Barbour, of the First Baptist Church, desires you to speak in his church in the morning of Sabbath you are with us.

Sincerely yours,

Long Shot

It will be very interesting to be present at your coming lecture on the Eskimo of Alaska, the more, as it is not quite impossible that I go to the Pacific coast this year. A friend, and countryman, has finally succeeded in organizing the Bay Fishing Company, Fairhaven, Puget Sound; with \$20,000, with the intention of opening direct communication with Alaska, where some of the product will be cured for market. The F. "Herald" says: "this is one of the most important enterprises ever contemplated here, and is backed by some of the heaviest capitalists of the Bay". My friend has written me twice asking me to come immediately, but I want to have some guarantees, and to be better acquainted with his plans and his intended modus operandi, before going to a place nearer China than Europe.

My cousin in Toronto answered shortly that my letter had been forwarded to him from T. to Christiansburg, where he is now living, with his family, every year during the winter months, and that he submitted the matter promptly to his confidential clerk in T. Thus it will take still, some eight or ten days before I can have the question fully answered.

Yours respectfully,

N. 3142.

Dear Sir:

If not beyond my province, I would like to

suggest that no permanent arrangement be made as to the person or persons, to have charge of the Fort Clarence Reindeer station, until I have had an opportunity to confer with you.

In view of the necessarily intimate connection between our native, and school and religious divisions, I think I have some very important facts to bring to your notice. At the same time I do not deem it advisable to say more, at present, on paper.

Respectfully yours,

Accept my thanks for your kind letter in reply to mine. I send you a letter received from Rev. Mr. Cook in which you will see that he desires to have honorable mention made of the part you have taken in the Christianization of the Indians of the Gila River reservation. I cannot do more, at present, than gather material for the history which we all

unite in desiring to give the church. One object in preparing this volume, is to show what methods have been used to influence the Indians. How they were first approached; How they were taught the power and duty of prayer to God. All this seems to me of the highest importance, if the book is to be useful in other missions to the Indians. Many questions must be asked and answered.

I attended a missionary lecture this afternoon in the Western Presbyterian Church, given by Rev. Mr. Synkoop. The fact is appalling that there are yet one thousand millions of people in the darkness of heathenism. How much land is yet to be possessed! And how much there is for every Christian to do!

I hope my dear friend, soon to call and see you and your family, and to look over with you, as you kindly suggested, "The Rocky Mountain Presbyterian." I could go to your home any day at four o'clock, or between and five, and wait there your return from your office.

With kind remembrances to Mrs. Jackson, and your daughter.

Believe me always sincerely yours,  
Cornelia F. Martin.

My dear Brother,

The ladies of the Home Mission Society of the Presbytery of New York are anxious to hold a public meeting in Dr. Hall's church on Thursday, April 8th. Dr. Hall to preside Dr. Spiring to speak on the Indians; Rev. Dr. Stuart Dodge to speak on the mountain whites, and they want you to speak on Alaska. Can you be here without fail, to speak, on Thursday, night, April 8th? We are very anxious that you should come, and to hear your voice in the interests of Alaska. Don't say no, but reply at once, and say yes, for the ladies want to make their arrangements.

My dear Sir:

You said in your last letter to me that you would read a paper before the Chicago Folk-Lore Society in April or May. I beg that you will let me know, as soon as possible, some fixed date. These are busy times in Chicago, and in order to arrange for the meeting, I should know some weeks before, your pleasure.

My Dear Doctor:

Your letter respecting the Kuskokeem Alaska reached me, and if I can take it, I will, but cannot say for ten days yet. I read the Report of Education in Alaska, which contained a very good editorial on Governors report, and particularly his attack on you and schools. Will you go to the Westward this year? and what is date of sailing of Boat? I trust this administration may get rid of present Governor, and some others shortly. I see Swineford is coming to the front again. I wish Brady could get something regardless of his politics. I would like to hear some of the probable appointments when you have leisure. Could nothing be done for De-
Greff and Kelly?

THE NEW YORK EVANGELIST. 192 WORLD BLDG. PARK ROW.

New York, March 9, 1893.

My dear Dr. Jackson,

I have to thank you for a very unexpected gift, and so all the richer and better. I refer to the nice little reindeer skin you sent me on your return from Alaska. I had it nicely lined and trimmed, and it proves a very graceful and appropriate contrast to my little bear robe from the

same giver. It is very kind of you my dear Doctor, when remembering Dr. Field, to remember me too. I greatly appreciate it.

I suppose you see Dr. Field's letters from the Mediterranean. A great contrast, by the way, your respective regions of enterprise! I was about to make use of the document you have just sent me on your success in introducing the reindeer in Alaska, when my eye fell on the enclosed lengthy, and fair summary of it in the New York Sun. It seemed to me all the more effective as coming from a secular paper, not likely to show you any favor, but aiming only to treat you fairly, but not at all from any other than a business and philanthropic viewpoint. You may not have seen it, and hence I send

in advance of publication. I shall write an editorial reference to it, and if there is any aspect you would like touched upon, please let me know at once. And how about your

Q Shall we say any thing on these subjects?

Very good.

Abstract.

Sitka, Alaska, March 9, 1898.

Dr. Sheldon Jackson.

Washington, D.C.

My Dear Friend and Brother,

Your letter of December 27, was received some time ago, and should have been answered sooner, but I have not been prepared to answer fully until now.

I opened the boxes now in the Museum, as you suggested, and find that the furs had gotten in them. I had them aired, and cleaned and repacked. None of the boxes mentioned in the list sent us have yet been received. I presume they are still at Genoa. There is not room to display the curios in these boxes, so we repacked them and stored them away in a corner.

A meeting of the Presbytery will be called to meet at Sitka about the 24, of this month, at which it is hoped to have Mr. Willard of Juneau present. I have concluded to go to the General Assembly, if I can get away, and hope I may have the pleasure of meeting you there. I regret that I have not been able to see and know more of you.

I have not yet made up my mind to remain in Alaska longer. You know by experience that it is not at all pleasant to be separated from one's family. I am much inter-

rated in the mission work here, and have enjoyed assisting the good missionaries very much. My deepest regret is that I have not been able to do more. I do hope that Mr. Cleveland will select good men for the places in Alaska. The people here have been certainly suffered quite enough from bad appointments. There is room for improvement now. The administration in Alaska during the last four years has not done credit to the Government, in my humble opinion. But it's not the time to discuss this now. An effort ought to be made to have better men appointed. As far as I am concerned I shall not regret going. My official life here has not been pleasant, nor could that of any honest Christian man be, associated with the class of men some of them are who have held office under Mr. Harrison.

Hoping to see you during the summer, sometime, and with a wish for the welfare and happiness of you and your family, I am

Yours fraternally,

W.L. Pecknough.

Sitka, Alaska, March 10, 1898.

Dear Mr. Pecknough,

Your of Jan. 20, reached us by last steamer, with inclosure, etc. I have filled out the statistical report you sent me, and return herewith. Judge Pecknough has made out a blank report and will send it on. Mr. Brady lost the blank you sent him. I have sent the school report to Mr. Hamilton. Did not have enough blanks without using one of the old forms. Hope it will prove to be all right, as it is the first one Mr. Clark ever made out.

I do hope President Cleveland will appoint good men here when he gets to visiting off heads. Men in sympathy with school missions, and the natives. We need good men, especially for commissioners, as most of the cases come before them, I, &c, of the natives. Of course I shall not charge you any thing for labor on the boys cottages. I send you a bill of \$1.54, from Mr. Brady. Kossinik has been in the school room since Mrs. Clark went home. Has done fairly well. Not quite strict enough in governing. I think he is learning something by experience. His wife has a little daughter. I fear she has consumption.

Hope you may be able to see this way this spring. It is barely possible you may see Judge Pecknough in Washington at the General Assembly. We expect a new teach-

or by the steamer due tomorrow, a Mrs Heiser. There is a deep religious interest pervading the school at present, seven of the pupils united with the church at our last communion, and I expect a larger number to join us at our next one. We are all fairly well at present. Some of the force tired out from over work.

Mrs. Austin writes me in sending much love to you and yours.

Sincerely yours,  
A.M. Austin.

Dear Sir:

We are very glad to learn that you can be with us on March 22. We had to change the program slightly, and desire you to speak in the afternoon at 2.30. You change ours at 7.00. I shall try to do what I can to induce the Lutheran gentlemen, to whom you refer, to be present.

Very truly,

Washington, D.C.

My dear Sir:

This note will be handed to you by the Rev. Sheldon Jackson, who is General Agent of Education for Alaska. I met him in Alaska some years ago, and am of the opinion that he is doing good work in that territory.

I do not know what he will say or bring from you, but if he does please listen patiently to him.

Yours very truly,

Washington, D.C.

Dear Sir:

At an informal meeting of the officers of the Home Board of Presbyterian Missions, on the 14th, inst. at New York, I was informed that certain charges preferred against S. M. King, of Junesau, would be acted upon under your supervision, and that a meeting of the Alaska Board would be called by you.

Will you kindly inform me at what date this matter will receive your attention, and oblige,

Very respectfully yours,

March 17, 1893.

Dr Jackson,

Alaska's Friend,

Yours of early last December, found me here after a long journey. I have attempted to reply several times, but could say nothing worth saying, because there was nothing to say. "Be still and know that I am God," was my only instruction. This is all the work of one woman, and she the one who raised a figure 2 to 6 over Dr. Harris' name. Now I know not the way that I can aid. Do you? I went to Alaska. Saw much more than I had ever been told of its beauties of its needs; of the success of the school; of the ability of Mr Luck; of the condition of his wife, and above all the fear-

ful danger of ruin to these girls out from under the eye of the Home teachers. You know it all better than I. No one can describe any of these things, only seeing with ones' own eyes can enable one to appreciate them.

Now about our money. I feel that you should have a word as to this, and demand that it should be used as donated, because only for you there would never have been a work begun, nor a cent raised for Alaska. Only for you I could not have raised what I have. Only for you the \$1200 at Columbus could not have been raised. Only for you the \$400 at Rockford could not have been raised! Beside many sums of greater or less amounts, would never have been put into this fund, only for the inspiration coming directly, or indirectly from your efforts. All this, the Society has no right to ignore, any more than they have the right to use the money raised for one purpose, for another.

Mrs. Toller is one of the dearest women, but I fear has been blinded by the one who changed the figures, (she wants our hard earned money to meet other obligations of the Society) Had the other Bureaus worked as hard as it came, they might not have been so far behind hand as they are. I have vainly waited to see if something would not come whereby our Home might be built. In the first place, whatever the moves of the action of General Conference meant, they covered only the Indians. Alaska was not affected in any way. See enclosed paper. This was in nearly every "Advocate," and in Herald.

I sincerely believed this, -- had a right to. First; because Dr. Harris told me that if we built suitable accommodations, he would not build; and second; because when I saw the resolutions I found it did not affect Alaska. I don't care what the "spirit of it" is. If men at the head of such a movement can't frame a paper to cover all they mean, I disregard all "spirits of it", especially when year after year, both our Society and the parent Society approved the work, and the raising of money for it. I have upon one of my share books all the names of the officials at the Book-conferences, and mission-rooms as share holders in that Home. Had they not approved of it why should they take shares in it?

Had our Society not wanted this money to meet dire necessity in other directions, they would not have needed anything not compelled to by the face of the Resolution.

Here is one other thing that one woman tried to bring, was brought to the generous donors, which Miss Bill, Columbus, refused to come to the aid of the work. She, herself, telling them what you and I had told her. She became interested in this when in Boston in 1889. Then heard you in Washing-

ton, and promised me \$1000, if possible. Did raise over \$15000. She has by a circular and letter stated that the population was sparse, and people fast dying out, and indirectly conveyed her impression that a House was not needed. I will sometime send you a letter which will show you its results, if I find that you will be able to aid in this work further. The result of my action in Alaska was what I feared, but hoped might not be, viz; the building of that annex to save Mr. Lucks' life, and that of his wife, as well also to save a few more girls; and the authorization of supplies for the family another year, to be ordered from San Francisco. I should do it again, only twice as much, (could I have been sure of the result). To make sure that they should not countermand my order for the house from A. C. Co., before it was on its way to Alaska, I withheld my letter and report, written on the steamer, until it was too late for them to do so.

They "released" me from further work -officially- for Alaska. This gives them all power over the money, unmolested, officially, and leaves me at liberty to take any other position in behalf of Alaska that may come to me. I have been urged to go out on my own responsibility and continue the work, but I hardly so I like this at present; i.e; I have not yet got the consent. Must wait for that. Do not wish to go without being sent. As much as I long for this work to be done, I dare take no step not ordered. Y I think your remark is true, that if they "they ought not expect God's blessing upon their work in any other part of the country."

This change in administration at Washington, also causes us to wait developments. That such a man as Dr. Harris should be put out of that place; that such a man as the General Agent of Education in Alaska, should be liable to be taken from his place, is to me simply unfai. As Cleveland "held" us to 70% the ~~un~~attacked before, leads us to hope for the best now. But there will be serious ~~consequences~~ brought to bear by those who want the leaves and fishes. The hands of the Indian Department will--must already-- have dropped into the basket before this. This does not affect us though, as that Conf action did affect this, so that after the existing contract ends June 31, we can have no more money from Government.

Let me hear all that you can that will aid me
or the work.

Sincerely for Christ and humanity,

Mrs. L.H. Daggett.

Dear Sir:

On nomination by Dr. C. F. Deane, you have been elected to membership in the American Institute of Christian Philosophy. We trust that it will be agreeable to you to accept this invitation. If so, you will please signify it by filling and returning the accompanying blank, with the fee.

My dear Dr. Jackson,

I thank you for your favor of the 21st. of February, which I sent to the Board of Managers of Missions of the Episcopal Church, and which was of great use to the committee on Alaska in formulating plans for prosecuting the work there. I believe they are advertising for more missionaries, and already have two or three persons in view. If you have any other suggestions to make, I should be very glad to receive them, and will at once forward them to the mission rooms in New York. The Rev. Dr. Langford, Secretary of the Board of Missions, will be very glad to see you and talk with you.

I believe the Rev. Mr. Chapman is coming home this summer for a vacation.

Yours very sincerely,

John Nicholas Brown.

Dr. Sheldon Jackson,
Washington, D.C.

My dear Doctor,

I received your letter, and am sorry to hear that you have been under the weather, but trust you are rapidly recovering. You ask me about Mr. Shackley. I willingly introduced him. I believe him to be an honest, clever man; and his knowledge, gained through years of experience in Alaska, would

stand him in good service in any future office. I would like to see Brady, or Kelly or DeGroot get something. I believe in home rule, as far as practicable. The people in the country have Alaska's best interests at heart, for theirs and the territory's are identical. I understand that Swineford and Knutson-Delany's former deputy--who has been in the saloon business in Seattle--are both applicants for offices. But any one would be an improvement on the present incumbent, who is both a bad man, and a hypocrite of the worst type. I trust the poor, abused territory may get some respectable representative this time. I know you will do all in your power. If you go to Alaska this summer I hope you will find your impressions all right.

My compliments to Mrs. and Miss Jackson.

Very truly yours,

U.S. Senator.

Dear Dr. Jackson,

I sent a note to office addressed to you and marked "Dr. Jackson will call. It gave the hour for going 3.40, at foot of Liberty Street. Cannot you still go? I have also ordered your room at the Lakewood hotel, the Laurels in the Pines". I cannot bear to have you think I could do things in so negligent a way. It is not my way. I cannot imagine how it could have failed me. I send this by messenger, immediately on finding your note, after being out all the morning.

Hearnestly hoping to see you at the Liberty St. ferry, I remain

OF THE WORLD'S COLLEGIATE ASSOCIATION OF 1892.

Chicago, U.S.A., April 1, 1892.

Mrs. M. Mrs. Dwyer, 121
Chicago, U.S.A.

I am glad to hear that you have recently been appointed a member of the Advisory Council on various Departments of the World's Improvement Auxiliary, in connection with the World's Collegiate Association of 1892.

The members of the Council are requested to forward to the Secretary any suggestions which they may have regarding the program of the Congress, the speakers, the themes to be treated and the issues of other distinguished and representative men and women who will be invited to take part in the Advisory Council. It is intended that this Council should be enlarged as far as is absolutely representative of the college world by all its branches, and in all its continents.

To the members of the Council will be assigned specially reserved places in the Parliament of Religions, and whether the addresses at that international meeting will be given before participation in the Parliament will be invited to members of the Advisory Council, and those nominating invited to the Council Committee, in whose hands will be the responsibility of this great Parliament. Not only theological scholars, but eminent laymen, interested in religious and philosophical work, will be invited to membership in the Council.

It is earnestly hoped that you may be present at the Parliament of the Parliament, but your acceptance of this invitation is desired whether you are able to attend then or not, as the membership of the Advisory Council will reach far beyond the number of those who will be with us on the great occasion.

In sending your acceptance to the Chairman, you will confer a great favor in sending also a brief expression of your views of the proposed Parliament, to be published in subsequent reports, and in the volume which will record the history and proceedings.

Believe me your sincerely and warmly
and your devotedly
and your devotedly

Yours faithfully,

Dr. Jackson, giving him the hour of departure, and then went to meet us. It was not harder to find than he called for. I told him we were as if Providence had been telling him that we were coming. He said that a cold wind was blowing from the north and I shall be glad when we are in the city. I am glad to hear it is warmer in Washington and now Dr. Jackson will accompany what he says to be your study with more pleasure. It is all the best.

I very much regretted that I could not have
talked with him at his house in Atlanta, and that he had a long
or time and would stay and see me in my room in Atlanta. By the
way, it is possible he would.

Will you let him see this, and I find nothing does
tire me, and please give him the enclosed for what he is
as to do in his work. As it is recommended to him something
like to swell the agricultural work on our farm, there is no
likeness in "Mendocino, California". So much, and I am
ry let it plenty as to his own land for his own power, and
that is what I prefer.

[illegible]

1. The first part of the document is a letter from the President of the United States to the Congress, dated January 3, 1861. It is a copy of the original letter, and is signed by Abraham Lincoln.

[illegible]

As it turned out it was much better than I had imagined from going to Ireland, as on Dec. 1 the weather was terrible, cold and windy. We were glad to leave after lunch there a little over an hour. I was very interested in the views of the Mr. Carrigan Island and shall be very glad to see you half the cost of the purchase you were to. I was sorry that it would give me peculiar satisfaction to divide the responsibility with Mrs. Dwyer. The conversation was centered with the death of her husband, and of the time when in your vessels or similar. Jack was separated from his family at the time, and the news of the death was the first indication to either of us that anything was wrong. The situation as

it, - paying the past due accounts; \$40 to Kenealy, and \$10 to Star Composit'n Company, as soon as I reached Sitka, by Mr. Kelly's request. Then I ran it as economically as possible, hoping to make subscriptions pay whole, in about two years run at least. However, it was carefully circulated by some one, among teachers, that it did not belong to Board's work. Hence the teachers did not give any but merely personal support to "tourist" career. Yet we secured a few from June boats, by Mr. Simons' help. I should have employed Henry, when he came back, but he wanted high wages, and said he could not see to set type. I told him that when his eyes were better, I should like for him to try. The Alaskan got into difficulty, mortgage etc., and strike of printers. This compelled us to use Walter Porter and our own type. I arranged for printing to close of year (of my commission). Of course, the closing out of my connection there, you know. I had the choice of playing to the Austin clique, andousting the Kelly people, and the Ebering "side" set. Not being quite fool enough to scorch my fingers by roasting their chestnuts (old and stale,) for them, I was released. In other words the Board's Committee had to accept my resignation, because the A's refused to leave the Mission Buildings for a comfortable and separate home, which said Committee desired them to do. The matter, and its sequel, is a "commentary" upon a destination of best means to reach desired and desirable ends, as used by Board's Committee and Board, - sufficient. When I left I gave them, mentally, twelve months to bring about proper conditions, with entire silence from me.

Must close. Am very busy. In my enforced stay here, I have simply been adding to my training for missionwork and shall re-enter by and by, with heart as fully fixed as ever. My partners build the Sheldon Jackson Home at Juneau, or some other named home there, for the rescue of girls. God knows it is needed more than almost anything else there, for those who have stepped from the path, and need reclaiming care. Tourists will support it too. However my wife can not be taken from medical care yet. She will go into hospital for treatment soon, and will have special care, costing me considerable. She was always very strong, but she slaved for the Board in the Indian Territory. I shall need these little amounts. The Board left the balance on Coopers' shop, unpaid. I did not pay me.

I state account North Star, re which I sent you vouchers before I left Sitka.

Yours sincerely,

Alfred Docking.

The amounts had been before, -- Cost of paper; \$20 per month to Alaskan, and some items, as over \$10 per month, and arrangements were made to print at \$12.50, by using our press in future.

Alfred Becking.

Rev. Dr. Jackson,

My Dear Sir!

I have just received your report "Missionaries

in Alaska" which I am perusing with great interest.

The Report, however, is for 1890-91: if there is a later Report, if not too much to ask, can you not send me a copy? I want to keep informed. By this I am reminded that I have not replied to your letter of the 17th. November last, which came duly to hand, in reply to one from me, regretting that I had not seen you as you passed through this city.

I understood from your letter the position of Mr. Stevenson, and that he will probably be re-appointed missionary and teacher at Point Barrow this year. As I think of it, I more and more regret that I did not see you here, so that I could ask you some explanation of his letter, which is a strange mixture of coal; stores; lumber, and missionary work, and teaching and life saving, which I could not understand.

He wants also to connect himself with our church here, for what reason I cannot understand. I have no idea what the Presbytery of San Francisco or Oakland, or the Synod of California will be disposed to take up Point Barrow as a missionary field, as they take comparatively little interest in missionary work in well known Missionary fields of our own church. Mr. Stevenson is a good man, no doubt, and as actually I would cheerfully help him and do all I could, but he says in his letter to me, that he wants it distinctly understood that he is a Cumberland Presbyterian, and intends to so continue.

If a committee of Mr. Goffes and Lily were appointed "to assist in the Point Barrow work and school," I do not know what we could do, not having any definite information as what is wanted, or any money to spend even if we did know, as we are both as poor a church as we are. I want to answer Mr. Stevenson's very rambling, though interesting letter, and will do so

by the "Bear". She is expected to sail in a few days, but I suppose a letter will overtake her in South East Alaska a month hence. Will you kindly inform me from what point in the North a letter will reach you the latest? so that I may write a letter to Mr. Stevenson after I hear from you.

Mrs. Killbuck, and some other Moravian Missionaries, will leave for Bethel about the first of June. The Moravians are doing a grand work in Alaska. Mr and Mrs. Killbuck, and their assistants are grand workers.

Hoping to hear of your making another visit to Northwest Alaska this spring, and wishing you great success in your laudable efforts in behalf of the aborigines there,

I remain very truly yours,

James E. Roberts.

Please answer at your earliest convenience, and if I can do any thing to serve you, I will do it most cheerfully.

Dr. Jackson,

My dear Sir:

Yours received. Dr. Stout had again lectured for the Boys' Society, and they have appropriated, I think, \$300 for the Richard Salter Beach Chapel, Alaska. They want very much to know to what special object it may be devoted, for use in the chapel, before sending it. They wish to perpetuate their interest in the Chapel. Mrs. Stuart, and I promised to write and ask you. I am sorry to trouble you to write again but if we may hear, at your early convenience, we shall be greatly obliged, and can then decide at will. After hearing from you shall I have the check made to your order, and sent to Washington? For I think that the matter is settled whenever you know the object.

Do you go up yourself this summer, and how soon do you start?

Very cordially,

Wm P. Whitcomb.

Asheville, and is now at her home, 1 West 84, St. New York.

The Boys' Missionary Society of Church of the Pilgrims, have made quite a nice run for the Chapel, etc., at Cape Prince of Wales. Miss Whitcomb wrote you inquiring what would be the best way of accomplishing it, or part of it. Not hearing from you, we feared you had started on your Alaskan trip. Please advise soon and write to Miss Whitcomb, as after you leave we shall not know what to do.

Dr. Sheldon Jackson,

Price \$14.

You may possibly remember the Miss Taylor, who spent six weeks at Sitka in the summer of 1888. Since that time I have made a long journey up the Delta of the Mackenzie River. I am much interested in reindeer, both the domesticated and the wild reindeer, and I am anxious to secure as much information as possible about them. While in Winnipeg, last September, I met Gov. Knapp and Mr. Gastrometchnikoff, on the way to take part in the opening of the World's Fair. They told me that you were then in Washington, and could no doubt tell me, or rather send to me what had been published, on the subject in Washington. I am sorry to say, that being very busy at the time, I neglected to write to you about it. I fear now that you may have already gone to Alaska, or are beyond the reach of letters for some time. If however, this should find you in Washington, I should be greatly indebted to you if you would send me the data published about the reindeer, since Congress first became interested in the question.

I expect to spend the summer in Norway, where I shall stay sometime at one of the reindeer farms, and I wish

very much to know all that has been published in America regarding your plan of introducing domesticated reindeer into America.

An early answer would be appreciated, as the distance is so great between America and Norway, and of course much delay in receiving letters.

My kindest regards to your wife and daughter, I remember with much pleasure your daughters paintings of the Alaska flowers.

Yours sincerely,
Elizabeth Taylor.

Rev. Dr. Jackson,
My dear Sir:

Since I wrote you, acknowledging the receipt of your Report on Education in Alaska, I have had a very interesting conversation with Captain Healy about Alaska, and the teachers of the Government schools there, and have learned a good deal that I did not before know. I have read through the Report that you sent me, but the Captain tells me that a later Report has been published, which I would like very much to get, as I want to learn all I can about that interesting region. If possible, I would like very much to have at least half a dozen copies of all the reports you have made as Commissioner of Education in Alaska. If you can not send half a dozen copies, send what you can, and I will make good use of them. Placing them in the hands of those who can be awakened to an interest in Northwest Alaska.

I must confess that until I had the report you just sent me, I knew very little about the history or geography of the Northwest of our country.

Mr. Stevenson is called a Presbyterian, and other teachers are Episcopal; Catholic; Congregational, etc. How has Mr. Stevenson any connection with our Board of Home or Foreign Missions? or of the Cumberland Presbyterian Church? The Congregationalists furnish some aid in religious literature to Mr. Thornton, and so do the Episcopalians and Catholics to the teachers representing them, as I understand it. If we

coming, so I can at once arrange with Mrs. _____ for you to speak in the _____ church. Our Third church is so far from the present resident population, it would not have half an audience in the evening.

When you come you will arrive at the Union station. There you will take an accommodation train to East Liberty, our nearest station. I enclose a local ticket for you, to save time. At the station you can take a cab up to our house. You may not know we moved permanently, to the suburbs the last year of Mr. Thews' life; just before he sailed for Europe.

The Herald has a brief notice of your coming
Yours sincerely,
H. C. Fow.

Rev. Sheldon Jackson,

General Agent of Education in Alaska,

Dear Sir:

Perhaps you will remember of my (Mrs. Moberg) talking with you at your office in Washington, about husband and myself planning to visit Alaska within a year or two. You may possibly remember me as on the Bureau for Alaska in connection with Mrs. Bennett. I, at least shall ever remember your calm and weighty words of interest in Alaska, and your kindly explaining to me concerning a tour to Alaska; your kindness in giving me the "Report on Education in Alaska". Also the map showing stations occupied by the different churches there. The report I have, and it is a source of pleasure, but the map was lost, together with valuable books and papers, in one of my trips in the Missionary work.

I greatly miss this map, and would be very glad to learn where I could obtain another like it? and the price! Will you be so kind as to inform me, please.

Now as to the trip to Alaska. As I took no notes of it, I am not certain enough on all those points to write depending on memory fully, and would trouble you to reply to some questions.

1st. Is there any book--tourist's guide-- that would be useful in explaining points a tourist would wish to know to make a trip easy, most satisfactory and cheap? If so please give

name, and where it could be purchased?

2nd. What time of year is best for such a trip?

3rd. Route from here,--where take ship?

4th. Line of support

6th. Points would be visited by the steamer?

5th. How long would the trip take?

Wh. About what would be the expected

9th. Could we board from the ship while visiting the island

10th. Is there any way of visiting the Pribiloff Islands, or In-  
kon River except by consent of Government, in one of their trad-  
ing vessels, which would necessitate several weeks, or months,  
trip?

Please let me hear from you as soon as may be,

Thanks for your kind note just received. I

I like very much your suggestions about the fund. I have sent word to Mrs. Haven about it, and I think that our check will at once be forwarded.

With all best wishes for your success.

Very cordially,

10. P. Wilson.

My dear Mrs. Jackson,

I hope this letter may reach you before your dear husband will leave you for the summer. I sympathize with you, and your daughters, in the trial of separation from one so dear to you. But you have learned to say,

\*Jewus, at Thy command.

"We launch into the deep."

It is safe to follow where our Saviour leads. I have read in

the New York Evangelist, Dr. Jackson's tribute to Colonel Elliott Shepard, and I rejoice that his gifted pen has been employed to lay this wreath upon the grave of one to whom, I believe the cause of Christ was dear. Mr and Mrs. Rutiffson called to see me in New York, they told me of Colonel Shepard's interest in the Tarsus Mission, and that he provided for it in his will. This certainly evinced a deep interest in the cause of religion.

But my object in writing to you at this time, is to tell you of my making the acquaintance, as I passed through New York, of Rev. Dr. Roberts, of the Board of Home Missions. I was invited by my friend, Mrs. Prentice, at whose hospitable home I was entertained, while in New York, to attend a meeting of the Women's Board of Foreign Missions on the 19th. of April, 1888.

After the meeting I was introduced to Dr. Roberts, and had a very satisfactory conversation with him, in reference to the Rev. Mr. Cook, and the Pima Mission in Arizona.

Dr. Roberts expressed a deep interest in Mr. Cook, commended his work very warmly, and gave his full consent and approval to the publication of the history of the Pima Mission, and made no objection to the proposal that all the profits from the sale of the book should be appropriated to Mr. Cook's personal use, and for the benefit of his family. I felt that I could not proceed with the preparation of this work for the press, until I had the full consent of the Board of Home Missions. Not only to publish the book, but also to give the proceeds to Mr. Cook.

On consultation with Mrs. Dodge, and other friends connected with the New York Missionary Society, it was decided to have the book printed, and paid for by individuals for a certain number of copies. This plan is feasible, as I am willing to take the responsibility of paying the printer. I think Mrs. Shepard, after a while, would be interested in this work, as she gave us two hundred dollars for the church at Florence, Arizona, two years ago. I have faith in the cause we are all trying to promote, and shall now go forward in the preparation of the manuscript for the printer.

I suppose I will be able to get the wood cuts from the Mission House in New York.

I did all in my power, before leaving Washington, to secure the appointment for another term of service for the Rev. Mr. Whittemore, as custodian of the Casa Grande Ruin, I left a letter with the private secretary of Mr. Hoke Smith, who received me very politely, and invited me to call on the

Secretary on Saturday, but on that day, I afterward learned, he had left Washington on a visit to his home in Georgia. The last time I called a new private secretary was in charge, and with him I left my application. The new secretary's name is Bennett. I do hope that some influence will be brought to bear on the Secretary which will cause Mr. Williamson's appointment.

And now, dear friends, I can only say "God  
bless you and keep you in all your ways, and give you a joyful  
meeting in the Angels", and if it be His will, say I meet with  
you again both in my home and in Washington.

Always love you friends.

Dear Mr. Jackson,

I enclose check for Captain Swett, for Florence  
Willis and Flora Dagobell. And I will be happy to send you  
the \$1000 for the purchase of the school house at St. Lawrence  
Island, if you can secure the entrance of this money from the  
Government. My demands are often much more than I am able  
to carry, or respond to. I will send Olga the \$120,  
at the last of June.

It gave me pleasure to read your letter in the Evangelist, and your loving tribute to my husband. He is justly deserved all the praises that have been bestowed upon him, and now has his glorious reward.

Wishing you a safe and pleasant voyage, and  
hoping to hear from you again in answer to this. Am thank-  
ing you very sincerely for all your wage and kind sympathy.

Follow us,

Sincerely yours,

W. B. Hayward.

Enclosed please find check for \$200.00, from our  
Boys' Missionary Society, for the Richard S. Street Chapel, Cape  
Prince of Wales, Alaska. Kindly use as you suggested in your

letters. If possible, we would very much like a picture of the Chapel, on your return. If there should be any way to take some little photographs.

The Boys send best wishes for all success in your work, and for your safe voyage and pleasant summer.

Very sincerely,

Ida P. Whitcomb.

Rev. Sheldon Jackson,  
Dear Friend,

I am now at my father's, making last preparations for starting on my long journey. My business is about all attended to, and I expect to start to Kansas City tomorrow, where I hope to meet the other members of our party.

Yesterday I heard that one of my Eskimo boys is down with snowblindness, and is pretty sick. I expected to take them both home with me, but this may make some difference in our plans. You, no doubt, have heard of the new addition to our party. I have been pretty sick since I last saw you, but am now much stronger, and anxious to get home and to my work again.

My father is very anxious to have one of those Catholic Magazines which contain the article that says the Protestants dress their scholars in silk and satin, etc., etc. I remember I saw it at your house. I would like to have one also but do not know where to get them. If you could send one to San Francisco, I am sure we could make use of it in our work. It would be proof to the traders who have their children at the Catholic School, that they do not always tell the truth, with all their boasting.

I must close now. You will see by the above scribbles how untidy my nerves are. I am anxious to hear how your health is. I have not heard anything since I left you. Does Mr. Cherry still intend to go up to Alaska? And will you go North before I leave Umanak?

Give my kindest regards to Mrs. Jackson, and your daughters. I will long remember my pleasant visit with them.

Very sincerely your friend,  
Edith M. Killick.

Dear Brother,

Enclosed please find receipt for \$300, the contribution of the Boys Missionary Society of the Church of the Pilgrims, Brooklyn, New York, a special contribution for supplying seats, desks and stoves for the Richard Salter Storrs' Chapel at Cape Prince of Wales, Alaska. We thank you for securing the sum, and remitting it.

I have a long letter from Mr. McLehman in regard to supplies, etc. In the course of his letter, he says, "Will you pay Mr. Lopp's orders this year? Their bills will be about \$700 or \$800 each." By this year, does Mr. McLehman mean the year to come? and if he does, why should we pay them? as he is, as we understand, to leave our service.

Mr. McLehman writes about the lumber, etc., that was left over, and says that he has written to you about it. If there is any thing that we need to know about it, from your standpoint, please inform us before you go.

McLehman has recommended once or twice the purchase of a launch for the use of the missionaries, which, if new would cost about \$400; a second hand one costing about half that sum. Is such a vessel worth its cost? The most encouraging part of Mr. McLehman's letter is the hope that he gives that a Rev. Mr. Kille and his wife, of Oakland, may go out as our missionaries. McLehman speaks of him in the highest terms. Do you know anything about him?

Very sincerely yours,  
M. R. Strickley.

Dear Sir:

I have directed Mr. Temple to send the draft for \$1000 to Mr. C. D. Eaton, New York, direct. It is easier to do all through the Board, is it not? Then if not complete when you must go, all is safe. I have told them it is all done

through yourself. I hope we shall have the pleasure of seeing the views, as well as hearing your address. Let us know as soon as possible, so other congregations can be notified of the address and views to be given in Dr. Hough's lecture room, East Liberty. It is the largest in the two cities.

Yours truly,

M. C. Tapp.

It is a great and peculiar satisfaction to me to be joint purchaser of a post of so much importance, and such unique position, as the one on St. Lawrence Island.

Pittsburg, Pa.

Dear Dr. Jackson,

Shall indeed be glad if you can give us both Wednesday and Sunday.

You do not say, but I had the same impression that the new Mission Station on St. Lawrence Island, is to be held in the name of our "Board of Home Missions." Am I not right? Telegraph or write immediately, on receipt of this. I shall be sorry indeed if it is not to be part of the property of the Presbyterian Church.

I write very hurriedly, having to go off at once to a lunch, but wish no time to be lost.

Yours sincerely,

M. C. Tapp.

Dear Dr. Jackson,

I have just been down to the funeral of my grandmother, and so have been delayed a little in writing you about Blanche. Partly for that reason, and partly because circumstances have much changed since I first telegraphed you. Then

It was about her future that I wished to consult you. To tell you how she has been doing. Where she is fitted to do mission-work, etc., and where she is not. When we were at Mrs. Shepards' a year ago, it was decided that the others have a two years course at the Normal, and Blanche "another year at the Training School," leaving the next step rather indefinite.

Blanche is, as all the Alaskans are I imagine, rather fitful, some of the time doing very nicely, and then getting careless, and drifting. On the whole she is a real Christian, with earnest purpose and good ability in certain lines. When the Training School closed, about a month ago, she was in a rather upset state of mind. She is easily discouraged, and is reserved and reticent. About that time, she felt as if she wasn't fit, ever, to do missionary work, etc. And I'll confess it seemed about that way to me, though I tried to encourage her. No plan for the future seemed satisfactory to her, or in my own thought. I kept praying for God's guidance, and finally telegraphed for you. Since then her spirit has been better, but she is ill. And I think that she was physically all tired out before, and that partly accounted for her other troubled feelings.

At the close of the Training School she had a case of La Grippe, which I did not know about until a week or so later. She had the Doctor, but did not seem to get over it well. She boarded a week in the village, while waiting to see what was right and best for her to do next. There seemed to be no good home for her, and she wasn't in a condition to be in the Seminary for work. I decided to have her come to Harb and Hall, where I could have her under my immediate care, and look out for her both in mind and in body, better than where she was outside.

Just then her lungs began to trouble her, and the Doctor was again called. She was taken to Betty Woods' Cottage, where she has the care of our trained nurses. She had, and still has, a little fever. No appetite, and she has very quickly become pretty well affected, and is of little use. She was excellent once, with nurse and Doctor, and they hoped that the serum would absorb, and prove nothing serious. She came up here just one week ago, but contrary to their hopes, is worse. The Doctor wishes another Doctor in consultation, and I have authorized him to have one. He will be so today, or tomorrow, at the latest. I will write you again then, but wanted to send you this at once, so that you may know how things are. I feel as if you were the only whom I can consult, and if after the consultation of the physicians it seems likely to be anything

serious, I shall need your advice as to what to do. I suppose all the Alaskan girls have tendencies toward lung trouble, but this in Elizabeth's case, seems to have developed very quickly. She knew that her lungs were not very strong, and she was never smoked, but had not had any trouble with them until about two weeks ago. She also seems to have some heart trouble, but I had never known of that until since her lungs began to trouble. She gets rather troubled about herself, and worries lest she be "awful sick."

She is having the best of care, and I shall try to be with her as much as my other duties will allow, so that she will not get too lonely. She will naturally get depressed, for she is inclined to go to extremes, to be either depressed, or bilious and careless.

I will write you again after the consultation.
She is a dear girl, and I hope for favorable results.

Yours very sincerely,

Adeline F. Pettie.

Dear Mr. Johnson,

The doctor authorizes me to tell you this about Blanche. The physician who was here yesterday, and also another who happened in a day or two ago, confirm Dr. Wood's diagnosis that she has "pleurisy with effusion." The pleura seems to be about two thirds filled with serum. They attempted to aspirate yesterday, but did not remove anything.

Frankie made a little fuss about it and got rather nervous, so they did not keep on trying, but will wait a day or two, and then try again. Dr Wood says that if it were any one else, he should think that she would probably get well all right after while, but since she is probably predisposed to such trouble, he cannot tell. Evidently it was a light touch of Le-Grappe, which in its after results has settled in the worst place; in her right lung. (left is all right.) and may, or may not prove serious; cannot tell yet.

She will continue to have good care, and I suppose we will simply have to await further developments.

I shall be writing Mrs. Shepard today, and will tell her about it. In the name of Olga and Blanche we sent Mrs. Shepard some arbutus yesterday.

Blanche is inclined to get discouraged, and think she is worse than she is, so we try to keep her cheerful. She feels very much better, and I shouldn't consider her very ill, except that just now we are a little uncertain whether it will be serious or not.

Yours very sincerely,
 Annie F. Pettie.

There is a little heart trouble, but we hope it will pass away soon.

Dr. Sheldon Jackson,
 My Dear Friend,

I have often thought of you, but being very busy with my studies, writing letters is out of question. I am not pleased as I was the first part of the term. For I have completed two studies, and have three subjects now, and four recitations daily. Besides the society work of the school.

You must have thought me careless, when I did not acknowledge the money you sent, but I thought that I had until a few days ago.

Mrs. Daines is here, and is as good as the different churches. These who have heard her are very much interested in her talks. I will go and see her this afternoon.

I have heard from Florence and Flora, and by the report, I judge that Flora is doing nicely, but do not know any thing about Florence. I am sorry to say that their letters do not inform us about any thing in connection with their school work. For I am interested in the kind of work they have to do.

I was glad to hear that Miss Pettie is willing to take Lottie, my sister, under her care. I am very kind in you all to do so much for me, and you all know that every thing I owe, is heartily acknowledged by one who is striving to show it in her every day life. May the dear Lord bless you all and repay you in a hundredfold.

Now I wish to encourage you to get far away from wine, but if I did I am afraid you would have to stop your work, and be a little sinner of the frozen land. Do you expect to see your father, friends, or your way up, or down? When you do see them, kindly remember me to them all, and tell

them that there is no place like Oswego Normal School. If any want to come to school, bring them right here.

I wish you a delightful journey, and may the Heavenly Father be your constant guide.

Your Friend,

Olga Hilton.

Dear Mr. Jackson,

Blanche feels much better, and really is better too. I hope that she will be in her usual health soon. I am ever going away so soon that I want to ask your advice about the best place for Blanche, for another year. Mrs. Jones wrote me that if she were fitted for it, there might be a place for her at Weymouth another year, with Mrs. Willard I believe. Blanche isn't fitted to go yet, in character or in scholarship. My thought is this: as soon as she is able, a very sweet lady in Connecticut, who has taken an interest in Blanche, has invited her to her home for a visit. It is possible that she may take a few boarders during the summer, and will be glad to have Blanche help her, and work for wages for a few weeks during the summer. If so, I think it a good plan. The work will be good for Blanche, and this lady is middle-aged, and a beautiful Christian, also is interested in Blanche's best good. In September, I have planned for her to come back to the Seminary for a year. She has had less of study than the others, you know, because she has given her attention to household service, etc., and I think that a year of good study here would be great value to her.

At the end of that time I should think she might be able to go to Alaska. I do not think she would be able to take the Normal Training anywhere, do you? Olga is doing nicely.

I have had to write this very hastily, but I hope you will get the thought, and will answer before you leave. Blanche continues to improve. Was glad to receive your letter. Hope your trip will be successful and pleasant.

Yours very sincerely,

Adeline F. Pettie.

Our dear Friend, Dr. Jackson,

I want to thank you again, and again, for sending me your report of your trip and trips to the North Pole, and therabouts. From the first I have been deeply interested in the expedition, and the objects sought. The map is invaluable to me. So much better than I expected to live to see.

Why do you not take along your wife and daughters, inviting me, if I promise not to go. I am glad we saw Alaska when we did, before the tourists found the way. And when we had to sit on a bench to eat our dinners, thinking it no hardship at all.

I hope Mrs. Jackson is quite well, and enjoying her home in Washington. I also hope you enjoy the new President better than we do up this way. I cannot feel it my duty to forgive him for his treatment of the Sandwich Islands, and the Commissioners therefrom, one of whom I know. I hope you will never bring him a reminder!

Thanking you again for the Report and map, I

am

Yours sincerely,

(Mrs. Henry) Sophronia Kendall.

Rev. Collins Jackson.

Dear Sir: The Sunday school of our First Reformed Epis-
copal church of this city, Rev. William F. Selvig, D. D., pas-
tor, have voted ten dollars to assist Mr. Marcus O. Cherry in
getting surgical instruments for his medical work in the Alas-
kian islands. I have not his address, and so apply to you.
I am not sure whether I am right in sending the check to you,
but fear Mr. Cherry may be in Alaska already, and could not get
a check cashed very easily.

Perhaps it should have been sent to Rev. Charles W. Shelden. I do not know. If you send the money to Mr. Cherry, kindly explain where it comes from, as I believe he wrote to Dr. Atkins in reference to it, and only giving an address up to May 5th.

I am sorry for the trouble this will give you.

Dear Doctor:-

I enclosed a letter from Miss Frances C. Chalkley, Treasurer, Sunday School of First Reformed Episcopal Church, New York, sending check for \$10, to aid Mr. Cherry.

I have acknowledged the receipt of the check and have informed Miss Chaloner that I had forwarded the letter and check to you.

Very truly yours,

Rev. Holden Jackson,

Dear Brother,

I have but recently learned that my letter of disavowal from Newark, New Jersey, which I sent

to you at Washington last spring, has never been forwarded to this Presbytery. (Alaska) Please give it your immediate attention, and forward it at once, that I may be enrolled.

Our work here is progressing--not as satisfactorily as we might wish--but nicely. We are encouraged through the blessings of God, and are happy here in his work.

Mrs. Jones joins me in very kindest regards to yourself.

Very truly yours,
L. F. Jones.

FROM, 1888.

Rev. Sheldon Jackson,
c/o U. S. Steamer "Bear",
In Alaska Waters, Alaska.

My dear Sir:-

I beg to call to mind our conversation relative to the appointment of Mr. W. F. Grow as United States Attorney for the District of Alaska, when I had the pleasure of meeting you on the trip from Fort Yukon to Seattle.

I desire further to request, if it is agreeable and consistent, that you aid by letter to the President, your kind endorsement of Mr. Grow's application. I have such confidence in Mr. Grow's ability and integrity that I feel a pleasure in aiding him in securing this position. I feel quite sure, if you can see your way clear to do so, and are not otherwise compromised in favor of any other candidate, that an endorsement by you to Mr. Cleveland would have great weight in appointment in Alaska.

Hoping to hear from you in this regard, and wishing you a pleasant sojourn in, and safe return from Alaska,
I am,

Yours sincerely,
J. B. Moultrie.

Cincinnati, Ohio.

Sitka, Alaska,
June 8, 1892.

Dr. Jackson,

My dear Friend,

Your good, kind letter came to me on last boat, and was very glad to hear from you again. My dear friend, I cannot tell you of my feeling. I have lost my dear wife. She passed away 24th, of April. It seems as I could never feel happy again in this world. Will you please remember me in your prayers, and my little daughter. Let Holy Spirit comfort us.

I have been talking with Mr. Austin yesterday about the work. He advises me to write to you about the Government school at Kake. See if you can appoint me there as a teacher, or to do a mission work. The people from Kake have been here. They asking me if I could come there and tell them about Jesus.

Hoping to hear from you soon. May the Lord bless and keep you in His care.

Goodbye. Yours in the love of Christ,
Fred L. Moore.

U. S. F. M. Steamer "Bear."

Port Clarence, June 30th, 1893.

Mr. M. W. Bruce,

Supt. of Reindeer Station,

Port Clarence, Alaska,

Sir:

Yours of this date with reference to the pur-

case of skins and blubber, at Cape Prince of Wales, last October, is received, and I regret to be compelled to say that your action in the matter is not approved.

There is no excuse for a public officer violating the laws of the land. As above all others should be held responsible and reproach. You have done so well the past year, that I greatly regret this one blot on your record.

Please notify all your associates, that the selling, trading or giving of cartridges or breech loading rifles to the Alaskan natives will not be allowed under any circumstances. Any one offending in this matter will subject himself to immediate suspension from his position. I have written a circular letter to the same effect to all the schools and Mission Stations.

There is nothing in this to prevent your allowing a hunter, while on duty, or when sent off by your self, or associates after game, the use of a Government rifle and cartridge.

Very respectfully yours,

Walter S. Gage,

General Agent.

Mr. Sheldon - Agent,

St. John, Alaska.

Dear Sir:

My wife has a paper to procure for the Missionary Society of the Presbyterian Church of this city on the missionary work done in Alaska, and the condition of the natives, both physical and moral. With the view of making it instructive, she seeks facts.

Some of our friends, who have visited Alaska, suggest that she write you for information on the subject. If you can find time to put her in possession of such data on the subject as you think would be profitable to the Society, you will confer a favor on all, which will be remembered.

Very respectfully,

W. D. Pauls.

Point Barrow, Arctic Ocean,
August 19, 1892.

Mr. Sheldon Jackson,
Washington, D. C.
Dear Sir:

I was very much disappointed to hear that you
have been called back to the southwestern district by the un-
expected arrival. I hope you had a very successful tour, through
the protection. Here we have no news of particular during last
winter. The party at both stations all well, though the winter
was a cold one: no ice register of the glass being down to 50°
below zero. We had the first rain on the 17th. of May, the last
snow on the 12th. of July.

The natives of our vicinity are so far in very
good condition. Whaling was not very successful: a number of
whales were killed at the villages of Cape Smith and Point Bar-
row, (only four each, small ones, no more.) Arctic's Party
caught none. But as a rule these natives, as long as they
have plenty of blubber, black-skin and rest, will be a good
season. I think it is because these small whales provide just
what they need for food and fuel.

The few whales here is very poor this season,
only four have been killed between here and Belcher, as
you can guess what the season was.

About the middle of June there came here a com-
pyle of Christian natives from far inland in a southern direct-
ion. They made several speeches about God and Christ to the
people. From that time on all the people have begun to cer-
tificate our Sabbath Day. They call it "Savvruuk pehokak," that
is "a day of no work". They have a lack of knowledge of
ritualistic, so that had marked six small patches and one large
one. This long the signification Sunday, as follows:

As every day passes they scratch a dash
with a lead pencil, and when they come to the long dash, they
do no work. For this purpose Mr. Sangre gave out most of the
paper and pencils he had. The Doctor also made many notes
upon regarding the Sabbath and the other six days. I am sure
he made a grand success, but owing a good deal to a native mis-
inter-as we use to call him. I hope you will see him when
you come up here next summer, because he says he is going to
work for Mr. Kelly the coming season.

The Doctor has a very successful school last
winter, the average attendance per day being from 15 to 20.

Sometimes he had 30, so that the little room was packed with the people. Since he has had the school the pupils have shown rapid progress in every line of knowledge, because the Doctor gave them very clear lessons from that of Mr. S. From my observation, the Doctor omits the pupils mostly from object lessons. Instead of that, Mr. S. made a place there very hard with reading and writing, or rather copying, from cards. He also tried to make them write his own "book" every day. I think some pupils did very well with the day's work, though not knowing what they were making or doing.

Mr. S. left us for home on the 5th. Instantly, on board the "Siamia Ward". He told us that he would come up again to relieve the Doctor, if the Board of Missions hired him. Now that the Doctor, I would like to tell you some very foolish acts of Mr. S., which he did before he left here. I beg of you to read carefully, if you wish I have a right to inform you.

Mr. S. was very much dissatisfied with the school lumber which you sent to him and the Doctor. I trust that you have all about the lumber from Mr. S. and the Doctor, as I will not repeat it here. Mr. S. told us that "you were not a man to manage business. That you never answer his questions." He also told that he had to come to him again for school-lumber, or other things for which the school would not go. He also said that "every trouble and my hand to get you out of the management of the schools, or he would not care." He also said that "every trouble and failure in the building of the school houses due to Mr. Jackson's mismanagement," etc. That he had said, most of the people in the station will tell you about that I have.

Mr. S. treated Mr. S. in a very unkind manner by corner. One occasion he told me in connection with a walking school of his own. He acted also in a very unkind way toward the Doctor, and even toward me. We did not take any trouble about it, but only let him know how we regarded it. We have some information to give you, but it will be better to tell you personally, at your next visit here.

I believe that both Captain Mealy and Mr. Hester will visit Fairbairn this winter. Captain Mealy's steamship, Frank, accompanying them.

If Frank calls on you I would like to get a copy of your "Alaska," with vocabulary, and writing a little book of my experience in the "Bear" and Alaska, the Aleutians, etc., and I am intending to publish when I visit home, in Japan. Therefore I am very anxious to have your "Alaska," to get more correct information on the subject.

So, I would like to have the "Microfilm Census of Alaska",
it is already printed by the Government. If Frank Ball
call on you, I beg that you will send it to the "Bear," or
Mr. Foster.

Mr. Foster, - Begging your pardon for troubling you with
no letter, I am

Very truly yours
E. J. M.

• Sheldon Jackson,
Washington, D. C.
or Sir:

In reply to your letter of August 12th, dated
Sicks, making inquiries about Governor Knapp's visits to my
school in Juneau, and also in regard to amount of interest man-
ested, will state that the Governor, in company with Judge
Wheeler of Washington, D. C., came into my school a few min-
utes on September 10, 1902. This is the only time he has vis-
ited my school since I have been in Juneau, although he was in
Juneau for two weeks during my term at our time.

I judge from this, and also from the fact that he never made any inquiries about my school, that he had little interest in school affairs.

impeded, rather than advanced, the public school interest in Alaska.

Trusting this will fully answer your inquiry.
I remain,

Dr. Arnold Jackson,
Sitka, Alaska.

1992

In consideration of your short stay with us, and being engaged in the evenings myself, I have taken the liberty, and write this letter in behalf of our Society, as well as myself. I, and all our members, regard you as being the

mainstay and support to this noble undertaking. My gratitude and thanks for all you have done, and are still doing, are due to you.

The object of this, my communication, is to lay before you a plan, by which means we may enlarge and complete the valuable collections now at hand, by specimens of Natural History from Alaska. Birds; fishes; mammals, and botanical specimens, and at the same time instruct others of our members, that are willing to learn, the art of making and preserving specimens of natural history. And such specimens may be sold for the benefit of the Society.

The specimens to be mounted from the museum, I intend to mount in first class style. The birds mounted on natural objects: limbs of trees; rocks; moss and foliage. Fishes with portions representing the bottom of the sea. Rocks; land shells; seaweed, etc. Mammals on natural features of soil, grass; rocks; moss, etc. Besides, every group mounted in separate glass cases.

I have in my possession a full out-fit of tools and a good place to work in, besides many valuable hand-books, for identifying any specimen that comes within our reach. It has taken eight years of my residence in Sitka to accumulate this material.

If I had the means for my support, I would gladly furnish the labor for this noble work gratis, but my circumstances are such, that I am compelled to ask a small salary for my support. After careful figuring, have come to the conclusion that \$45 per month, will cover my necessary expenses, apart from the work above. Willing to incur no cost, am willing to give my attention and labor in painting and decorating the new museum to be built.

Hoping to meet your kind favor in the above
matter. I remain

Yours, and the Society's
Obedient servant,
F. R. Frothingham.

Rev. Sheldon Jackson,

Dr. J. H. H. H.

Please pardon my delay in acknowledging the check you returned, which was to have been for Mr. Cherry's work. My term of office as Treasurer expired a few days after sending you the check. I have no authority in the matter, but sent your letter and the check to Dr. Sabine, who may take the responsibility of giving you an answer. If not, you will hear soon, for the teachers and scholars will shortly be in their places, again, when a vote can be taken on the question.

We regret the check will be returned to you.

I have your last report, which is very interesting.

My dear Dr. Jackson,

.. Welcome back to shore! Your card came to my
hand today, and only yesterday I said to .. that I would

ed you could be here for this great meeting of the World's Parliament of Religions.- And you are here!

I am glad you have time for a glimpse of the wonderful Exposition, and that you are catching a moment of rest after your long, lonely journey. You will need strengthening for all that is before you in Washington. Mr. Holmans transfer may help you. May it not?

When and where can we meet? Will you send me word here?

With cordial regard, in which joins me,

Sincerely yours,

Alice C. Fletcher

Rev. Dr. Jackson:-

I feel that we are under many obligations to you for your considerate kindness in speaking so highly of Hotel Endeavor to your friends, resulting in their coming to Hotel Endeavor, and wish to thank you for this. And am sorry indeed we were not able to have you give the address on Alaska in the Tabernacle of Hotel Endeavor. It certainly would have been a delight to all to have heard you. I wish it could have been possible for you to have been with us on Sunday evening, when we had a large audience, who would have been everjoyed to have heard you. But of course the arrangement for you to speak for Dr. Martyn compelled you to be absent from our services that evening. I was glad to see your address reported, in part, in some of the papers.

With sincere regards, and hoping to hear from you again, and at a later date seeing you with us, I am

Yours faithfully,

Charles D. Holdrege.

My dear Dr. Jackson,

I have been ill, and on my reporting to the Anthropological Building I learned of your parting call, and was

filled with regret. I wrote you to Hotel Endeavor, but perhaps in the multiplicity of new hotels it may have failed to reach you, as I had no additional address to insure delivery.

I am very sorry we could not meet, there are so many points on which I would be glad to have spoken to you, and have consulted with you. I hope you are safe in these cyclone days. It looks as though we were to pass through some hard times and meet some hard places, but we will wait. Shall you be at Lake Mohawk? I hope so. And now my friend, may I ask the favor of a line telling me of yourself; your health, and of your work? General Hater tells me that you were quite successful. I am sure that if patient labor could bring it all about you would accomplish it.

How are all our Alaska friends. But I suppose you do not know directly, for you were denied a visit to Southeast Alaska, if I am rightly informed.

Please give my affectionate greeting to your wife and daughters. Have they been to the Fair? Mrs. Gay joins me in best wishes.

Sincerely yours,

Alice C. Fletcher.

Please remember me to Dr. Hawley; Mrs. Hawley; Mrs. Chamber; Mrs. Smith and others at the Bureau.

Dear Doctor Jackson,

Welcome home! We have rejoiced in your safe return. As Mr. Fink is just making ready for a lecturing trip I write for him in reply to your kind letter, saying eagerly if he can come to Lake Mohawk.

Mr. Fink would be very glad to serve you, and also for the privilege of seeing a little of the Conference. He could come if the date is put for the 11th. He has a series of lectures which end with October 10th., at Athens, Pennsylvania. By close connection it would be possible to reach Mohawk late on the afternoon of the 11th. But as he will have been lecturing continuously he will be quite fatigued, and would prefer to wait until the next evening. Though if that is not available, he could give you the assistance on the 11th. The risks in close connection are greater--that is there is always

a little likelihood of failure to connect, and of course this would not do. Kindly drop a line as to what you conclude.

All join in warmest regards.

Very sincerely,

L. V. Fines

Prof. Sheldon Jackson, D. D.

Don Edwards

I am now located in this Presbytery, and will probably locate here. I have been granted leave to work in this Presbytery for six months, and have accepted a work at Plover, a nice little city near Des Moines. A place of six churches. Among which the Presbyterian Church is by no means the least. I took it for six months, pending the reception of a call, and also my letter of dismissal from the Presbytery of Alaska.

The Board notified me that my work in Alaska was done, and in spite of protests sent into their office from Mr. Heid and other believers in my work and made of kindling a religious spirit in the whiskey-soaked Alaskans, but without avail. So I am constrained to abide by the decision of my chiefs, and adapt myself to the situation. Of course I regretted it deeply, and felt no little of resentment. But I have not given expression to my feelings in the matter. I have accepted the calling as one that has Providentially brought us in contact with a larger field than I had hoped or deserved to have.

My heart had been set on Alaska as a life work and now we begin again to build. We have a nice people here, a church and manse, but imagine where I am in point of financial. Have had to buy everything new, as if I had just started housekeeping. My hope is that I will not waver again in my direction. If I had known that I was going to remain in the United States, I would have made an effort to get located in the Presbytery of Carlisle, for I did like your brother-in-law, Dr. Harcross so much. Yes; and Mrs King admired everyone she met from your own family to those of Captain Pratt's, especially his wife and daughter, who was home on a visit from the West. I would like to reside there forever. However we have not always our will in these matters. I do hope that my enemies who made things warm for me with their tongues and letters, will be converted ere they do any more damage to our work in Juneau.

Here is the list of men who hate us; despise our church, and the public schools, and patronize the priest

and his five children in their foreign work in Japan. There was
would, if they could, bring Mr. Reid, our royal champion. Look
out for Lawyers Malony; Blackitt; Hertz; Governor Knapp, and trea-
dars Kohler and James; Goldstiens and Leary. I fought these men
hard, and while I have to acknowledge a defeat at their hands,
yet I am glad to drop into a place where Southwick and associates
do not surround us. I am done with that Glasgow gang forever.
Therefore I ask you to leave them alone. I did you a good thing
and your work was going before Foster, Cleveland. He had no voice
to down my statements, and I did so, (see Mr. Hamilton.) Besides
sending me my letters and asking you to keep Parry as a name and
Post Office, unknown to any enemy or treacherous friend. Like E.
S. Willard.

I will see the more favor. Help us to display
of my model of the Log Church, now in Lieut. Rogers' collection.
He wrote me last week asking what disposition to make of it when
the fair is over. I told him to wait, as I wanted it sold, and
the money sent to John C. Field, Treasurer, Log Church. The
price asked was \$100. I sent \$60. The chairman, Paul Dabbs,
is not paid yet, but as he is a member of the church he will
wait. If the church is sold, then I will have to pay Dabbs, as
I guaranteed him before the fair. Secretary, Kate, Chair-
man of Presbyterian Epistle, (which church I am, being a Sunday
Schooler,) asked for it for Presbyterian Episcopal House, but
I told him I couldn't afford to give it to him, and he had ex-
pected a small one.

Hoping to hear from you, I remain your friend
and disciple always in His love and grace.

Just very nice letter of the Hist. Inst. is
 coming, and we are very glad indeed to learn that we may hope
 see you at Moscow during the coming Indian Conference. The
 conference will be held this year on the 11th, 12th and 13th
 October, - Tuesday, Wednesday and Thursday. We intend to
 call and will have a very cordial invitation to be present at the

Jackson, Alaska,
September 27, 1898.

Rev. Sheldon Jackson, D. D.
U. S. Agent of Education in Alaska,
Washington, D. C.

Dear friend,

Can I ask you to ask Governor Sheakley to appoint me Justice of the Peace? Could not have all the appointments as to classes. The Postmaster should be relieved here, and one appointed that will be his duty.

If you should go to New York, will you tell Mr. Roberts about my trouble? He should have the whole thing investigated. I wish you would do the investigating. Mother died last Sabbath. I told him how you inquired about him, etc.

You will find the British Caries at Sitka when you get there.

Your friend ever,
W. D. McLeod.

Clara sends kind regards;

Mr. Sheldon Jackson,  
My dear Sir:

Your kind letter of the 28, instant is received, and we are pleased to learn that we may hope to see you at Mohonk on Tuesday 10th. prox., and trust that Mrs. Jackson may be able to accompany you.

In regard to stereopticon lantern and gas for same, we will have everything in readiness.

Very truly yours,  
A. K. Smiley,

Dear Dr. Jackson,

I consider it a high honor that any thing that I may have written, or said or done, or any office that the church ever gave me, should lead you to write to me. I have

followed you from the time you went to Alaska, until now. My views with regard to the matter of Alaska agree with yours. All the inquiries I made, though I did not go to Unalakleet, lead me to think it would be an error to allow that school to go.

I have been summoned to this city by reason of a railroad accident which destroyed two of my relatives. It has temporarily upset my plans, and I have to put off several engagements. On my return I will fix a time, and if it is possible I shall come to do so at that time, or any other, I would like to meet the missionary secretaries with you. One of them is in India, but two of them can be seen.

The exact date of the meeting at Toledo esca-
ped me yet, but I will correspond with some people about it.

Yours sincerely,

J. H. Brickley.

THE LIFE OF

It is very unfortunate to have the estimate so reduced. Just now we are straining every nerve to get a part of our work down. That off, I will try what I can write to Dr.

Thanks for information about the Concord. I hope it will all come through right. I fear that I shall have to let go to others, or to the company, one of the three shares that I have tried to take, but can only tell finally when I get a statement of account. It costs me dearly to get the money for what I take.

In great haste,

Sincerely yours,

John Water

We shall all miss your daughter, but I do not doubt she will enjoy the work she will do and have such a pleasant surprise.

Dr. Jackson,
Dear Sir:

Before this reaches you you will no doubt have heard of Mr. Thorndike's death at the hands of the Cape Prisoners of Wales natives, at midnight, August 30. My life was also intended, but for some reason God saw fit to spare it. I am not able to write the particulars, but hope to be in New York City October 11, or 12, for twenty-four or forty-eight hours. If you would like to see me on any business, or other matters, you will find me at 4 West 80th. St., Dr. Houghtons. I will telegraph later just what day I expect to arrive.

We have just arrived in San Francisco, and I am waiting on board steamer for friends to meet me.

Very respectfully,

Helen Sargent Thornton.

Rev. Sheldon Jackson,
Bureau of Education,
Washington, D. C.

Dear Dr. Jackson,

It has been reported to me that you said the policy of the present Administration was to withdraw aid from Eastern schools. I shall be glad of any information you can give me in regard to this matter.

I enjoyed your lecture very much at Maroon, and do hope that we shall have the pleasure of seeing it here. Will you kindly let us know when you can come? Are you to be in those parts near Christmas time? Could you come down to give it to our students during the holidays? It would be a very great pleasure to them to see and hear you.

Very truly yours,

H. B. F. 111. 111.

Sixth International Sunday School Convention,
Chicago, Illinois,
October 4, 1933.

Rev. Sheldon Jackson, D. D.

Washington, D. C.

Dear Brother,

I have your favor. We had a grand convention in St. Louis, over one thousand delegates from all over the world. I think the result will be an "uplift to the cause." I am expecting to spend the coming spring on the Pacific Coast assisting in the work of organization and instruction. I will come down in Southern California, and move up to British Columbia. Would it be advisable for me to continue on to Alaska? I am not on a pleasure trip, but one of useful help to the cause. If I could be of service in that way? I will be glad to have your opinion.

I send you a copy of my report on the convention.

Yours,

W. Reynolds.

Mr. Sheldon Jackson,

Dear Sir,

I am just now informed that you have come into possession of all the manuscripts, writings and memoranda of Rev. H. C. Sheldon, in regard to the genealogy of the Sheldon family. Will you be so good as to tell me in what condition they are in, and how much time and money would be now required to publish the genealogical Record so far as it is now perfected. It seems to me, to be got out in some way, and if I can find how it stands perhaps I might help a bit. I have two or three rapid pamphlets in regard to it. They are very interesting, and I wish I had all that Henry C. found out in regard to it.

Yours,

Joseph Sheldon.

Rev. Sheldon Jackson,
General Agent of Education in Alaska,
Washington, D. C.

Dear Sir:

I beg leave to acknowledge with thanks the receipt of your letter of the 28, ultimo, in regard to publications of the "Society of Alaskan Natural History and Ethnology."

I herewith hand you one dollar, for which please send me the three Bulletins mentioned. And if there is any balance remaining to my credit, please apply it on payment for future publications. I am very much interested in Alaska, and shall be ever so much obliged if you will kindly give me a few pointers in regard to books and other publications of importance, especially with reference to Natural History and Ethnology. If not too great a task upon your time please mention titles, and by whom published.

I have written to Sitka in regard to the "North Star," and to Fort Wrangell about "The Glacier," but I may never hear from them, and if I do it will not be very soon, so that suggestions from you will, I assure you, be appreciated.

Very respectfully,
A. J. Marks.

There is nothing in the Constitution and By-laws of the Society to indicate the amount charged for membership, nor the annual dues.

Dear Sir:

Your communication of August 12, was here delivered to me as I passed through Jensen on September 23, to which I will now reply with pleasure, giving you the desired information in regard to Governor Knapp, or as near as I can give it.

Governor Knapp passed through Jensen on the first steamer down in October. I believe on his way to Chicago and Washington. He came into my school just I was opening school for the day. Stayed for opening exercises and roll-call.

after which we talked a few moments together, then he went in to Mr. Davies' room. The only interest he manifested was to ask me something about their--the childrens'--Indian names, and then came forward and looked at the list of names. On his return from the East he did not call, and this was the only time he was ever in my school. His visit was not over 15 minutes.

He spent two weeks in Juneau, attending court. Last spring, just before the closing of my school term, he did not visit the school. Nor do I remember of speaking with him during the two weeks. I taught school #1, Juneau, Alaska, for a term of five months; beginning September the 1st. and closing the first of June 1893.

I remain yours truly,

Margaret A. Saxman.

Dr. Jackson,

Dear Brother,

I have received your note, and the letter sent to Mr. Austin. Please accept my thanks for the same.

By the next trip of the steamer, after you left here, Miss Davis came to us to take part in the care of the "Home". She is in poor health, and I am going to ask you to urge upon the Board the necessity of immediately sending another helper. You will be going to New York soon, I think in from what you said when you were here.

I have refused an offer of \$35.00 for our house here in Juneau. The man offering this was thinking as much of the water-cure as of the house and lot. I told him that I had offered it to the Board for \$25.00, and he was provoked. The Board have accepted, as I told you, but I wish I knew about how soon I could get the money, as we expect to leave in the spring.

Everything is in fine working order at the mission so far as equipment is concerned. Workers to work it are needed. Also more money could be used in fencing and putting on some finishing touches.

Kindest regards to yourself and family from us all at the Mission.

Fraternally,

Eugene S. Willard.

Dr. Sheldon Jackson,
My dear Sir:

.I have been perusing with great interest the Census Report on Alaska, but notice particularly what is said about churches, schools, etc. What the Russian and Catholic churches do, both in school and church, is all right. Not so the others.

From Mr. and Mrs. Jones, at Killisnoo, I have very gratifying reports of their first year there. Also incidentally of your visit there. I am very anxious to hear from this years work, both public school; private school; reindeer, and missions. I would be pleased to receive the Government reports. Your own on on schools; reindeer, etc. Also the Governor's report for 1893. And any report on Alaska you may think I would be interested in.

Lieutenant Cantrell's article in the "Californian," January 1892, interested me much, as well as your reports for 1892, sent me while in Texas. I am an aggravator, since August 1, but do hope that you will be retained where you have done so much good. I would be pleased to hear from you also as to the future of Alaska. Religiously, educationally and in civilization.

By the way could you hunt up for me, -and send me a copy of the first report of the Governor of Alaska, (1865.) I have all the others except that one.

Now Doctor, how can I help you in any way, either to a larger appropriation for education, \$60,000 at least, or in any other way. Direct me what to do and how to do it. I will write myself, and will get others to write also. Or will be willing to aid any other way you direct. I hope that the new administration makes selections of good men for officers of Alaska. Some of the former were not above suspicion.

Pardon this intrusion, but be free to direct me in your own behalf and that of your work.

Yours very respectfully,
Allen H. Dearell.

Mr. Sheldon Jackson,
Dear Sir:

On the 5th. of August last, Mr. Harte was called into the presence of his Heavenly Father. There, with the multitude of all nations and tongues, he will join in singing "worthy the Lamb who was slain."

Sincerely yours,
Virginia B. Harte.

In our December number I desire to publish
that article from you on the Esquimaux, to appear in one of the

Dr. Sheldon Jackson,
Dear Sir:

I was just about to call upon another minister when your note of yesterday was handed me. I am heartily rejoiced to find that you can be with us on the 30th., and if agreeable to you, I hope you will give us one of your always in-

teresting talks about Alaska, instead of taking the topic on the card. From 6.30 to about 7.30 is the time usually occupied

I will be in the "Home" seminar before 6.30 on the 30th. I think I gave you the address, 1719 13th Street, N. W.

With many thanks,

Yours very truly,

L. E. Thompson.

My dear Dr. Jackson,

You will remember that at our service in the Tabernacle of the Christian Endeavor Hotel in Chicago, you expressed a willingness to give us the lecture on Alaska. We want you very much for Tuesday night, October 31. It is our regular missionary night, and we will invite the young people from all parts of the City. We have for a long time been hoping to have you with us. Would you come for us under the same arrangement as that made with Mr. Speed?

Hoping for a favorable reply, I am

Sincerely yours,

John E. Seckley.

Dear Mr. Jackson,

I received your note Tuesday evening and also the other, with the one from Florence enclosed. I was glad to answer just as soon as I could write you somewhat fully about Blanche. After you left last spring, she remained about the same for two or three weeks, and then seemed better of the pleurisy. The doctor and nurse were caring for her, but she often got very blue, and it was hard to do much of anything for her without discouraging her, and making her say things about dying, etc. As she got better of the pleurisy, she began to expectorate, and the doctor examined some of the sputum,

and also sent some to a specialist. Both agreed that tuberculosis was begun and sufficiently advanced, that the probability was that in this climate, she would fail quite rapidly. The Doctor also said that he did not think that a change of climate would make much difference. The disease seemed to be so far along. At that time she was feeling better, but presently grew weaker for two or three weeks. He hesitated about having her take the long journey, for a few weeks at least. By the time I had written to her brother and received a reply; consulted Mrs. Shepard, etc., and felt sure that it was right for her to go, she was better and able to take the trip. The Doctor, however, feared to have her go alone, lest she have hemorrhages. I tried to find some one going that way, with whom she could travel, but without success. So went with her. I was going to Chicago any way, so it only made the trip from Chicago to Seattle and return. I telegraphed her brother, and left Blanche on the little boat which would take her to her brother in an hour. He wrote me a kind letter, which I enclose, which has somewhat relieved the anxiety I had about her going out there. It was a problem in my mind for quite awhile.

Blanche's state of mind was the thing which caused the anxiety. She seemed to be in an upset state religiously. Persisted in looking on the dark side, and was either depressed or restless, over-sad or over-gay. Besides, she is so easily influenced, and so unwise in the choice of her friends, that it will be no real surprise about her going out there. I still feel so. I will enclose a letter, the only letter which I have received from her really since I left her. I had a card from her the other evening, saying that she was about to start from Fort Wrangell, and her brother and his family were going in the winter. I do not know enough about the circumstances to know whether that is wise or not.

As to providing for her needs, if ill, this provision was made. She had quite a little sum of money, her bank money and some left from her allowance when she went. She had clothes enough to last a long time, though I thought some of them unsuitable for wear there.

I paid her the August allowance. I did not want to put temptation in her way, either in having so little as to be made reckless, or the opportunity for having too much. I knew it would be unwise for her or her brother, to feel that they could call on Mrs. Shepard for anything. That would be very unwise, and yet I did not like to feel that we had let her go back there to die, and left her to possibly suffer for any-

thing. I know of no better way to do than this. I wrote her brother and herself how I felt, and also that although I had no spare money to spend unwisely, it is felt that she was in need of medicines, care, etc., which he could not provide for her, he might write to me, not to Mrs. Shepard. You see I left it to his judgment, for I would not have leave it to Blanche's.

I do not feel sure what this was wise, and I felt better for doing it. Mrs. Shepard has said so that in my own name, but at her expense. I shall not however, for I do not want her to pay out any more for Blanche.

I pray that the Dear Lord may over-rule and lead Blanche to trust in Him more really, and to be stronger to do the right under all circumstances. Also to give her peace of mind and cheerfulness of heart in the midst of the many hardships which have come.

Dear friend, I have often wondered why you were allowed to leave these girls in my care. It seemed right at the time, and I think it must have been, but it has been a strange experience. I think it would have been better had they been placed at Carlisle at first, and then perhaps sent to the field later. Had I known Alaskan natives as firmly as well as I do now, even, I could have given them much wiser training.

Had my hands been less full of work here, I could have done more and better for them. I have loved them dearly, tried to be wise, but that has seemed almost impossible and the results not very gratifying. It would have been better had they had to earn their money, or receive it from some one who has not so much as Mrs. Shepard. I was always in the gap between her generosity and their Alaskan natures, and it was not easy, though I would have better what to do now than then.

For their sake I feel great regret that I have not been able to get them thoroughly established in right ways. I never dealt with girls with such a mixture of good and bad traits before in all my experience with girls. And I hope that I at least have learned lessons about human nature, which will be of real help in doing the right thing for other girls.

I am glad to see the letter from Florence. It seems to show a better spirit. I wanted to see her this summer on my way home from Chicago, and tried to, but was unable to do so. I hope to go to Carlisle this year sometime and see them. Florence doesn't write to Olga and Blanche in just the same spirit as she seems to have in her letter to Capt. Pratt. She is still rather bitter about some things, and I feel

a little anxious about her, as she goes to be independent. Glad
was here while this summer. She is doing good work. I hope
she will not overwork, and also that her success in doing so
many things will not spoil her. She has surely done well, and
I do not want anything to mar the usefulness of her life.

Well, I fear that I have now written too much at length. I have had to write hastily, as my days are so full. Enclosed find a little leaflet. Perhaps you know some to whom they could be sent. One of our girls was a home missionary for awhile, and wanted something of this kind to circulate amongst people, so as to get them into the habit of giving. I thought it a good opportunity to help the girls on their fund. They have \$800., but haven't raised any the past two years or so. I am glad you are home again. Tell about that

I am glad you are home again. Sad about that
missionary's death, wasn't it?

Yours Respectfully,

Abstract 3.24.14

I am sorry you did not receive the letter about Olga's little sister. I would gladly have done it, if I had felt equal to it.

Captain Shepard,

Dear Sir:

When I return to Washington, I have no doubt the United States Commissioner of Education, through the Secretary of the Interior, will make an official acknowledgment of the many facilities and valuable assistance which has again been rendered me by Captain M. A. Healy, and the officers of the U. S. S. Steamer "Bear."

But as that letter may not reach you before making your annual report, and reviewing the operations of your service for the year, I take the liberty of addressing you in advance.

But for the annual cruise of a revenue cutter in Behring Sea and the Arctic Ocean, furnishing transportation to the educational agent, and occasionally a teacher and school supplies, it would be impossible for the Government and the churches to carry on their school work in this region. So that, if it is a sound public policy, as well as an act of humanity, to civilize the natives of this far west region, and change the se, at times, half-starved, barbarous tribes, into wealth pro-

dealing, prosperous citizens, then the Revenue Marine Service, will have the honorable reward and proud satisfaction, of having rendered available the plans of the United States Bureau of Education in this direction.

The services of Captain Healy, and his officers, have been equally important in furthering the reindeer enterprise. Captain Healy has been so many years in this section, that he, better than most others, knows the coast, and good anchorages, in these unsurveyed waters, and has become skilled in contending with the complex currents, and changing conditions of the ice. Thus enabling him to safely visit places that other officers would not dare to do.

In addition to this, his long service has given him an extensive acquaintance among, and the confidence of, the native population. Both of these things have been essential in visiting the coast of Siberia, and negotiating with the people for reindeer. And both have contributed to the success of purchasing, as has been done this season, of 170 reindeer.

I trust you will find it consistent with the interest of your service to continue Captain Healy in this section until, at least, this important reindeer enterprise has been established firmly.

Thanking you again for your personal interest, and co-operation, I remain

Yours truly,
Sheldon Jackson.

Dear Doctor:-

Some months ago Senators Vest and Sutherland filed my application with the Attorney General, asking for the appointment of Marshal of Alaska.

If you are not otherwise occupied, I assure you I would very gratefully recognize your influence in my behalf. A kind word of encouragement from you at this time would be very highly appreciated.

Very truly your friend,
Louis L. Williams.

thing of beauty. I am sure you had a great deal to do with illustrating it. Can I obtain duplicates of some of the enclosures? I enclose a list of those I especially desire, thinking that with your influence, I may be able to obtain them for use in the Home Mission Monthly.

Will you kindly let me know what the expense would probably be? I will then know better how many to order.

Remember, and I remember with pleasure the delightful glimpses we had of your family last May. Please remember us to them.

With warmest regards to all.

Cordially yours,

(Mrs. D. E.) M. V. Ficks.

Dear Dr. Jackson,

I have received the fox skins, for which I thank you sincerely. And have taken them to Remond's to be dressed and made into a rug, which I hope to show you when finished. I have also received the report which you so kindly sent me, and was glad to hear of your safe arrival home again.

With many thanks for your very kind thought of me,

Believe me,

Sincerely yours,

Dear Dr. Jackson,

I wrote you over a week ago, but neglected to mark it "personal," so you may not have received it. Mr. Kribbs informs me that Secretary Smith will consult with Dr. Harris about the appointment of Superintendent of Indian Schools, and he learned incidentally, that your recommendation would have much weight. I have the endorsement of Mr. Hamity, the State Superintendent of this State, our Congressman, and a number of educators and politicians. I believe that with your active

intercession I can be appointed. Will you aid me? I am confident that you and I could work harmoniously together for the good of the Indian Schools in all parts of the land.

Very truly yours,
A. J. Davis.

Dear Mr. Jackson,

Accept our very hearty thanks for your kind co-
operation with Bishop Doane. He needs sympathy in every way. -
The enormous number of our trials from the hundreds of millions
of heathen in land of Africa, and the fact that a large propor-
tion of the Indians in his diocese are professedly Christians,
while our Society is for the evangelization of the heathen,
does it impossible for us to give him as much help as he would
like.

Mr. Hallis is making search for a suitable man to be the school-master.

Rev. Sheldon Jackson

Dear Sirs:

Would it be convenient and agreeable to you to give the ladies of the "Washington Club," an hours talk some evening of next week? My husband, General Brown, met you in Alaska several years ago, and told me I would find you most earnest and interesting.

The Washington Club has its rooms at the Ever-
ett, on H Street, near Eighteenth. It is composed of refined
and intelligent women. On the lecture list last winter were
the names of Mr. Thurston and Mr. Carter of Honolulu; Senators
Stewart and Dolph; Representative Walker; Mr. Spofford, Libra-

rian of Congress; Dr. Billings, U. S. A., Dr. Dean, U. S. N., Dr. Fletcher of the Smithsonian and many others.

We are not strong enough financially yet, to offer anything beyond our rooms and our interested attention, but it would afford us great pleasure to hear you on the educational success of your visit to Alaska, and especially on the uses of the reindeer, and habits of the natives.

Hoping that you may have time and inclination to grant my request, I am

Yours very truly,
Louise Walcott Knutson Browne.
Chairman Lecture Committee.

Captain M. A. Healy,  
Commander U. S. Steamer "Bear,"  
Dear Sir:

Having just moved from Oakland to this part of the State, I can hardly expect to be able to go to San Francisco this winter. Mr. Loff wrote me that he sent something by you. I have given Mr. C. P. Moore (a cousin of mine) an order on you. Whatever expenses there are he will pay for me.

The news of Thornton's death had reached us just before I left. The newspapers and some of our people were making pretty harsh criticisms. If it goes any further, you know what my views are, as it was no surprise to me.

Please remember me to Mrs. Healy, also to Mr. Jarvis. I believe he is the only officer with you whom I have met.

Yours very respectfully,  
A. S. McLellan.

Dr. Sheldon Jackson,

Dear Sir: I simply send you a word of greeting. The school here is doing fine. The year and a half that I have been here has been a time of peace and quiet. Mr. J. G. Heid has

written requesting an endorsement against Mr. Delaney for the Judgeship, but I will take no part in the contest whatever. I have just written the Secretary of the Interior endorsing Mr. F. D. Delaney, a Democrat, and citizen of Iowa, for the Commissionership at Iowa. This is in the interest of "Home Rule."

The Democrats here are expecting a number of appointments for Alaska soon. When you or Mr. Hamilton see a batch of appointments for Alaska I wish you would send me some paper clipping and oblige.

The weather here has been cold for several days. Four above zero this morning.

Remember me kindly to your family, to General
Haton, and inquiring friends.

Very truly your Friend,
Wm. A. Kelly.

Dear Dr. Jackson,

Dear Dr. Jackson,

I am very glad to hear by your letter, received today, that you are now out of the reach of the polar bear, and that you are once more brought into communication with the friends of Missions.

Yesterday there came to me a letter from Mr. Cook, which I enclose for your personal, and will ask you after reading it, and showing it to Mrs. Jackson, to drop it in the Post Office, as it is already addressed, and will come back to me. I thought that this information respecting the public profession of his faith by the chief of the Pincas, should be communicated to the Home Board, first by their Missionary. And though I would have liked to have sent the letter to Mrs. Fiske at once, I thought it better to wait until the Women's Executive Committee, who support Mr. Cook, could have time to receive a letter from him. I sent to the Women's Executive Committee of the Home Board five-hundred copies of our little book, "Among the Pincas." They voted not to use forty dollars to pay for binding. They got with the book, which they send to their Auxiliary societies, and offer for sale at their homes, a little slip, a copy of which I enclose.

I hope that the circulation of this history of the Pinca Mission may help to bring contributions to the Treasury of the Home Mission Board. The Sweden's Friend Society subscribed for seventy-five copies for their loan libraries.

We gave them in addition twenty-five copies. We sent to Mr. Cook one thousand copies in response of his address and Iowa, for his personal benefit. As since his wife's death he has tried to make a home for his children near their relatives in Iowa, I received a special donation of \$100, which I sent to Mr. Cook to properly care for his wife's burial place, and to put a stone at her grave. All this is now done, and the faithful Teacher of the Indians, no longer sleeps in an "unmarked grave."

We intend to provide for the needs of Mr. Cook's family, and the good people of Dr. Shaw's church are making up a box of clothing and comforts for them. We have sent from Auburn some furniture for their house. I felt that this might be my last opportunity to help Mr. Cook, and to do my part to reward his faithful service in the cause of our Saviour, and I have therefore made an effort to enlist the sympathies of friends both in Albany and Rochester in behalf of Mr. Cook's children. I have circulated gratuitously 3000 copies of the little book, and it has been well received.

The Editor of the Evangelist wrote a very kind notice of the book, which has already awakened an inquiry as to where it can be found. It is for sale by Charles Scribner's Sons, 47 Whitehead Bible House, New York, and the American Tract Society.

I have lately received a visit from Mrs. L. D. Perkins of New Mexico. She came to Auburn to visit her sister, Mrs. McManis. Her husband was with her, and she came to see me. I found Mrs. Perkins a very interesting woman. I think she was for some time at Santa Fe as a teacher, and there, in that vicinity married Mr. Perkins. She then went to the Habsjoes, and was there for some time. She seems to have a great interest in the education of the Habsje Indians. Her little son, by a former marriage, obtained an influence with the young Indians which the missionaries did not succeed in attaining. Mrs. Perkins shed tears when she referred to the Habsje Indians and their need of teachers, and regretted that she ever left them.

I wanted to ask your private opinion of Mrs. Perkins's qualifications for Government teacher and for mission work among the Indians. Dr. Kendall once spoke to me about her when she was at Santa Fe. I had some correspondence with her at that time. She is a gifted woman, and all things being as they should be in her Christian character, she must be enlisted to do good work among the Indians. Her son is now a young man. I believe he has always been good, and was a helper in mission work. I cannot now recall his name. I wish

something could be offered to Mrs. Perkins among the Indians. There are the White Mountain Apaches. I think that nothing has yet been done for them. If a new agent goes to the Haba-jos, could you recommend Mrs. Perkins as teacher? I know nothing about Mr. Perkins, or his qualifications. Whatever you write me I will regard as strictly confidential, if this should be your wish.

With love to Mrs. Jackson and your daughters,
I am, dear Dr. Jackson,

Always truly your friend,
Cornelia W. Martin.

Rev. Sheldon Jackson,
Dear Sir:

Your note accepting the Washington Club's invitation to lecture, came during my temporary absence from the city.

Allow me to say, in behalf of the Club, a talk on the reindeer and people of Alaska; on its gold mines and fisheries, will be most acceptable, Friday evening, December 1st, at 8.15, p. M. I will send out cards to that effect, on Monday, November 27.

Do not expect a large audience, please, as we are not numerically strong as yet. But it will be a highly appreciative one. If you will prefer an informal talk, we will enjoy it thoroughly, and it will prevent you from the task of preparing a set lecture.

The Club Rooms are at "The Everett," on the south side of H Street, near Eighteenth Street. General Browne and I will be at the rooms to meet you.

Very truly yours,
Louise Walcott Knowlton Browne.

Please find enclosed my check for Fifty Dollars (\$50) in payment of the subscription I made at the Mobeck Conference, last October, toward a fund to keep open the Unalakleet school this winter. I have written to the officers of the Methodist Society suggesting that the school be named the Clinton E. Fiske School.

I am suggesting that you turn over any balance in your hands (at present, by your letter to me, \$34.75) with bills for the goods sent by you at your own charge to the school, (\$500) to the Ladies of that Society, taking their receipt and thus making possible a report on this Fund to the Mohawk

to dear Mrs. Martin,

Thanks for the copy of Dr. Jackson's report on "Education in Alaska." I find it not only instructive, but quite entertaining, many of the incidents narrated are so illustrative of the region, and of the character of the natives.

Alaska, at some future day, will be a great and prosperous state of this Union. In one respect it has an advantage over most of the others in their early days. Not only are its climate, soil and natural products such a will promote commercial enterprise, but it has also a native population capable of development into good and useful citizens. They seem not lazy, predatory and blood-thirsty, but robust, industrious and quick to learn the arts of civilized life. The self-sacrificing teachers and missionaries who have gone out there are doing a noble work, in reclaiming them from savagery to civilization and Christianity.

Very sincerely yours,

W. Seward.

Mr. Sheldon Jackson,

My dear friend,

If you have but five minutes to spare, please write to my mother, Catherine Marshall, New Metlakatla, Alaska, and give her cheer and much encouragement. Speak to her of the Father in Heaven, the Father of the widow and fatherless, and assure her of the main object of my stay here. My younger sister is now very well, and I fear I shall not be able to visit her again. The cottage that I built for my family before I left has never yet been completed, and when cold weather comes it is somewhat hard on Mother and the family. Had I left them in our comfortable house in British Columbia, it would have been well.

The fire last February caused a general depression in our settlement, and Mother has not yet got over it for she spent what money she had for the relief of the sufferers. She now calls me back, and Mr. Duncan has endorsed it. I am not going back till my work is finished, and unless my sister gets worse. My own needs are so many that I cannot now send her my Saturday earnings.

Please write to her a very kind, brotherly letter, and I know she will appreciate it.

I remain,

Your sincere friend,

Edward Marshall.

I have been looking for the slides. I depend upon them for the purchase of my books and some clothing.

Independence, Kansas,
December 5, 1893.

Mr. Sheldon Jackson,
Dear Sir:

I herewith send you a few extracts from Mrs. Killbuck's diary, but they are not as copious as I expected them to be. I read over carefully all her diary, some five hundred pages or more, and find while she makes frequent reference to the Eskimo's superstitions and shamanism. She does not enter into details or give facts. Much of her writing is devoted to descriptions of their domestic life and social re-

tations, their religious and educational progress. The whole is deeply interesting and often thrilling. Mr. Killbuck is the best authority on their superstitions, traditions, legends, shamanism.

I give you some extracts on their diseases. Hindrances to the work, and the bright side of missionary life. Not knowing the object or use you gave in view, I am at a loss as to which to select. But after reading over the whole diary I am most deeply impressed with the magnitude of their work and with their marvelous success. Their numerical success is much larger now than those given at the time her diary was written.

In a private letter to some one she describes the natives as "a pleasant, good-natured, dirty set of lazy human beings."

I write nothing at my time. If you see fit, you can allow me \$5.00, with which to compensate my son, who has assumed my duties for a few days.

With kindest regards, and best wishes to yourself and the work in Alaska, I remain

Yours,

Joseph R. Rugg.

Dear Mr. Jackson,

I have just received a letter from Mr. Frederick Seward, written on receiving a copy of your very interesting report on "Education in Alaska." I think you will be interested in Mr. Seward's letter, and so not return it to me, if you would like to retain it.

I would like to know whether Mr. H. J. Moore of Florence, Arizona, has been re-appointed assistant of the Casa Grande Ruin, but I do not want to trouble you to write a letter. Please let me know by postal card, if you have any information on the subject. Also state whether you will make use of a few copies of "Among the Pimas," to distribute in the office of the Indian Bureau at Washington.

With kind remembrances to Mrs. Jackson and your daughters,

Very truly yours,

Accept my thanks for your letter of December 4th.

Dear Dr. Jackson,

I desire to thank you most cordially for the help you have given me, and the introduction you have rendered.

National Chairman Hewitt and Governor Pattison are taking an active interest in the appointment, and today I received a letter from Hon. W. B. Chase, of Columbus, Ohio, informing me that he has written a good letter to Secretary Smith in my behalf. I also have the assurance from Prof. Alexander Hale, of West Virginia, who is an intimate friend of Representative Wilson, that he (Hale) will urge Mr. Wilson to aid in securing my appointment.

I do not know what more I can do. Any suggestion from you will receive grateful attention. If you can rally any of the New York people to my support, they might help the matter along. My opinion is that the appointment will be made soon, though I have no definite information. If you see Mr. Krille, I shall be glad if you will urge him to see Mr. Holcombe as soon as possible.

Again thanking you for your generous kindness, I remain

Cordially yours,
A. J. Davis.

Scraper "Dear,"  
December 20, 1892.

My Dear Doctor,

I have your letter as regards the paper for the mid-winter fair. I will be obliged to rely upon you for the greater part, if not the whole, of the articles. You have my thanks associated to each thing, and papers and data at hand. I thought such a paper could be more profitably gotten up in your office than on board ship. The reindeer subject could not in any possible way be brought before the public under better auspices. All to do, is to prepare the best paper we can to be read by the California Geographical Society at the mid-winter fair early in March. The thing should be complete by February 25th.

Senator Frazier is to lecture on whalers and whaling, in Washington, in January. I am preparing a paper on the Revenue whalers and the reindeer, to have a brief mention of

no new space. The Senator is one of my best friends, and I am sure would give you material assistance in getting the needed appropriation. Your plan meets my approbation all through. I only wish to express you that time is golden, and that I could not make long stops at any one place, if I wish to accomplish any thing.

I am obliged for your defense of me. Do these people know or understand that the swift and quick vengeance that came to those who killed Thornton, was due solely to fear of the "Bear"? If they don't I can tell them so. And so indeed, was the care and respect Mrs. Thornton received at their hands.

I told Mrs. Thornton, that if the Board of Commissioners paid her expenses, I would charge a mess. If the expense was personal, there would be no expense. I have heard nothing one way or the other. In arranging about coal, will you kindly see about the mess bill?

Understand me, Doctor, I am not craving recognition as to who is father of the winter project. If the thing succeeds I will be amply repaid for all trouble. Bruce, I fear, has tried to introduce poison into your good heart, that I understand is one of his methods. I am told the poor natives he brought down are starved and neglected by him. And you may rely on it, if he comes this way while I am here, I will give them (the natives) the same protection I endeavor to extend to them in the North.

Let me know soon what you can do in Washington about the preparation of the report.

Mrs. Neely sends regards.

Yours truly,

M. A. Neely.

Mr. Sheldon Jackson, D. D.,  
General Agent of Education for Alaska,  
Department of Interior,  
Bureau of Education,  
Washington, D. C.

My friend,

I should wish you these plans, as per your request, but I intended to copy them, and now having neglected for so long, I am too much hurried to get them ready for the mail. So I shall defer sending them till the next mail.

As regards our mission work, we have had ups and downs. We have taken in a few children, and other destitute ones are promised us as soon as we can get around to where they are living. The communications with distant settlements are so poor, as to be an incumbrance to our work. In answer to our prayers, one great obstacle to Christianity has been removed in the person of the priest, Mr. Mariposa, who left for St. Francisco recently, on route to Russia. He was holding meetings of his people long before he knew the way to come and take charge of our work. And we held indignation meetings since our arrival. He has been aided in his evil schemes by a newly appointed deputy marshal, who seemingly became the enemy of our work, before we were fairly acquainted with him.

One bright boy was, by written contract, to be witness, properly signed over to our school, till he should arrive at mature age, by his widowed mother. The priest and relatives, aided by the deputy marshal, obtained a guardianship of the child for the child's grandfather, regardless of our claims. And Judge Rogers was previously informed that we had claims. We were given no opportunity of presenting our case. The child's mother says the priest put her name to a paper, the contents of which she was ignorant, and sent it to Sitka. I had applied for a guardianship of the child, expecting that the Judge would first give both contestants a hearing.

It is strange that relatives, after first abandoning a child; sending him from Sitka to Kodiak, where for two or three years he has led a wretched life. Suffering hunger; cold; from want of clothing; the torments of lice and dirt and now kicked about generally, should be able to gain such an illegal and unjust decision. Contrary to the unanimous advice of white friends, I save the child up. Set under written promise

test, stating that I did not give up our claims. The rascality of the case is developing itself. I have now a protest against the unjust treatment of the boy, and the W A B H M S signed by the whitemen of this island, with one or two exceptions. I shall take it to Kodiak for signatures. I have also a protest from the mother signed in the presence of witnesses, demanding her son's return to our mission.

She says they wrote her that they only wanted to get the boy away from our mission, that she could have her boy back again. I am urging the Society to appeal to a higher court. I would have told the child, if I had been sure the Society would pay up fine. The Commissioner has ordered me to give him up. Our marshal lets the little children, orphans and all, go uncared for, ragged, dirty, and lazy, when we have an asylum open to the destitute.

It is reported that Mrs. Colwell will resign her school. I do hope that we can get Baptist teachers in both KARBUK and Afognak. They can be a help you know. I have no doubt, however, that Mr. Woodward, with whom you were corresponding, would work hard for our interest. Necessary as it is to keep up this mission, I have decided to leave it as soon as the Society will relieve me, and return to California. I do not want my children under these associations. I have no doubt the mission will be on a stable footing by next year. We are encouraged even now by the two elder children's declaration that they want to be Christians.

Well, I must close now,

Fraternally,

W. B. Reese.

Rev. Dr. Jackson,

Dear Sir:

As I have not addressed you since I left Sitka, I take this opportunity to hear from you. This leaves me well, and I hope it may find you the same, and making the most of it.

I am spending most of my time in the printing office. A few more years of earnest labor will probably be sufficient to give me a very good knowledge of the management of the whole thing. I have had many pleasant experiences since

here, and met many good friends. It seems impossible to find an opportunity to be homesick, yet this evening I have been wishing to spend Christmas at home.

Nothing new has happened to me since I left Oregon. I am in good condition, and good health. The school in good condition; the pupils have made good progress this year. During the World's Fair I spent one week in the city of Chicago, and did enjoy it very much. I went through many large buildings, such as Agricultural; Machinery Hall; Art and Ornament; Manufactures, and Liberal Arts Building; Electricity Building; Transportation; Horticulture; and the United States Government Building etc., etc., etc. Also I went through many cities. I thank God for giving me a chance to see the great World's Fair.

I was going back to Alaska last summer, but I change my plans, not go home sooner. It is very hard for me to leave my dear mother and friends, and to stay away so long, but I do know what it will be a great deal harder for them and myself if I return not well prepared. Mother calls me all the time. I am not going to return, not till I am ready for the actual life that is before me. This is a very hard thing to write but I think if I get down on my knees and ask the guidance of Him who knows the affairs of us, He alone can help me.

Rev. Dr. Jackson, I shall send it to you. I am in need of little money this Christmas, I wish you will help me. Sending your early reply, I am your old Sitka boy,

Thomas H. Jackson.

Please let me hear from you before Saturday.

Dear Sir:

The Society held a regular meeting at Mr. Brady's on the eleventh instant. We tried to have a meeting in November, but Mr. Austin's sickness, and a very bad storm, caused its postponement once, and the arrival of the steamer another time. When we did meet it was quite a success. There were thirteen present, and answers to the enclosed list of questions were read from Mr. Jones and Dr. Bluet, and an article in the same line from the Metlakathlan, by Mr. Dawson. The miscellaneous part of the program was extended by Mrs. Brady serving tea and all singing college songs. And we adjourned about eleven o'clock, to meet next at Mr. Austin, which meeting will probably be a farewell to Mr. Peckinpaugh.

The Society directed that your suggestions be attended to, which direction I have complied with, and will call on Mr. Peckinpaugh for his signature. I believe I have not written you of our October meeting at Mr. Peckinpaugh's. It was interesting. Letters from Mr. Thornton and his co-worker in the Mission Monthly were read. You see, we are making a circuit of the meeting places, and it seems to improve the attendance.

Our school attendance has not increased as I had hoped for. So many leaving town, and the Russians changing from a native school to an orphanage. But they have not dropped out as much as I feared they might.

When I wrote Mr. Hamilton last, I did not know that we were to have the winter vacation, in fact I only learned yesterday that such was the case. Gertrude and I did not believe that the attendance would be sufficient to warrant the employment of two teachers, and as Mrs. Brady had just learned while away, from an intimate friend of Mrs. Vanderbilt, that she was soon to marry Mr. de Groff, I immediately wrote concerning the vacancy. It has not been announced in Sitka yet, and as Mr. de Groff is one of the parties, and Mr. Peckinpaugh a member of the household, I did not want to appear paying by asking either.

We are now very busy getting ready for Christmas. The tree is to be in the court-room, and the school children will sing and speak a few pieces. We will teach next

week, and begin the vacation with the New Year.

Wishing you and your family a Merry Christmas,
I am

Yours respectfully,
Cassia Patton.

Rev. Sheldon Jackson,

My dear Brother,

Rev. J. Lewis Gould, Jackson, Alaska, the Superintendent of our school there, is very earnest in his appeals for the establishment of Industrial Schools among the Indians at his station. He says, by selling at once, he can secure some salmon streams, which can be fished by the natives to profit. He proposes also, to build a Beer and Saus Factory, together with other industries connected with the school. \$5000, he claims, will give him a plant, and secure the above mentioned streams. What is to be done, must be done quickly, or others will secure these rights. He urges upon us the propriety of raising the above amount of money for these purposes.

I write now to make inquiry of you whether, in your judgment, such an effort would be justifiable? Is it an impossibility for our Committee to undertake to supply the funds at this time. If you think the proposition of Mr. Gould at all practicable, would it be possible for you to undertake the raising of that amount of money among the friends of the Alaskans out side of our church? After having carefully considered the proposition, it does not seem to us to be practicable, hence we refer to your judgment in the whole matter.

Yours fraternally,
George F. Haffes,

Rev. Sheldon Jackson, D. D.

Washington, D. C.

My dear Friend,

Advices from Alaska state that Edward Marsten's brother-in-law was very ill, in a dying condition, on the 10, instant. If he should be taken away the support of the family would fall upon Edward, to a great extent, and this of course, would necessitate his leaving school, which I am very anxious not to have him do.

Edward himself, is in great distress of mind regarding the financial condition of his mother, and thinks if he were under the auspices of the Congregational Board he would get a certain sum. One hundred dollars, I believe, which in addition to what he receives from Miss Watson would enable him to send his earnings during vacation, and at other leisure moments, to his mother for her support.

He is making no complaint, in fact has asked me to say nothing about the matter, but cannot we do something for his relatives? I do not think it would require a great amount each month to aid them so that they could be comfortable. I feel certain almost, that if I were permitted, I could secure the necessary amount, but as I am under the auspices of the Town's Ex Committee, I can do nothing without the authority of the Board. I do not wish Edward to go under the care of the Congregational Board, for Matilda will be

Presbyterian when Mr. Duncan abdicates, if Edward continues to be Presbyterian. I write for your advice, and wish you would write me an immediate reply.

write me an immediate reply. I shall be in New York on Friday the 18, inst. and hope to leave thereat eight o'clock that evening for home. If you think a letter would have time to reach me there, please address me in care of the Board, otherwise, write here, as I shall be here till January 2nd. I leave on that date for Northern Sun, Iowa.

Aug. 20, 1898. I have read with much interest your article in the January number of "Church of Home and Abroad." I would be very glad if you could tell me how and where to get your publications on Alaska. I met Mr. Stevenson of Point Barrow, in New York recently, I thought him a very understanding and sincere gentleman.

Kindly remember me to Mrs. Jackson and your daughters. I had the pleasure of seeing Mrs. Jackson at her sister's, last October.

Very sincerely your friend,  
(Miss. John H.) Mary C. Devere.

Dear Dr. Jackson,

We are very glad that you will accept the request in regard to writing a new leaflet for us on our work in Alaska. This will give us one distinctly telling about the work of the Presbyterian Board, and the Women's Executive Committee. I enclose a correct list of our teachers and Stations in Alaska. If you wish any other information, please let us know and I will see that you have it. This will, you see, also revise the old Historical leaflet, which I sent for adding facts about Alaska, which were not known at the time that was published.

When this is accomplished we shall have two good leaflets giving all necessary, important and interesting information in regard to Alaska.

Thanking you for your attention to our request,

My dear Dr. Jackson,

I am more than grateful for the Alaska lecture. It will be my fault if our societies do not know that I want to give this lecture where ever I can.

I shall dive into all the material, and try to get ready for it in two weeks.

Mrs. Breed is still in bed. Grippe was hard on her. Hope you are all well.

Yours very truly,

J. Howard Arosi.

Mr. Sheldon Jackson,

Washington, D. C.

Dear Sir:

I have a letter, forwarded from California, which you wrote to Albert E. Bailey, November 20, in regard to Marsden. The sum asked for is approved, and I am at liberty to send it at once. But being away from Mohawk, and not having the previous correspondence with me, am not sure of the amount. The watchman left in charge, was not able to find the correspondence left behind, and I write you, thinking to get information sooner than by waiting until I am able to go to work.

Kindly address me at # 2 Hanson Avenue, Poughkeepsie, New York.

Very truly yours,

D. Bailey.

Dear Dr. Jackson,

You told me that I might send these bundles to be forwarded to Alaska. I think I may have another before the ships go up. Please send the box to some school up where they will like ribbons, old Christmas cards, etc.

Cordially yours,

Anna L. Dawes.

Rev. Sheldon Jackson,

Dear Sir and Friend,

You will be surprised to hear from us after so silence, and especially to know that we went to teach the Indian people again. We visited Chicago, and saw the Indian exhibits. Will saw a picture of "Stallie Lawrence," a Carlisle student. - I well remember giving him the name, "Stallie." God bless him! He was a fine boy. I am pleased to have had the privilege of sharing in a humble way in the labor of love.

We received your pamphlet on Education in Alaska. When Will came from the Post Office, he says, "I have come with here from Dr. Jackson." "How do you travel?" says I. "This is hand writing of least."

Well, we wonder you are surprised again for any work you may think us fitted for. We have not spent much time as dealt rather gently with us. I am 30 years old; Mr. Perkins is 31, and Will is 24. He has gone to the Smithsonian. He was one of the Columbian Guards at Chicago.

We think we had no shot at all at the Nevada Agency. But we have always felt sure that our work there will in time, speak for itself. We are in good health, and wish to know now it is with you and your family.

We visited my sister at Auburn, and Mrs. Thayer Martin at Wilkesboro. I find that advanced years does not lessen her zeal for the Indian people of our country.

All through the great Fair I was ever thinking of the worthy people who possessed the land when Columbus discovered our home. Gods children! His creation, as much as we. Had it been done for the Indian and Hawaiian people what had been done for us, they had long ago repented of their sins.

May the New Year have much to spare for you. 93 has been a very precious year for us. We are to many of our dear friends, and the great privilege was given to attend body's meetings, and the meetings in "Willard's Hall." We heard Mr. Steel, the Editor of the Review of Reviews. - He is apt, but we like our own speakers best.

At your convenience, we will have to hear from you. Mr. Perkins joins me in regards.

Sincerely, Mrs. J. D. Perkins.
